Message From The President:

Commitment to Access

Chapman University College is a pioneer in offering quality academic programs within flexible course schedules designed to meet the needs of working adults. For nearly half a century, we have been committed to providing a challenging and exciting intellectual environment in which adult learners can reach their full potential and achieve their educational goals.

At Chapman, we aim high. Our University College offers fully accredited programs that meet - and exceed - rigorous accreditation standards. Our faculty have earned terminal academic degrees and hold, or have recently held, professional positions in their field. They are teachers who are able to blend professional practice with cutting-edge theory, and they are teachers who love to teach.

The University College is one of the eight schools and colleges that comprise Chapman University. Established in 1861, Chapman enjoys a long history and is highly regarded for value-centered education that leads to inquiring, ethical and productive lives. We have six nationally accredited programs, including an ABA-approved School of Law; and the overall excellence of our university is recognized by U.S. News & World Report, which ranks us in the top tier of western master's universities.

In the pages that follow, I invite you to become acquainted with Chapman in such a way that you will come to know the values and visions that drive us. I encourage you to visit one of our 27 University College campuses throughout California and Washington State and experience the sense of community of which we are so proud. Only then will you understand how we can help you expand your intellectual and professional horizons and prepare you to participate more fully in an increasingly complex world.

James L. Doti
President

Conditions of Accuracy

The information within is accurate at the time of publication. Students are responsible for informing themselves of and satisfactorily meeting all requirements pertinent to their relationship with the University. Chapman reserves the right to make changes as circumstances demand with reference to admission, registration, tuition and fees, attendance, curriculum requirements, student conduct, academic standing, candidacy, and graduation.

Chapman University admits qualified students of any race, color, national or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the institution. Chapman does not discriminate on the basis of sex, race, color, national or ethnic origin, or disability in the administration of its educational policies, admissions policies, scholarship and loan programs, athletic and other school-administered programs, and employment. The University recognizes that students with documented disabilities, such as mobility, sensory, health, psychological and learning disorders may need additional resources to enable successful completion of academic coursework. Chapman will make efforts to provide reasonable accommodations to the extent that they do not compromise the integrity of any degree or certificate, do not fundamentally alter the nature of a program, or are unduly burdensome to the institution.
Academic Calendar
2005-2006

University College students attend concentrated nine week terms in which classes meet once a week, typically on weeknights. Terms are offered on a year-round, five-term schedule.

Term D – 2005 - August 22, 2005 to October 23, 2005
Registration ............................................. July 25 – August 21
Tuition and other charges due .......................... August 22
Deadline to file Intent to Graduate for Term D .............. August 22
Last day to add classes .................................. August 28
Last day to withdraw without record of enrollment .... September 4
Labor Day (Administrative Office closed) ..................... September 5
Last day to withdraw from classes without receiving an “FW” .... October 9
All Grades due ........................................... October 28
Graduate Comprehensive Examinations ....................... August 28

Term E – 2005 - October 31, 2005 to January 15, 2006
Registration ............................................. October 3 – October 30
Tuition and other charges due .......................... October 31
Deadline to file Intent to Graduate for Term E .............. October 31
Last day to add classes .................................. November 6
Last day to withdraw without record of enrollment .... November 13
Thanksgiving (Administrative Offices closed) ............... November 24 – November 25
Last day to withdraw from classes without receiving an “FW” .... December 18
Holiday Break (No classes) ............................. December 19 – Jan 1
All Grades due ........................................... January 20, 2006
Graduate Comprehensive Examination Deadline to Apply December 16, 2005
Graduate Comprehensive Examinations ....................... January 21, 2006

Registration ............................................. January 2 – January 22
Tuition and other charges due .......................... January 23
Deadline to file Intent to Graduate for Term A .............. January 23
Deadline to file Intent to Graduate for Term B & Term C .... March 1**
CALENDAR

Last day to add classes ............................................. January 29
Last day to withdraw without record of enrollment ........ February 5
Last day to withdraw from classes without receiving an “FW” .... March 12
All Grades due .................................................... March 31
Graduate Comprehensive Examination Deadline to Apply .... March 3
Graduate Comprehensive Examinations .......................... April 1

**Graduation Ceremony Participation – Students graduating at the end of Term B who wish to participate in this year’s CUC commencement ceremony must submit their Intent to Graduate form to the Registrar’s Office by March 1, 2006. Student’s who wish to participate in this year’s commencement ceremony but will complete degree requirements in Term C must complete their Intent to Graduate form and Request to Participate in Commencement Short Requirements form to the Registrar’s Office by March 1, 2006. See Commencement Policy on page 39 and 86.

Term B – 2006 - April 3, 2006 to June 4, 2006
Registration ............................................................ March 6 – April 2
Tuition and other charges due ........................................ April 3
Last day to add classes .............................................. April 9
Good Friday (Administrative Offices closed) .................. April 14
Last day to withdraw without record of enrollment .......... April 16
Last day to withdraw from classes without receiving an “FW” .. May 21
Memorial Day (Administrative Offices closed) .............. May 29
All Grades due ..................................................... June 9
Graduate Comprehensive Examination Deadline to Apply .... May 5
Graduate Comprehensive Examinations .......................... June 10

Term C – 2006 - June 12, 2006 to August 13, 2006
Registration ............................................................ May 15 – June 11
Tuition and other charges due ...................................... June 12
Last day to add classes .............................................. June 18
Last day to withdraw without record of enrollment .......... June 25
Independence Day (Administrative Offices closed) .......... July 4
Last day to withdraw from classes without receiving an “FW” .. July 30
All Grades due ..................................................... August 18
Graduate Comprehensive Examination Deadline to Apply .... July 21
Graduate Comprehensive Examinations .......................... August 19

Nonprofit Management Certificate
Business and Organizational Coaching
General Information

Institution Profile
Chapman University is a 143-year-old independent institution of liberal arts and professional training dedicated to providing a solid foundation of knowledge that enables its graduates to become fully educated persons. Chapman is recognized for its liberal arts core, distinguished faculty, innovative programs and personalized attention to students. The University strives to develop in students the ability to think clearly, communicate effectively, explore issues from contrasting points of view, value human and cultural diversity and make informed ethical judgments in an increasingly complex world.

The University is comprised of the Wilkinson College of Letters and Sciences, the Argyros School of Business and Economics, the School of Communication Arts, the School of Education, the College of Film and Television, the School of Music, the School of Law, and University College.

University College
For more than 40 years, Chapman University College campuses have served thousands of adult learners who are interested in integrating higher education into their already busy lives. The central goal of University College is to help students develop their talents and to encourage them to extend their learning beyond the boundaries of the classroom as they pursue a lifetime of learning.

The first adult program began at El Toro Marine Air Station in 1958 and soon other branches of the military requested degree programs for all military personnel. The majority of campuses are now community based, but the University does maintain a presence on many military bases. A wide range of graduate and undergraduate degree programs is offered at locations throughout California and Washington. Degree programs extend the educational objectives and historic purpose of Chapman University by recognizing and enhancing academic opportunities for non-traditional adult students. The University’s reputation for excellence is consistent in every community it serves.

University College of Chapman University was established to provide traditional quality education for adult learners. The administration of University College (CUC) is under the direction of the Provost of Chapman University, the Dean of University College, an Associate Dean in the CUC central office, three regional Associate Deans and individual campus directors. This decentralized structure is designed to best meet the needs of the local communities served by University College.

University College offers accelerated schedules with new terms that start every 10 weeks on a year-round basis. Classes are offered in the evenings or late afternoons. Qualified full-time, core and adjunct faculty serve student needs in a variety of undergraduate, graduate and credential programs. Each center maintains a full-time professional staff that provides the personal attention to each student that is the hallmark of Chapman’s University College program.
Legacy and Vision
Most of the students served by University College are adult learners who are either returning to higher education after a number of years away from it or are beginning college study for the first time after some years since completing high school. Working professionals or persons seeking a more professional career who are returning to college for an undergraduate or graduate degree represent a growing segment of America's college student population and reflect the preponderance of University College students as well. Most of these students need to balance a number of responsibilities, including career demands, family obligations and the complexities of busy, active lives.

University College students tend to be people of strong motivation who have learned that to be successful in one's career and fulfilled in life, a person must continue to grow. University College students also realize the value a quality education plays in continued growth and success and are looking for an education that will help them achieve personal career and life goals. Chapman's University College serves the unique needs of working adult students by providing a traditional, quality education in non-traditional, innovative ways.

University College serves the higher educational needs of working adults and other students who require alternatives to traditional campus-based programs by creating and delivering innovative academic programming that meets the needs of this growing population. University College strives to develop within adult learners the ability to think clearly, communicate effectively, appreciate divergent points of view, value human and cultural diversity, and make informed ethical judgments in an increasingly complex, interdependent world.

Research shows that today's working adult will change careers three times. Typically, two of these career changes will require the additional knowledge and competencies that are embedded in a undergraduate or graduate degree. The educational opportunities offered by University College help working professionals to prepare for these transitions as well as to lead more productive, enriching lives. In recognition of the population it serves, University College has affiliated with the Council on Adult and Experiential Learning (CAEL), a national organization with which most of the prestigious higher education institutions serving adult students are affiliated, and is applying CAEL standards to all CUC programs, processes and services.

University Vision Statement
Chapman University will be a preeminent University engaged in distinguished liberal arts and professional programs that are interconnected, reach beyond the boundaries of the classroom and work toward developing the whole person: the intellectual, physical, social and spiritual dimension of life.

Chapman University provides educational leadership as a preeminent University committed to excellence, innovation and accountability in all endeavors. Our dynamic, stimulating community is committed to value-centered personalized learning, with a curriculum distinguished by liberal arts and professional programs that reach beyond the boundaries of the classroom.
University Mission
The mission of Chapman University is to provide personalized education of distinction that leads to inquiring, ethical, and productive lives as global citizens.

Founded in 1861, Chapman is recognized for its liberal arts core, distinguished faculty, innovative programs and personalized attention to students. The University strives to develop in students the ability to think clearly, communicate effectively, explore issues from contrasting points of view, value human and culture diversity and make informed ethical judgments in an increasingly complex world.

University College Mission
The goal of University College is to extend the mission and resources of Chapman University to undergraduate and graduate students whose lives include professional and personal commitments that significantly affect the times they can attend classes and the pace at which they may achieve their educational goals. Consistent with Chapman’s dedication to excellence, University College makes distinguished teaching available to part-time and full-time students by offering University coursework and a variety of degrees and professional training.

The faculty of University College:
• Believe in continuous renewal and innovation
• Believe in creating a participative and collaborative culture
• Believe in ongoing academic and professional development
• Value diversity and nurture respect for the contributions of all cultures
• Stand for quality
• Stand for success

Enrollment
Approximately 12,000 students are enrolled in 14 academic campuses throughout California and Washington.

Faculty
With 49 full-time faculty, 26 core faculty, and part-time instructors and guest lecturers currently employed as professionals in the discipline, University College averages class sizes of 12-14. More than 80 percent of the faculty members hold terminal degrees.

Accreditation
Chapman University is accredited by the Western Association of Schools and Colleges, Accrediting Commission for Senior Colleges and Universities, 985 Atlantic Avenue, Suite 100, Alameda California, 94501; (510) 748-9001. The University’s teacher training and credential programs are approved by the California State Department of Education.
16  GENERAL INFORMATION

Membership
Chapman is a member of the Western Association of Schools and Colleges. It is also a member of the Independent Colleges of Southern California, the College Entrance Examination Board, the Western College Association, the Association of Independent California Colleges and Universities, the American Council on Education, the American Association of Colleges for Teacher Education, and the Division of Higher Education of the Christian Church (Disciples of Christ). University College is affiliated with the Council for Adult and Experiential Learning (CAEL) and a member of the National Association of Institutions for Military Education Services (NAIMES).

History
Chapman traces its roots to Hesperian College, opened at the very hour of Abraham Lincoln’s inauguration as the sixteenth U. S. president. Hesperian and several other institutions later merged with California Christian College in Los Angeles. In 1934 the institution was renamed in recognition of its most generous benefactor, C. C. Chapman, a successful real estate investor, rancher, and pioneer Orange County church leader. The college moved to the city of Orange in 1954. In September of 1991 the college became Chapman University, further strengthening its commitment to international education and an innovative undergraduate curriculum and graduate programs.

Church Relationship
Chapman’s roots are firmly grounded in its historic covenant with the Christian Church (Disciples of Christ). That rich spiritual legacy lives on through Chapman’s focus on the development of the ethical, spiritual, and intellectual person. A variety of religion courses and activities are offered, but not required. The dean of the chapel oversees an active interfaith program designed to meet the spiritual needs expressed in the religious backgrounds of the University’s students, faculty, and staff. A full-time director of church relations strengthens the University’s covenant with the Christian Church (Disciples of Christ) as well as provides programs for the broader ecumenical community.

Non-discrimination Policy
Chapman University does not discriminate on the basis of race, gender, sexual orientation, color, age, disability, national origin, or ethnicity in any of its policies or practices, including, but not limited to admissions, academic requirements, financial aid or any other school-administered program or service.

Freedom of Speech and Expression
Freedom of speech, protected by the United States Constitution, is an especially important value within an academic community. Thus, all topics are appropriate for discussion and debate within the framework of academic inquiry. Students and student organizations are free to examine and discuss all questions of interest to them, and to express opinions publicly and privately. They are always free to support causes by orderly means which do not disrupt the regular and essential operation of the institution. At the same time, it is clear to the academic and the
larger community that in their public expressions or demonstrations, students or student organizations speak only for themselves.

Harassment
Chapman University is committed to providing an environment which is free from harassment, and every member of the University community must recognize that harassment of any type compromises the integrity of the University and the tradition of free and open inquiry among its members. Chapman also affirms its commitment to providing an environment in which each member of the University community feels free to comment on any issue or topic. It is the University's policy, therefore, to insist that all members of the University community are treated at all times with dignity and respect.

The University has a strict policy which prohibits harassment in any form. This includes, but is not limited to, harassment because of age, disability, race, religion, color, creed, ancestry, national origin, marital status, sex, or sexual orientation. The University will not tolerate any conduct which has either the purpose or the effect of interfering with the work or scholastic performance of any member of the University community or creating an intimidating or hostile living, learning, or working environment. The University will also not tolerate any conduct which has the purpose or effect of singling out any specific group within the University community in a manner which leads to harassment or which creates an offensive working or learning environment for that group.

It is a violation of University policy for anyone to engage in any form of harassment or to retaliate against a person who has initiated an inquiry or complaint. The right of confidentiality for any party involved in an alleged harassment incident, including the complainant and the accused, will be respected in so far as it does not interfere with the University's obligation to investigate allegations of misconduct and to take corrective action where appropriate. In keeping with its policies, Chapman University not only fully complies with all local, state, and federal laws concerning harassment, but also provides a means to assure fair treatment to any student or employee who believes the policy prohibiting harassment has been violated. It is the policy of the University that all charges of harassment be reviewed in a confidential, sensitive, and expeditious manner. For further information, please contact the Equal Opportunity Officer at (714) 997-6847.

Local, State, and Federal Laws
Students attending Chapman are subject to local, state, and federal laws. Chapman reserves the right to impose institutional sanctions for violations of public laws, even when such violations occur off University property. Students may also be subject to civil and/or criminal charges for offenses on Chapman property, if such offenses are in violation of local, state, or federal laws.

Financial Responsibility
It is expected that students shall be responsible for their financial obligations, both to the University and to the larger community. Students who do not meet their financial obligations may be prevented from further enrollment at Chapman and may be subject to conduct review.
Confidentiality of Student Records

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student’s education records within 45 days of the day Chapman University receives a request for access. Students should submit to the Registrar’s Office written requests that identify the record(s) they wish to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Registrar’s Office, the student shall be advised of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate. Students may ask Chapman University to amend a record that they believe is inaccurate. They should write the Registrar, clearly identify the part of the record they want changed, and specify why it is inaccurate. If Chapman University decides not to amend the record as requested by the student, the student shall be notified of the decision and advised as to his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by Chapman University in an administrative, supervisory, academic or research, or support staff position (including law enforcement personnel and health staff); a person or company with whom Chapman University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate education interest if the official needs to review an education record in order to fulfill his or her professional responsibility. As allowed within FERPA guidelines, Chapman University may disclose education records without consent to officials of another school, upon request, in which a student seeks or intends to enroll.

4. The right to file a complaint with the U. S. Department of Education concerning alleged failures by Chapman University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is Family Policy Compliance Office, U. S. Department of Education, 400 Maryland Avenue, SW., Washington, DC, 20202-4605. At its discretion Chapman University may provide Directory Information in accordance with the provisions of the Family Education Rights and Privacy Act. Directory Information is defined as that information which would not generally be considered harmful or an invasion of privacy if disclosed. Designated Directory Information at Chapman University includes the following:
student name, permanent address, local address, temporary address, electronic
mail address, telephone number, dates of attendance, degrees and awards
received, major field of study, participation in officially recognized activities and
sports, weight and height of members of athletic teams, theses titles/topics,
photograph, full-time/part-time status, most recent previous school attended, date
and place of birth. Students may withhold Directory Information by notifying the
Registrar in writing; please note that such withholding requests are binding for all
information to all parties other than for those exceptions allowed under the Act.
Students should consider all aspects of a Directory Hold prior to filing such a
request. Although the initial request must be filed during the first two weeks of the
enrollment period, requests for non-disclosure will be honored by the University for
no more than one academic year. Re-authorization to withhold Directory
Information must be filed annually in the Registrar’s Office within the first two
weeks of the fall semester.

**Distance Learning Courses**
To provide increased access to high quality education, Chapman offers an online
option for a selection of courses in existing programs. Students should consult
their academic advisor for guidance and restrictions.

**Extended Education**
The mission of University College’s Extended Education program is to provide
high-quality personalized education for those seeking education and training
beyond a degree program. The program provides opportunities for upgrading
professional skills which help meet the changing needs of the professional,
educational, and technical world. The Extended Education program features a
constantly changing mixture of specially designed courses for credit, unique non-
credit classes, and special symposiums, workshops, lectures and online
interaction. These opportunities are available on the Orange campus and at
many University College Campus locations. Course styles vary and can include
traditional classes, independent study, and online courses.

Course offerings focus on four major areas: Professional Development for
Teachers, Business/Corporate Development/Leadership, Information Technology,
and Arts and Sciences. For more information see the Extended Education section.

**Library Resources and Services**
The library’s web page - [www.chapman.edu/library](http://www.chapman.edu/library) - is the starting point for
accessing the book holdings, periodical indexes (including full text) and an
extensive listing of on-line reference sources. The Thurmond Clarke Memorial
Library contains approximately 150,000 print/electronic volumes, more than
10,000 print/electronic periodical titles as well as videos, CDs and other media
software. Additionally, an efficient interlibrary loan program, document delivery
to your home, and a partial reimbursement for local library cards supplement the
library services for the research needs of students and faculty alike. Library
instruction is available throughout the academic year, ensuring that students are
connected to the information resources they need to succeed in their courses.
Bookstore
Chapman University College has an agreement with MBS Direct to provide textbooks for our students through www.direct.mbsbooks.com. Contact your local campus at 1-866-CHAPMAN for questions on textbook ordering for your campus.

Services for Students with Disabilities Program
Chapman University is committed to making its educational opportunities accessible to qualified individuals with disabilities in accordance with applicable state and federal laws. By providing full access to qualified students with disabilities, the University demonstrates its belief that the community will benefit from the skills and talents of these individuals. In this regard, Chapman University has implemented the following policies:

- Chapman University strictly prohibits any form of discrimination on the basis of an individual's disability.
- Chapman University offers reasonable accommodations to otherwise qualified individuals.

The Director of the Center for Academic Success administers these policies. Information concerning these policies is maintained in the Center for Academic Success. Summaries and references to these policies are provided in the University's application and admissions materials. Individuals can also obtain information about these policies, services, documentation requirements, etc. from the Director of the Center for Academic Success at (714) 997-6828.

The Center for Academic Success serves as the clearing house for all requested accommodations. It is the responsibility of the student requesting accommodations to make these needs known in a timely fashion and to provide recent documentation and medical evaluations as required. It is recommended that the student provide these materials prior to the beginning of the academic year or semester so that the University may better serve the student's needs and the student may avoid any irreversible academic consequences. Once notification has been made, University College, in collaboration with the Center for Academic Success and the local campus will engage in an interactive process in order to identify and provide reasonable accommodations. Services provided will be based on the individual needs of the student, and may include extended test time, notetakers, readers, etc.

Veterans and Service Personnel

1. Chapman maintains a written record of previous education and training.
   a) Transcripts of college-level education are part of the record.
   b) The records clearly indicate that appropriate credit has been granted with training periods proportionately shortened and the VA so notified.

2. Chapman maintains adequate records to show the progress of each veteran.
a) Records show continued pursuit at the rate for which enrolled and progress being made.
b) Records include final grades in each subject for each term.
c) Cumulative permanent records are maintained to reflect grades in all subjects undertaken.
d) Students are not permitted to enroll repeatedly in courses not attended and withdraw without penalty. A veteran student may repeat a course in which a passing grade has been achieved only when a higher grade is required by the major.
e) The school records reflect the point in time when educational benefits should be discontinued for unsatisfactory progress, unsatisfactory conduct, and withdrawals.
f) The policy includes the grade point average (2.0 on a 4.0 scale) required for graduation.
g) A minimum grade point average (2.0 on a 4.0 scale) must be maintained to achieve credit for a given proportion of the course load. Academic probation and means for dismissal are clearly delineated. VA interpretation of academic probation requires that a veteran student be placed on probation at the beginning of the term immediately following that in which the veteran student fails to maintain the minimum grade point average. A veteran student must meet the required academic standard during the probationary term or be subject to interruption of benefits and/or academic dismissal. The VA is notified when a student is determined to be making unsatisfactory progress resulting in interruption of benefits and/or academic dismissal.
h) No veteran student will be considered to have made satisfactory progress when the student fails, receives no credit, or withdraws from all subjects undertaken when enrolled in two or more subjects, except when there are extenuating circumstances.

3. Chapman enforces a policy relative to standards of conduct and progress.
   a) Records show withdrawal from any subject to include the last date of attendance.
   b) Records show re-enrollment in subjects from which there was a withdrawal or course in which no credit was given.
   c) Chapman maintains adequate attendance records for veterans enrolled in resident courses not leading to a standard college degree.

Servicemembers Opportunity Colleges (SOC) is a consortium of colleges and universities in cooperation with the Department of Defense (DoD), the Military Services including the National Guard, and the Coast Guard to help meet the voluntary higher education needs of active servicemembers and their family. A Servicemember and their adult family members in the Army, Navy, and Marine Corps benefit by participating in a SOCAD, SOCNV, SOCMAR, or SOCCOAST programs by obtaining a SOC student agreement contract. A SOC
student agreement contract provides a student the flexibility to complete degree requirements by transferring courses from SOC network colleges back to Chapman University once they have met the residency requirements.

A SOC agreement with Chapman University College is issued to a student who is officially admitted to a degree program and has completed a minimum of 6 semester hours at Chapman. A student with a SOC Student Agreement Contract has a 7-year time limit from when he/she is officially admitted to complete a degree in SOC 2-year and SOC 4-year programs. A degree will not be issued to a CUC SOC student who returns for an academic program no longer conferred by the University (i.e. Bachelor of Science in Electronics). An active servicemember may contact their CUC campus on how to obtain a SOC Student Agreement.
Financial Aid and Expenses

The Financial Aid Office, located on the Orange campus, is responsible for awarding financial aid to all Chapman University students. Information and application materials are available from Financial Aid Specialists at each University College campus. The Specialists have been expressly trained and work closely with the Financial Aid Office to assure that all Chapman students are well served. All students who need financial assistance are encouraged to apply.

Application Procedure
To submit an application, students need only complete the FAFSA (Free Application for Federal Student Aid) and mail it to the federal processor. Californians who are undergraduates must also complete the Cal Grant GPA Verification Form by March 2, 2005.

When completing the FAFSA, please indicate “Chapman University, Orange, California” in step six of the form. The title IV school code for Chapman is 001164.

The preferential filing date for mailing financial aid applications is March 2 of each year preceding the academic year. For the 2005-2006 academic year, the preferential filing date is March 2, 2005, for the 2006-2007 academic year, the date is March 2, 2006. Every effort will be made to assist those who apply after the preferential filing date; however, disbursement of assistance may be delayed, and funds may be exhausted in some grant programs.

The federal government may require additional documentation from financial aid applicants, such as copies of tax returns. The government and the Financial Aid Office will notify students who need to provide additional documents.

Students must be admitted to the University without restrictions in order to receive financial aid.

Federal Student Aid

State of California Student Aid
The State of California provides Cal Grants to financially and academically eligible undergraduates.
FINANCIAL AID AND EXPENSES

Tuition and Fees
Tuition rates vary by academic campus. Please consult local campus for specific information.

Fees
Application ..................................................... $40
Re-application ............................................... $40
Auditing (per credit) ............................................. $60
Comprehensive exam fee ......................................... $55
Graduation fee .................................................... $40
Lab and material fees ............................................. $25
Late registration fee ............................................. $50
Return check fee ................................................ $25
Transcript ......................................................... $5 - $10
Transcript (special handling) ............................... $15 - $35

Add/Drop or Withdrawal - Tuition Credit Policy
• To add or drop a class, students must complete an Add/Drop form and submit to their local campus.
• Dropping below full-time or part-time status will affect any financial aid that has been awarded. Please refer to the Financial Aid Office.
• A petition to withdraw from the University or drop classes after the tuition credit deadlines does not affect students' financial obligation to the University.
• Please note that the dates to withdraw or drop classes for tuition credit differ from those to withdraw or drop classes for academic credit.
• Any tuition credits received will be applied to the current balance, if applicable.

Note: Failure to attend class or merely giving notice to an instructor will not be regarded as official notice of add/drop or withdrawal.

Interest Charge
Interest is calculated at 10.75 percent per annum based on the student account balance at each month end and is calculated on the average daily balance. Interest rate is subject to change each June 1.

Tuition Credit Granted
Prior to the first day of classes 100%
Within the first week of classes 90%
Within the second week of classes 80%
After the second week of classes none

There are no exceptions to this policy.
Undergraduate Admission

Students may enroll either as a "degree seeking student" in a particular academic program (including undecided) or as a "non-degree seeking student." Prospective students should consult the staff of the Chapman campus they wish to attend for specific information regarding enrollment forms and formal application procedures.

Degree Seeking Student Applicants

Students wishing to obtain a degree or certificate are required to make formal application and may apply for admission into a degree seeking program at any time. It is important to note that "degree seeking students" must meet the degree requirements published in the catalog current at the time of their formal admission acceptance. Admission status is valid for one year from date of admission.

Students must have completed 12 or more transferable semester credits or the equivalent for admission to University College. In addition to transfer coursework credits can be awarded for any combination of dual credit, Advanced Placement, international baccalaureate work, approved PLA (Prior Learning Assessment) and CLEP (College Level Examination Program) scores.

Prospective students must submit the following to the selected campus for formal admission:

1. Completed application package with $40 application fee. Applications are available online.

2. Official transcripts from ALL colleges and universities attended. (Transcripts should be sent directly from the college or university to the campus you plan to attend. Only credits from regionally accredited institutions will be accepted in transfer.)

A minimum 2.0 cumulative GPA in all prior college-level coursework is required for formal admission into an undergraduate degree or certificate program. The grade point average that determines admission is based solely on work at other regionally accredited post-secondary institutions. Official documents submitted for admission consideration become property of the University and cannot be returned or copied for distribution.

Non-Degree Seeking Student Enrollees

Students wishing to take credit courses for personal enrichment, job improvement or reasons other than to complete a degree program at Chapman may enroll as "non-degree seeking students." "Non-degree seeking students" are required to fill out a brief enrollment information form each term that they are enrolled and must meet all the prerequisites published in the catalog for enrollment in the individual courses. High school completion (diploma) or its equivalent is required for enrollment in any Chapman University College course.
There is no limit on the number of credits that may be taken by a "non-degree seeking student." However there is also no guarantee that such courses taken as a "non-degree seeking student" will be accepted toward meeting degree program requirements if the student formally applies for "degree seeking student" status at a later date. That student will then need to meet the degree requirements in the catalog current at the time of his or her formal admission acceptance into the degree program. Admission status is valid for one year from date of admission. If formally admitted to a degree program, an official evaluation will be completed to determine which program requirements have been met.

A "non-degree seeking student" is ineligible to receive most types of financial aid.

Undergraduate Academic Policies and Procedures

Catalog
The catalog assigned to newly admitted students is determined by the date of formal admission. Admission status is valid for one year from date of admission. Students must meet the degree requirements of the catalog under which they are admitted or may select a later catalog for a year in which they are enrolled. However, for all other policies (except degree requirements), students must adhere to the current catalog for each year they are enrolled. Statements in the catalog are for informational purposes and should not be considered as the basis of a contract between students and the University. Information regarding any changes in degree programs, graduation requirements, or academic policies will be made available by the Office of the Registrar and the appropriate academic departments.

Transfer Students
Chapman welcomes students who transfer from other regionally accredited colleges and universities. Students are generally given full credit for baccalaureate-level courses with the exception of work experience, co-op, internship, and preparatory courses which may be listed as baccalaureate-level by the external institution. No credit is given for professional, technical or vocational coursework.

Chapman University College accepts CSU, IGETC, Oregon Transfer or Washington AAS Transfer degrees in lieu of its general education requirements (with exception of the Writing Proficiency Exam and LBSU 300) if completed prior to matriculation.

Credit for Prior Learning by Portfolio Assessment (PLA)
In addition to the credit through CLEP and DANTES examinations and through military service described elsewhere, University College is discussing a program
designed to award undergraduate credits through an assessment of prior learning (PLA).

**Credit by Examination**
Chapman recognizes the need for educational flexibility and opportunity. The University acknowledges the validity of non-classroom acquired learning and accepts the use of national standardized and recognized testing instruments to measure that knowledge. Credit will be given only for courses that meet Chapman standards. This policy may be impacted or subsumed by PLA in the future.

**Advanced Placement Examination**
Credit is awarded for scores of 3, 4, or 5 on the Advanced Placement Examination. For a current list of approved exams, minimum scores, and credits granted, please refer to the Chapman website.

**College-Level Examination Program (CLEP) and DANTES Subject Standardized Tests (DSST)**
Chapman University College grants credit for a minimum score of 50 earned on selected CLEP and DSST General Examinations and Subject Examinations. Any exam submitted for credit must meet the minimum score requirements regardless of the student's catalog year and when the exam was taken. Programs may have specific restrictions, including a higher minimum score to allow credits to fulfill major requirements. See your advisor regarding program policies. A current listing of acceptable exams and the credit awarded may be found on the Chapman website under Registrar/University College Services/Transfer. Please review the Regulations Governing Credit by Examination section of the catalog.

**Regulations Governing Credit by Examination**
1. When credit through examination is awarded, a grade of pass “P” is recorded. It is not included when computing the grade point average.
2. After matriculation students may take each exam only once. If they do not receive a passing score, they will be required to complete the necessary coursework.
3. Students must be currently enrolled and matriculated at Chapman to take institutional challenge examinations.
4. Students are encouraged to consult with an academic advisor concerning the degree applicability of the test prior to registering for it.
5. Credit by examination will not be awarded when equivalent coursework has been attempted.
6. A maximum of 32 credits may be earned in passing courses by examination.
7. Credit by examination cannot be awarded for lower-division introductory courses after students have completed more advanced courses in the same area.
Limitation of Credit
The number of credits allowed toward any baccalaureate degree may be limited by the following:

1. A maximum of 32 credits may be earned in passing courses by examination.
2. A maximum of 45 credits from PLA or via examination.
3. A maximum of four credits in physical activity courses and 12 credits in applied dramatic art and music ensembles will be counted toward the baccalaureate degree.
4. A maximum of 12 credits of Chapman University internship may count toward the baccalaureate degree. Internship and Cooperative Education credits are not accepted in transfer.
5. Credit is not accepted in transfer from institutions which are not regionally accredited.
6. No more than 46 credits may be accepted for U.S. military coursework. The 46 credits include 6 credits for U.S. military service. No more than 6 of the 46 credits may be accepted at the upper-division level. All military credit accepted applies only as general elective credit. Credit will be determined by the registrar’s office upon admission and receipt of appropriate official documentation. Documentation varies by branch of the U.S. military but is generally satisfied by one of the following: DD-214 and DD-295, or official transcripts from AA-Arts, SMART or Community College of the Air Force. Policies regarding military credit are subject to periodic review by Chapman University College and may be limited by or in part subsumed under PLA in the future.

Full- and Half-Time Students
Students enrolled in six or more credits in an academic term are considered “full-time”. Students enrolled in 3-5.5 credits in an academic term are considered “half-time.”

Undergraduate Class Level
Chapman students are classified according to the number of academic credits they have completed. Students who have completed 29.9 credits or fewer are considered freshmen; 30 to 59.9 credits, sophomores; 60 to 89.9 credits, juniors; and 90 credits and above, seniors.

Course Load
Students must enroll in at least 6 credits per term to be considered full time, and may enroll in up to 12 credits with the approval of the academic advisor. Enrollment in more than 9 credits in a regular term requires at least a 3.0 “B” Chapman grade point average, completion of a minimum of 15 credits of graded coursework at Chapman, and the approval of the academic advisor. Students on probation may enroll in no more than 7 credits.
Course Numbering System
001-099 = Non-degree or CEU courses
100-299 = Lower-division coursework
300-499 = Upper-division coursework
500-799 = Graduate-level coursework
800-999 = Professional coursework
0001-0999 = Professional coursework
8000-8999 = Professional coursework
9000-9999 = Graduate Elective Credit*

*Can only be applied toward a degree at the University with program approval.

Change of Address
Students must notify the University of any change of address. This can be done via Web Advisor or through the local campus.

Inter-campus Transfer
Students wishing to transfer from one University College campus to another must submit a Campus Transfer Request form to the new campus. The new campus will request a copy of the student file. Students wishing to transfer from a University College campus to the Orange campus must contact the Admissions Office at the Orange campus.

Confidentiality of Student Records
(See Confidentiality of Student Records in General Information section.)

Attendance Policy
Class attendance policies are determined by each instructor and shall be included on the course outline distributed during the first week of each class. The University recommends as a minimal policy that students who are absent 20% of the course should be failed.

Registering for Classes
Students register for each term via Web Advisor or at their campus location. Registration is not complete until all charges are paid or arrangements for payment have been made with the Student Business Services staff by the add/drop deadline. Students who wish to register after the add deadline, must petition and pay a late registration fee if approved. See campus schedule for registration deadlines.

Add/Drop Procedure
To add a class, a student must do so through Web Advisor or submit an Add/Drop form to the campus administration office by the end of the first week of the term.

To drop a class a student must do so through Web Advisor or submit an Add/Drop form to the campus administration office by the end of the second
week of the term. Drops that are officially processed prior to or by the end of the second week will not appear on the student's transcripts. Students that wish to withdraw from a course must submit an Add/Drop form between the third and seventh week of the term. A grade of "W" will appear on the student's transcripts indicating the withdrawal. Students cannot drop a course beyond the seventh week of the term. It is the student's responsibility to officially withdraw from a course. Failure to attend a course does not constitute a withdrawal from a course. Students who stop attending courses without officially withdrawing will receive an "FW" (failure to withdraw). A grade of "FW" is equivalent to a failing ("F") grade and is calculated as such when determining grade point averages.

Administrative Drop
Students who do not attend a class during the first two weeks of classes will be administratively dropped, unless they make arrangements with the instructor prior to the first day of class. Students should not assume that nonattendance will automatically result in an administrative drop. To avoid financial obligation to the University it is the responsibility of the student to verify that he/she has been dropped from the course by completing an Add/Drop form.

Complete Withdrawal/Termination Procedures
Students who do not attend a class during the first two weeks of classes will be administratively dropped, unless they make arrangements with the instructor prior to the first day of class. Contact may be made in-person, by mail, email, fax, telephone or Web Advisor. A student who stops attending classes without notifying the University will receive a grade of FW" (failure to withdraw). A grade of “FW” is equivalent to a failing (“F”) grade and is calculated as such when determining grade point averages.

Students must officially withdraw before the end of the seventh week of classes in order to avoid being responsible for a grade in their classes. Although a student will be unable to receive a “W” grade, financial aid recipients who wish to withdraw after the seventh week should contact the Office of the Registrar in order to retain their financial aid for the term in which they are withdrawing.

Interrupted Enrollment
Students may find it necessary to interrupt progress during their course of study, leave Chapman and decide to return at a later date. Students who leave the University in good standing and return within two years retain the program requirements of their designated catalog year.

The University may require students to adopt the catalog year program requirements at the time of their return if a program has become impacted or changed by external regulatory agencies.

If students take coursework during their absence from the University, they must provide transcripts of that coursework to the Registrar's Office prior to their return. Non-satisfactory performance or issues of academic integrity may nullify the student's eligibility to return.
Re-admission
Students returning after a two year absence from the University are required to submit a full application for re-admission and must meet all current admission entrance requirements.

Grading System
All grades are on a 4.0 scale

- A  = 4.0  
- A- = 3.7  
- B+ = 3.3  
- B  = 3.0  
- B- = 2.7  
- C+ = 2.3  
- C  = 2.0  
- C- = 1.7  
- D+ = 1.3  
- D  = 1.0  
- D- = 0.7  
- F  = 0.0

I = Incomplete
P = Pass (not calculated in GPA)
NP = No Pass (not calculated in GPA)
AU = Audit (no credit awarded, not calculated in GPA)
CI = Course in Progress
W = Official Withdrawal (no penalty)
FW = Failure to Withdraw (calculated in GPA as an “F”)

A code of “R” indicates a repeated course (highest grade calculated in GPA).

Pass/No Pass
Certain courses in art, communications, education, english, mathematics and psychology are graded on a pass/no pass basis only.

Undergraduates may take up to 6 credits per academic year on a pass/no pass basis. Consult with your advisor regarding the choice of pass/no pass grading for courses in the major. Students taking a course for pass/no pass credit must submit a Change of Grading System form by the second week of the term. A grade of “C” (2.0) or higher must be earned to earn a “Pass” grade. Internship courses are offered only on a pass/no pass basis.

Courses Repeated for Higher Grades
Any undergraduate-level course numbered 100 - 499 at Chapman may be repeated to improve the grade. The lower grade remains on the record with a notation that the course has been repeated. Only the higher grade and credit are computed in the cumulative grade point average. Credit is given only once for a repeated course, except as noted in the course description. It is recommended that a course be repeated as soon as practical if it is to be taken for a higher grade. In exercising this option, an undergraduate student must repeat the course at Chapman University College. If the content of a course accepted in transfer is duplicated by coursework taken at Chapman, credit for the transferred course will be removed from the student record.
Incompletes
The grade of Incomplete may be assigned by an instructor if a student, through circumstances beyond his or her control, has not completed a small portion of a course by the conclusion of the term. The student must request in writing the grade of Incomplete and must propose a date acceptable to the faculty member by which the missing work will be completed. Failure to complete all coursework by the agreed-upon deadline will result in the assignment of a grade of “F”. A grade of Incomplete may not be assigned in order to give a student a chance to do more work to improve a grade.

The deadline for removal of an Incomplete is one year from the first day of the term in which the Incomplete was recorded, unless a shorter period of time is specified by the instructor. The deadline determined by the faculty member must be specified on the Report of Incomplete form, which may be obtained in the campus administrative office. A copy must also be provided to the student. No extension will be granted for more than a full calendar year from the date of original enrollment.

Reading and Conference Courses
Reading and conference courses are offered only when absolutely necessary to senior or graduate students with a Chapman University grade point average of at least 2.75. The courses may be taken only for the purpose of meeting graduation or credential requirements by students who could not meet the requirements because of circumstances beyond their control. They are not offered to resolve scheduling conflicts with other classes, or work, or to complete a schedule. To enroll in reading and conference courses, students must obtain a Request for Course by Reading and Conference form from their campus administration office. A minimum of 5 hours of instruction for each credit is required for reading and conference courses.

Independent Study and Research
Independent study and research is offered to upper-division and graduate students with overall grade point averages of at least 3.0 “B”, to research particular topics that are not provided by regular curriculum offerings. To enroll in independent study and research, a student must obtain an Independent Study and Research form from their campus administration office. A minimum of 5 hours of instructor-student contact for each hour of credit is required. Students should spend 40 to 50 hours in instruction and research for each credit of independent study.

Standards of Academic Integrity
As a community of scholars, Chapman University College emphasizes the mutual responsibility of all members to seek knowledge honestly and in good faith. Students are responsible for doing their own work, and academic dishonesty of any kind will not be tolerated anywhere in the University. In order to safeguard the conditions under which scholarship is performed, measured, and evaluated, the following will serve to define academic dishonesty, to identify procedures for hearing cases involving academic integrity violations, and to give suggested guidelines for sanctions according to the offense.
A. Academic Integrity Violations
Academic dishonesty can take a number of forms. It includes, but is not limited to, cheating on a test or examination; claiming the work of another as your own; plagiarizing any paper, research project, or assignment; or falsely submitting material to fulfill course requirements.

Cheating includes unauthorized copying from the work of another student, with or without that student’s consent, using notes or other unauthorized material during a test period, and giving or receiving assistance from another when it is expected the student will perform his or her own work.

Falsifying data to show either the process or the product of scholarly examination to be different from what actually occurred is also considered dishonest. This includes falsely reporting attendance or participation in any field-work experience.

Students may not submit work done in one course to satisfy the requirements of another course, unless both instructors agree beforehand to accept such work. Forged or altered documents may not be presented. This includes transcripts, add/drop forms, or any academic form which has been falsified or on which a professor’s signature, or anyone else’s signature, has been forged or altered.

Failure to report any previous academic work at another college or University is also considered a violation of academic integrity.

B. Procedures for Hearing and Investigation
In cases involving academic integrity violations, the appropriate action is initiated by the course instructor. If the instructor believes a student has violated the University standards, the following action should be taken:

1. The instructor must contact the student(s) to discuss the possible violation. If the transgression occurs during class, as during a test or examination, the instructor should deal with the situation at that time. Otherwise, the student(s) will meet with the instructor for the purpose of settling the issue of guilt or innocence. If the student(s) admits guilt, or if the instructor and student(s) involved agree a violation took place, then an appropriate sanction may be set at that time. A report of this action will be filed with the appropriate campus and Division Chair.

2. If the student(s) does not admit guilt, if an agreement upon sanction cannot be reached, or if any party does not agree with the resolution of the specific issue of academic integrity, then the matter will be taken up with the Division Chair. In this case, the Chair will meet with the involved faculty member and the student(s) in an effort to resolve the matter, and initiate whatever action is deemed appropriate.

3. If there is dissatisfaction with the results of a meeting with the Division Chair, any of the parties may request a hearing through the University College Academic Standards Subcommittee. In this instance, the committee will take whatever action is deemed necessary to answer questions and determine the truth of each particular case.
4. Finally, if any party still feels extenuating circumstances or new information was not adequately considered by the Academic Standards Subcommittee, or that the sanctions imposed are unfair, the matter may be brought on appeal to the Dean of University College for final disposition. At this juncture, the Dean will then take whatever action is deemed appropriate. The Dean’s decision is final and binding.

In all cases of alleged violations of academic integrity it is vital to maintain confidentiality. None of the parties involved should discuss the issue outside the above procedures.

Dismissal for a violation of academic integrity will be noted on the transcript.

**Faculty Rights and Procedures Concerning Student Classroom Behavior**

Faculty members are responsible for ensuring an effective learning environment for all students in their classes, which encourages active student participation, including the right to raise questions and challenge information. Hence, faculty members also have the responsibility and authority to maintain appropriate student behavior. Classes are defined as including laboratories, internships, field placements, or any settings that can be designated as a learning environment, such as travel studies and field trips.

Consequently, if a student is considered to be threatening or disruptive in the classroom, behaves in a way that interferes with the learning of other students, or refuses to fulfill the academic requirements of the course, the faculty member has the right to have the student who demonstrates such behavior removed from the class, either by administrative withdrawal or by making arrangements for the student to complete the requirements in absentia.

The faculty member should immediately report the matter to the Division Chair and Campus Director.

If the student wishes to appeal the decision of the faculty member, he/she must submit the appeal in writing to the Division Chair within five working days of the decision. The Division Chair will then conduct an investigation and report to the Dean. If the Division Chair determines that the faculty member is possibly at fault, the Dean may address the situation directly with the faculty member or may return the matter to the Division Chair for disposition. If the student is dissatisfied with this outcome, he/she may submit a written appeal to the Provost, whose decision in these matters is final and binding. During this period of appeal, the student may not return to class. Even if the student’s appeal is successful, the student may not return to the class, unless the faculty member has specifically agreed to this. If the Provost upholds the faculty member’s original decision, the student may still be subject to the student conduct system for further conduct review at the discretion of the Division Chair.
Grade Review Policy
Faculty have the final authority in assigning student grades except for cases involving clear evidence of capricious grading or failure to follow the professional standards of a discipline or field. All requests for review of grade must be filed within 30 days from the date that the grade was assigned.

Faculty members may change final grades after submission to the Registrar’s Office only for clerical error. Once a grade is submitted, additional work may not be assigned to enable the student to receive a higher grade.

However, a student who believes he or she has received a grade that is capricious or based on standards that are not in line with the professional standards of a discipline or field may appeal personally to the instructor for an explanation of the grade and for possible reconsideration.

If, after meeting with the faculty member, the grade dispute is not resolved, the student may submit a written request for review to the Division Chair for further consideration. If there is judged to be merit in the student’s request, the Chair may request that the instructor reconsider his/her grade assignment. If the matter is resolved, the Chair will notify the Office of the Registrar of the change in grade. If the matter is not resolved the student may submit a request for review to the Academic Standards Subcommittee. The written request must state the reasons for the request and provide evidence that the student has attempted to find remedy by discussing the matter with the instructor and the Division Chair. Specific and credible evidence that a grade in the course may have been assigned capriciously or outside the professional standards of a field or discipline must be provided.

The Academic Standards Subcommittee will carefully review the student’s documentation as well as the documentation provided by the instructor and also may request an opinion from the Division Chair. If the committee determines that there is compelling evidence that the grading was capricious or outside of the expected disciplinary or field standards, it will request that the Division Chair submit a grade change to the Registrar and notify the instructor of its decision. Decisions rendered by the Academic Standards Subcommittee are final.

Probation and Dismissal
A student whose cumulative GPA falls below 2.0 will be placed on probation. Once on probation, a student must obtain a term GPA of 2.0 or higher for each of the next three terms and must have a cumulative GPA of 2.0 or higher by the end of the third term. Failure to do so may result in dismissal.

The action of dismissal will be placed on the official transcript. A student who has been dismissed may not continue in coursework and will be administratively withdrawn.
Academic Appeal
(See Grade Review Policy and Probation and Dismissal policy for specific requirements.)

Each student has the right of academic appeal. Petition forms are available at University College campuses.

For academic matters, the process begins with the faculty member involved. Appeals are submitted to the Division Chair, and then to the Academic Standards Subcommittee. Appeals to the decisions of the Academic Standards Subcommittee and the Division Chair are made to the Dean of University College.

For matters concerning disabled student services, students should contact the director of the Center for Academic Success at (714) 997-6828.

Appeal Deadlines
A student wishing to submit an appeal must present a petition and all relevant documentation within 45 days of notification of the action the student is appealing.

Requests for additional information must be provided by the student to the University within 30 days of receipt of request; failure to provide such documentation will result in a denial of the appeal.

Students who are dissatisfied with the action taken on their appeal have a maximum of 30 days after receipt of notification to request a reconsideration. Additional documentation or new information will be required.

Appeal petitions will receive a response as quickly as possible and no later than 30 days of receipt of the petition by the Academic Standards Subcommittee.

Graduation with Latin Honors
A student with high academic achievement throughout his or her University career may be awarded University honors. To be eligible to graduate with Latin honors, a student’s cumulative Chapman GPA and cumulative overall GPA (including transfer work) must be at least 3.5. In addition, at least 54 credits of baccalaureate coursework (excluding courses taken on a pass/no pass basis) must have been completed at Chapman.

Categories of honors are cum laude (3.5 GPA); magna cum laude (3.7 GPA); and summa cum laude (3.9 GPA).

Intent to Graduate
Although a student may have completed all requirements, graduation is not automatic. Every degree candidate is required to file an Intent to Graduate form with the Office of the Registrar and pay a fee. If the degree is not completed on the date for which the student applied, a new intent must be submitted. Deadlines are published in the university calendar.
Diplomas and Transcripts
Diplomas are mailed out approximately 4 weeks after the date of conferral of the degree. This allows time for confirmation from the Registrar's Office that all degree requirements have been met. Under no circumstances will a diploma be released prior to the conferral date.

Transcripts from other institutions which have been presented for admission or evaluation become part of the student's academic file and are not returned or copied for distribution.

Diplomas or copies of transcripts will not be released to any student with an unpaid balance to Chapman or a Chapman-sponsored agency. Presently enrolled students may print unofficial copies of transcripts at any time via Web Advisor. Official transcripts are issued only with the written permission of the student. Contact the Registrar homepage or office for further processing and fee information.

Graduation and Commencement
University College confers degrees five times during the academic year. See academic calendar for dates. All degree requirements, including incompletes, internships, counseling hours, etc., must be completed by the last day of the month in which the degree is to be conferred.

Although a student may have completed all requirements, graduation is not automatic. Students who intend to graduate must file an Intent to Graduate form with their campus and pay the graduation fee.

Degrees are conferred at the end of each academic term however formal commencement ceremonies are held only in the Spring. Students may participate in the regional Spring graduation ceremony if they are scheduled to complete all program requirements by the end of Term C of the year in which they graduate. Students receiving degrees at mid-year or other terms are entitled to participate in the following Spring commencement ceremonies.
Undergraduate Degree Requirements

I. Graduation Requirements–Associate of Arts
   • A minimum of 62 credits is required.
   • Completion of basic skills (ENGU 103, ENGU 104 and MATU 104 or higher) and breadth requirements in General Education.
   • 15 credits in residence with a 2.0 minimum grade point average is required.
   • The Junior Writing Proficiency Exam (JWP) is not required.
   • Degree requirements cannot be waived by the CSU or IGETC certification.

II. Graduation Requirements–Bachelor of Arts, Bachelor of Science
   • A minimum of 124 credits.
   • 36 credits earned in upper-division coursework.
   • Minimum of 32 credits completed in residence at Chapman; 18 of which must be upper-division credits, 12 of which must be completed in student’s major.
   • A 2.0 grade point average on a 4.0 scale at Chapman and transfer work.
   • A 2.0 grade point average in all major coursework. Departments may have additional grade requirements.
   • Successful completion of the Junior Writing Proficiency Exam (JWP).
   • Resolution of all “IP” and “I” grades.
   • LBSU 300 University College Foundation.

III. Academic Major Credits and specific courses
   • See department listing. Students must follow general education and major requirements of the same year.

Other requirements
   • A minimum of 21 credits of upper-division coursework in the major; a minimum of a 2.0 grade point average on a 4.0 scale in the major and in upper-division work.

Split major (bachelor of arts or bachelor of science degrees)
   • 15 upper-division credits in one department and 21 upper-division credits in another: consult departments before planning a split major.

Double major
   • A minimum of 18 credits may not be duplicated by the second major.
   • Majors must be appropriate to the degree.
   • Completion of all requirements for both majors.
   • Second major may be completed before or after awarding of the degree.
• Only one diploma will be issued showing the major(s) completed at the time of graduation.

**Bachelor of Science**
- A minimum of 34 credits (upper and lower division) in addition to required courses in related fields available for majors in computer science, computer information systems, mathematics, and health systems.

**IV. Minors**
- Must be completed in a discipline outside the student’s major or, outside the primary emphasis area in the social science major.
- A minimum of 18 credits, 9 of which, may not be duplicated by the major.
- A minimum of 9 upper division credits.
- A minimum of 6 upper division credits completed in residence.
- 2.0 cumulative average and 2.0 GPA for all upper division coursework.
- Minors may be completed only in those departments listing specific minor requirements.

**V. Electives**
- Course of the student’s own choosing taken beyond requirements of general education and major/minor in order to meet minimum credit requirements for graduation

**VI. Second Bachelor’s degree**
- Once a degree is conferred, a student must apply for re-admission to seek a second bachelor degree, major or minor.
- 32 semester credits in residence beyond the minimum requirements for the first bachelor’s degree for a minimum of 64 credits in residence and a minimum total of 156 semester credits.
- Request degree evaluation before beginning program.
- Degrees may be pursued concurrently; diplomas may be awarded concurrently.
- The Junior Writing Proficiency Exam (JWP) is waived for all bachelor degree holders from another regionally accredited institution.
- LBSU 300 University College Foundations is waived for all bachelor degree holders from another regionally accredited institution.
- Chapman waives basic subjects and general education breadth requirements for students with bachelor’s degrees that include at least 28 semester credits of Chapman acceptable work distributed in the social sciences, humanities, and natural sciences from regionally accredited institutions.
General Education Requirements

The General Education Program is based on a set of first principles that define the characteristics of a Chapman graduate. A Chapman graduate is expected to be competent in the following basic skills:

- Language expression (oral and written) and critical thinking
- Mathematical and quantitative reasoning
- The use of technology to access, organize, analyze and present information

Dedicated to the breadth that a liberal arts education provides, Chapman University also expects its graduates to achieve an understanding of the following concepts:

- Fundamental issues in ethics and morality and the use of ethical analysis and moral reasoning in the pursuit of a more just and humane world;
- The historical, philosophical and political wellsprings of contemporary American society;
- Other cultures in order to contribute to a world where societies with different or divergent values and perspectives increasingly come into contact;
- The fundamental processes of nature and the methodologies of science by which humankind has come to understand these processes;
- The creative process in the fine and performing arts;
- Works of literature and the other humanities;
- The interdependence of disciplines, particularly the connections between a chosen major and those areas of study encountered in the general education core curriculum and electives;
- The competency required by a major field or discipline;
- The ability to integrate personal expectations and prior learning with degree planning and career objectives.

I. Basic Skills (12 credits)

Writing and Critical Thinking Skills: (6 credits)
- ENGU 103
- ENGU 104

Oral Expression and Critical Thinking: (3 credits)
- Communication or a college level course in critical thinking

Quantitative Skills: (3 credits)
- MATU 104 or higher or any statistics course

Using Technology:
- (Embedded throughout the curriculum)
II. Breadth Requirements (30 credits)
   Humanities (12 credits from a minimum of three areas)
      English, Foreign Languages
      Fine Arts
      Humanities/Liberal Studies
      Philosophy
      Religious Studies
   Natural Sciences (6 credits)
   Social Sciences (12 credits from a minimum of three areas)
      Economics/Organizational Leadership
      History
      Political Science
      Psychology
      Social Science/other related areas
      Sociology/Criminal Justice

III. University College Foundations: (3 credits)
   LBSU 300

IV. Writing Proficiency Requirement:
   Successful passing of the Junior Writing Proficiency Examination (JWP) after
   completion of a minimum of 60 credits and ENGU 104 or documentation of
   passing an equivalent mid-point Writing Proficiency Exam from another
   accredited university.

   Students who receive a score of “failing” on the JWP Exam must enroll in ENGU
   300 and pass it with a grade of C “2.0” or higher.

   Students who receive a score of “deficient” on the JWP Exam may either retake
   the test and receive a “passing” score or enroll in ENGU 300 and pass it with a
   grade of C “2.0” or higher. The test may be taken more than once and the
   requirement should be completed by the time the student achieves senior
   standing.
Undergraduate Degree Programs

Computer Information Systems

John Freed, Ph.D., Division Chair of Arts & Sciences
Jia-Ping Wang, Ph.D., Program Chair
James Brownlow, Ph.D.
Walter L. Bunch, M.S.
Edward Chen, Ph.D.
Danny L. Lamb, M.S.
Royal Norton, M.S.

Bachelor of Science

From financial analysis to space exploration, from civil engineering to development of information systems, applications of computing are crucial to nearly every modern human endeavor. The Bachelor of Science degree program in Computer Information Systems (CIS) at Chapman University College provides a sound foundation in information technology principles and practice.

The emphasis is on applications of information technology rather than the computer itself. Core technology areas include programming, computer architecture, operating systems (OS), data communication, systems analysis and design, database applications, and software engineering. The program also includes a significant general business component, as business topics are integrated into many CIS courses. In addition, the CIS program allows its students to earn an Information Technology certification as an elective option towards their degree. With both the B. S. degree and the Information Technology (IT) certification, students will be more employable and ready to enhance their career.

Graduates of the CIS program are prepared for a variety of careers in computer information system and information technology, especially in the design, implementation, and management of business information systems. The job descriptions of CIS graduates include systems analysis, programming, data communications, end-user support, database administration, consulting, and top management. The program also prepares students for graduate study in information technology, business and related fields.

All courses taken in the major program must be passed with a grade equivalent of "C" or higher. Courses may be used to fulfill both major and general education requirements.
Bachelor of Science in Computer Information Systems

lower-division core requirements (21 credits)
MATU 104 Pre-Calculus Mathematics 3
MATU 203 Introduction to Statistics 3
MATU 250 Discrete Mathematics I 3
ORGU 202 Accounting 3
CSCU 210 Intro to Programming - Visual Basic 3
CSCU 230 Computer Programming I 3
CSCU 252 Computer Architecture I 3

*Note: Courses in the CIS major are taught in Java. The CSCU 230 transferred in must be in an OO language. If it is not in Java, the student is expected to learn Java prior to taking upper division courses and may audit in CSCU 230 or take the one-credit CSCU 219 for that purpose.

upper-division requirements (21 credits)
ORGU 308 Economics and Organizations 3
CSCU 353 Data Comm. and Computer Networks 3
CSCU 380 Operating Systems 3
CSCU 408 Database Management 3
CSCU 410 Structured Systems Analysis and Design 3
CSCU 411 Software Engineering (capstone) 3
OLCU 350 Leadership and Professional Ethics 3

electives (12 credits)
select any four upper-division computer science courses
or
two ORGU courses plus two computer science courses
or
OLCU 315 plus CSCU 383 (new) plus one ORGU course plus one computer science course
or
obtain one of the following certifications plus one computer science course:
   Network Administrator Certificate (CCNP, MCSE)
   Database Administrator Certificate (Oracle DBA, MCDBA)

total credits 54

Note regarding certificates: Only one certificate is allowed. Certificates must be current industry recognized ones. Credits for certificates cannot be used for general elective credits. Student cannot get credit for both the certificate and the individual courses that may relate to the completion of that certificate.
### Minor in Computer Information Systems

**lower-division requirements (9 credits)**
- CSCU 210  Intro to Programming - Visual BASIC 3
- CSCU 230  Computer Programming I 3
- CSCU 252  Computer Architecture I 3

**upper-division requirements (9 credits)**
- CSCU 383  Project Management 3
- CSCU 408  Database Management 3
- OLCU 315  Organizational Information Systems 3

**total credits** 18
Criminal Justice

John Freed, Ph.D., Division Chair of Arts & Sciences
Stephanie Amedeo Marquez, Ph.D., Program Chair
Robert Hill, D.P.A.
Neil Lingle, M.S.
Myron Orleans, Ph.D.
Richard Utman, J.D.

Bachelor of Arts

Who commits crime? Is the United States correctional system tough or easy on criminals? Has Homeland Security effectively created a safer environment in a post 9/11 world? Chapman’s undergraduate Criminal Justice program leads students to examine these and other questions about the scientific study of criminal behaviors in their complex sociological settings. Our program imparts leadership skills to a new class of specialist – a dedicated person who employs professional knowledge of social and organizational groups and the individuals within them to enhance the fairness and effectiveness of the American criminal justice system.

Our course offerings are highly inter-disciplinary and provide incoming students with a broad perspective and include courses in organizational leadership, political science and sociology as well as the more traditional criminal justice courses. Our program is structured both for students wishing to enter criminal justice careers as well as for adult learners with extensive law enforcement experience.

All courses taken in the major program must be passed with a grade equivalent of “C” or higher. Courses may be used to fulfill both major and general education requirements.

Admission

Admission to the major requires completion of all the other admission requirements listed in this catalogue, and an autobiographical essay describing the student’s background, personal and career goals, and addressing the reasons underlying the decision to pursue a degree in criminal justice. This essay should be turned in to the campus office where the student expects to be taking the course work. This essay is an admission requirement, but it will not be evaluated for purposes of determining admission.

basic skills (9 credits):
SOCU 101 Introduction to Sociology 3
SOCU 201 Social Research Design 3

one of the following:
OCLU 350, PHLU 120, PHLU 304, PHLU 316, RELU 120, RELU 375 3
### Undergraduate Degree Programs

**Core Requirements (18 credits):**
- CJCU 250 Introduction to the Administration of Criminal Justice 3
- POSU 240 Introduction to Law 3
- SOCU 420 Deviant Behavior 3
- SOCU 450 Social and Political Theory 3
- SSCU 497 Integrative Seminar for the Social Sciences I 3
- SSCU 498 Integrative Seminar for the Social Sciences II 3

**Criminal Justice Institutions (12 credits):**
- POSU 344 Constitutional Rights 3
- SOCU 415 Sociology of Organizations 3
- CJCU 380 Corrections 3
- CJCU 403 Police and Society 3

**Major Electives (9 credits):**
Select from the following:
(at least one must be upper-division)
- CJCU 353 Peace and Conflict in the Middle East 3
- CJCU 382 Women in Criminal Justice 3
- CJCU 410 Topics in Criminal Justice 3
- CJCU 391 Youth at Risk 3
- CJCU 411 Gangs and Gang Behavior 3
- CJCU 412 Victimless Crimes 3
- CJCU 426 Crime and Delinquency 3
- CJCU 445 Moot Court 3
- SOCU 440 Drugs and Society 3
- CJCU 460 White Collar Crime 3
- COMU 315 Intercultural Communications 3
- ENGU 303 Technical Writing 3
- ENGU 305 Business Writing 3
- OLCU 300 Organizational Behavior 3
- OLCU 400 Theory and Practice of Leadership 3
- OLCU 425 Leadership in Diverse and Multicultural Organizations 3
- MATU 203 Statistics 3
- POSU 340 The Legal Process 3
- POSU 445 Moot Court or
- HISU 323 The Western Legal Tradition 3
- SSCU 449/ENGU 449 Multicultural Perspectives 3

**Total Credits** 48
Minor in Criminal Justice

A minor in criminal justice requires a total of 18 credits chosen from the criminal justice major and distributed as outlined below.

**minor core:**
- CJCU 250 Introduction to the Administration of Criminal Justice 3
- CJCU 380 Correctional Systems 3
- CJCU 403 Police and Society 3

**minor electives: (9 credits at least one must be upper division)**
Any three courses from the criminal justice major above.

**total credits** 18
General Studies

John Freed, Ph.D., Division Chair of Arts & Sciences

Bachelor of Arts

The bachelor of arts degree in general studies provides the opportunity for students to develop a more customizable range of courses than permitted by a either a single major program or the CUC degree program in the social sciences. It serves especially those students who wish to incorporate either professional courses with the broader university curriculum.

With the help of academic advisors, students in this emphasis may design the multidisciplinary curriculum that best fits their individual plans. This program offers the flexibility sometimes needed by transfer students seeking to complete an undergraduate degree.

Students pursuing the B. A. in General Studies must receive a grade of at least "C" for courses taken to fulfill upper-division concentration area requirements. Any particular upper division course prerequisite must also be completed. Courses may be used to fulfill both major and general education requirements.

Professional Studies Emphasis

Choose as a first concentration area from such professional studies disciplines as business administration, computer information systems, education, legal studies, management, nursing, or a similar set of disciplines approved by the appropriate academic chair. The other two concentrations may come from any other disciplines.

[NOTE: *No more than 30 credits of a General Studies student’s total undergraduate credits may be in business administration or management courses, or in courses normally taught in an AACSB accredited school of business. This includes any credits transferred to Chapman from another institution. Economics and Statistics, however, do not count as part of this 30 credits.]

- first concentration area (emphasis in professional studies) 15 upper division credits
- second concentration area 12 upper division credits
- third concentration area 9 upper division credits

Senior Seminar capstone (3 credits)
MGTU 499 Capstone/Senior Project 3

total credits 39
Health Services Management

Donald R. Johnston, Ph.D., Division Chair, Leadership & Management Studies

Bachelor of Science

Chapman's program in health services management offers a multidisciplinary study of scientific health principles with application to health promotion, disease prevention, and population health management. The program is designed for mid-career health professionals whose responsibilities have expanded into management areas as well as for persons in a career transition and recent junior college graduates. The program provides a curriculum which meets the demands and required flexibility of the changing and dynamic healthcare industry. Our program provides a solid core of health services courses offered in the evening to meet the needs of fully-employed adults. The curriculum is designed to integrate theory and practice, combining both technical and communication skills. An undergraduate certificate is optional in gerontology.

The health services management major consists of 39 credits of coursework.

Liberal Studies

John Freed, Ph.D., Division Chair of Arts & Sciences
Les Clements, Ph.D.
Teresa Hull, Ed.D.
Doug Sweet, M.A.

Bachelor of Arts

The Liberal Studies program at Chapman’s University College primarily serves two significantly different types of students and therefore has two options: the Multiple Subjects Teaching Emphasis and the Humanities Emphasis. Not all emphases or area concentrations of this degree may be offered at all sites.

Liberal Studies with the Multiple Subjects Teaching Emphasis is the undergraduate major of choice for the individual desiring to teach in an elementary classroom. Building on the interdisciplinary foundation of LBSU 300, this emphasis encompasses college instruction in the subjects that are commonly taught in California’s elementary schools (K-8) and is designed to prepare the student to pass the state CSET examination, (CSET Prep courses are offered through extended education), and gain direct entry into a state-approved teacher credentialing program either at Chapman or at another university. NOTE: The post-baccalaureate credential program at Chapman University College requires a minimum undergraduate GPA of 2.5 for the last 60 semester hours for admission.

Other students with an interest in the humanities may want the more flexible degree-completion pathway of the Humanities Emphasis. Designed to encourage multidisciplinary exploration this option offers students the opportunity of taking course work in language and media arts, other fine arts and cultural and historical studies. (NOTE: Students interested more specifically in the social sciences should consider the B. A. in Social Science program.)

The Humanities Emphasis provides students with a broad understanding of and appreciation for the ways human knowledge is constructed and demonstrated. This understanding may be applied creatively to any professional field or personal endeavor as they seek to transform their lives and the world around them. This option also provides a strong foundation for entry into graduate studies in the humanities, single subject teacher credentialing programs, international relations or the legal profession.

All courses taken in the major program must be passed with a grade equivalent of “C” or higher. Courses may be used to fulfill both major and general education requirements.

B. Depth of Study Concentration: (9 credits)
choose one set from the following:

1. Language Arts:
   - literature (English or other language) 200 level or higher        | 3       |
   - advanced writing 200 level or higher (excluding ENGU 300)         | 3       |
   - COMU 315 Intercultural Communications                            | 3       |

2. Social Science:
   - SOCU 101 Introduction to Sociology                               | 3       |
   - HISU 105, 106, 110, 112 (or equivalent other than United States history) | 3       |
   - one additional upper division history or political science course | 3       |

3. Early Childhood Education:
   - choose nine credits from Early Childhood Education courses         | 9       |
   (These may be transferred in. ECE courses must be eligible for CSU/UC transferability.)

**total credits** 45

**NOTE:** Teacher Credential Programs: A California Multiple Subject, Single Subject or Education Specialist teaching credential requires both proof of subject matter competence — i.e., passing score on the appropriate CSET — and completion of an approved credential program. Students seeking one or more of the teaching credentials must make formal application to the teacher credential program. See your program advisor for information about the requirements and procedures for applying to the appropriate teacher credential program.
II. The Humanities Emphasis

This emphasis serves especially those students who wish to incorporate humanities courses with the broader Chapman University curriculum. The program builds upon the integration of liberal and professional studies manifested in LBSU 300 (University College Foundations) and extends its focus further into the liberal arts.

The Humanities Emphasis approaches the various ways of human knowing and acting in the world as its principal subjects. It is interdisciplinary by its very nature exploring the intersection of high and popular culture; historical, ethnic and gender identities; economics and politics; visual and verbal language and literacy; and technology and media. In this way the humanities emphasis is directly related to cultural studies.

A wide sweeping understanding of various cultural histories is the curriculum’s foundation. The artistic, historical, religious and philosophical traditions of global cultures are examined through lenses that were shaped by the political and ethical reference points of the West. The Western lens itself is a subject of study and reflection.

Students pursuing the Humanities Emphasis must receive a grade equivalent of at least "C" for courses taken to fulfill major requirements. Courses may be used to fulfill both major and general education requirements.

A. Humanities core courses (30 credits)

Language and Media Arts:

- Literature (English or other language) 200 level or higher 3
- Advanced writing 200 level or higher (excluding ENGU 300) 3

one from the following:

- COMU 315 Intercultural Communications 3
- SOCU 310 Society and Advertising 3
- SOCU 311 Society and Mass Communication 3

two other upper division course in:

- art, communications, film, or humanities (HUMU) courses 6

Cultural and Historical Studies:

- POSU 110 Introduction to American Politics 3

one from the following:

- ENGU/HUMU/SOCU 347 Society, Culture and Literature 3
- ENGU / SSCU 449 Multicultural Perspectives 3

one from the following:

- PHLU / RELU 120 Global Ethics and Religion 3
- PHLU 316/OLCU 350 Business and Professional Ethics 3
- PHLU 304 Multicultural Ethics 3
- RELU 375 Violence and Nonviolence in Society and Religion 3
two other upper division course in:
   history, political science or social science (SSCU) courses 6

B. Humanities Concentration:
   12 additional credits with a minimum of 9 of them upper division

Students must choose their concentration area from such humanities disciplines as art, English, foreign languages, history, humanities, liberal studies, music, philosophy, religious studies or a similar set of disciplines approved by the academic chair.

C. Capstone course (3 credits)
   LBSU 402 Ways and Rhetoric of Knowing 3

total credits: 45
Organizational Leadership

Donald R. Johnson, Ph.D., Division Chair, 
Leadership & Management Studies
Janet Cooper Jackson, Ph.D.
Ashour Badal, Ph.D.
Christine Cecil, Ed.D.
James Liberty, D.P.A.
Kurtis Takamine, Ed.D.
Kay Talbot, Ph.D.
Lynne Valek, Ph.D.
Glenn Worthington, Ed.D.

Bachelor of Arts

The Bachelor of Arts in Organizational Leadership focuses on understanding and transcending barriers to individual and organizational effectiveness. The program provides a curriculum which links theory and practice to promote seven principal learning outcomes:

**Communication**: The ability to write, speak, and listen effectively.

**Critical Inquiry and Reflective Practice**: The ability to read, reflect, and think logically and engage in critical analysis leading to thoughtful action.

**Social and Interdisciplinary Perspective**: The ability to understand the historical antecedents and current forces that shape our lives and influence our beliefs and actions.

**Multicultural and International Perspective**: The ability to view and appreciate the world from cultural perspectives other than our own.

**Ethical and Social Responsibility**: The development of ethical values that enhance human dignity and justice.

**Self-Directed and Lifelong Learning**: The development of an enhanced sense of personal autonomy and initiative that flows from the process of learning and a corresponding ability to define and pursue learning needs throughout one’s life.

**Values-based Leadership**: The development of an attitude and aptitude for leadership that stresses inclusion, empowerment, and service to others.

The program is ideally suited for students with strong interests or experience in leadership, management and/or administration. Depending on the emphasis area chosen, students with degrees in organizational leadership are prepared for entry- and mid-level supervisory positions in a wide range of administrative careers or for graduate school in a variety of academic disciplines. (Not all emphasis areas or courses may be offered at all campuses.)
Students wishing to major in organizational leadership are encouraged to complete the prerequisite requirements before the start of their junior year. Transfer credits may be applied toward major requirements, subject to all university guidelines or the approval of the Program Chair or designee. Students must attain at least a “C+” (2.30) grade point average in all required work with no course below a “C” (1.70). All required courses must be taken for a letter grade where the option exists.

The organizational leadership major consists of 54 credits of coursework, including 18 credits in electives or a pre-selected emphasis area, and 6 credits in a senior research project. This project should be completed toward the end of the student’s program, but no earlier than within 12 credits of the completion of major requirements.

A minor in organizational leadership (18 credits), a master of arts (36 credits), and graduate certificates in organizational leadership and organization development are also offered. Contact the organizational leadership program coordinator at your campus for more information.

**Departmental Honors**

Students who are majoring in organizational leadership are eligible for departmental honors if they meet the following criteria:

1. Chapman University GPA of 3.80 or higher
2. Organizational Leadership Major GPA of 3.80 or higher
3. Complete a special project (OLCU 499) in which he/she examines some aspect in organizational leadership which results in a paper of publishable quality.

total credits (including prerequisites) 54

Electives/Emphasis Area (18 credits in electives)
Upon admission, each student develops a plan for electives in the degree program. Electives may lead toward a formal emphasis area in Organizational Management or Organizational Communications (see below). Students who do not wish to develop a formal emphasis area, which are not designated on the student's transcript, may select 18 elective credits to meet individual educational and professional goals, and may be selected to build either functional career skills and/or career context awareness. With the assistance of their advisor, students may design an emphasis area that reflects their career goals. Electives may be chosen from programs having a leadership, management or administration component. Approved electives include courses from the following programs: Organizational Leadership, Management, Human Resources, Health Services Management, Criminal Justice, Organization Administration and Communication. Other electives specifically involving leadership or administration in the following programs may also be selected as electives: Psychology, Social Science, Sociology, and Computer Information Systems. At least 9 credits must be upper division (300+). Internship and
Independent study credits do not count toward an emphasis area, but do count as general electives.

**Emphasis in Organization Administration**
Most appropriate for students contemplating a career in leadership, management and/or administration. This emphasis addresses the fundamentals of management and administration. This emphasis will be designated on the student’s transcript. Students select six courses (18 credits from the following):

**required (3 credits):**
- OLCU 315 Organizational Information Systems 3

**plus any five of the following (15 credits)**
- ORGU 202 Accounting 3
- ORGU 308 Economics and Organizations 3
- ORGU 403 Finance 3
- ORGU 404 Marketing 3
- ORGU 405 Policy Formulation and Implementation in Organizations 3
- HRCU 406 Legal Issues in Human Resources 3
- HRCU 425 Social and Technological Change 3
- HRCU 430 Conflict Resolution* 3
- HRCU 445 Human Resource Studies 3

* Also can be taken as SOCU 453

**Emphasis in Organizational Communication**
The emphasis in organizational communication combines the dynamics of speech communications with the principles of organizational leadership. Together, these skills prepare students to effectively utilize interpersonal, presentation, and written competencies in organizational communications. This emphasis will be designated on the student’s transcript. Students select six courses (18 credits from the following):

**required (9 credits):**
- COMU 210 Theories of Persuasion 3
- COMU 301 Advanced Public Speaking 3
- COMU 410 Organizational Communication 3

**plus three of the following (9 credits)**
- COMU 215 Communicating About Business 3
- COMU 270 Internet Communications 3
- COMU 305 Desktop Publishing 3
- COMU 370 Principles of Public Relations 3
- COMU 371 Writing for Public Relations 3
- FTVU 351 Business Presentations 3
Minor in Organizational Leadership

Consistent with the department’s commitment to educate students about and for leadership, a minor in organizational leadership is offered as an option to students who prefer to major in a different academic subject, but who wish to supplement their academic program with leadership studies. Students desiring or contemplating a minor in organizational leadership should file their Intent to Minor with the offering department no later than their junior year or as soon as possible. Filing does not obligate the student. Internship and independent study credits do not count toward the minor.

Richard Sinacola, Ph.D.

The mission of the department of psychology is to help students acquire a broad-based knowledge in the field of psychology in its historical and cultural contexts, both as an empirical science of human behavior and as a foundation for a professional career in human services.

Bachelor of Arts

Chapman University College offers an undergraduate program in psychology. The undergraduate curriculum emphasizes critical thinking, methods of inquiry, research methodology, psychology processes, and the application of psychological principles to diverse areas of human behavior. Students are encouraged to complete elective courses that provide a strong theoretical background and the application of psychology in a field that best suits students' professional goals. Students are encouraged to participate in practical fieldwork experience and elective independent research projects. Each student's major is individually designed around a core of lower- and upper-division courses covering history and theories, critical thinking, statistics, research, physiological psychology, and the capstone Senior Thesis courses. Overall, the psychology undergraduate curriculum is designed for students who want to prepare for graduate study in psychology or related disciplines, for graduate study in fields where knowledge of human behavior would be beneficial, for professional careers in psychology or for baccalaureate-level careers in human services or in psychological support settings.

The core foundation curriculum in psychology provides the student with the essentials of psychological science and thought. Culminating with the senior thesis, the core curriculum produces an integration of the student's goals and objectives with psychology's present and future. In addition to the core foundation curriculum, students pursue a curriculum of electives in psychology chosen in consultation with their psychology academic advisor. Students pursuing the psychology degree must receive at least a “C” grade in all courses used to satisfy the degree requirement. Moreover, psychology major courses taken while attending Chapman cannot be satisfied with a “Pass” grade under a
pass/no pass grading system. Courses in the major will not be accepted for credit by examination with the exception of PSYU 101, provided it was completed prior to taking any other psychology course.

**Departmental Honors**

Students who are majoring in psychology are eligible for departmental honors if they meet the following criteria:

1. Chapman University GPA of 3.70 or higher
2. Psychology Major GPA of 3.80 or higher
3. Receive an A in PSYU 499 (3 credits)

**Degree Requirements (48 credits)**

total credits in major 48

Minor in Psychology requirements
There are two tracks for a psychology minor. The general track is designed to
enhance knowledge of a psychological process and/or area within the discipline.
The applied track is designed to provide exposure to the essential skills and
procedures underlying the use of psychological processes and procedures.
Students seeking a psychology minor should discuss the selection of track and
courses with a psychology division advisor.

Requirements for Psychology Minor:
general track (18 credits)
  PSYU 101, 203, 304 core foundation courses 9
  Three upper-division elective courses in psychology 9

applied track (18 credits)
  PSYU 101 core foundation course 3
  Five upper-division elective courses in psychology 15
Social Science

John Freed, Ph.D., Division Chair of Arts & Sciences
Leslie Wasson, Ph.D., Program Chair
Les Clements, Ph.D.
Robert Hill, D.P.A.
Mark S. Langevin, Ph.D.
Bonnie L. Ross, Ph.D.
Timothy Ulrich, M.A.

Bachelor of Arts

The world is changing. New technologies appear constantly while ethnic and international conflicts continue to affect our lives. Complex processes of social change, transience, and globalization create both amazing opportunities and difficult choices. No single discipline can keep up with all these events and explain them fully. The Social Science program seeks to encompass the diverse areas of social, political, cultural, economic, organizational and technological processes and their interactions.

This major is designed for the student who desires a broader background or overview of particular fields of study. The major offers opportunities for emphasis in specific subject areas while maintaining an inclusive perspective. This integrated focus will help develop critical reasoning and analytical skills, comparative perspectives, and a broad knowledge base about the world.

The Social Science major is ideal for students who are seeking careers in government service, journalism, advertising, teaching, library science, law and politics. Additionally, students are prepared for work in research, consulting and for graduate study.

In concert with the mission of Chapman University College, the Social Science Program seeks to promote the following competencies:

- Scientific Methods/Quantitative and Qualitative Research Skills
- Classical and Contemporary Social Science Theories
- Complex Systems Analysis
- Interdisciplinary Global and Historical Perspectives
- Professional Writing and Presentation Skills
- Organizational and Technological Skills

All courses taken in the major program must be passed with a grade equivalent of “C” or higher. Courses may be used to fulfill both major and general education requirements.
major core requirements (18 credits)
SOCU 101 Introduction to Sociology 3
PSYU 101 Introduction to Psychology 3
SOCU 201 Social Research Design 3
or
PSYU 304 Research Methods 3

concentration area requirements (36 credits)
Choose three areas from the disciplines of criminal justice, history, organizational leadership, political science, psychology, social science and sociology as a first, second and third concentration area and complete upper division courses minimally distributed as follows. The first concentration choice represents the primary emphasis area of the program.

- first concentration (emphasis) area 15
- second concentration area 12
- third concentration area 9

total credits: 54
Sociology

John Freed, Ph.D., Division Chair of Arts & Sciences
Stephanie Amedeo Marquez, Ph.D., Program Chair
Mark S. Langevin, Ph.D.
Myron Orleans, Ph.D.
Bonnie Ross, Ph.D.
Leslie Wasson, Ph.D.

Bachelor of Arts

We are all social beings; we must live in society and find ways to interact with others and make sense of the world that we create. Sociology is the study of our diverse ways of interacting and of the kinds of institutions and social systems we build. We both shape and are shaped by society.

Sociology is the study of how society organizes itself. The subject matter includes social institutions and culture, community life, family patterns and relationships, social change, social movements, gender and ethnic relations, race, social class, demographics, value systems, deviant behavior, conflict, mass media, health-seeking behavior, and the people and institutions of other societies and cultures.

Sociology is a valuable liberal arts major for students planning careers in educational, governmental and corporate settings. The undergraduate major provides the foundation for careers in social work, urban planning, public health, gerontology, medicine, law, criminal justice, social service agencies and other fields where an understanding of and knowledge of social institutions, social interaction, and a range of research techniques are needed. The sociology major also prepares students to enter graduate study programs and the student may choose between emphases in either sociology or social work.

All courses taken in the major program must be passed with a grade equivalent of “C” or higher. Courses may be used to fulfill both major and general education requirements.

Admission

Admission to the major requires completion of all other admission requirements and an autobiographical essay describing the student's background, personal and career goals, and the reasons he/she made the decision to major in sociology. This essay should represent the student's best writing ability, and should be turned in to the office of the Chapman University College campus where the student expects to take coursework. A completed essay is a requirement for admission, but will not be evaluated for purposes of making an admission determination.

Emphasis in Social Work

Social work teaches students how to analyze social problems and human needs and to design and implement programs to remedy these problems.

The social work emphasis can lead to careers working with families and children in federal, state and county agencies, in human resource management and in the legal system. The emphasis also prepares students in enter graduate studies in social work. (MSW.)

Graduate Admission

While requirements vary in each of Chapman University College’s graduate programs, this section provides information concerning university-wide admission standards as well as general admission policies and procedures. For specific program admission requirements, please refer to the appropriate program section.

Applicants seeking admission to graduate programs must submit the following to the selected University College campus:

1. Completed application package listing all institutions attended with an application fee of $40. Applications are available online.
2. Official transcripts from all institutions attended. These transcripts should be sent directly from the institution to the University College campus. No credits will be accepted from non-regionally accredited institutions.
3. Any additional evidence of eligibility required by the graduate program.

Students are not eligible for financial aid until regular admission status is achieved. Official documents submitted for admission consideration become property of the University and cannot be returned or copied for distribution.

Requirements for Admission

Chapman University College is a member of The Council for Adult and Experiential Learning (CAEL) which has published a fundamental standard regarding admission processes focusing on the Adult Learner: “The institution uses an inclusive, non-competitive admissions process to determine the best educational match for the adult learner.”

The prospective graduate student in Chapman University College must demonstrate his or her readiness to succeed in graduate-level academic coursework by satisfactorily fulfilling one of the following admission Options. All graduate admissions options listed below require an earned baccalaureate degree with a minimum of 36 upper-division credits from a regionally accredited institution. Specific program admission requirements must also be met.

**Option One**
A 3.0 grade point average (GPA) calculated over the most recent 60 semester units (90 quarter) credits completed towards a baccalaureate degree; this may include up to 15 graded semester units of graduate-level coursework that are applicable to a graduate degree program from an accredited institution other than Chapman.

**Option Two**
A GPA between 2.5 and 2.99 (MAE/MAT requires 2.75-2.99) and a satisfactory score on an accepted graduate admissions exam such as the Graduate Record Exam (GRE), the Graduate Management Test (GMAT), The
California Subject Examinations for Teachers (CSET) or the Miller Analogies Test (MAT). Consult program for acceptable admissions tests and scores.

**Option Three**
A 3.5 GPA calculated on an earned advanced degree from a regionally accredited institution.

**Option Four**
Submission of a portfolio of evidence that shows adequate preparation for graduate studies. The portfolio will contain: writing samples that show graduate level communications and analytical skills; a detailed resume showing professional development and achievements; awards; professional recognition; letters of reference from persons who can attest to the applicant’s ability to do graduate level work; and a letter of explanation detailing the reasons the student believes he or she is a good candidate for graduate study in the discipline requested. If the portfolio meets substantive approval of the reviewers, the applicant may be invited for an interview. The reviewers will forward their recommendation to the CUC admissions committee. The decision of the CUC Graduate Admissions Committee will be final.

**Conditional Admission**
This admission status is available for applicants whose final completion of the baccalaureate degree is pending at the time of application or their degree has been completed but not yet conferred. Applicants who have already completed 12 credits or more in a Chapman credential or graduate program are not eligible for conditional admission.

Specific requirements for Conditional Admission are:
1. Have fulfilled all University College graduate admission requirements and all specific program requirements for regular admission.
2. Certification by the degree-granting institution that the baccalaureate degree can be completed at the conclusion of the semester or term specified by the applicant.
3. The degree posting date must be prior to the beginning of the semester or term for which the applicant has applied.
4. No more than twelve credits of graduate coursework may be completed as a conditionally admitted student.

A final graduate classification is determined upon completion of the baccalaureate degree based on graduate admissions policies.

Students who complete coursework but who do not complete the admission application process (or are denied and later achieve admission) will be permitted to use only 12 credits of completed coursework toward a degree program.

Applicants who can provide documentation from the degree granting institution verifying that the degree has been completed will be eligible for financial aid.
Non-degree Seeking Post Baccalaureate Students
Students who have not been granted regular admission status may be permitted to enroll in graduate courses at Chapman University. (See specific program for details.) However, no more than 12 credits of graduate coursework taken prior to achieving regular admission status may be applied toward a graduate degree at Chapman University.

Graduate Academic Policies and Procedures

Catalog
The catalog assigned to newly admitted students is determined by the date of formal admission. Admission status is valid for one year from date of admission. Students must meet the degree requirements of the catalog under which they are admitted or may select a later catalog for a year in which they are enrolled. However, for all other policies (except degree requirements), students must adhere to the current catalog for each year they are enrolled. Statements in the catalog are for informational purposes and should not be considered as the basis of a contract between students and the University. Information regarding any changes in degree programs, graduation requirements, or academic policies will be made available by the Office of the Registrar and the appropriate academic departments.

Statement of Responsibility
Chapman University College publishes its academic policies, programs and required courses for graduation. The student is responsible for his/her program including meeting the published requirements and deadlines. The University assists the student in making appropriate decisions by providing academic advising. However, the decisions made in the academic advising process are those of the student.

Residency Requirement
A minimum of 24 credits in the degree program must be completed at Chapman University College for all master’s degrees. For specific program requirements, please refer to the appropriate program section. These credits do not include courses taken to fulfill prerequisite requirements. Students in credential programs are required to complete a minimum of two-thirds of the program at Chapman.

Grade and Quality Requirements
Degrees and credentials are granted on evidence of intellectual growth and development rather than solely on the basis of formal course credits. Fulfillment of the minimum course requirements is not regarded as the sole requisite of a degree or credential.
Admission to the Degree Program
Admission is based upon possession of a baccalaureate degree from a regionally accredited institution and the fulfillment of requirements specified for each program.

Course Requirements
1. Credits completed for a baccalaureate degree cannot be accepted for graduate degree credit.
2. Courses completed at the undergraduate level to fulfill prerequisite requirements cannot be accepted for graduate degree credit.
3. All graduate degree coursework cross-listed with undergraduate coursework must differentiate course requirements. For example, graduate students enrolled in any courses in which undergraduates are enrolled must complete additional course requirements to receive graduate credit.
4. At least 15 credits must be in coursework at the 500-600 level.
5. The minimum number of credits required for a master's degree is 30. Some specializations require more (see the individual degree programs).
6. Program Evaluations are the official degree evaluation.

Full- and Half-Time Students
Students enrolled in six or more credits in an academic term are considered "full-time." Students enrolled in 3-5.5 credits in an academic term are considered "half-time."

Course Load
A full course load for master’s and credential students is defined as six credits per term. Any load in excess of these numbers of credits is subject to the review and approval of the academic advisor.

Course Numbering System
001-099 = Non-degree or CEU courses
100-299 = Lower-division coursework
300-499 = Upper-division coursework
500-799 = Graduate-level coursework
800-999 = Professional coursework
0001-0999 = Professional coursework
8000-8999 = Professional coursework
9000-9999 = Graduate Elective Credit*

*Can only be applied toward a degree at the University with program approval.

Graduate Prerequisites
1. Students are expected to complete all prerequisites within the first year of graduate coursework at Chapman University College.
2. Students may not enroll in any course which specifies a prerequisite unless
the prerequisite has been completed.

3. Students may not enroll concurrently in the prerequisite for a course and the course which specifies the prerequisite (unless the catalog permits concurrent enrollment).

4. A grade of “C” or higher is required in all coursework used to fulfill prerequisites.

**Change of Program Policies**

1. Students wishing to add or change their programs of study must submit a new Graduate Application form.

2. To be eligible for a change of degree program, students must have a cumulative 3.00 grade point average, no grade below a “C” in Chapman University graduate coursework, and approval of the program requested for change or addition.

Students requesting a change of degree program are required to meet all readmission policies/procedures as indicated in the Graduate Catalog, prior to completing coursework.

**Second Master's Degree**

The following regulations govern the earning of a second master's degree from Chapman University:

1. The second master's degree may be awarded only in a distinctly different area, i.e., the student would not be awarded two master’s degrees in education in differing areas of emphasis.

2. The student must meet all specific requirements for the second master’s degree not already satisfied by the first.

3. The student may not use more than 12 credits of the first master’s degree to satisfy the requirements for a second master's degree at Chapman.

4. In addition, a minimum of 24 non-duplicated credits must be taken for the second master’s degree.

**Second Emphasis Area**

Students completing a second emphasis area within one master’s degree program may not use previously completed coursework for one emphasis to fulfill the requirements of a second emphasis.

If a comprehensive examination is required for the second emphasis area, the student will be required to complete the examination for each emphasis.

**Transfer Credits and Concurrent Enrollment**

1. Some degree programs permit 6-12 semester credits to be transferred into their degree program. Some degree programs limit transfers to elective credit only. Consult the appropriate program section of the catalog. Students are responsible for all material covered on the comprehensive examination as required by specific master’s degrees.
2. Students who wish to transfer prior coursework are required to petition for transfer within two terms after achieving regular admission.

3. The coursework must be taken at a regionally accredited institution and be graduate level and/or accepted in a master’s degree program. Correspondence and extension courses are not transferable.

4. Credit is not awarded for experience, including fulfillment of prerequisite requirements.

5. A grade of no less than 3.00 “B” must have been earned in the course presented for transfer for all master’s degrees. Credit or Pass coursework is not transferable.

6. The coursework must be relevant to the degree program.

7. Transfer of coursework to fulfill required courses is not advised. Please see specific programmatic sections for additional information.

8. The coursework must have been taken within seven years of completion of the degree program for which the course is being requested for transfer credit.

10. If the credits accepted in transfer are not the equivalent of semester units, additional coursework must be taken to complete degree credit requirements.

11. Requests for transfer of military coursework will be considered as fulfilling prerequisites and elective requirements only (no core courses) for those programs which accept military credit. Coursework must meet all other transfer requirements.

12. In the event that the content of one or more of the required courses is waived but the coursework is not accepted in transfer, the student must select a substitute with the approval of the Program Chair for additional credits.

Change of Address
Students must notify the University of any change of address. This can be done via Web Advisor or through the local campus.

Inter-campus Transfer
Students wishing to transfer from one University College campus to another must submit a Campus Transfer Request form to the new campus. The new campus will request a copy of the student file. Students wishing to transfer from a University College campus to the Orange campus must contact the Admissions Office at the Orange campus.

Confidentiality of Student Records
(See Confidentiality of Student Records in the General Information section.)
Attendance Policy
Class attendance policies are determined by each instructor and shall be included on the course outline distributed during the first week of each class. The University recommends as a minimal policy that students who are absent 20% of the course should be failed.

Registering for Classes
Students register for each term via Web Advisor or at their campus location. Registration is not complete until all charges are paid or arrangements for payment have been made with the Student Business Services staff by the add/drop deadline. Students who wish to register after the add deadline, must petition and pay a late registration fee if approved. See campus schedule for registration deadlines.

Add/Drop Procedure
To add a class, a student must do so through Web Advisor or submit an Add/Drop form to the campus administration office by the end of the first week of the term.

To drop a class a student must do so through Web Advisor or submit an Add/Drop form to the campus administration office by the end of the second week of the term. Drops that are officially processed prior to or by the end of the second week will not appear on the student's transcripts. Students that wish to withdraw from a course must submit an Add/Drop form between the third and seventh week of the term. A grade of "W" will appear on the student's transcripts indicating the withdrawal. Students cannot drop a course beyond the seventh week of the term. It is the student's responsibility to officially withdraw from a course. Failure to attend a course does not constitute a withdrawal from a course. Students who stop attending courses without officially withdrawing will receive a grade of "FW" (failure to withdraw). A grade of "FW" is calculated as 0.00 in student's grade point average.

Administrative Drop
Students who do not attend a class during the first two weeks of classes will be administratively dropped, unless they make arrangements with the instructor prior to the first day of class. Contact may be made in-person, by mail, email, fax, telephone or Web Advisor. A student who stops attending classes without notifying the University will receive a grade of "FW" (failure to withdraw). A grade of "FW" is equivalent to a failing ("F") grade and is calculated as such when determining grade point averages.
Students must officially withdraw before the end of the seventh week of classes in order to avoid being responsible for a grade in their classes. Although a student will be unable to receive a "W" grade, financial aid recipients who wish to withdraw after the seventh week should contact the Office of the Registrar in order to retain their financial aid for the term in which they are withdrawing.

**Interrupted Enrollment**

Students may find it necessary to interrupt progress during their course of study, leave Chapman and decide to return at a later date. Students who leave the University in good standing and return within two years retain the program requirements of their designated catalog year.

The University may require students to adopt the catalog year program requirements at the time of their return if a program has become impacted or changed by external regulatory agencies.

If students take coursework during their absence from the University, they must provide transcripts of that coursework to the Registrar's Office prior to their return. Non-satisfactory performance or issues of academic integrity may nullify the student's eligibility to return.

**Re-admission**

Students returning after a two year absence from the University are required to submit a full application for re-admission and must meet all current admission entrance requirements.

**Continuous Enrollment Fee**

Students who have previously registered for a project but who have not completed the requirements are required to submit a continuous enrollment fee for each term the project remains outstanding.

The fee for continuous enrollment is equal to one credit of tuition charged per program and will allow students to remain in active status as well as enable them to utilize University resources for completion of the project.

**Seven Year Limitation**

All requirements for graduate degrees and credential programs, including courses accepted for transfer credit from other institutions, must be completed within a seven-year period. Interrupted enrollment does not alter the seven year period for completion of all graduate degree requirements.

**Grading Symbols**

- **A Exceptional performance** indicates consistently excellent performance and distinctly superior quality of work.

- **B Good performance** indicates overall satisfactory performance in completing course requirements at the level expected for an advanced degree.

- **C Substandard performance** indicates performance below the standard necessary for an advanced degree; while credit toward graduation is awarded for
most courses, some courses must be repeated. No grade below “C” is acceptable toward a degree program.

**F Failure** indicates failure to satisfy minimum course requirements. No credit toward graduation is awarded.

**I** is a grade given when the student has been unable to complete the requirements of the course owing to illness or other extenuating circumstances. It is never a final grade. Failure to remove an “I” within the prescribed time results automatically in an “F” for the course involved. Upon satisfaction of course requirements, an “I” may be annotated with any one of the other grade symbols.

**W** signifies that a student has withdrawn from a course in the prescribed manner.

**FW** is assigned at the instructor’s discretion to students who cease attending part way through the term without submitting a Change of Program form to withdraw. It is computed in the grade point average as an “F”.

**P** is for Pass, a grade given for satisfactory completion of a course. Grade points are not assigned and it is not computed in the grade average.

**NP** is for No Pass, a grade given when the requirements for credit in the course have not been satisfied. Courses taken with this grade are not calculated in the student’s grade point average but are considered by the Academic Standards Subcommittee regarding student continuance.

**SP** is for Satisfactory Progress. This grading symbol is used to indicate a student is progressing toward the completion of a course which does not end by the normal term ending date or of a thesis or project. It is never a final grade. Upon completion of the course or thesis project, the SP grade is replaced with a letter grade, HP, P, or NP grading symbol. No grade points are assigned for HP, P, or NP grades.

**NC** is given in those circumstances where a student’s progress towards completion of a thesis or project is considered inadequate by the thesis committee. The student is required to repeat the thesis course. This grading symbol is not punitive and grade points are not assigned.

**AU** is for audited coursework. No grade or credit is awarded to students for auditing, and courses are not used in computing the grade point average.

A Pass or No Pass grade may be used for any course below the 400 level.

Credits attempted or earned on the Pass “P” or No Pass “NP” basis are not used in computing the grade point average.

Credit by examination cannot be used for degree credit. **Note:** By action of the Curriculum and Academic Committee, all post-baccalaureate work must be taken for a letter grade with the exception of the following: CCNU 575, 576, 652, 653, OLCU 681, PSYU 688, 689, 690.
Grading System
All grades are on a 4.0 scale

\[
\begin{align*}
    A &= 4.0 \\
    A- &= 3.7 \\
    B+ &= 3.3 \\
    B &= 3.0 \\
    B- &= 2.7 \\
    C+ &= 2.3 \\
    C &= 2.0 \\
    C- &= 1.7 \\
    F &= 0.0
\end{align*}
\]

Courses Repeated for Higher Grades
Except as specified by department or school, any graduate-level course number 400-600 at University College may be repeated to improve the grade. The lower grade remains on the record with a notation that the course has been repeated. Only the higher grade and credit are computed in the grade point average. Credit is given only once for a repeated course, except as noted in the course description. It is recommended that a course be repeated as soon as practical if it is to be taken for a higher grade. In exercising this option, a graduate student must repeat the course at Chapman University College.

Incompletes
The grade of Incomplete may be assigned by an instructor if a student, through circumstances beyond his or her control, has not completed a small portion of a course by the conclusion of the term. The student must request in writing the grade of Incomplete and must propose a date acceptable to the faculty member by which the missing work will be completed. Failure to complete all coursework by the agreed-upon deadline will result in the assignment of a grade of "F". A grade of Incomplete may not be assigned in order to give a student a chance to do more work to improve a grade.

The deadline for removal of an Incomplete is one year from the first day of the term in which the Incomplete was recorded, unless a shorter period of time is specified by the instructor. The deadline determined by the faculty member must be specified on the Report of Incomplete form, which may be obtained in the campus administrative office. A copy must also be provided to the student. No extension will be granted for more than a full calendar year from the date of original enrollment.

Reading and Conference Courses
Reading and conference courses are offered only when absolutely necessary to graduate students with an overall grade point average of at least 2.75. The courses may be taken only for the purpose of meeting graduation or credential requirements by students who could not meet the requirements because of circumstances beyond their control. They are not offered to resolve scheduling conflicts with other classes, or work, or to complete a schedule. To enroll in reading and conference courses, students must obtain a Request for Course by Reading and Conference form from their campus administration office. A minimum of 5 hours of instruction for each credit is required for reading and conference courses.
Independent Study and Research
Independent study and research is offered to upper-division and graduate students with overall grade point averages of at least 3.0 “B”, to research particular topics that are not provided for by regular curriculum offerings. To enroll in independent study and research, a student must obtain an Independent Study and Research form from their campus administration office. A minimum of 5 hours of instructor-student contact for each hour of credit is required. Students should spend 40 to 50 hours in instruction and research for each credit of independent study.

Standards of Academic Integrity
As a community of scholars, Chapman University College emphasizes the mutual responsibility of all members to seek knowledge honestly and in good faith. Students are responsible for doing their own work, and academic dishonesty of any kind will not be tolerated anywhere in the University. In order to safeguard the conditions under which scholarship is performed, measured, and evaluated, the following will serve to define academic dishonesty, to identify procedures for hearing cases involving academic integrity violations, and to give suggested guidelines for sanctions according to the offense.

A. Academic Integrity Violations
Academic dishonesty can take a number of forms. It includes, but is not limited to, cheating on a test or examination, claiming the work of another as your own; plagiarizing any paper, research project, or assignment; or falsely submitting material to fulfill course requirements.

Cheating includes unauthorized copying from the work of another student, with or without that student’s consent; using notes or other unauthorized material during a test period, and giving or receiving assistance from another when it is expected the student will perform his or her own work.

Falsifying data to show either the process or the product of scholarly examination to be different from what actually occurred is also considered dishonest. This includes falsely reporting attendance or participation in any field-work experience.

Students may not submit work done in one course to satisfy the requirements of another course, unless both instructors agree beforehand to accept such work. Forged or altered documents may not be presented. This includes transcripts, add/drop forms, or any academic form which has been falsified or on which a professor’s signature, or anyone else’s signature, has been forged or altered.

Failure to report any previous academic work at another college or University is also considered a violation of academic integrity.

B. Procedures for Hearing and Investigation
In cases involving academic integrity violations, the appropriate action is initiated by the course instructor. If the instructor believes a student has violated the University standards, the following action should be taken.
1. The instructor must contact the student(s) to discuss the possible violation. If the transgression occurs during class, as during a test or examination, the instructor should deal with the situation at that time. Otherwise, the student(s) will meet with the instructor for the purpose of settling the issue of guilt or innocence. If the student(s) admits guilt, or if the instructor and student(s) involved agree a violation took place, then an appropriate sanction may be set at that time. A report of this action will be filed with the appropriate campus and Division Chair.

2. If the student(s) does not admit guilt, if an agreement upon sanction cannot be reached, or if any party does not agree with the resolution of the specific issue of academic integrity, then the matter will be taken up with Division Chair. In this case, the Chair will meet with the involved faculty member and the student(s) in an effort to resolve the matter, and initiate whatever action is deemed appropriate.

3. If there is dissatisfaction with the results of a meeting with the Division Chair, any of the parties may request a hearing through the University College Academic Standards Subcommittee. In this instance, the committee will take whatever action is deemed necessary to answer questions and determine the truth of each particular case.

4. Finally, if any party still feels extenuating circumstances or new information was not adequately considered by the Academic Standards Subcommittee, or that the sanctions imposed are unfair, the matter may be brought on appeal to the Dean of University College for final disposition. At this juncture, the Dean will then take whatever action is deemed appropriate. The Dean’s decision is final and binding.

In all cases of alleged violations of academic integrity it is vital to maintain confidentiality. None of the parties involved should discuss the issue outside the above procedures.

Dismissal for a violation of academic integrity will be noted on the transcript.

**Faculty Rights and Procedures Concerning Student Classroom Behavior**

Faculty members are responsible for ensuring an effective learning environment for all students in their classes, which encourages active student participation, including the right to raise questions and challenge information. Hence, faculty members also have the responsibility and authority to maintain appropriate student behavior. Classes are defined as including laboratories, internships, field placements, or any settings that can be designated as a learning environment, such as travel studies and field trips.

Consequently, if a student is considered to be threatening or disruptive in the classroom, behaves in a way that interferes with the learning of other students, or refuses to fulfill the academic requirements of the course, the faculty member has the right to have the student who demonstrates such behavior removed from the class, either by administrative withdrawal or by making arrangements for the
The faculty member should immediately report the matter to Division Chair and Campus Director.

If the student wishes to appeal the decision of the faculty member, he/she must submit the appeal in writing to the Division Chair within five working days of the decision. The Division Chair will then conduct an investigation and report to the Dean. If the Division Chair determines that the faculty member is possibly at fault, the Dean may address the situation directly with the faculty member or may return the matter to the Division Chair for disposition. If the student is dissatisfied with this outcome, he/she may submit a written appeal to the Provost, whose decision in these matters is final and binding. During this period of appeal, the student may not return to class. Even if the student’s appeal is successful, the student may not return to the class, unless the faculty member has specifically agreed to this. If the Provost upholds the faculty member’s original decision, the student may still be subject to the student conduct system for further conduct review at the discretion of the Division Chair.

Grade Review Policy
Faculty have the final authority in assigning student grades except for cases involving clear evidence of capricious grading or failure to follow the professional standards of a discipline or field. All requests for review of grade must be filed within 30 days from the date that the grade was assigned.

Faculty members may change final grades after submission to the Office of the Registrar only for clerical error. Once a grade is submitted, additional work may not be assigned to enable the student to receive a higher grade.

However, a student who believes he or she has received a grade that is capricious or based on standards that are not in line with the professional standards of a discipline or field may appeal personally to the instructor for an explanation of the grade and for possible reconsideration.

If, after meeting with the faculty member, the grade dispute is not resolved, the student may submit a written request for review to the Division Chair for further consideration. If there is judged to be merit in the student’s request, the chair may request that the instructor reconsider his/her grade assignment. If the matter is resolved, the Chair will notify the Registrar of the change in grade. If the matter is not resolved the student may submit a request for review to the Academic Standards Subcommittee. The written request must state the reasons for the request and provide evidence that the student has attempted to find remedy by discussing the matter with the instructor and the Division Chair. Specific and credible evidence that a grade in the course may have been assigned capriciously or outside the professional standards of a field or discipline must be provided.

The Academic Standards Subcommittee will carefully review the student’s documentation as well as the documentation provided by the instructor and also may request an opinion from the Division Chair. If the committee determines that
there is compelling evidence that the grading was capricious or outside of the expected disciplinary or field standards, it will request that the Division Chair submit a grade change to the Registrar and notify the instructor of its decision. Decisions rendered by the Academic Standards Subcommittee are final.

Probation and Dismissal
The following are University College guidelines; some programs specify more stringent policies. Please refer to appropriate program section.

1. A cumulative grade point average of 3.00 “B” based on all coursework applicable to the graduate degree is required, excluding prerequisite courses.

2. Please see the credential section for more specific information concerning grade and quality requirements for the credential program.

A student whose cumulative GPA falls below 3.0 will be placed on probation. Once on probation, a student must obtain a term GPA of 3.0 or higher for each of the next three terms and must have a cumulative GPA of 3.0 or higher by the end of the third term. Failure to do so may result in dismissal.

The action of dismissal will be placed on the official transcript. A student who has been dismissed may not continue in coursework and will be administratively withdrawn.

Academic Appeal
(See Grade Review Policy and Probation and Dismissal policy for specific requirements.)

Each student has the right of academic appeal. Petition forms are available at University College campuses.

For academic matters, the process begins with the faculty member involved. Appeals are submitted to the Division Chair, Dean and then to the Academic Standards Subcommittee. Appeals to the decisions of the Academic Standards Subcommittee and the Division Chairs are made to the Dean of University College.

For matters concerning disabled student services, students should contact the director of the Center for Academic Success at (714) 997-6828.

Appeal Deadlines
A student wishing to submit an appeal must present a petition and all relevant documentation within 45 days of notification of the action the student is appealing.

Requests for additional information must be provided by the student to the University within 30 days of receipt of request; failure to provide such documentation will result in a denial of the appeal.

Students who are dissatisfied with the action taken on their appeal have a maximum of 30 days after receipt of notification to request a reconsideration. Additional documentation or new information will be required.

Appeal petitions will receive a response as quickly as possible and no later than
30 days of receipt of the petition by the Academic Standards Subcommittee.

Comprehensive Examination
1. Master's degree candidates must pass a comprehensive examination as required by the specific degree program.
2. Successful completion of coursework does not alone assure the candidate of passing the comprehensive examination. This examination demonstrates the independent ability of the student to synthesize and present adequate and appropriate knowledge without the focus of a course content outline or an instructor’s prompting. The student must show the ability to cogently apply theory to a variety of situations and applications. Program faculty and advisors do not “tutor” students regarding specific questions on the examination either prior to or following the exam.
3. Students must have achieved a cumulative GPA of 3.00 “B” and must have completed all program required courses to meet the eligibility requirements to take the comprehensive examination. Each program has specific eligibility requirements which must be fulfilled prior to the date of the examination. Please consult the appropriate section of the catalog.
4. An application form must be submitted and a fee paid by the student to take or repeat a comprehensive examination. In addition, if the examination is not taken on the date for which the student applied, a new application must be submitted. Applications must be received by the campus before or on the posted deadline date. The comprehensive examination may be repeated at the next offering, subject to additional conditions the degree program may impose.
5. The comprehensive examination is administered in a controlled setting providing equity for all students. If the student has a demonstrated disability which inhibits performance on this controlled exam, the student must make arrangements for the appropriate accommodation when registering for the exam. Specific documentation of the disability will be reviewed by the Director of the Center for Academic Success who will approve appropriate accommodations if warranted.
6. The comprehensive examination is a summative evaluation. Unlike regular coursework and formative assessments taken during completion of the degree, it is designed to be an integrative, independent endpoint assessment of the students’ cumulative knowledge. Comprehensive examinations are evaluated in a controlled setting with double-blind anonymity. Students receive a PASS/FAIL grade with generic feedback regarding the adequacy of the responses.
7. Students have multiple opportunities to take the examination within the seven-year period in which all degree requirements must be completed. After the second failure, specific preparation requirements may be specified, such as auditing or repeating coursework.
8. Students with comprehensive examination or thesis options may not switch to a different option once begun.
Intent to Graduate
Although a student may have completed all requirements, graduation is not automatic. Every degree candidate is required to file an Intent to Graduate form with the Office of the Registrar and pay a fee. If the degree is not completed on the date for which the student applied, a new intent must be submitted. Deadlines are published in the university calendar.

Diplomas and Transcripts
Diplomas are mailed out approximately 4 weeks after the date of conferral of the degree. This allows time for confirmation from the Office of the Registrar that all degree requirements have been met. Under no circumstances will a diploma be released prior to the conferral date.

Transcripts from other institutions which have been presented for admission or evaluation become part of the student's academic file and are not returned or copied for distribution.

Diplomas or copies of transcripts will not be released to any student with an unpaid balance to Chapman or a Chapman-sponsored agency. Presently enrolled students may print unofficial copies of transcripts at any time via Web Advisor. Official transcripts are issued only with the written permission of the student. Contact the Registrar homepage or office for further processing and fee information.

Graduation and Commencement
University College confers degrees five times during the academic year. See academic calendar for dates. All degree requirements, including incompletes, internships, counseling hours, etc., must be completed by the last day of the month in which the degree is to be conferred.

Although a student may have completed all requirements, graduation is not automatic. Students who intend to graduate must file an Intent to Graduate form with their campus and pay the graduation fee.

Degrees are conferred at the end of each academic term however formal commencement ceremonies are held only in the Spring. Students may participate in the regional Spring graduation ceremony if they are scheduled to complete all program requirements by the end of Term C of the year in which they graduate. Students receiving degrees at mid-year or other terms are entitled to participate in the following Spring commencement ceremonies.
Graduate Degree Programs

Master of Arts in Career Counseling

Judy Matthews, Ph.D, Division Chair

University College offers a Master of Arts in Career Counseling. The graduate program in career counseling is designed to provide the student with the academic and professional training necessary to be a career counselor.

The program is designed for individuals seeking academic advising and/or career development positions in a variety of settings - including colleges and universities, business, industrial and organizational settings, employment agencies, and private practice.

Admission to Program and Prerequisites

Admission to the program may be achieved by completing the following requirements:

1. Satisfactorily fulfill graduate admissions requirements for University College as stated in this catalog. (See the Graduate Admissions section.)

2. If the student uses Option Two in the CUC graduate admissions requirements, submit passing scores from one of the following standard admissions tests:
   - **Graduate Record Examination (GRE):** achieve the required minimum scores on two out of three of the subsections of the GRE or score at or above the 60th percentile on any one of the Graduate Subject Tests. (Minimum score for quantitative or verbal sections is 450. Minimum score for analytic writing is 4.5.)
   - **Miller Analogies Test (MAT):** achieve a minimum scaled score of 400.

3. If prerequisites are not completed at the time of admission, they must be completed within the first year of enrollment.

Specific Requirements

**prerequisite course (3 credits)**
- PSYU 203 Statistics for the Behavior Sciences or
- MATU 203 Introduction to Statistics or
- PSYU 304 Research Methods for the Behavioral Sciences 3

**required courses (27 credits)**
- CCNU 572 Career Counseling Theories and Practices 3
- CCNU 574 Career Information and Assessment 3
- CCNU 577 Technology, Social Change, and Career Development 3
- CCNU 596 Seminar in Career Counseling and Development 3
GRADUATE DEGREE PROGRAMS

Choose one emphasis area

Higher Education Emphasis (12 credits)
Students who wish to practice career counseling in two- or four-year university settings are required to take the following courses:

- CCNU 573 Counseling in Higher Education 3
- EDUU 600 Research & Evaluation Methods 3
- CCNU 652 Field Practice (or internship) I Career Counseling 3
- CCNU 653 Field Practice (or internship) II (Higher Education) 3

Organizational and Private Practice Emphasis (12 credits)
Students who wish to practice career counseling in organizational or private practice settings are required to take the following courses:

- CCNU 575 Field Practice (or internship) I Career Counseling (Organizational and Private Practice) 3
- CCNU 576 Field Practice (or internship) II Career Counseling (Organizational and Private Practice) 3
- HRCU 680 Organizational Research Methods 3
- HRCU 613 Seminar in Organizational Behavior 3

total credits for the degree (excluding prerequisites) 39

Internship Requirement
Students in the Master of Arts in Career Counseling program are expected to complete a minimum of 600 hours of internship. All students are expected to gain experiences with children, youth, and adults of a variety of ages, ability levels, cultural heritages and socioeconomic backgrounds.

Comprehensive Examination
Successful completion of a comprehensive examination is required for degree conferral. Students must be advanced to candidacy and have a cumulative GPA of 3.00. Students in career counseling must have completed 24 credits including prerequisite courses and all core courses (except HRCU 644) to meet the minimum eligibility requirements to take the comprehensive examination. (See the Academic Policies and Procedures section for additional guidelines.)

Certificate in Career Counseling
The candidate must possess a baccalaureate degree and complete the requirements for regular admission in order to pursue the graduate certificate in career counseling. No transfer credit may be used.

One elective course in area of emphasis 3

**total credits for the certificate program** 15

This coursework is also applicable to the Master of Arts in Career Counseling if the following requirements are met:

1. All certificate coursework applied to the master's program must be completed with a grade of “B” or higher, for each course.
2. The prerequisite course must be completed.
3. All master's degree requirements must be completed within a seven-year period.
Master of Arts in Criminal Justice

John Freed, Ph.D., Division Chair of Arts & Sciences
Stephanie Amedeo Marquez, Ph.D., Program Chair
Robert Hill, D.P.A.
Neil Lingle, M.S.
Myron Orleans, Ph.D.
Richard Utman, J.D.

The master of arts program in criminal justice is committed to the interdisciplinary study of criminal behavior and society’s response to it. The program welcomes students who work within a criminal justice profession, as well as those who have had little or no previous exposure to the criminal justice system.

The master of arts degree in criminal justice prepares students for administrative, research, and teaching positions. It is primarily designed to foster a learning community of criminal justice professionals who will use cutting edge knowledge within law enforcement, correctional and legal arenas. Program graduates will also be prepared for admission to doctoral programs in crime and deviance, and for promotions within existing law enforcement, correctional and legal institutions.

Admission to the Program and Prerequisites
Admission to the program may be achieved by completing the following requirements:

1. Satisfactorily fulfill graduate admissions requirements for University College as stated in this catalog. (See the Graduate Admissions section.)

2. If the student uses Option Two in the CUC graduate admissions requirements, submit passing scores from one of the following standard admission tests:

   Graduate Record Examination (GRE): achieve the required minimum scores on two out of three of the subsections of the GRE or score at or above the 60th percentile on any one of the Graduate Subject Tests. (Minimum score for quantitative or verbal sections is 450. Minimum score for analytic writing is 4.5.)

   Millers Analogies Test (MAT): achieve a minimum scaled score of 400.

3. Two letters of recommendation from individuals who are familiar with the applicant’s academic/professional ability to undertake graduate study.

4. An autobiographical essay including the applicant’s background, personal and career goals, and outlining the primary factors underlying his or her decision to pursue a graduate degree in criminal justice. This essay should represent the student’s best writing ability and effort. Although no formal prerequisites are required for program admission, students lacking adequate preparation in specific areas may be required to complete additional coursework. Requirements for the degree include completion of a minimum
of 36 credits distributed between core and specialization courses in addition to successfully completing the two-term Graduate Project in Criminal Justice.

Coursework shall be substantially at the 500 and 600 levels. Only 400 level criminal justice courses crosslisted as 500 level courses may be taken for graduate credit; a maximum of 9 credits of such 400 level courses will be allowed toward the degree. These courses cannot have been completed for a baccalaureate degree; they must have been taken for graduate credit.

At least one of the following core courses must be taken before any elective courses are attempted: CJCU 500, CJCU 501, CJCU 503, CJCU 512, CJCU 514.

**required core courses (21 credits)**

Graduate Certificate in Administration and Leadership of Criminal Justice Organizations

The graduate certificate program in criminal justice policy administration and leadership of criminal justice organizations allows students who are in criminal justice agencies to acquire specialized skills in administration and leadership for use in criminal justice systems. It is designed for students who wish to exercise leadership in local, state, and federal government criminal justice programs.

Admission to the Certificate Program

Any student who meets the standards for regular admission may be admitted to the certificate program. Students who wish to pursue a CJMA may use the credits in the certificate program towards their Master's in Criminal Justice, if applicable.

Graduate Certificate in Criminal Justice Policy

The graduate certificate program in criminal justice policy allows students to hone skills in administration and general knowledge of public policy in criminal justice systems. It is designed for students who wish to seek positions in analyzing criminal justice policy or to conduct program evaluations in local, state, and federal government agencies. The certificate may also enhance the promotion potential of individuals currently occupying positions in which the analysis of criminal justice policy and research is used to guide criminal justice programs.
Admission to the Certificate Program
Admission to the certificate program is open to any student who meets the standards for regular admission. Students who wish to pursue a CJMA may use the credits in the certificate program towards their Master’s in Criminal Justice, if applicable.

Graduate Degree Programs in Education
• Master of Arts in Teaching (MAT) in Elementary Education with 2042 Multiple Subject Credential
• Master of Arts in Teaching (MAT) in Secondary Education with 2042 Single Subject Credential
• Master of Arts in Teaching (MAT) in Special Education with Preliminary Level I Education Specialist and 2042 Multiple Subject Credential
The Education Department offers Graduate Degree Programs in Education and California Commission on Teacher Credentialing (CCTC) approved Teacher Credential Programs and Certificate Programs in Education.

For those interested in becoming teachers at the elementary or secondary levels, Chapman's University College offers programs that lead to the Preliminary 2042 Multiple Subject or 2042 Single Subject California Teaching Credential. An Internship Program is available in both of these credential programs at most campuses. The 2042 Multiple Subject and the 2042 Single Subject California Teaching Credential can be earned simultaneous with the Master of Arts in Teaching (MAT) degree.

For those interested in becoming teachers in special education, University College offers the Preliminary Level I and Professional Level II Mild/Moderate and Moderate/Severe California Education Specialist Credentials. The two Preliminary Level I programs can be combined with either the 2042 Multiple Subject or the 2042 Single Subject Credential. These credential programs are available in a “credential only” format or in a Master of Arts in Teaching format. Students in a Preliminary Level I program may be eligible, under certain conditions, to participate in an Internship program.

Please note that these Special Education programs are not offered at all University College campuses.

For those interested in educational administration, University College offers the Preliminary (Tier I) and Professional Clear (Tier II) Administrative Services Credentials plus the Internship Credential for qualified candidates. A selection of Tier I courses may be integrated into the Master of Arts in Education (MAE) degree with an emphasis in Educational Leadership and Administration.

For those interested in school counseling or school psychology, University College
GRADUATE DEGREE PROGRAMS

offers the Pupil Personnel Services Credential and the Master of Arts degree in School Counseling. The Educational Specialist degree in School Psychology and the Master of Arts in Educational Psychology with the Pupil Personnel Services Credential in school psychology is also offered.

University College also offers the Master of Arts in Education (MAE) degree. The MAE is offered with emphases in Curriculum and Instruction, Reading, Educational Leadership and Administration, Instructional Technology and Professional Teaching Standards. Please note that some emphasis areas are not available at all campuses.

Finally, University College offers all Professional Clear Credential courses for those who hold a Ryan or 1059 preliminary credential, the CLAD Certificate and the California Professional Reading Certificate. These courses are offered at most campuses and some are available online.

Call 866-CHAPMAN for information regarding the campus nearest you and programs offered, to arrange an orientation, and to obtain an admission packet.

Education Division Policies and Procedures

Please note that the following sections provide general information regarding the policies and procedures of the Education Division. Some credential and graduate programs have additional or varying requirements that are specified in the Education Division Policies and Procedures Manual. Program requirements may be adjusted to reflect unanticipated changes in regulations issued by the California Commission on Teacher Credentialing.

Credential Programs in Education

All Multiple Subject, Single Subject and Education Specialists credential candidates, in order to meet the No Child Left Behind guidelines, must prove subject matter competency in order to be considered “highly qualified” teachers. Single Subject candidates can meet the requirement through an academic major or coursework equivalent to an undergraduate academic major or a graduate degree in an academic area. Both Single Subject and Multiple Subject candidate can meet the subject matter competency requirements through taking and passing a rigorous state academic subject test (CSET or Praxis). Credential candidates must also complete an approved credential program in order to apply for a CA credential. Students seeking one or more of these teaching credentials must make formal application to the teacher credential program before beginning any coursework other than prerequisites.

*Students admitted to credential programs are not automatically admitted to graduate degree programs.

Admission/Program Requirements

1. Single Subject candidates must provide evidence of having subject matter competency through academic coursework or must provide evidence they
have registered for, have taken, or have passed some portion of the appropriate subject matter examination (CSET or Praxis) prior to admission to the program.

Multiple Subject credential candidates must provide evidence that they have registered for, have taken or have passed the appropriate subject matter examination (CSET) prior to admission to the program.

2. Applicants must complete the formal application process, with all required documents including official (sealed) transcripts, a “Statement of Intent” and three letters of recommendation. Candidates must be admitted into the credential program before enrolling in any education courses other than EDUU 395, 510, 513, 514, 551, or 570 (for Education Specialist only) and before enrolling in a second term of classes.

3. All applicants, including those transferring from another institution, must successfully participate in an intake interview.

4. Applicants transferring from another institution’s credential program must supply a letter from that institution attesting to the applicant’s good standing in their program.

5. Prior to admission or within the first term of enrollment, applicants must complete an early field experience in a public school educational setting that reflects the credential sought (EDUU 395 or waiver).

6. Applicants to a credential program must possess a grade point average of 2.75 calculated over the most recent 60 semester (or 90 quarter) credits completed; this may include an average of up to 15 graded semester (22.5 quarter) credits of graduate level coursework that are applicable to a graduate degree program at an institution other than Chapman. The graduate level coursework must have been completed prior to consideration for admission to Chapman.

7. Applicants to the 2042 Single Subject Credential program who are using an academic major or coursework for subject matter competency must also have a cumulative grade point average of 2.75 in their major field to be admitted.

8. Applicants with GPAs between 2.50 and 2.74 can qualify for admission to a credential program by earning a passing score on one of the qualifying examinations listed below. A passing score will fulfill both the admission and the major grade point average requirements. Applicants may not enroll in any 500 level course other than those listed in #3 above until successful completion of an entrance examination:

   Graduate Record Examination (GRE): any two of the three GRE scores (Verbal, Quantitative or Analytical Writing) may be used to meet credential program admissions standard. The minimum acceptable score for the Verbal and Quantitative sections is 450. The minimum acceptable score for the Analytic Writing is 4.5.

   Miller Analogies Test (MAT): achieve a minimum scaled score of 403
Subject Matter Competency Examinations: successfully complete appropriate California Subject Examinations for Teachers (CSET).

*Candidates with a GPA lower than 2.5 may, under certain conditions, petition for admission consideration under an “exceptional admit” category. Candidates must have passed the CBEST and one of the approved graduate admission examinations specified in number 7 above to be considered for an “exceptional admit”. The Education Department encourages candidates to take the appropriate Subject Matter Competency Examination as a way to demonstrate suitability for admission to a credential program.

California Basic Education Skills Test (CBEST)
A passing score on the California Basic Education Skills Test (CBEST) is a prerequisite for full admission to all credential programs. All credential candidates must provide proof that they have passed the CBEST prior to enrolling in any 500 level or above coursework other than EDUU 510, 513, 514, 551 or 570 (Education Specialist Credential, only) and the CBEST must be passed prior to enrollment in a second term of coursework. The CBEST is given six times a year. The purpose of the test is to assure that teachers are competent in reading, writing and mathematics. Copies of the CBEST Bulletin are available at each University College campus.

Subject Matter Competency
All candidates must prove subject matter competency either through an academic major in a subject matter area or major course work equivalent to a undergraduate academic major or a graduate degree in an academic area (Single Subject Credential Program only) or must pass the appropriate subject matter examination (CSET) and any other required examinations. Evidence of academic major/coursework as completion of the appropriate examinations, with a passing score, must be on file at the campus of residence prior to application for an Internship Credential or Directed Teaching. Subject Matter Examination results can be no older than five (5) years at the time of application for the credential.

Certificate of Clearance
A Certificate of Clearance application (including fingerprints) or a copy of a valid Emergency Permit must be submitted to the campus Education Department at the time of the intake interview or by the beginning of the first term of enrollment.

Tuberculosis Test
A current “negative” tuberculosis test, that is not more than two years old and covers the student teaching/internship period must be submitted to the campus Education Department at the time of the intake interview or by the beginning of the first term of enrollment. A person whose tuberculosis test is “positive” can submit results from a chest x-ray examination that verifies the candidate does not have active tuberculosis.
**U.S. Constitution Requirement:**
All candidates must complete, with a grade of “C” or better, an approved course or pass a college level examination covering the U.S. Constitution prior to filing for a credential.

**Transfer Credit**
Teacher preparation coursework is not automatically transferable from another institution. A request to transfer coursework may be granted IF a) the course(s) can be shown to be equivalent in content to the Chapman course(s); b) a grade of “B” or better was earned and documented with an official transcript; and c) approved by Division Chair. Credential courses that are more than seven years old prior to application for the credential cannot be transferred into the program. There is no time limit on prerequisite courses.

**Residency**
Candidates entering the Multiple Subject or Single Subject Credential program from another institution must take EDUU 510 and EDUU 511 at Chapman University College and will be required to complete at least 18 semester credits of education coursework toward the Preliminary Credential in residence at Chapman University College prior to Directed Teaching.

Candidates entering the Level I Special Education Preliminary Credential program who do not hold a valid preliminary Multiple or Single Subject Credential must take EDUU 510 and EDUU 511 at Chapman University College. All students entering this program are required to complete 12 units of their coursework plus Directed Teaching at Chapman University College.

**Scholarship**
The Education Department has scholarship requirements that supercede the Academic Policies of University College. For University College grading policies please refer to the Academic Policies and Procedures section of this catalog. A grade of “B-” or higher must be earned for EDUU 510. Students in all Education programs are expected to maintain “A” and “B” grades; a grade of “C+” or lower is considered unacceptable and may result in dismissal from a program. A student receiving a grade of “C+” or lower in a course that is required for a preliminary credential will be placed on academic probation. The terms of probation require the student to retake the course when offered and earn a grade of “B-” or higher. The student’s academic advisor will monitor the progress of the student during the probationary period.

**Class Attendance**
Education Department policy stipulates that a student who misses three class sessions in any course must either withdraw from the course or receive a failing grade.
Candidate Dismissal
A student will be dismissed from the program who:

1. Receives a grade of “C+” or below in more than one class.
2. Earns below a “B-” in EDUU 510 or a “No Pass” in Supported or Directed Teaching.
3. Receives a grade of “C-” or below in any class. In compliance with CCTC regulations, Chapman University College has an obligation to dismiss a candidate who is deemed unsuitable to be a teacher. Credential candidates must possess the personal qualities and characteristics that are deemed suitable for working with children, youth and adults in educational settings.

The institution reviews each candidate’s competence throughout the program, informs candidates of their strengths and weaknesses, provides opportunities for corrective learning, places marginal candidates on probation and dismisses candidates who are determined to be unsuitable as professional educators. Candidates have the right to appeal a dismissal.

In accordance with the California Commission on Teacher Credentialing Standard 5, the University has both the right and obligation therefore, to evaluate continually, and, if necessary, to terminate the student’s participation in the graduate programs at any point for ethical violations and/or personal unsuitability for the profession.

Note: Candidates who have been convicted or have pleaded nolo contendere for any violation of the law, other than a minor traffic offense, may not be eligible for a California Teaching Credential.

DIRECTED TEACHING
Multiple Subject, Single Subject or Education Specialist
Applications for Directed Teaching must be filed with the fieldwork coordinator during the first week of the term preceding the term in which a student plans to begin student teaching (or by the deadline established at the campus of residence). Subject matter competency must be met prior to enrolling in Directed Teaching.

1. Directed Teaching consists of two terms of full-day directed teaching at two different grade levels in at least one assignment that meets multicultural criteria. If the candidate is in one of the combined special education programs, one assignment must be in a special education setting. For special education only credentials, the candidate has only one term of full-day directed teaching assignment that meets the multicultural criteria.
2. Directed Teaching placements must be completed in public schools.
3. The program or fieldwork coordinator, not the student, at each location will make the Directed Teaching placements.
4. University personnel will supervise all student teachers.
5. Directed Teaching placements in special education classrooms are not
acceptable for the Single Subject only or Multiple Subject only Credential. Summer school placements are not acceptable unless in year-round public schools.

Under certain conditions a candidate may petition to waive one term of Directed Teaching (a maximum of 3 credits for EDMU 582 or EDSU 592). Documented evidence must be provided that the candidate has completed one full year (175 days) of satisfactory teaching as a contracted full-time teacher prior to the commencement of Directed Teaching at Chapman University. This teaching experience must have been at an appropriate grade level and Single Subject candidates must have taught in the appropriate subject area. Neither substitute teaching, work as a teacher’s aide, nor various specialist-type teaching experience qualifies for a waiver. An exception may be made in a situation in which a district hires a full-time permanent substitute assigned to a single classroom for a full year and the candidate is evaluated by the same procedures as a contract teacher. This permanent substitute assignment must have been completed prior to the commencement of Directed Teaching at Chapman University.

**Supported Teaching**

A Multiple or Single Subject candidate who is hired as a full-time teacher by a public school district (or WASC accredited private school) on an Emergency Permit prior to completion of all credential coursework must immediately enroll in Supported Teaching (EDMU 580 or EDSU 590). A Chapman University College field supervisor will provide supervision and support on a regular and frequent basis. The credential candidate must take coursework while enrolled in Supported Teaching.

Multiple or Single Subject candidates who are teaching on an Emergency Permit may register for the remaining 6 credits of Directed Teaching (EDMU 583 or EDSU 593) after completing all but capstone course, completing a formal application for Directed Teaching, and providing proof of meeting subject matter competency requirements.

Candidate performance in Supported and/or Directed Teaching will be reflected with a grade of Pass or No Pass. A grade of Pass indicates that the candidate has demonstrated acceptable competency in meeting the required Teacher Performance Expectations (TPE) standards. A grade of No Pass indicates that the candidate has not met the TPE standards and must successfully complete additional Supported / Directed Teaching or may be dismissed from the program.

Special Education candidates who are teaching on an Emergency Permit may register for three credits of EDTU 590, Supported Teaching in the beginning of their credential program. Special Education Intern Credential candidates must register for EDTU 590, Supported Teaching (3 credits) during the first Term that they are actively engaged in classroom teaching. In each case, the candidates will be required to complete three to six credits of Directed Teaching in their credential area (EDTU 592-01, Mild/Moderate or EDTU 593-01, Moderate/Severe) dependent on specific program option at the conclusion of their coursework.
Exit Interview
After successfully completing Directed Teaching, each candidate is interviewed by the committee of educators to determine that the California Commission on Teacher Credentialing competencies have been satisfactorily met. Upon satisfactory completion of the exit interview, the candidate may make application to the CCTC for his/her earned credential through the University's Credentials Office.

INTERNSHIP CREDENTIAL PROGRAMS
Multiple Subject, Single Subject or Education Specialist
Chapman University College offers California Commission on Teacher Credentialing (CCTC) approved Internship Credential Programs in Multiple Subject, Single Subject and Education Specialist. The Internship Credential has the same legal status as the CCTC Preliminary Credential, except that it is only valid in one school district or consortium. For this reason, interns must have a contract before a credential can be issued. Each intern candidate must work under the direct and continuing supervision of a Chapman University Supervisor and District Support Provider (if appropriate) who provides general support at the classroom level of the cooperating school.

The intern assumes full teaching and legal responsibility for his/her classroom from the first day of the teaching assignment as a paid employee of the School District for at least one academic year. Interns register for 3 units of supported teaching upon entering the internship program and then register for additional units in each of their last terms.

Admission Requirements
To be admitted to an Internship Program a candidate must provide the following:
1. Proof of a bachelor’s degree from a regionally accredited institution and a GPA that meets program requirements;
2. Passing CBEST scores;
3. Proof of meeting subject matter competency;
4. Proof of meeting U.S. Constitution requirements;
5. T.B. clearance;
6. Copy of Certificate of Clearance or Emergency Permit;
7. Letter from the approved school district that states beginning date of employment and grade(s) and subject(s) to be taught;
8. Completed Application for Internship Credential (41-IHE Application).

All Internship candidates must meet the requirements for the program as detailed in the Chapman University Internship Credential Program Handbook and develop an Individual Support Plan with their advisor at the beginning of the program. See a faculty advisor for complete details to this credential option.
**Early Completion Internship Option**

Under the provisions of S.B. 57, Internship candidates may choose to take the Teaching Foundations Examination as an Early Completion Internship Option to their desired credential. All persons wishing to pursue the Early Completion Internship Option through the Education Division at Chapman University College must enroll in and be accepted to the regular Internship Program in Multiple or Single Subject.

Candidates who meet the admission requirements for an Internship Program but have not taken the Teaching Foundations Examination must begin and/or continue to take prescribed coursework in the credential program in order to maintain the validity of the Internship Credential (a candidate can choose to take the Teaching Foundations Examination at beginning or anytime during Internship Program).

Candidates who meet the admission requirements for the Internship Program and pass the Teaching Foundations Examination, will be required to register for 3 units of Supported Teaching (EDMU 580, Multiple Subject or EDSU 590, Single Subject). Interns will be observed 4 times by a Chapman University Supervisor and evaluated on their ability to demonstrate mastery of the Teacher Performance Expectations (TPEs) during the 8-week Supported Teaching experience. Based on the outcome of this evaluative process, an intern may be required to take additional coursework needed to develop mastery of the TPEs and/or Student Teaching.

Once the intern has satisfactorily demonstrated mastery of the TPEs, he/she will be required to complete and pass “Task 4” of the Teacher Performance Assessments.

Upon successful completion of “Task 4” the candidate will become eligible for recommendation by University College to the California Commission for Teacher Credentialing for their credential. See a faculty advisor for complete details to this program option.

**2042 Multiple Subject Credential Program**

The 2042 Multiple Subject Credential authorizes the holder to teach all subjects in a self-contained classroom, K-12; it is the credential typically sought by those who wish to teach in an elementary school (K-6). To obtain a 2042 Multiple Subject Credential, candidates must:

1. Pass the CBEST.
2. Pass the Multiple Subject CSET examination.
3. Complete the 2042 Multiple Subject teacher credential program that includes the coursework shown below.
4. Pass the state Reading Instruction Competence Assessment (RICA) examination prior to application for the credential. The RICA examination should be taken after completing EDMU 521.
5. Participate in intake and exit interviews.

6. Meet the U.S. Constitution requirement by completing appropriate coursework with a grade of “C” or better or by passing and approved examination.

7. **Added Single Subject Authorization:** Students who have completed the requirements for the 2042 Multiple Subject Credential can add a Single Subject Authorization to their credential by taking EDSU 530 or 531 and demonstrating subject matter competence through coursework or by passing the appropriate CSET.

**prerequisites (10-12 credits)**
- EDUU 395 Education Field Experience 3
- EDUU 413/513 Student Health, Safety and Physical Education 2
- EDUU 415/514 Physical Education for Elementary Teachers 1
- EDUU 451/551* Educational Application of Computers I 3
- PSYU 323 Child Development 3

**introductory block (9 credits)**
- EDUU 510 Introduction to Teaching 3
- EDUU 511 Collaboration for Inclusive Schooling 3
- EDUU 512 The Art and Craft of Teaching 3

**content area block (12 credits)**
- EDMU 520 Literacy and Language in K-8 Classrooms I 3
- EDMU 521 Literacy and Language in K-8 Classrooms II 3
- EDMU 522 Mathematics and Science in K-8 Classrooms 3
- EDMU 523 History, Social Science and Visual/Performing Arts in K-8 Classrooms 3

**capstone course (3 credits)**
- EDUU 540 Wisdom Through Practice 2

* A waiver of the technology requirement may be granted based on successful completion of the CSET Educational Technology Exam, documentation of completion of acceptable regular education computers in education coursework from an accredited college or university, or submission of an electronic portfolio (under certain conditions).

** Passage of CSET required prior to enrollment in EDMU 580, 582 or 583.
2042 Single Subject Credential Program

In California, the appropriate credential for teaching a specific subject, such as math or English, in a departmentalized (K-12) classroom is the 2042 Single Subject Teaching Credential. This credential is typically required of those who teach at the middle school or high school level. To obtain a 2042 Single Subject Credential, candidates must:

1. Pass the CBEST.
2. Possess a bachelor's degree with an appropriate academic major or equivalent coursework or pass the appropriate California Subject Examinations for Teachers (CSET).
3. Complete the Single Subject teacher credential program that includes the coursework listed below.
4. Participate in intake and exit interviews.
5. Meet the U.S. Constitution requirement by completing appropriate coursework with a grade of “C” or better or by passing an approved examination.
6. Added Authorization: A student who has completed the requirements for the Single Subject Credential can add a Multiple Subject Authorization to the credential by:
   a. taking EDMU 521 or passing RICA examination;
   b. taking EDMU 522 or 523;
   c. demonstrating subject matter competency by passing the CSET Multiple Subject exam.
7. Students who have completed the requirements for the Single Subject Credential can add a second Single Subject Authorization to their credential by passing the appropriate CSET.

** Subject matter competency must be met prior to enrollment in EDSU 590, 592 or 593.

Special Education – Education Specialist Preliminary Credential (Level I)

Chapman University College offers special education teaching credentials in two disability areas (Mild/Moderate or Moderate/Severe) and two general education areas (2042 Multiple Subject or 2042 Single Subject). A candidate may enroll in either a special education-only credential program or a “combined” special education and general education credential program. The special education-only program authorizes the holder to teach in special education only. The combined credential program authorizes the credential holder to teach in both special education and general education.

Students who choose to enroll in these credential programs have the option of completing the program in a “credential only” format or in a Master of Arts in Special Education format (please see MAT Degree Programs for details).

Candidates seeking to earn only the Education Specialist credential have the option of completing their credential with CLAD certification. Students who choose not to complete the CLAD option must complete an additional term of student teaching (6 credits) plus either EDMU 520 or EDSU 530 to replace the 9 credits of the CLAD coursework. The Education Department strongly recommends that students elect to complete the CLAD certification option.

Please note: The California Commission on Teacher Credentialing stipulates that
all candidates who complete any Level I Special Education Preliminary Credential MUST also meet the Level II Professional Credential requirements within five years of obtaining their first special education teaching position following the completion of the Level I Preliminary Credential and have two years of service as a special education teacher after receipt of the Level I Credential. (Complete information on the Level II Professional Credential follows this Level I Preliminary Credential information section).

**Residency Requirement**
Candidates entering the Level I Preliminary Education Specialist Credential Program are required to take EDUU 510 and EDUU 511 and a minimum of 12 credits of coursework plus Directed Teaching at Chapman University College. Candidates holding a valid California Teaching Credential are exempted from the EDUU 510 requirement. To obtain the Education Specialist credential, candidates must meet the following requirements:

1. Pass the CBEST.
2. Complete the requirements for EDUU 395 Education Field Experience or a Waiver.
3. Demonstrate subject matter competency by completing the subject matter requirements for either the Multiple Subject or Single Subject program, depending on which combined program the student has chosen. For Special Education only programs the student may choose to meet either the Single Subject or Multiple Subject requirements. If the candidate already holds a California teaching credential no additional subject matter requirement is necessary unless stipulated by the CCTC.
4. Pass the RICA Examination prior to applying for the credential. Candidates who hold a valid California Multiple or Single Subject Credential are exempted from this requirement.
5. Participate in intake and exit interviews.
6. BCLAD Authorization: The BCLAD is an optional authorization for individuals who are proficient in a foreign language. The BCLAD authorizes teachers for all classroom settings in which there are English learners including alternative bilingual education classrooms. Candidates for this certificate must pass an authorized Language Proficiency Examination.
7. Candidates entering a combined credential program are responsible for ALL program requirements outlined within that specific general education program.

**Option #1:**
Multiple Subject and Education Specialist Preliminary Credential (Level I) (Mild/Moderate and/or Moderate/Severe)

**prerequisites (10-12 credits)**

Recommended Program Sequence
Candidates may take only EDUU 395 and EDUU 510 and either EDUC 570 or EDUU 511 (if required) prior to passing the CBEST. If the candidate passes these courses with a grade of “B-” or higher, the remaining general education and special education courses may be completed.

Student Teaching - Special Education
Application for Supported or Directed Teaching must be filed with the fieldwork coordinator at the beginning of the term prior to the term in which a candidate plans to student teach (or by the deadline established by the campus of residence). The subject matter competency requirement must be met prior to enrolling in Directed Teaching.

Directed Teaching for the Education Specialist only consists of one term of full day directed teaching in a special education setting except for Option 3b, which requires two terms of full day Directed Teaching. Candidates in a combined program must complete one term of full day directed teaching in a special education setting and a second term of full day directed teaching in the appropriate subject matter (Multiple or Single Subject) area. These assignments must meet the multicultural criteria established by the Education Department. Directed teaching placements in Special Education classrooms are not acceptable for Multiple or Single Subject only credentials.

Directed Teaching placement should be completed in public schools. The Fieldwork Coordinator at each campus will make the Directed Teaching placements. The student never makes placement, although his/her requests will be considered. University personnel will supervise all student teachers.
Exit Interview
After the successful completion of Directed Teaching requirements, each candidate is interviewed by the program committee of educators to determine that the California Commission on Teacher Credentialing (CCTC) competencies have been satisfactorily met. Upon satisfactory completion of the Exit Interview, the candidate may make application to the CCTC for his/her earned credential through the University’s Credentials Office.

Special Education – Education Specialist Professional Credential (Level II)

Induction into the Education Specialist Professional Credential Program (Level II) must occur no later than 120 days following initial employment on the Preliminary (Level I) Credential. The Level II Credential Program requires a minimum of two years and a maximum of five years to complete. The five-year time limit begins at the time that the Level I Preliminary Credential is issued by CCTC.

Candidates for the Level II Credential must be employed as a full-time teacher for two years after receipt of their Preliminary Level I credential in the disability area (Mild/Moderate or Moderate/Severe) authorized by their Level I credential. Teaching experiences accrued prior to completion of the Level I credential can not be counted toward the Level II Professional Credential. The teaching experience requirement for Level II begins when the candidate enrolls in and commences the Level II Program.

The Level II Professional Credential program consists of 15 credits of course work and the completion of the candidate’s personal goals and objectives as outlined in the Professional Induction Plan and Expertise Plan. Both the Professional Induction Plan and Expertise Plan are developed in EDUU 630. This course must be successfully completed before any other Level II courses in the credential program can be taken. In EDUU 690, the capstone course for the program, students must demonstrate how they have successfully met the goals set out in their Professional Induction Plan and Expertise Plan. EDUU 690 may only be taken when all of the other Level II Professional Credential Program courses have been satisfactorily completed.

NOTE: Education Specialist Credential Programs are offered at select University College campuses.

Administrative Services Credentials

Tier I and Tier II

Both the Preliminary (Tier I) and Professional Clear (Tier II) Administrative Services Credential programs are designed to mentor and prepare candidates to successfully assume the multiple leadership roles that must be filled by school administrators. Both programs embody the Education Division’s core values and are aligned with the California Professional Standards for Educational Leaders.

Preliminary Administrative Services Credential – Tier I

Candidates for the Tier I credential can transfer credits from another accredited institution but must complete a minimum of 16-18 credits in residency at Chapman University College.

An Internship Option is available for Tier I candidates who are in or wish to accept an administrative position while completing the coursework for this program.

General Requirements
1. Candidates must hold a valid, basic California Credential and have a minimum of three years verified full time employment in California schools at the time of filing for the credential.
2. Two letters of recommendation
3. Resume
4. Intake and exit interviews
5. Passing score on the CBEST examination (Even if candidate holds a life credential that did not require the CBEST)
6. California Professional Clear Credential or EDUC 571 or EDUU 511 or an equivalent course
7. All criteria met for credential program admission

Required courses
EDUU 609  Seminar in Curriculum Studies  3
EDUU 617  Organizational Leadership and Development  3

### Professional Administrative Services Credential – Tier II

The Tier II Administrative Services Credential Program is designed to help practicing educational leaders to meet the challenges associated with contemporary school administration. This program is Fieldwork / Evidence of Competency based and is in full compliance with the regulations specified in SB 1655. Candidates will be required to demonstrate critical standards based knowledge, skills and abilities through highly structured and rigorous assessment.

Candidates for this credential must take both EDAU 710 and EDAU 720 at Chapman University; no coursework can be transferred into the program. Completion of these two courses (6 credits) will meet the residency requirement for students who are new to the University.

**General Requirements**
1. Candidates must hold a Preliminary Administrative Services Credential – Tier I
2. Passing score on the CBEST examination
3. Intake and exit interview
4. Current position as an administrator in an approved setting
5. Two years of administrative service at the time of filing
6. All criteria met for credential program admission

**Required Courses**
- EDAU 710 Mentoring and Support of Candidates 3
- EDAU 720 Assessment and Performance of Candidates 3

**Total program credits: 6**

*The Tier I and Tier II Administrative Services credential programs are currently being revised to meet new CCTC standards. Course requirements are therefore, subject to change.*
Ryan Professional Clear Credential

Candidates in the Ryan/1059 credential program can receive their Professional Clear Credential by completing 30 units of graduate work beyond their bachelor's degree (usually done by completing the preliminary credential) and taking the following courses:

- EDUU 552 Using Technological Tools in Teaching - Level Two 3
- EDUU 513 Student Health and Safety 2
- EDUU 511 Collaboration for Inclusive Schooling 3

Professional Certificate Programs in Education

Cross-cultural, Language and Academic Development (CLAD) Certificate

This program provides credentialed teachers or credential candidates with a CCTC-designated authorization to serve limited English proficient students.

required courses

- EDUU 570 Voice, Diversity, Equity and Social Justice 3
- EDUU 526 Theories of Language Development 3
- EDUU 527 Language Development: A Teaching & Learning Process 3
- EDUU 528 Content-based Instruction for Linguistic Minority Students: Sheltered English 3

Please note that these courses are offered at some University College campuses on an irregular basis. All of these courses are available on-line through the Chapman University eCollege Platform.

Professional Reading Certificate

This program provides credentialed teachers the opportunity to earn the CCTC authorized Professional Reading Certificate.

Admission Requirements

Students entering this program must meet the admission standards for a University College Teacher Credential Program (see above) and hold a valid California Teaching Credential. Prior to filing for the certificate, the candidate must have completed three years of teaching experience in any grade preschool through adult exclusive of student teaching, internship teaching, or teaching while holding an emergency permit.
### Education

**Prerequisites**
- **EDUC 500 or EDMU 520 or EDMU 521** or an approved equivalent
- **EDUC 532** or **EDSU 532** or an approved equivalent

**Transition and Employment Certificate**

This specialist certificate in Transition and Employment provides educators and other service providers with advanced graduate level training in how to develop transition and employment education programs for students with disabilities.

Individuals who may want to consider this certificate are those who are 1) working toward a teaching credential in the mild/moderate and/or moderate/severe credential programs; 2) working toward a master’s degree in special education or a related field; and 3) currently working in the field of transition and employment who desire to strengthen and improve their skills.

The applicant must have a bachelor’s degree and qualify for admission to a graduate program at Chapman University College. There are no prerequisites for the certificate program. No transfer credits will be accepted to satisfy the certificate program requirements.

Graduate Degree Programs in Education

Master of Arts in Teaching (MAT) in Elementary Education with 2042 Multiple Subject Credential

Students entering the Master of Arts in Teaching (MAT) in Elementary Education program must meet all of the requirements listed above for the Multiple Subject Credential program.

In addition, students must possess a grade point average (GPA) of 3.0 in the last 60 semester credits of their baccalaureate degree. Students using the CUC Admissions Option Two must possess a GPA between 2.75 and 2.99 to be admitted to the combined credential and graduate MAT degree program and must have a passing score on one of the examinations noted below:

- **Graduate Record Examination** (GRE): any two of the three GRE scores (Verbal, Quantitative or Analytical Writing) may be used to meet graduate admissions standards for the MAT. The minimum acceptable score for the Verbal and Quantitative sections is 450. The minimum acceptable score for the Analytic Writing is 4.5.

- **Miller Analogies Test** (MAT): achieve a minimum scaled score of 403.

- **Subject Matter Competency Examination**: earn passing score on the CSET Multiple Subjects Examination.

**Transfer of Coursework**

A total of six graduate level credits is the maximum allowed to transfer into the MAT Degree Program.

**Required Coursework**

*Please note that the required prerequisites for the credential are completed outside of the degree program.*

**prerequisites (10-12 credits)**

- EDUU 395 Education Field Experience 3
- EDUU 451/551* Educational Application of Computers I 3
- EDUU 413/513 Student Health and Safety 2
- EDUU 414/514 Physical Education for Elementary Teachers 1

total program credits (not including prerequisites)  45

Demonstration of Mastery

All Master of Arts in Teaching Degree candidates must demonstrate mastery for the degree by completing an Action Research Project (ARP). The ARP is designed and begun in EDUU 604 but may not be completed in one term. Students must have a cumulative GPA of 3.00 or better for all of the courses completed prior to starting the Action Research Project. Students must complete the Action Research Project, write a paper based on that research and make a presentation to a group of educators. Detailed requirements and guidelines for the ARP are presented in the MAT Handbook that can be obtained from a program academic advisor.

* A waiver of the technology requirement may be granted upon successful completion of the CSET Educational Technology Exam, documentation of completion of regular education computers in education coursework from an accredited college or university, or submission of an electronic portfolio (under certain conditions).

** Subject matter competency waiver or passage of the CSET must be met prior to enrollment in the required fieldwork component for the credential.

*** EDUU 600 must be taken prior to taking EDUU 604.
GRADUATE DEGREE PROGRAMS

Master of Arts in Teaching (MAT) in Secondary Education with 2042 Single Subject Credential

Students entering the Master of Arts in Teaching (MAT) in Secondary Education program must meet all of the requirements listed above for the Single Subject Credential program.

In addition, students must possess a grade point average (GPA) of 3.0 in the last 60 semester credits of their baccalaureate degree. Students using the CUC Admissions Option Two must possess a GPA between 2.75 and 2.99 to be admitted to the combined credential and graduate MAT degree program and must have a passing score on one of the examinations noted below:

**Graduate Record Examination (GRE):** any two of the three GRE scores (Verbal, Quantitative or Analytical Writing) may be used to meet graduate admissions standards for the MAT. The minimum acceptable score for the Verbal and Quantitative sections is 450. The minimum acceptable score for the Analytic Writing is 4.5.

**Miller Analogies Test (MAT):** achieve a minimum scaled score of 403

**Subject Matter Competency Examination:** successfully complete the appropriate California Subject Examination for Teachers (CSET) or Single Subject Assessments for Teaching (SSAT) and/or Praxis Examination.

Transfer of Coursework
A total of six graduate level credits is the maximum allowed to be transferred into the MAT Degree Program.

Required Coursework
*Please note that the required prerequisites and fieldwork component for the credential are completed outside of the degree program.*

**prerequisites (11 credits)**
- EDUU 395 Education Field Experience 3
- EDUU 413/513 Student Health and Safety 2
- EDUU 451/551* Educational Application of Computers I 3
- PSYU 324 Adolescence Psychology 3

**introductory block (9 credits)**
- EDUU 510 Introduction to Teaching 3
- EDUU 511 Collaboration for Inclusive Schooling 3
- EDUU 512 The Art and Craft of Teaching 3

**content block (12 credits)**
- EDSU 530 Theories, Methods and Materials for Teaching English Language Learners 3
EDSU 531 Secondary Instructional Strategies for Language/Culturally Diverse Classrooms 3

Master of Arts in School Counseling and Pupil Personnel Services Credential in School Counseling (PPSC)

University College offers a Master of Arts degree in Counseling with an emphasis in school counseling. The program in school counseling prepares students to serve as counselors in the public schools for grades K-12 and meets the requirements for a California state credential authorizing service as a school counselor. Students with a previously earned master’s degree in counseling or a related field may earn a California state PPS credential without enrolling in the Master of Arts program.

Admission and Program Prerequisites

Acceptance into the graduate program in school counseling will be based on multiple criteria. These criteria include academic potential, experience with children and youth, and compatibility with program philosophy. To be considered for admission students must complete the following:

1. Satisfactorily fulfill graduate admission requirements for University College as state in the catalog. (See the Graduate Admissions section)

2. Applicants using CUC Admissions Option Two with a grade point average between 2.5 and 2.99 are required to submit passing scores from one of the following standard admissions tests:

   **Graduate Record Examination (GRE):** any two of the three GRE scores (Verbal, Quantitative, or Analytical Writing) may be used to meet graduate admissions standards for the Master of Arts degree. The minimum acceptable score for the Verbal and Quantitative sections is 450. The minimum acceptable score for the Analytical Writing section is 4.5.
Miller Analogies Test (MAT): achieve a minimum scaled score of 403.

3. Submit a graduate application with the following:
   - Three letters of recommendation from individuals who have had experience with the candidate in an academic setting and knowledge of the candidate's academic potential and from someone who knows the candidate in a work setting, preferably one where the candidate has worked with children.
   - Official transcripts from all institutions of higher learning attended.
   - A current resume which includes experiences working with children.
   - An autobiographical essay (2-3 pages) describing life experiences that have shaped the candidate’s approach to working with children and what led them to the decision to become a school counselor and their commitment to the PPSC program.

4. All applicants are required to arrange for an intake interview. The interview will be conducted by the program coordinator and other designated faculty.

The School Counseling program requires 48 units of coursework, excluding one prerequisite. Students entering the School Counseling program are expected to have the following:

Certificate of Clearance: A Certificate of Clearance application (including fingerprints) or a copy of a valid Emergency Permit must be submitted at the time of the intake interview or by the end of the first term of enrollment.

Tuberculosis Test: A current “negative” tuberculosis test, which not more than one year old and covers the internship period, must be submitted at the time intake interview or by the end of the first term of enrollment. A person whose TB test is “positive” may submit results from a chest x-ray examination that verify the candidate does not have “active” tuberculosis.

CBEST: Candidates must take and pass the California Basic Educational Skills Test prior to enrollment in the second term of coursework.

EDUU 510 Introduction to Teaching: Candidates who do not hold a valid California credential must take EDUU 510 at Chapman University College in the first term of enrollment.

Transfer Policy: No more than 12 credits may be transferred into the school counseling program from other graduate institutions upon approval by petition of the Division Chair. Transferred courses must have been awarded a grade of “B” or better and cannot be older than seven years at the completion of the program.

The School Counseling program also requires the following:

Fieldwork and Internship: Candidates must complete the Practicum in School Counseling course and a minimum of 100 hours of practica fieldwork prior to beginning the final fieldwork or internship in CSPU 620 and 621. A minimum of 600 hours of post-practicum fieldwork or internship is required to apply for the credential. Most of these hours must be done in a public school setting at two different levels. All hours must be under the supervision of an
experienced professional who holds a PPS credential in school counseling.

Exit Interview: Credential candidates must successfully complete an exit interview, a professional portfolio, and a capstone project to exit the program. Candidates who wish to earn a Master of Arts in school counseling must meet all the course requirements and earn a score of 550 or higher on the ETS Praxis Examination in Counseling and Guidance (#0420).

Educational Specialist Degree in School Psychology (Ed.S.)
and a Master of Arts in Educational Psychology with a
Pupil Personnel Services Credential in School Psychology
(PPSP)

University College offers an Educational Specialist degree in School Psychology and a Master of Arts degree in Educational Psychology. The School Psychology program prepares students to serve as school psychologists in public schools for grades K-12 and meets the requirements for a California State Pupil Personnel Services credential authorizing service as a school psychologist. Students enrolled in the Educational Specialist degree in School Psychology program will also earn a Master of Arts degree in Educational Psychology after the completion of required coursework, passing the Praxis exam in school psychology, and completion of the required practicum fieldwork and final year fieldwork or internship.

Admission and Program Prerequisites
Acceptance into the graduate program in school psychology is based on multiple criteria. These criteria include academic potential, experience working with children and youth, and compatibility with program philosophy. To be considered for admission the applicant must:

1. Satisfactorily fulfill graduate admission requirements for University College as stated in the catalog. (Refer to the Graduate Admissions section)
2. Applicants using CUC Admissions Option Two with a grade point average between 2.5 and 2.99 are required to submit passing scores from one of the following standard admission tests:
   - Graduate Record Examination (GRE): any two of the three GRE scores (Verbal, Quantitative, or Analytical Writing) may be used to meet graduate admissions standards for the Educational Specialist degree and the Master of Arts degree. The minimum acceptable score for the Verbal and Quantitative sections is 450. The minimum acceptable score for the analytical Writing is 4.5.
   - Miller Analogies Test (MAT): achieve a minimum scaled score of 403.
3. Submit a graduate application with the following:
   - Three letters of recommendation from individuals who have experience with the candidate in an academic setting and have knowledge of the candidate’s academic potential and from someone who knows the candidate in a work setting, preferably one where the candidate works with children.
   - Official transcripts from all institutions of higher learning attended.
   - A current resume which includes experiences working with children.
   - An autobiographical essay (2-3 pages) describing the life experiences that have shaped the candidate’s approach to working with children and youth and what led to the decision to become a school psychologist and their commitment to the program.
4. All applicants are required to arrange for an intake interview. The interview will be conducted by the program coordinator and other designated faculty members.

The school psychology program requires 66 credits of coursework, excluding one prerequisite. Students entering the school psychology program are expected to have the following:

**Certificate of Clearance:** A certificate of clearance application (including fingerprints) or a copy of a valid Emergency Permit must be submitted at the intake interview or by the end of the first term of enrollment.

**Tuberculosis Test:** A current “negative” tuberculosis test that is not more than one year old and covers the fieldwork/internship period must be submitted at the time of the intake interview or by the end of the first term of enrollment. A person whose tuberculosis test is “positive” may submit results from a chest x-ray examination that verifies the candidate does not have “active” tuberculosis.

**CBEST:** Candidates must take and pass the California Basic Educational Skills Test prior to enrollment in the second term of coursework.

**EDUU 510 Introduction to Teaching:** Candidates who do not hold a valid California credential must take EDUU 510 at Chapman University College in the first term of enrollment.

**Transfer policy:** No more than 18 graduate credits may be transferred into the school psychology program from other graduate institutions with an earned master’s degree upon approval of the Division Chair. Candidates without an earned master’s degree may transfer up to 12 credits of graduate coursework upon approval of the Associate Chair for PPS and the program coordinator. Transferred courses must have been awarded a grade of “B” or better and cannot be older than seven years at the completion of the school psychology program.

The school psychology program also requires the following:

**Fieldwork and internship.** All candidates must complete the two practicum courses in school psychology and a minimum of 450 hours of practica fieldwork prior to beginning the final year fieldwork or internship with a minimum of 1200 hours of field experience. Most of these hours must be completed in a public school setting. All hours must be under the supervision of an experienced professional with a Pupil Personnel credential in school psychology.

**Exit Interview.** Candidates must successfully complete an oral exit interview, a professional portfolio, and a capstone project to exit the program. Candidates must meet all course requirements and earn a score of 590 or better on the ETS Praxis exam in school psychology (#0400).

Total Program Credits 69

Master of Arts in Education (MAE)

The goal of the MAE program is the development of knowledgeable, thoughtful and ethical educators committed to the universal values of democracy, care and justice. The program is designed for individuals seeking career or advancement opportunities in education as a teacher or administrator. All students complete six MAE core courses. In addition, candidates complete one emphasis area. Five emphasis areas are offered: curriculum and instruction, reading, educational leadership and administration, professional teaching standards or instructional technology*. It is possible to complete a degree with more than one emphasis. Students completing a second emphasis area within one masters degree
The program may not use previously completed emphasis coursework for one emphasis to fulfill the requirements of a second emphasis.

The curriculum instruction and the instructional technology emphases are available at all California campuses. Other emphases may not be available at every campus.

Admission to the Program
Admission to the program may be achieved by meeting the following requirements:

1. Satisfactorily fulfill graduate admission requirements for University College as stated in the catalog. (See the Graduate Admissions section.)

2. Students using CUC Admissions Option Two must possess a GPA between 2.75 and 2.99 and are required to submit a passing score on one of the examinations below:

   Graduate Record Examination (GRE): any two of the three GRE scores (Verbal, Quantitative, or Analytical Writing) may be used to meet graduate admissions standards for the MAE in University College. The minimum acceptable score for the Verbal and Quantitative sections is 450. The minimum acceptable score for the Analytical Writing is 4.5.

   Miller Analogies Test (MAT): achieve a minimum scaled score of 403.

   State Teacher Examinations: successfully complete the appropriate California Subject Examinations for Teachers (CSET), or Single Subject Assessments for Teaching (SSAT) and/or Praxis Examination.

3. Complete the prerequisites for the program that consist of a minimum of six (6) credits in education, including coursework in Foundations of Education and Teaching Methods. These prerequisites will have been met if the applicant holds a valid teaching credential or has previous coursework that meets this requirement. Other students will be required to meet the prerequisites in addition to the specified degree program requirements. If these courses are not completed at the time of admission, they must be completed within the first terms of enrollment prior to enrollment in any 600-level coursework. There is no time limit on the prerequisite courses.

4. Graduates from Chapman University College's Preliminary Credential programs who have passed the CSET, MSAT, SSAT or PRAXIS examination automatically qualify for admission to MAE program.

Professional Standards
Because the graduate programs in Education involve preparing students to work within the public schools, the Education faculty assumes the responsibility for reasonably assuring that individuals who complete a program are not only academically competent but are aware of and capable of functioning within the established ethical and professional standards of the profession.

According to the California Commission on Teaching Credentialing (CCTC) regulations, Chapman University College has an obligation to public schools to
dismiss candidates who are unsuited to be teachers. Therefore, the institution reviews each candidate’s competence throughout the program in all aspects, including written and oral communication skills and attitude, and informs candidates of their strengths and weaknesses, provides opportunities for corrective learning, places marginal candidates on probation, dismisses candidates who are determined to be unsuited as teachers, and considers candidates’ appeals.

The university has both the right and obligation to evaluate continually, and if necessary to terminate the student’s participation in the graduate programs at any point for ethical violations and/or personal unsuitability for the profession.

Scholarship
Masters degree candidates must maintain a cumulative GPA of 3.0 of higher in all degree coursework. A student whose GPA falls below 3.0 for one term may be placed on probation; continued poor performance may result in dismissal from the program. No grade below “C” is acceptable toward a masters degree.

Second Emphasis Area
It is possible to complete the MAE Degree with more than one emphasis. Students completing a second emphasis area within one master’s degree program may not use coursework from one emphasis area to fulfill the requirements of the second. Further, students completing a second emphasis must successfully complete the Demonstration of Mastery task associated with that emphasis area.

If the second area of emphasis is completed after the initial degree has been awarded, the student will not be issued an updated diploma, nor will it be considered appropriate for them to walk in commencement a second time, but the second emphasis will appear as such on their official Chapman University College transcript.

Transfer of Coursework
A total of six semester or nine quarter credits of credit can be transferred into the program. These must be graduate level courses and a grade of “B” or higher must have been earned in each course being transferred. Transferred courses can only be applied to emphasis area; no transfer work is permitted for the six core courses.

Time Limitations
With the exception of prerequisites, all requirements for a Masters degree, including courses accepted for transfer credit, must be completed within a consecutive SEVEN year period immediately prior to the awarding of the degree.

Demonstration of Mastery
Candidates for the Master of Arts in Education degree with an emphasis in Curriculum and Instruction or Educational Leadership and Administration must successfully take a written comprehensive examination. The examination will cover both the required core courses and the emphasis area(s) selected by the
student. Students may sit for the examination upon completion of all prerequisites, the six core courses, at least six of the elective credits, and are currently enrolled in their remaining two elective courses. Students must have a cumulative GPA of 3.00 or better for all of the courses completed. It is necessary to register for the examination prior to the deadlines posted at each campus.

Candidates for the Master of Arts in Education degree with an emphasis in Professional Teaching Standards must successfully pass the Core Portion of the MAE Comprehensive Examination. The successful preparation of a National Board for Professional Teacher Standards portfolio is required for demonstration of mastery for the emphasis area.

Candidates for the Master of Arts in Education degree with an emphasis in Reading Education must successfully pass the Core Section of the Comprehensive Examination and complete and present an Action Research Project. Students submit their project upon completion of all prerequisites, the six core courses and the elective courses. A cumulative GPA of 3.00 or better must be maintained for all of the courses completed.

Candidates for the Master of Arts in Education degree with an emphasis in Instructional Technology must successfully complete and present an Action Research Project. Students submit their project upon completion of all prerequisites, the six core courses and the elective courses. A cumulative GPA of 3.00 or better must be maintained for all of the courses completed.

**prerequisites**
- Students must hold a valid teaching credential or take EDUU 510 Foundations of Education 3 and one methods course 3

*NOTE: There is no time limit on prerequisites for the MAE.*

**core courses (18 credits)**
- EDUU 600 Research and Evaluation Methods 3
- EDUU 605 Democracy, Education and Social Change 3
- EDUU 606 Seminar: Discover Learning in the Mind, Brain, and Body 3
- EDUU 607 Seminar in Comparative Education 3
- EDUU 608 Seminar in Social Foundations of Education 3
- EDUU 609 Seminar in Curriculum Studies 3

*Students are advised to take EDUU 600 prior to other core courses.*

Master of Arts in Special Education

This degree program is designed primarily for individuals seeking a career or advancement opportunities in special education; however, the Master of Arts in Special Education degree does not meet the requirements for its holder to teach in California public schools (See credential programs listed above).

The goal of this program is to develop change agents in the field of Special Education who have an advanced understanding of research and issues related to curriculum and inclusion. Candidates should know and understand current best practices in the field.

Admission Requirements
Admission requirements for the Master of Arts in Special Education program are the same as those listed for the Master of Arts in Education degree listed above.

Transfer of Coursework
Up to 12 credits may be transferred into the program. Requests for transfer are submitted on a petition to transfer graduate degree work. Requests must meet transfer policies specified in the Academic Policies and Procedures section and must be approved by the Education Division Chair.

Demonstration of Mastery - Comprehensive Examination

Students who have advanced to candidacy, have a cumulative GPA of 3.00 and have completed all prerequisite courses to meet the minimum eligibility requirements, are eligible to sit for the comprehensive examination. (See the Academic Policies and Procedures section for additional guidelines.)

The student must pass a written comprehensive examination that covers all of the required coursework. The examination may be attempted upon completion of the program prerequisites and 30 credits in the program including all required coursework. (See Academic Policies and Procedures section for additional guidelines.)

The Special Education Master's Degree Program is offered at select University College campuses.
Master of Health Administration (MHA)

Donald R. Johnston, Ph.D., Division Chair, Leadership & Management Studies
Manuel L. English, Ph.D.

Preparing Leaders and Managers for Tomorrow’s Health Care Industry
Master of Health Administration is the graduate degree recommended for individuals who want to establish and strengthen their future in the health services industry. The program is designed for mid-career professionals whose responsibilities have expanded into management areas, as well as for recent college graduates planning to pursue a career in health care. Our program provides a solid core of health services administration courses offered in the evening, and online, to meet the needs of fully employed adults. The classes are small, an average of 12-20 students, with an emphasis on individual achievement.

Program of Excellence
The program provides courses in essential health care administration functions such as finance, strategic planning, information technology and policy. The curriculum is designed to integrate theory and practice, combining both technical and communication skills and abilities to effectively lead and manage integrated delivery systems; subject matter includes:

- Organization, finance, and delivery of health services
- Population health management
- Planning and evaluation
- Industry analysis and strategic decision-making
- Leading organizational change and development
- Effective management and leadership of personnel
- Legal issues and public policy
- Written, verbal and group process communication

Highlights of the Program
- Chapman’s MHA program is affiliated with local, regional, and national health care organizations.
- The health administration program offers continuing education for health care professionals.
- Our faculty and alumni help students to identify internships and employment opportunities.
- Chapman’s faculty has extensive experience in teaching, research, and practice in the health care industry.
- A graduate certificate is optional in organizational leadership, human resources, or gerontology.
Career Opportunities
The MHA degree is appropriate for individuals who are working in the health care industry or health-related fields and for those who are considering career changes. While the emphasis of the program is on developing leaders who can manage in a variety of health care settings, Chapman graduates also secure positions in related areas such as consulting, insurance, education and government.

Expanding the Network
Among the opportunities available to help students and alumni succeed in job placement are graduate assistantships and internships, memberships in professional associations, and an ever-expanding network of faculty, alumni and students who are employed in the health care industry.

Admission to the Program and Prerequisites
Admission to the program may be achieved by the completion of each of the following requirements:

1. Satisfactorily fulfill graduate admission requirements for University College as stated in the catalog. (See the Graduate Admissions section.)
2. If the student uses Option Two in the CUC graduate admissions requirements, submit passing scores from one of the following standard admission tests:
   - Graduate Record Examination (GRE): achieve the required minimum scores on two out of three of the subsections of the GRE or score at or above the 60th percentile on any one of the Graduate Subject Tests. (Minimum score for quantitative or verbal sections is 450. Minimum score for analytic writing is 4.5.)
   - Graduate Management Admissions Test (GMAT): fulfill the formula GMAT + (GPA x 200) > 1000.
   - Miller Analogies Test (MAT): achieve a minimum scaled score of 400.
3. Two letters of recommendation from individuals familiar with the applicant’s academic or professional abilities.
4. Statement of intent and completion of application form.
5. Option Four: Students may apply for admission under Option Four. Option Four criteria requires submission of a portfolio of evidence that shows adequate preparation for graduate studies. Specific criteria for Option Four is discussed in the Graduate Admission section of this catalog.

Specific Requirements for the MHA Degree
Thirty-six semester credits in health administration and related courses must be completed. Of these 36 credits, a maximum of 6 elective credits may be taken from the health administration, human resources or organizational leadership course offerings.
required core courses (30 credits)

- HAUU 600 Introduction to U.S. Health Policy 3
- HAUU 613 Seminar in Organizational Behavior 3
- HAUU 615 Organization Development 3
- HAUU 625 Health Systems Administration 3
- HAUU 630 Financial Management and Accounting Survey 3
- HAUU 635 Financial Management: Budget, Planning and Analysis 3
- HAUU 658 Strategic Planning for Health Services 3
- HAUU 660 Information Systems for Health Services 3
- HAUU 680 Organizational Research 3
- HAUU 695 Legal Issues in Health Services 3

elective credits

Six credits to be selected from 500/600 level health administration, human resources, and/or organizational leadership courses.

total credits required for degree 36

Transfer of Coursework

A maximum of 6 semester credits may be accepted as elective courses in transfer toward the Master of Health Administration degree program. (See Academic Policies and Procedures section.)

In addition to university policies concerning transfer of coursework, the health administration program will accept transfer of military coursework which meet the following requirements:

1. Course requested for transfer must include an official transcript or copy of ACE evaluation, which verifies graduate-level work;
2. Coursework must be letter graded or provide verification of completion at a grade of “B” or higher;
3. Coursework must be comparable to programmatic requirements (if marginal comparability, a written statement of rationale must be provided); and
4. Military coursework will be accepted in transfer as fulfilling elective requirements only.

Comprehensive Examination

Successful completion of a 4-hour written comprehensive examination is required. The examination covers core content from the required courses. Students must be advanced to candidacy and have a cumulative GPA of 3.00 “B” to meet the minimum eligibility requirements to take the comprehensive examination. The examination may be taken upon completion of all coursework.

Maximum Time for Completion of Degree

All master’s degree requirements must be completed within a seven-year period effective at the time of admission (regular or provisional) to the program.
Certificate Programs
The Professional Studies Department offers graduate certificate programs in health systems administration (HA), gerontology (HA), human resources (HR) and organizational leadership (OL). These certificate programs allow the students to obtain specialized knowledge and expertise in related fields.

Health professionals with at least a baccalaureate degree from a regionally accredited college or university may opt to pursue a non-degree curriculum in either health systems administration or gerontology and receive a graduate certificate. Requirements for admission to the health systems administration certificate or gerontology certificate are the same for admission to the MHA program.

No transfer credit may be used for either certificate program. Required overall GPA for either certificate is 3.0.

**Health Systems Administration Certificate**

- **specific requirements (15 credits)**
  - HAUU 600 Introduction to U.S. Health Policy 3
  - HAUU 625 Health Systems Administration 3
  - HAUU 630 Financial Management and Accounting Survey 3
  - HAUU 650 Managed Care and Risk Contracting 3
  - HAUU 695 Legal Issues in Health Services 3

Students who wish to pursue the Master of Health Administration degree program may use all of the above credits if the following requirements are met:

1. All certificate coursework applied to the master’s program must be completed with a grade of “B” or higher.
2. All master’s degree requirements must be completed within a seven-year period.

**Gerontology Certificate**

- **required courses (9 credits)**
  - HAUU 670 Healthcare and Aging 3
  - HAUU 672 Geriatric Healthcare and Public Policy 3
  - HAUU 674 Understanding Death & Dying 3

- **choose one of the following electives (3 credits)**
  - HAUU 671 Issues in Aging 3
  - HAUU 675 Geriatric Mental Health 3

- **total credits for the certificate program 12**

HAUU 673 Gerontology Internship available at campus based programs only. Optional internship credits are in addition to the 12 credits required for the certificate program.
Students who wish to pursue the Master of Health Administration degree program may use 6 of the above credits as electives if the following requirements are met:

1. All certificate coursework applied to the master’s program must be completed with a grade of “B” or higher.
2. All master’s degree requirements must be completed within a seven-year period.
Master of Science in Human Resources

Donald R. Johnston, Ph.D., Division Chair,  
Leadership & Management Studies  
Marilyn Sargent, Ph.D.  
Wendy Korthuis-Smith, Ed.D.

The master’s program in human resources is designed for experienced human resources professionals, as well as those individuals who are new to the field of human resources or who desire to enter the field of human resources.

The human resources program prepares its graduates to attract, retain and develop human resources in organizations (public or private, military or non-profit), and to become partners with top management in policy-making and strategic decision-making.

The goal of the human resources program is to provide students with specialized knowledge of the systems of human resources in organizations. The program focuses on theories and practical applications of human resources, as well as the role of the human resources practitioner as a change agent and strategic partner.

The master of science degree in human resources is a unique interdisciplinary course of study, specifically designed to provide the working professional with the specialized skills and knowledge to address cultural, regulatory, behavioral and social changes in today’s diverse society, and to deal with them efficiently, effectively, and with sensitivity and compassion. Simply stated, the program is designed for students interested in making a difference in society, in their organizations, and in their careers.

Admission to the Program

Admission to the Chapman human resources program is competitive. Applicants are evaluated on academic performance, leadership ability, work experience and communication skills. Admission to the program may be achieved by the completion of the following requirements:

1. Satisfactorily fulfill graduate admission requirements for University College as stated in the catalog. (See the Graduate Admissions section.)

2. If the student uses Option Two in the CUC graduate admissions requirements, submit passing scores from one of the following standard admission tests:

   **Graduate Record Examination (GRE):** achieve the required minimum scores on two out of three of the subsections of the GRE or score at or above the 60th percentile on any one of the Graduate Subject Tests. (Minimum score for quantitative or verbal sections is 450. Minimum score for analytic writing is 4.5.)

   **Miller Analogies Test (MAT):** a minimum raw scaled of 400.
Graduate Management Admissions Test (GMAT): fulfill the formula GMAT + (GPA x 200) > 1000.

3. Complete the application form for graduate admission, including a Statement of Intent essay.

4. Submit two letters of recommendation from individuals familiar with the applicant’s academic or professional abilities.

5. **Option Four**: Students may apply for admission under Option Four. Option Four criteria requires submission of a portfolio of evidence that shows adequate preparation for graduate studies. Specific criteria for Option Four is discussed in the Graduate Admission section of this catalog.

Applicants are favorably considered when they have demonstrated solid academic ability as measured through the undergraduate GPA and performance on the GRE, GMAT or MAT, as well as career potential based on work experience and other activities and letters of recommendation.

**Transfer of Coursework**
A maximum of 9 semester credits may be accepted in transfer toward the Master of Science in Human Resources degree program. (See Academic Policies and Procedures section.)

In addition to university policies concerning transfer of coursework (see Academic Policies and Procedures section), the human resources program will accept transfer of military coursework which meet the following requirements:

1. Course requested for transfer must include an official transcript or copy of ACE evaluation which verifies graduate-level work;

2. Coursework must be letter graded or provide verification of completion at a grade of “B” or higher;

3. Coursework must be comparable to programmatic requirements (if marginal comparability, a written statement of rationale must be provided); and

4. Military coursework will be accepted in transfer as fulfilling prerequisite and elective requirements only.

**Specific Requirements for the Degree**
The human resources program consists of three segments. The first segment is the 24-credit core; the second segment is the 12-credit elective area; and the third segment is the comprehensive exam.

**Segment I Core Courses**

Segment III Comprehensive Examination
Prior to graduation, the candidate must achieve a passing grade on a comprehensive examination designed to test mastery of the program content. Students must have a cumulative GPA of 3.00 “B,” and have completed all prerequisite and core courses (except HR 680) to meet the minimum eligibility requirements to take the comprehensive examination. (See the Academic Policies and Procedures section for additional guidelines.)

The comprehensive examination will cover the core courses and course objectives. It is designed to afford the candidate the opportunity to demonstrate understanding of the material in an essay exam format. **Passing grades in courses do not assure the candidate of a passing grade on the comprehensive examination.** (See Academic Policies and Procedures for additional guidelines.)

Graduate Certificate in Human Resources
The graduate certificate program in human resources is designed for human resource practitioners, for those working in human resources who may not have formal training in the field, or for those individuals working in non-human resource departments who simply wish to increase their knowledge of human resources. The 15-credit program allows the student to achieve an overview of the field through three core courses and relevant specialized knowledge by choosing two human resources electives. The practical curriculum expands the student's knowledge of the most current and relevant techniques for diagnosing and solving problems and issues in organizations.

The student must possess a baccalaureate degree and complete the admission requirements for full graduate standing to pursue the graduate certificate. No transfer credit may be used. All course prerequisites must be completed.

This coursework is also applicable to the master's program if the following requirements are met:

1. All certificate coursework applied to the master's program must be completed with a grade of “C” or higher for each course. Student must maintain a cumulative grade point average of 3.00.
2. All master’s degree requirements must be completed within a seven-year period.

GRADUATE DEGREE PROGRAMS

Master of Arts in Organizational Leadership

Donald R. Johnston, Ph.D., Division Chair,
Leadership & Management Studies
Janet Cooper Jackson, Ph.D.
Ashour Badal, Ph.D.
Christine Cecil, Ed.D.
James Liberty, D.P.A.
Kurtis Takamine, Ed.D.
Kay Talbot, Ph.D.
Lynne Valek, Ph.D.
Glenn Worthington, Ed.D.

All organizations whether military or civilian, profit or non-profit, public or private, small or large business, health, educational or religious rely on leadership to accomplish their respective goals. A number of trends accelerating in the new century are increasing the need and demand for organizational leadership. New advances technological, social, and political are being unleashed at blinding rates of speed. Experts agree that these advances are causing a tidal wave of change, requiring organizations to continuously update and refine their approaches, structures and technologies to achieve ever greater levels of quality, effectiveness, efficiency and flexibility.

The graduate program in organizational leadership features an award-winning approach which appreciates the leader’s challenge in these turbulent times. It is a state-of-the-art curriculum in leadership theory and practice, providing education not only about leadership, but also for leadership. The master’s degree in organizational leadership prepares students to take full advantage of leadership positions within their chosen organizations, enabling them to make a powerful and positive difference in their world of work.

Our focus in organizational leadership is on the development of the people and conceptual skills which are essential to success at all levels of administration. Through our student-centered, largely “hands-on” approach to learning, participants in organizational leadership have the opportunity to:

• develop their capacity for reflective practice, generating ever deeper levels of insight and self-awareness regarding their specific capabilities and limitations as a leader;
• develop the commitment and ability to marshal creatively and with integrity the forces of human interdependence and diversity in organizations toward the articulation and attainment of common objectives;
• learn how to inspire a clear, mutual vision, one which thoughtfully and respectfully integrates and aligns individual and organizational aspirations for sustained performance and continuous improvement;
• learn how to apply systems thinking to critically and mindfully assess the current reality in organizations;
• explore new strategies for leading organizational change and development, approaches which emphasize congruent and ethical action, inclusionary practices, collaborative teamwork, and shared leadership.

The program in organizational leadership is dedicated to the principles of “servant leadership” and facilitating organizational transformation within a values-centered framework. The program is therefore best suited for mid-career professionals committed to bringing about positive changes in the world of work, community, and society as a whole. Because of its interdisciplinary nature, the program can be customized according to the students’ interest through articulations with other programs (e.g., human resources, health administration, education, administration, voluntary/nonprofit leadership, criminal justice, etc.), as well as individuals starting or leading their own enterprises.

The Masters of Arts in Organizational Leadership consists of 36 credits of coursework, including 12 credits in electives, and 3 credits in a leadership capstone seminar, in which students synthesize and apply what they have learned.

A 6-credit Executive Certificate in Public and Non Profit Leadership, 18-credit Graduate Certificate in Organization Development, and 15-credit Graduate Certificate in Organizational Leadership are also offered. Please contact the organizational leadership program coordinator at your location for more information.

Admission to the Program and Prerequisites

Admission to the program may be achieved by completing the following requirements:

1. Have a minimum of two years professional full-time work experience.

2. Satisfactorily fulfill graduate admission requirements for University College as stated in the catalog. (See the Graduate Admissions section.)

3. If the student uses Option Two in the CUC graduate admissions requirements, submit passing scores from one of the following standard admission tests:

   Graduate Record Examination (GRE): achieve the required minimum scores on two out of three of the subsections of the GRE or score at or above the 60th percentile on any one of the Graduate Subject Tests. (Minimum score for quantitative or verbal sections is 450. Minimum score for analytic writing is 4.5.)

   Miller Analogies Test (MAT): achieve a minimum scaled score of 400.

   Graduate Management Admissions Test (GMAT): fulfill the formula GMAT + (GPA x 200) > 1000.

4. Submission of a portfolio of evidence that shows adequate preparation for graduate studies. The portfolio will contain: writing samples that show graduate level communications and analytical skills; a detailed resume showing professional development and achievements; awards; professional recognition; letters of reference from persons who can attest to the applicant's ability to do graduate level work; and a letter of explanation.
detailing the reasons the student believes he or she is a good candidate for
the graduate program. If the portfolio meets substantive approval of the
reviewers, the applicant may be invited for an interview. (See Graduate
Admissions.)

**Transfer of Coursework**

A maximum of 9 semester credits may be accepted in transfer toward electives
in the Master of Arts in Organizational Leadership degree program. (See
Academic Policies and Procedure section.)

In addition to university policies concerning transfer of coursework, the
organizational leadership program will accept transfer of military coursework
which meet the following requirements:

1. Course requested for transfer must include an official transcript or copy of ACE
evaluation which verifies graduate-level work;
2. Coursework must be letter graded or provide verification of completion at a
grade of “B” or higher;
3. Coursework must be comparable to programmatic requirements (if marginal
comparability, a written statement of rationale must be provided); and,
4. Military coursework will be accepted in transfer as fulfilling prerequisite and
elective requirements only.

**Specific Requirements for the Degree**

The MA/OL consists of five segments. The first segment consists of 12 credits
related to the theoretical foundation and philosophical underpinnings of
organizational leadership; the second segment consists of 9 credits related to
putting leadership into practice; the third segment consists of 12 credits of
electives; the fourth is an integrative capstone course (3 credits); and the fifth is
a comprehensive examination.

**I and II required core courses (21 credits)**

**I. Theoretical Foundation: The Vision, Mission & Values of Organizational
Leadership (12 credits)**

- OLCU 600 Foundations of Organizational Leadership 3
- OLCU 601 Democracy, Ethics & Leadership 3
- OLCU 602 Self, Systems & Leadership 3
- OLCU 680 Organizational Research 3

**II. Enacting the Vision: Putting Leadership into Practice (9 credits)**

- OLCU 613 Seminar in Organizational Behavior 3
- OLCU 614 Leadership and Team Development 3
- OLCU 615 Organization Development 3

**III. Elective Courses (12 credits)**

Twelve graduate-level units selected by the student, in consultation with an OL
faculty advisor. These electives may be used to acquire either specific leadership
related competencies or greater knowledge about the student's intended professional arena. Electives may be selected from programs in criminal justice, education, human resources, business administration, computer science and information systems, health systems administration, gerontology, organizational leadership or development, management, and psychology. Courses OLCU 520/620 and OLCU 525/625 may be repeated for credit, providing the specific issues and competencies addressed vary. Not all courses may be offered at all sites or in all terms. Consult with the Chapman campus nearest you.

Graduate-level credits accepted in transfer subject to a 9-credit limit from all sources (coursework, ACE-guide for military personnel, etc.) or otherwise officially approved may also be applied to the electives. Students seeking to obtain credit for coursework taken elsewhere must file an organizational leadership "Course Approval Form" along with the official university petition to transfer graduate work.

IV. Integrative Capstone (3 credits)
OLCU 681 Leadership Capstone Seminar 3

V. Comprehensive Examination
Prior to graduation, the candidate must achieve a passing grade on a comprehensive examination designed to test the extent to which he or she has achieved mastery of the content of the degree program.

Students must have a cumulative GPA of 3.00 “B,” and have completed all prerequisite courses to meet the minimum eligibility requirements to take the comprehensive examination. The examination may be attempted upon completion of 24 credits of coursework including the following core courses: OLCU 600, 601, 602, 613, 614, 615.

The comprehensive examination will cover the core courses as described in the course syllabi. It is designed to give the candidate the opportunity to demonstrate an ability to integrate the material in essay and case study form. (See Academic Policies and Procedures section for additional guidelines.)

Graduate Certificate in Organizational Leadership
The graduate certificate program in organizational leadership allows students to achieve a firm grasp of contemporary leadership theory and practice. It is designed for individuals in leadership positions who wish to enhance their ability to lead.

The 15-credit program is designed to enhance a leader’s conceptual and interpersonal skills, allowing them to include value-centered, service-driven leadership in their everyday operating philosophy and style. Students in the certificate program develop a heightened awareness of their capabilities and limitations and a corresponding commitment to uniting one’s organizational colleagues around the creation and attainment of a common vision.
Admission to the Certificate Program
Admission to the certificate program is granted to individuals who meet the standards for admission to the Master of Arts in Organizational Leadership program. Students who wish to pursue a master of arts in organizational leadership may use the credits in this certificate program, providing that the admission requirements for the MAOL program are met.

Specific Requirements
The certificate is awarded upon successful completion of all coursework (15 credits) with an overall grade point average of 3.0. No transfer credits may be used. All course prerequisites must be completed.

prerequisite courses: none

required courses (9 credits)
- OLCU 600 Foundations of Organizational Leadership 3
- OLCU 601 Democracy, Ethics & Leadership 3
- OLCU 602 Self, Systems, and Leadership 3

Electives (6 credits)
two of the following
- OLCU 613 Seminar in Organizational Behavior 3
- OLCU 614 Leadership and Team Development 3
- OLCU 615 Organization Development 3
- OLCU 520/620 Contemporary Issues in Organizational Leadership 1-3
- OLCU 621 Frontiers of Public and Nonprofit Leadership 3
- OLCU 525/625 Developing Leadership Competencies 1-3
- OLCU 626 Dynamics of Public and Nonprofit Leadership 3
- HRCU 616 Consulting 3
- HRCU 630 Conflict and Negotiation 3
- HRCU 645 Human Resources Systems 3
- HRCU 646 Training and Development 3

Total credits for the certificate program 15

Graduate Certificate in Organization Development
The graduate certificate program in organization development allows students to achieve a firm grasp of contemporary organization development, change theory and practice. It is designed for individuals serving as or who intend to serve as consultants, and wish to enhance their ability to facilitate organizational effectiveness.

The 18-credit program is designed to address conceptual and practical skills, allowing participants to anchor their consulting practice to a value-centered, systems-driven approach. Through a practicum, students in the certificate program develop a heightened awareness of their role as active participant in the consulting process and a corresponding commitment to uniting one’s
organizational colleagues around the creation and attainment of real and sustained change leading to improved organizational effectiveness.

**Admission to the Certificate Program**

Admission to the certificate program is granted to individuals who meet the standards for admission to the Master of Arts in Organizational Leadership program. Students who wish to pursue a master of arts in organizational leadership may use the credits in this certificate program, providing that the admission requirements to the MAOL degree program are met.

**Specific Requirements**

Students are expected to attend professional association meetings such as Organization Development Network during their course of study. Students are also expected to complete an approved practicum project within an organizational setting.

The certificate is awarded upon successful completion of all coursework (18 credits) with an overall grade point average of 3.0 or above. No transfer credits may be used. All course prerequisites must be completed.

**prerequisites: none**

**required courses (15 credits)**

- OLCU 602  Self, Systems, and Leadership  3
- OLCU 613  Seminar in Organizational Behavior  3
- OLCU 615  Organization Development  3
- OLCU 617  The Practice of Organization Development  3
- OLCU 688  Practicum in Organization Development  3

**electives (3 credits)**

- OLCU 600  Foundations of Organizational Leadership  3
- OLCU 601  Democracy, Ethics, and Leadership  3
- OLCU 614  Leadership and Team Development  3
- OLCU 620  Contemporary Issues in Organizational Leadership  3
- OLCU 621  Frontiers of Public and Nonprofit Leadership  3
- OLCU 625  Developing Leadership Competencies  3
- OLCU 626  Dynamics of Public and Nonprofit Leadership  3
- HRCU 616  Consulting  3
- HRCU 630  Conflict and Negotiation  3
- HRCU 646  Training and Development  3
- HRCU 650  Strategic Management of Human Resources  3

**total credits for the certificate program**  18

**Executive Certificate in Public and Nonprofit Leadership**

The executive certificate in public and nonprofit leadership is a 6-credit graduate-level program intended for executives, managers and other professionals from the non-profit, public or civic sectors who wish to enhance their ability to lead
volunteers. In a situation where participation cannot be demanded or extracted, the importance of inspiring commitment through the power of mutual influence (as opposed to the power of one’s position) becomes paramount. That is the essence of voluntary leadership.

The certificate is awarded upon successful completion of OLCU 621 and OLCU 626 with a 3.0 grade point average or higher. Students who wish to pursue further graduate study in organizational leadership may use the above credits, providing the appropriate admissions standards are met.
Master of Arts in Psychology

Judy Matthews, Ph.D., Division Chair
Nicholas Aliotti, Ph. D.
Ronald Browne, Ph.D.
Laurie G. Dodge, Ph.D.
Marnie Elam, Ph.D.
G. Evelyn LeSure-Lester, Ph.D.
Janis L. Lewis, Ph.D.
Mary E. Mallory, Ph.D.
Michael J. McGuire, Ph.D.
Kathleen Ringenbach, Ph.D.
Richard Sinacola, Ph.D.

The mission of the department of psychology is to help students acquire a broad-based knowledge in the field of psychology in its historical and cultural contexts, both as an empirical science of human behavior and as a foundation for a professional career in human services.

Chapman University College offers a Master of Arts in psychology with two emphases designed to provide the student with the academic and professional training necessary for a career in counseling and human services and/or provide the foundation for further graduate study in psychology or one of the related disciplines.

Marriage and Family Therapy Emphasis
This emphasis is the primary practice-oriented option within the psychology master’s programs. It provides a solid foundation for practice as a marriage and family therapist. This program meets the education requirements for licensure in California and Washington or certification in other states, and membership in the American Association of Marriage and Family Therapists. This program includes a substantial experiential component in which the student works under the supervision of faculty in an approved counseling site. Students in this emphasis complete a minimum of 54 semester units.

Chapman University is accredited by the Western Association of Schools and Colleges. The Master of Arts in Psychology, Marriage and Family Therapy program at Chapman University meets and exceeds the curriculum requirements set forth in the California Business and Professional Code sections 4980.37 and 4980.40 and has notified the Board of Behavioral Science (the licensing board for marriage and family therapists in California) of our curriculum as required by law.

Counseling Emphasis
(Offered only at Chapman University College campuses in Washington)

The courses in the counseling emphasis provide a solid foundation for the student wishing to pursue a career in psychologically oriented counseling at the pre-doctoral level. The counseling emphasis requires a minimum of 48 semester units.
Admission to the Program
Admission to the program may be achieved by the completion of the following requirements:

1. Satisfactorily fulfill graduate admission requirements for University College as stated in the catalog. (See the Graduate Admissions section.)

2. If the student uses Option Two in the CUC graduate admissions requirements, submit passing scores from one of the following standard admission tests:
   - **Graduate Record Examination (GRE):** achieve a minimum score of 900 on the combined scores of the verbal and quantitative subsections of the GRE or score at or above the 60th percentile on the Graduate Subject Test in psychology.
   - **Miller's Analogies Test (MAT):** achieve a scaled score of 400.

3. Admission is also contingent on the quality of the autobiography and letters of reference. The student should submit an autobiography, which must be at least three to four typed pages in length and conform to the following guidelines:
   a. Include childhood, family and (if applicable) marital data and values derived from these experiences in relation to your choice of a career in marriage and family therapy/counseling.
   b. Incorporate two or three relevant experiences that have helped to shape your development and personality; and
   c. Discuss how you arrived at this point in your career development. Include any relevant professional experience.

4. Submit three letters of reference from persons actively engaged in teaching and/or the practice of counseling, who are in a position to evaluate the applicant’s academic and personal qualifications for the program.

5. Two applications are required; one for Graduate Admissions and one for the Department of Psychology. Students should send both application forms to their local University College campus. The application must be complete, including both the autobiography and letters of recommendation.

6. The student must meet with the faculty/program manager to review admissions documents and for admissions interview.

7. Note that licensing and certification agencies typically have regulations denying licensure or certification to anyone who has been convicted of a felony, most especially one which reflects an offense which would be a cause for disciplinary action if committed by one already holding the license. Please contact the licensing board in the state you plan to license for clarification of how a conviction may affect licensing. This clarification should be done before the application for admission to this program is submitted.

8. Students must have **regular admission status** prior to enrollment in graduate coursework.
Graduate Prerequisites
The applicant must possess a bachelor’s degree in psychology from an accredited college or university, or must present evidence of satisfactory academic background in:

1. Abnormal psychology (PSYU 328);
2. Child psychology (PSYU 323) or adolescent psychology (PSYU 324) or developmental psychology or lifespan;
3. Learning theory (PSYU 310) or cognitive psychology (PSYU 317) or physiological psychology (PSYU 333);
4. Personality theory (PSYU 322);
5. Statistics (PSYU 203) or research methods (PSYU 304) or psychological measurement (PSYU 432);
6. Family systems and dynamics (PSYU 455).

All prerequisites must be met within one year of the student’s regular admission status. Students cannot continue graduate work if the prerequisite requirements are not met within one year of their regular admission date. Prerequisite requirements can be met by either completing an undergraduate course in the content area from an accredited college or university, or earning a grade of “C” or better on a challenge exam. The challenge exams are offered in all six course areas at each local campus. Students must meet with the psychology faculty/advisor to outline a plan to meet the prerequisite requirements. Students are strongly urged to concentrate on prerequisites early in their program.

Coursework Program
Transcripts and program application materials are evaluated. Upon admission a coursework program indicating program prerequisites still to be completed, courses accepted for transfer, and coursework constituting the program emphasis will be completed. Questions about prerequisites, program requirements, transfer credit, or other concerns should be discussed and resolved with the psychology faculty/advisor.

Advisement
Students are required to meet with the psychology faculty/advisor to discuss and clarify any questions about the proposed program and career prior to beginning the program. The student is also required to contact the faculty or program manager before registering for classes each term.

Screening
All graduate psychology students must arrange for a screening interview during the first three terms of study or after completion of 12-18 graduate units. Screening must occur prior to completion of 24 graduate units. Screening may be arranged by contacting the faculty/advisor in psychology at your local campus. In the screening interview, a preliminary assessment of the student’s academic, intellectual, and psychological readiness for a career as a therapist will be made.
All students must have on file a signed copy of the ethical standards statement before appearing for the screening interview. Successful completion of the screening procedure is a requirement for continuation in the degree program for all graduate psychology students.

**Advancement to Candidacy**

During the term before the student plans to begin the first practicum, he/she must apply to the University College campus for advancement to candidacy. For the MFT emphasis, the following courses must be successfully completed (30 units): PSYU 501, 541, 556, 561, 565, 570, 575, 578, 586, and 581. For the Masters in Counseling, the following courses must be successfully completed (30 units): PSYU 501, 508, 511, 541, 570, 575, 578, 581, 586, and 652. A student must receive a "C" or better in a course for successful completion. At the advancement to candidacy interview, the student will meet with a faculty committee. The committee determines whether the student is prepared to be formally declared a candidate for a master of arts degree and be permitted to proceed into the practicum phase of the program.

At the time of the advancement interview, each student will be provided with a vignette for which the student will discuss a diagnosis and a tentative treatment plan, which will be the foundation of the advancement interview. The treatment plan will address identification of problems, proposed interventions, ethical issues, prognosis, further assessment and any "red flags" that may need further attention. An Advancement to Candidacy Study Guide is available to students.

Specifically, the functions of the advancement to candidacy committee are:

1. To review the student's academic status with respect to fulfilling required coursework in a satisfactory manner.
2. To provide information and counsel to the student in matters pertaining to his or her academic progress and plans.
3. To ascertain whether significant gaps exist in the student's knowledge and/or understanding of the subject field.
4. To apprise the student of any academic, professional or ethical aspects of the counseling program that may be a source of concern.
5. To assess the student's academic and psychological readiness, and personal suitability to engage in the profession of marriage and family therapy/counseling; and
6. To assess the student's readiness to begin the practicum. Successful advancement to candidacy is a prerequisite to enrolling in practicum.

**Ethical and Professional Standards**

Since the psychology graduate programs involve preparing people to work in the helping profession, the department assumes the responsibility for reasonably assuring that individuals who complete the program are not only academically competent but are aware of and capable of functioning within the established ethical and professional standards of the profession. A student in the psychology
graduate programs must adhere to the ethical standards propounded by the relevant professional associations and should understand that he/she is being trained in a program which is not only academic, but also professional in nature.

The university has both the right and obligation to evaluate continually, and, if necessary, to terminate the student’s participation in the master’s program at any point for ethical violations and/or personal unsuitability for the profession. This philosophy is consistent with that of most psychology graduate programs which are engaged in explicitly or implicitly certifying that their graduates are competent to engage in the practice of professional counseling or psychotherapy.

It is understood, therefore, that students will be required to maintain appropriate professional, ethical and personal standards in order to continue in the program. Faculty will assess each student’s status in meeting these standards on a continuing basis, and students experiencing difficulties will be advised as to appropriate means of remediating such difficulties by the faculty/advisor. If resolution cannot be achieved, the student will be terminated from the program. Compendia of the ethical standards are available from the American Psychological Association, the American Association for Marriage and Family Therapy and the California Association of Marriage and Family Therapists.

**Personal Therapy**
The psychology faculty believes that participating as a client in individual or group therapy is an important educational aspect of a program to prepare mental health professionals. Experience as a client in personal therapy is, therefore, one of the program requirements for the marriage and family therapy emphasis. The requirement is met through a minimum of 20 sessions of individual or group therapy conducted by a licensed marriage and family therapist, licensed clinical social worker, licensed clinical psychologist, board-eligible psychiatrist, or mental health worker of equivalent status. Verification will consist of a letter by the therapist (on the therapist’s letterhead) or an official psychotherapy form from the state in which the student is registered stating the time spent in therapy, sent directly to the University College campus. This verification must be on file at the time the student applies for graduation.

Additional personal therapy may at any time be recommended by the department for the student to continue in the program. Commencement of therapy or recommendation of additional therapy may be a stipulation or condition at the time of a student’s screening or advancement to candidacy interview. The student has the right to choose his/her own therapist for this requirement within the limitations of ethical standards prohibiting dual relationships and the criteria of the paragraph above.

**Practicum**
The practicum site agreement must be completed prior to starting any trainee hours at the approved site. The student should obtain the required forms from the faculty/advisor at the local campus well in advance of the deadline to enable him/her to fully comply with the requirements for the practicum and to deal with
any special problems or circumstances that may affect the acceptability of the proposed practicum. Student must advance to candidacy prior to registration for practicum.

Comprehensive Exam
After the student has successfully advanced to candidacy, he/she is eligible to take the comprehensive exam. Application deadlines are published in the catalog and posted at each local campus. Comprehensive exams will be administered four times per year. Application forms are available at University College campuses.

The comprehensive examination will cover six primary program content areas presented in an essay format. The six content areas for MFT students are:

1. Advanced Psychopathology and Individual Counseling;
2. Ethical and Legal Issues;
3. Family Therapy, including Human Diversity;
4. Child/Adolescent Psychopathology, or Lifespan;
5. Assessment and Treatment of Substance Abuse;
6. Assessment and Treatment of Sexual Disorders.

Counseling Psychology students (Washington) are responsible for the following content area:

1. Advanced Psychopathology and Individual Counseling;
2. Ethical and legal Issues;
3. Assessment and Treatment of Substance Abuse;
4. Assessment and Treatment of Sexual Disorders.

Students must receive a pass on all sections of the exam in order to pass the exam as a whole. If a student does not receive a pass on a specific section, the student can retake that section of the exam. A Comprehensive Examination Study Guide is available at each University College campus. The guide contains information about the examination, study preparation ideas, and sample vignettes and questions.

Course Descriptions

Following is a list of courses offered through Chapman University College. Courses may not be available at all locations or offered all terms. Some courses may be offered in an online format. Please inquire with your local campus for class schedules.

**ART**

**ARTU 110 Foundation Course in Design**

Students learn the basic elements of design and their application. Includes study of line, texture, pattern, color, shape and composition. 3 credits.

**ARTU 111 Foundation Course in Drawing**

Emphasizes composition, spatial concerns, color and rendering techniques while encouraging subjective responses to subject matter. Media include pastels, colored pencil, oil sticks, and non-traditional materials. Studio experiences augmented by lecture, discussion, and sketching field trips. 3 credits.

**ARTU 195 Visual Literacy**

This course provides students with the vocabulary for discussing the formal elements of painting, sculpture, architecture, photography, graphic design, and mass media. The modern Western tradition is emphasized, but ways of understanding and evaluating art from other cultures and epochs are also explored. 3 credits.

**ARTU 211 Introduction to Life Drawing**

Students develop basic drawing skills and visual awareness through drawing from models. Line quality, textural character, proportion, and chiaroscuro are emphasized using such media as charcoal, pencil, powdered graphite, ink, and conte crayon. 3 credits.

**ARTU 260 Ancient to Medieval Art**

A survey course that introduces the student to the development of the visual arts from the Paleolithic (Old Stone Age) period to the Middle Ages. Lecture, discussion, field trips to area museums. 3 credits.

**ARTU 261 Renaissance to Modern Art**

Surveys the monuments, movements, and artists of Western art from the Renaissance to the 20th century. Introduces the student to the ideas and issues which have characterized much of Western art for the past seven centuries and examines them in relation to the religious, social, political, and intellectual milieu that produced them. References and comparisons with the parallel cultures of Asia, Oceania, Africa, and the ancient Americas will be made whenever appropriate. Lecture, discussion and field trips to area museums. *This course may also be offered online.* 3 credits.

**ARTU 329 Experimental Topics in Art**

An examination of selected topics in art relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.
ARTU 362 Nineteenth Century Art
An exploration of European art from the French Revolution to the Industrial Revolution. Special attention will be given to the ways in which the visual arts are influenced by and mirror contemporary developments in society, politics, philosophy, and psychology. Lectures, discussions, field trips to area museums. 3 credits.

ARTU 363 Modern Art
A detailed introduction to the development of modernism, with an emphasis on contemporary interests in spirituality and occult phenomena, discoveries in science, mathematics, psychology, and new philosophical perspectives on the nature of reality. Lectures, discussion, field trips to area museums. This course may also be offered online. 3 credits.

ARTU 365 American Art
Surveys American Art from colonial times through 1945 emphasizing painting and sculpture. Consideration is given to the social, political, and cultural influences on major artists and movements. Slide lecture, discussion, field trips. 3 credits.

ARTU 369 The Art of China and Japan
A study of the arts of China and Japan as a means of understanding Asian culture and as a complement to your knowledge of Western art. Topics include Chinese landscape painting, the Japanese print, gardens, architecture, sculpture, ceramics, and bronzes. Lecture, discussion, field trips, and projects. This course may also be offered online. 3 credits.

ARTU 370 Contemporary Art: 1945-1970
Surveys the major artistic developments in Europe, America and Asia between the close of World War II and the emergence of Post-modernism, including Abstract Expressionism, Pop Art, Minimalism, Conceptualism, and Site-Specific Art. 3 credits.

ARTU 371 Contemporary Art: 1970 to Present
Explores the evolution of art since 1970 in Europe, America and Asia. Traditional media, performance, video and installation art are discussed in the light of post-modernist theory, Feminist and Marxist criticism and the impact of mass media and new technologies. 3 credits.

ARTU 450 Teaching the Visual Arts
This course explores the elements of creativity in the visual arts and how it can be effectively taught at all age levels (K-12, high school, and special education). Drawing on art history as well as parallels with literature, science, mathematics, music and drama, students learn to develop an entire school art program and produce a portfolio of projects and lesson plans exploring a variety of media and approaches. Lecture, discussion, studio projects, field trips. 3 credits.

ARTU 464 Women in Art
An exploration of portrayals of women by both female and male artists. The primary focus is women as makers, subjects and muses of painting, sculpture and photography. 3 credits.
ARTU 499 Independent Study  
Prerequisites: Instructor's approval and approval of petition. Directed reading and/or research designed to meet the specific needs of superior upper-division students. 1-3 credits.

BIOLOGICAL AND LIFE SCIENCES

Biology

BIOU 103 Introduction to Life Sciences  
This course introduces the basic principles of biology in three major components – the structure and function of living organisms, interactions of the organisms with their environment, and interactions of the organisms with their environment (ecology), and the ways organisms change over time (genetics and evolution). In the laboratory part of this course the students will learn analytical techniques that will enable them to work in teams to make hypotheses, obtain and analyze data and present their conclusions both in oral and written formats. Lecture, laboratory. Lab fee: $35. 4 credits.

BIOU 105 Environmental Biology  
An introduction to basic biology and ecology with emphasis on understanding the interrelationship of environmental degradation and living organisms in light of current social and political thought. Lecture, laboratory. Lab fee: $35. 4 credits.

BIOU 325 Field Biology  
Prerequisite: one semester of biology. Structural, physiological, and behavioral characteristics of plants and animals of California, and their ecological relationships. Field trips, lectures, and laboratory. Field trip fee to be determined. 3 credits.

BIOU 329 Experimental Topics in Biology  
Prerequisite: one semester of biology. An examination of selected topics in biology relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

BIOU 335 Impact on Society: Biotechnology  
Prerequisite: one course in biology or instructor’s approval. A lecture/discussion course designed to involve students in addressing the numerous issues regarding how the biological revolution of the past three decades has changed many aspects of our lives both as individuals and as a society. Extensive consideration and discussion is given to ethical and social issues related to how this information is used especially relating to medical genetics. 3 credits.

CAREER COUNSELING

CCNU 500 Introduction to Counseling and Interpersonal Relations: Concepts and Skills  
This course provides an introduction and overview of basic counseling and interpersonal skills concepts. While several different theories will be discussed,
this course will focus relations on the development of basic solution building skills needed by individuals working in a variety of counseling, educational, and professional settings. Role playing through use of vignettes will seek to improve the student’s understanding of and ability to use these skills in professional settings. Also covered will be professional and ethical issues germane to students in various disciplines. 3 credits.

**CCNU 572 Career Counseling Theories and Practices**
This class is an intensive examination of career development theories and concepts. It includes case studies of career development including experiential-based techniques. Other topics include the study of career counseling organizations and literature; factors of career choice; job search strategies; and individual career counseling skills. 3 credits.

**CCNU 573 Counseling in Higher Education**
This class is a comprehensive review of the roles and functions of counselors in higher education, with focus and emphasis on two-and four-year colleges. It includes an introduction to the processes involved in preparing an educational plan and using tests in course placement. Other topics include university transfer, multicultural issues, matriculation, and curriculum issues. 3 credits.

**CCNU 574 Career Information and Assessment**
Prerequisite: CCNU 572 or instructor’s approval. This class is a critical examination of the factors in career choice, decision-making and goal-setting strategies; vocational testing and interpretation; the use of occupational information; and the study of career education programs used in a variety of educational and organizational settings. 3 credits.

**CCNU 575 Field Practice (or Internship) I Career Counseling (Organizational and Private Practice)**
Prerequisites: CCNU 572, CCNU 574. Students participate in supervised career counseling field practice. Experiences leading to the achievement of competencies in the following areas of career counseling are emphasized: career development theory, individual and group career counseling skills, individual/group assessment, information/resources, program management and implementation, consultation, special populations, supervision, ethical/legal issues, and research/evaluation; 300 clock hours per 3 semester credits must be completed under the supervision of an approved and experienced practitioner. Graded on Pass/No Pass basis. 3 credits.

**CCNU 576 Field Practice (or Internship) II Career Counseling (Organizational and Private Practice)**
Prerequisites: CCNU 572, CCNU 574. Students participate in supervised career counseling field practice. Experiences leading to the achievement of competencies in the following areas of career counseling are emphasized: career development theory, individual and group career counseling skills, individual/group assessment, information/resources, program management and implementation, consultation, special populations, supervision, ethical/legal issues, and research/evaluation; 300 clock hours per 3 semester credits must
be completed under the supervision of an approved and experienced practitioner. Graded on Pass/No Pass basis. 3 credits.

**CCNU 577 Technology, Social Change, and Career Development**
This class teaches students to recognize and analyze trends affecting employment, identify emerging occupations, and define the role of technology and information in the workplace. Discusses basic skills in selecting technology, applying technology, and equipment maintenance in counseling, educational, and human resource settings are addressed. 3 credits.

**CCNU 596 Seminar in Career Counseling and Development**
*Prerequisites: CCNU 572, CCNU 574.* Students discuss current issues in career counseling, ethical issues in career counseling, and examine the design and implementation of career management systems. Students review National Career Development Association (NCDA) Career Counseling Competencies. Students also study the National Occupational Information Coordinating Committee (NOICC) Career Development Guidelines as well as National Board of Certified Counselors (NBCC) standards. 3 credits.

**CCNU 652 Field Practice (or Internship) I Career Counseling (Higher Education)**
*Prerequisites: CCNU 572, CCNU 574.* Students spend a minimum of 300 clock hours per 3 semester credits of supervised field practice in a career counseling setting in higher education. Students demonstrate career counseling skills, knowledge of career information and assessment, and knowledge and skills involving program management, implementation and consultation. Graded on a Pass/No Pass basis. 3 credits.

**CCNU 653 Field Practice (or Internship) II Career Counseling (Higher Education)**
*Prerequisites: CCNU 572, CCNU 574.* Students spend a minimum of 300 clock hours per 3 semester credits of supervised field practice in a career counseling setting in higher education. Students demonstrate career counseling skills, knowledge of career information and assessment, and knowledge and skills involving program management, implementation and consultation. Graded on a Pass/No Pass basis. 3 credits.

**CCNU 699 Outplacement Counseling**
Students learn the skills, knowledge, and techniques necessary to help managers, executives and scientific professionals manage career transitions. Specific attention is paid to the job search and job choice processes experienced by individuals in mid-career transition. Students will also learn to consult with organizations to plan and implement a complete downsizing program. 3 credits.

**COMMUNICATIONS**

**COMU 101 Public Speaking I**
An introduction to the fundamentals and elements of public speaking, organization, and performance. 3 credits.
COMU 110 Interpersonal Communications
Interpersonal Communications is an introduction course to the principles, process and practice of dyadic communication. A major aspect of the course is the development of interpersonal communication competencies: listening, perceiving, language development and usage, nonverbal communication, empathy, self-disclosure, feedback, personality reading and responding, managing pleasant and unpleasant emotions, taking part in intercultural interactions, creating positive communication climates, speaking within teams and groups, and methods of conflict resolution. 3 credits.

COMU 160 Principles of Advertising
A study of the integrated marketing communications model, recognizing the importance of coordinating all of the promotional mix elements to develop an effective communications program. 3 credits.

COMU 210 Theories of Persuasion
An introduction to the methods of persuasion from Aristotelian rhetoric to contemporary tactics and techniques found in advertising, political and product campaigns, and salesmanship. 3 credits.

COMU 215 Communicating About Business
An overview of the communications business as a “business” and the terms and concepts necessary to understand and communicate about a client’s business. Students will be introduced to basic business principles and the terminology used to describe business practices. In addition, students will gain an understanding of the communication and business skills required in the operation of a communication business such as a public relations or advertising firm or a department responsible for these functions within a corporation. 3 credits.

COMU 270 Internet Communications
An overview of the ways in which electronic communications channels and tools have transformed the practice of public relations. Study and practice in using and evaluating programs of communication using electronic tools. Emphasis will be on the effective use of these tools in managing relationships of key target audiences in support of organizational goals and objectives. 3 credits.

COMU 301 Advanced Public Speaking
Designed to provide a more in-depth study of classical and contemporary principles of rhetoric and rhetorical criticism, this course provides concentrated work in speech structure, delivery, and criticism. 3 credits.

COMU 305 Desktop Publishing
An introduction to desktop publishing, using Adobe PageMaker software and the use of computers for layout, design, and publication of a variety of public relations-oriented materials. 3 credits.

COMU 312 Group Dynamics and Leadership
This course is designed to provide the student with the skills necessary to participate effectively in problem solving groups. Instruction includes theory and technique. Competencies in group communication are developed through in-class exercises, case studies. 3 credits.
COMU 315 Intercultural Communications
This course explores the similarities and differences in the communications process from the perspectives of a variety of cultures. Special emphasis is given to the historical development of a culture in terms of its particular world view and the reciprocal impact of that world view on intercultural communications in such contemporary contexts as the establishment of global economies, second language education and world wide media expansion. Students will experience practical application of theory and learn methods and techniques for more effective communication across cultures. 3 credits.

COMU 329 Experimental Topics in Communications
An examination of selected topics in communications relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

COMU 370 Principles of Public Relations
Examination of the social, psychological, economic, and political foundations of public relations; and the integration of the behavioral sciences, management, and communication theories into a profession. 3 credits.

COMU 371 Writing for Public Relations
A comprehensive introduction to the various forms of public relations writing such as news and feature releases. Beginning with basic writing and organizational principles, the course introduces the student to persuasive writing designed to meet specific communication objectives. 3 credits.

COMU 410 Organizational Communication
Instruction includes a mix of theory and practice of interpersonal communication in organizational settings. Major research theories are experienced through analysis of case studies and guided role play of typical situations in organizations. 3 credits.

COMU 499 Independent Study
Prerequisite: Instructor’s approval and approval of petition. Directed reading and/or research designed to meet specific need of superior upper-division students. 1-3 credits.

COMPUTER SCIENCE
CSCU 200 Introduction to Computers and Data Processing
Students gain experience using word processing, electronic spreadsheet and database management software. The use, misuse, and abuse of computers will be discussed with examples from many fields. Different sections of this course may be offered on different hardware platforms, usually IBM -PC compatibles or Macintoshes, but the same concepts will be studied in each section and therefore the course may be taken for credit only once. This course may also be offered online. 3 credits.
CSCU 210 Intro to Programming – Visual BASIC
This is a basic course in computer programming. Students will be introduced to problem-solving for programming in the context of Visual Basic.NET. The emphasis will be on learning programming as a transferable skill, to that end the focus will be on control structures, error handling and debugging and is suitable for undecided students who wish to consider careers in computing. Some visual components will be included in the course. 3 credits.

CSCU 218 C++ for Java Programmers
Prerequisite: programming background in Java at the 231 level or above. This course is offered for programmers who want to become familiar with another object-oriented language. It will emphasize pointers, the differences between the syntaxes of the language, and C++ libraries. This course may also be offered online. 1 credit.

CSCU 219 Java for C++ Programmers
Prerequisite: programming background in C++ at the 230 level or above. This course is offered for programmers who want to become familiar with another object-oriented language. It will emphasize objects, the differences between the syntaxes of the language, and commonly used Java classes. This course may also be offered online. 1 credit.

CSCU 230 Computer Programming I
Prerequisite: MATU 110 or CSCU 210. Students are introduced to problem-solving methods and algorithm development in a high-level object-oriented programming language. The course emphasizes good design, coding, debugging, and documentation, as being fundamental to the discipline. The course includes lecture as well as some in-class supervised lab experience. The expectation is that most programming will be done outside of class. This course may also be offered online. 3 credits.

CSCU 250 Assembly Language Programming
Prerequisite: CSCU 230 or equivalent. Students learn basic programming and program structure in an assembly language, to provide experience with machine language instruction, execution, addressing and representation of data, macros, subroutines, linkages, and recursive routines. 3 credits.

CSCU 252 Computer Architecture I
Prerequisite: CSCU 210 or CSCU 230. MATU 250 is also recommended. Students learn the organization and structuring of the major hardware components of computers, to understand the mechanics of information transfer and control within a digital computer system, and to provide the fundamentals of logic design. This course may also be offered online. 3 credits.

CSCU 329 Experimental Topics in Computer Science
An examination of selected topics in Computer Science relevant to evolving areas in the field. Syllabi must be approved by Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided that the course content is different. 3 credits.

CSCU 330 Computer Programming II
Prerequisite: CSCU 230 or equivalent. Students continue their study of
computer programming through simple data structures, advanced object-oriented design, and large program structure. The course typically involves a significant programming project. The course includes lecture as well as some in-class supervised lab experience. The expectation is that most programming will be done outside of class. This course may also be offered online. 3 credits.

CSCU 350 Data Structures
Prerequisite: CSCU 330. Students develop and use data structures such as stacks, queues, lists and trees to understand techniques such as hashing, dynamic storage allocation, and garbage collection. 3 credits.

CSCU 352 Computer Architecture II
Prerequisite: CSCU 250. Topics to be covered are the design and analysis of instruction set processors, memory management, paging, segmentation, I/ O system design, multi-processors, networks, high level language computers, object-based architecture and data flow systems. 3 credits

CSCU 353 Data Communications and Computer Networks
Prerequisite: CSCU 252. Students explore the principles and techniques of data communications and give special emphasis to networks and distributed systems. The I. S. O. Reference Model for open systems interconnection will be investigated and the function and operation of each protocol layer analyzed. 3 credits.

CSCU 354 Programming Languages
Prerequisites: CSCU 230. Students develop an understanding of the organization and design of programming languages through the formal study of programming language specifications and analysis. 3 credits.

CSCU 355 Graphical User Interface Design
Prerequisite: CSCU 230. Students gain experience in designing applications for different GUIs (Graphical User Interfaces). Students investigate various application frameworks using object oriented component reuse techniques. Several windowing systems are explored and evaluated. 3 credits.

CSCU 360 Computer Graphics
Prerequisite: CSCU 330. The fundamental concepts of graphics software, hardware, and standards are examined. The course gives special emphasis to three-dimensional graphics and provides an introduction to graphical user interfaces. 3 credits.

CSCU 380 Operating Systems
Prerequisites: CSCU 252 or CSCU 350. Students learn about the organization and architecture of computer systems at the machine and programming levels of system description. The course emphasizes the major principles of operating system design and the interrelationships between the operating system and hardware. 3 credits.

CSCU 383 Project Management for Information Systems
CSCU 390 Artificial Intelligence
Prerequisites: CSCU 330. Students study the tools, techniques, and applications of artificial intelligence. Students will be introduced to the programming techniques utilized in artificial intelligence applications. 3 credits.

CSCU 402 Compiler Construction
Prerequisites: MATU 250, CSCU 350, CSCU 354. Students examine the techniques involved in the analysis of source-language statements and the generation of object code. 3 credits.

CSCU 406 Algorithm Analysis
Prerequisites: MATU 211, MATU 250, CSCU 350. A study of basic techniques of design and analysis of efficient algorithms for internal and external sorting/merging searching, to provide for the integration of data structure, sort/merge/search/methods and memory media into a simple data base management system. 3 credits.

CSCU 408 Database Management
Prerequisites: CSCU 230. Students learn data management concepts and the representation and structure of data in the context of applications and system software. The emphasis is on design of databases and developing applications in a client-server environment using SQL as the query language. 3 credits.

CSCU 410 Structured Systems Analysis and Design
Prerequisites: CSCU 408. Overview of the system development life cycle. Advanced study of structured systems development. Emphasis on strategies and techniques of structured analysis and structured design for producing logical methodologies for dealing with complexity in the development of information systems. 3 credits.

CSCU 411 Software Engineering
Prerequisites: CSCU 410. Overview of software engineering, software quality issues, software requirements, software design, software reuse, OOAD, and project management. This will serve as the course to demonstrate mastery of the program. This course will have a significant team project. 3 credits.

CSCU 453 Network Implementation
Prerequisite: CSCU 353. This course cannot be used for upper-division elective credit for CIS students who get credit for an industry certificate. Students explore the principles and techniques for implementing TCP/IP based networks using Microsoft Windows NT servers and clients, including the skills to configure, customize, optimize, troubleshoot, and integrate networks. This course assists with preparing students to meet the Microsoft Certified Systems Engineer certification requirements. For CS and CIS majors only. 3 credits.

CSCU 455 Operating System Administration
Prerequisite: CSCU 453. This course cannot be used for upper-division elective credit for CIS students who get credit for an industry certificate. Students explore the principles and techniques for managing the Microsoft Windows NT operating system in the enterprise, including the skills to install, configure, customize, optimize and troubleshoot both the NT workstation and server operating system. This course assists with preparing students to meet the Microsoft Certified Systems
COURSE DESCRIPTIONS

Engineer certification requirements. For CS and CIS majors only. 3 credits.

CSCU 458 Advanced Web Based Database Systems
Prerequisites: CSCU 408, CSCU 453, and CSCU 455. This course cannot be used for upper-division elective credit for CIS students who get credit for an industry certificate. Students explore the principles and techniques for managing the most recent Microsoft’s SQL Server Database System and Microsoft’s Internet Information Server including the skills to install, configure, customize, optimize, and troubleshoot both the SQL Server and Information Server Systems. This course assists with preparing students to meet the Microsoft Certified Systems Engineer certification requirements. For CS and CIS majors only. 3 credits.

CSCU 491 Cooperative Education
1-6 credits.

CSCU 498 Senior Project
3 credits.

CSCU 499 Independent Study
Prerequisites: Instructor’s approval and approval of petition. Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.

COUNSELING AND SCHOOL PSYCHOLOGY

CSPU 500 Introduction to Counseling and Interpersonal Relations: Concepts and Skills
Prerequisites: None. This course provides an introduction and overview of basic counseling and interpersonal relations including skills and concepts. While several different theories will be discussed, this course will focus on the development of basic solution-building skills needed by individuals working in a variety of counseling, educational, and professional settings. Laboratory experiences will seek to improve the student’s understanding of and ability to use these skills in professional settings. Also covered will be professional and ethical issues germane to students in various disciplines. 3 credits.

CSPU 510 Introduction to the Ethical Practice of School Psychology
Prerequisites: acceptance into the graduate program in school psychology and approval of the program coordinator. This is the introductory course to the graduate program in school psychology at Chapman University College. It introduces students to the various roles of school psychologists have in the public schools, ethical and legal guidelines that shape the profession, and emergent practices in assessment, crisis intervention, personal & social counseling, behavior management, consultation, and systems change. 3 credits.

CSPU 511 Introduction to the Ethical Practice of School Counseling
Prerequisites: acceptance into the graduate program in school counseling and approval of the program coordinator. This is the introductory course to the graduate program in school counseling at Chapman University College. It introduces students to the roles school counselors have in the public schools, the
ethical and legal guidelines that shape the profession, and emergent practices in
individual and group assessment, academic advisement, career counseling,
crisis intervention, personal & social counseling, consultation, and systems change. 3 credits.

**CSPU 512 Advanced Counseling and Intervention**
*Prerequisites: an introductory course in counseling theory or CSPU 500 and approval of the program coordinator.* This course focuses on a time-limited or brief approach to counseling and intervention with children and adolescents. Major units of study include skills for establishing goals, evaluating progress in counseling, crisis intervention, drug and alcohol problems, and the use of art and play techniques with children. Emphasis is placed on using these skills with children and youth of various age levels and in multicultural settings. 3 credits.

**CSPU 513 Group Leadership and Intervention**
*Prerequisites: successful completion of CSPU 500 or approval of the program coordinator.* This course emphasizes theories and methods of group leadership and intervention with children and parents. Major units of study include the history of group approaches to counseling and intervention, theories of group process and group interventions with children and parents, legal and ethical guidelines of group interventions, group leadership skills, developmentally and culturally appropriate group interventions, crisis intervention, group interventions for drug and alcohol abuse, and group approaches to parent consultation and education. Emphasis is placed on using these skills with children and youth of various age levels and in multicultural settings. Students will be expected to gain sufficient field experience to design, implement, and evaluate a group intervention with children, youth, and/or parents in a public school or agency setting. 3 credits.

**CSPU 514 Cultural and Community Issues in Counseling and School Psychology**
*Prerequisites: CSPU 510 or 511 and/or approval of the program coordinator.* This course focuses upon the unique challenges diversity brings to the provision of counseling and psychological services to children, adolescents, and parents. Students will learn the history, culture, and expectations of different ethnic and cultural groups and develop the cross-cultural communication skills necessary to effectively work with families of varying cultural and socio-economic backgrounds. Students will also explore how issues such as immigration, poverty, sexism, and racism affect counseling practices and the development of effective interventions. 3 credits.

**CSPU 515 Practicum in Counseling and Intervention**
*Prerequisites: successful completion of CSPU 511 and CSPU 512 and/or the approval of the program coordinator.* This course provides opportunities for counseling students to practice intervention skills under close supervision. Students will apply the knowledge and techniques learned in previous coursework to the resolution of individual, group, and systems level problems. A minimum of 50 of the 100 practicum fieldwork hours in an approved public school or agency setting is required for this course. 3 credits.
CSPU 516 Children and Youth in Developmental Context  
*Prerequisites: None.* This course examines the processes of individual development in the context of family, school, and culture. Students will review major theories of developmental psychology and learn effective assessment and intervention skills for disturbances and disorders of childhood and adolescence. 3 credits.

CSPU 534 Practicum in School Psychology I  
*Prerequisites: successful completion of CSPU 500, 510 and 512 and approval of the program coordinator.* This is the first of two practicum courses providing opportunities for school psychology candidates to practice counseling, assessment, and other intervention skills under close supervision. Students will apply knowledge and techniques learned in previous coursework to the resolution of individual, group, and systems level problems. A minimum of 100 practicum fieldwork hours must be completed of the 450 practicum hours required in the program. The additional 350 practicum fieldwork hours will be completed in the other CSPU courses. The 450 practicum fieldwork hours must be accomplished prior to beginning the final fieldwork/internship hours in CSPU 622 and CSPU 623. 3 credits.

CSPU 535 Practicum in School Psychology II  
*Prerequisites: successful completion of CSPU 534, CSPU 512, and approval of the program coordinator.* This course is a continuation of CSPU 534 and will provide opportunities for school psychology candidates to practice counseling, assessment, and other intervention skills under close supervision. A minimum of 100 practicum fieldwork hours is required in this course. All practicum fieldwork hours must be completed prior to beginning the final fieldwork/internship hours in CSPU 622 and CSPU 623. 3 credits.

CSPU 616 Leadership and Systems Change  
*Prerequisites: successful completion of CSPU 500, CSPU 510 or 511 and/or approval of the program coordinator.* This course will focus on the designing, implementing, coordinating, and evaluating effective counseling and psychological services programs. Topics include principles of collaboration and teamwork; facilitating teams of pupil, teachers, administrators, parents, and community members to meet pupil needs; program development and evaluation; and enhancing organizational climate and staff morale through consultation and in-service education. 3 credits.

CSPU 617 Transition to Work and Career  
*Prerequisites: successful completion of CSPU 511 or approval of program coordinator.* This course focuses upon the process of career choice, including the skills of decision-making, goal setting, vocational assessment, career information, and career education programs. Students will learn school-to-career systems appropriate for all students, including those with disabilities. 3 credits.

CSPU 618 Best Practices in Counseling  
*Prerequisites: students must be enrolled in CSPU 620 or CSPU 621 at the time they take this course and have the permission of the program coordinator.*
School counselor candidates will review the knowledge, skills, and standards of the graduate program in counseling in final preparation for their employment as school counselors. Candidates will prepare for the Praxis examination in school counseling, complete their program portfolios, and develop a capstone project as a part of this course. 3 credits.

**CSPU 620 and CSPU 621 Supervision and Mentoring in School Counseling I & II**

Prerequisites: a passing score on the CBEST; CSPU 500, 511, 512, 513, 514, 515, 616; EDUU 602; and approval of fieldwork/internship site by program coordinator. Emphasis is on supervised fieldwork experiences leading to competencies in the following areas: educational assessment, personal and social counseling, academic and career counseling, program development, program coordination, supervision, consultation, and the laws and ethics pertinent to the profession of school counseling. In addition to the required field experience, candidates will participate in 15 lab hours of on-campus supervision during these courses. Candidates must complete a minimum of 600 fieldwork/internship hours. The site supervision of candidates must be by a qualified state credentialed school counselor who is approved by the program coordinator. Graded on a Pass/No Pass basis. 3/3 credits.

**CSPU 622 Supervision and Mentoring in School Psychology I**

**CSPU 623 Supervision and Mentoring in School Psychology II**

**CSPU 624 Supervision and Mentoring in School Psychology III**

**CSPU 625 Supervision and Mentoring in School Psychology IV**

Prerequisites: a passing score on the CBEST, completion of CSPU 450 Practicum hours, completion of 33 program credits including CSPU 510, 512, 514, 516, 534, 535, 637, 638, 639 and EDUU 601, 602. Each course covers one term or 10 weeks (300 hours of fieldwork/internship) for a total of 1,200 hours. This may also be done on a part-time basis over the period of two consecutive academic years with the approval of the full-time faculty. Emphasis is on fieldwork/internship experiences leading to competencies in assessment for intervention, counseling, behavior management, consultation, and systems change. In addition to the required field experience, candidates are expected to participate in 15 lab hours of on-campus group supervision. The site supervision of candidates must be by a qualified state credential school psychologist. Graded on a Pass/No Pass basis. 3/3/3/3 credits.

**CSPU 637 Psychoeducational Assessment for Intervention I**

Prerequisites: CSPU 510, EDUU 600, EDUU 601, and/or approval of the program coordinator. This course will introduce students to a cross-battery model of assessment including the laws and ethics related to assessment and psychoeducational testing. The focus of the course is on the current best practices in the use of both standardized tests and non-standardized assessment methods such as interview, observation, and data collection to assess children and youth. Emphasis is placed on using the systematic interpretation of assessment results to develop academic and behavioral interventions. Students will practice administering standardized tests, conducting interviews and observations, and presenting assessment results to
parents and teachers. Application of these skills in multicultural settings will be accentuated. 3 credits.

**CSPU 638 Psychoeducational Assessment for Intervention II**  
*Prerequisites: CSPU637 and approval of program coordinator.* This course builds on the skills and knowledge obtained in CSPU 637. The focus of this course is gathering comprehensive assessment data and using this data to develop academic and behavioral interventions for children and youth with school-related problems. Application of these skills in multicultural settings will be emphasized. Students will practice developing accurate referral questions, combining data from a variety of sources to arrive at fair and accurate conclusions, developing effective intervention strategies, and preparing written reports of assessment findings. 3 credits.

**CSPU 639 Advanced Positive Behavioral Supports**  
*Prerequisites: EDUU 602 and approval of program coordinator.* The purpose of this course is to provide students with knowledge and skills to (a) identify and assess problem behavior in school settings, (b) design and implement behavioral interventions, including physiological and pharmacological variables, (c) design and implement comprehensive behavior support plans, (d) monitor and evaluate implementation of behavior support plans, and (e) apply behavioral procedures on a school-wide basis. Students will learn to develop both systems level and individual behavioral intervention plans for persons with serious behavioral problems. 3 credits.

**CSPU 640 Consultation and Indirect Intervention**  
*Prerequisites: take this course as part of practicum experience and approval of program coordinator.* This course introduces students to collaborative models of individual and team consultation. The emphasis of this course’s major study units include learning to work with individuals and groups to identify problems, design interventions, and monitor their effectiveness; facilitating collaborative problem-solving teams, and conducting educational programs for parents and school staff. 3 credits.

**CSPU 641 Best Practices in School Psychology**  
*Prerequisites: students must be enrolled concurrently in either CSPU 622 or 623 and have permission of the program coordinator.* Students will review the knowledge, skills, and standards of the graduate program in school psychology in final preparation for their employment as school psychologists. Students will prepare for the Praxis examination in school psychology, complete their program portfolios, and complete their capstone project as a part of this course. 3 credits.

**CRIMINAL JUSTICE**

**CJCU 250 Introduction to the Administration of Criminal Justice**  
This introductory overview course examines the structure, organization, and operations of the American criminal justice system: law enforcement, courts and corrections. Students will become familiarized with basic criminal justice concepts and models; crime categories, statistical patterns and trends; policy; current issues and problems, as well as other pertinent and critical issues. *This course may also be offered online.* 3 credits.
CJCU 329 Experimental Topics in Criminal Justice
An examination of selected topics in Criminal Justice relevant to evolving areas in the field. Syllabi must be approved by Division Chair and announced to the Curriculum and Academic Committee prior to be offered. May be repeated for credit provided that the course content is different. 3 credits.

CJCU 353 Peace and Conflict in the Middle East
(Same as POSU 353) Beginning with a historical examination of the region focusing on the key social forces and the sources of conflict, students explore the Israeli-Palestinian conflict in depth and conduct a peace conference in an attempt to develop a plausible resolution. 3 credits.

CJCU 380 Correctional Systems
(Same as SOCU 380) Criminals and institutional personnel involved in corrections at all levels will be reviewed in depth. History, politics, and contemporary corrections issues such as punishment theories, sentencing alternatives, prison experience and prisoner rights, female and juvenile incarceration problems, overcrowding, and 21st century corrections will be examined. This course may also be offered online. 3 credits.

CJCU 382 Women and Criminal Justice
(Same as SOCU 382.) Examines how women’s involvement with criminal justice, whether as offenders or victims, reflects prevailing ideology about women’s place and function in the wider society. Particular attention is paid to the differential “justice” made on the basis of sex, as well as class and race. 3 credits.

CJCU 391 Youth At-Risk
(Same as PSYU 391 and SOCU 391.) This course will introduce students to various models, theories, and intervention of children and adolescents considered “at-risk”. Topics covered include, but may not be limited to the following: a) sociocultural factors in defining and influencing behavior; b) psychological models both biological and ecological that interact to shape behavior; c) types of at-risk categories including school dropouts, substance use and addiction, teenage pregnancy, antisocial behavior, delinquency, gangs, school shooters, and youth suicide; and d) specific types of clinical abnormal behavior including anxiety, mood, and impulse control disorders; e) theoretical and practical considerations related to community and school interventions. 3 credits.

CJCU 403 Police and Society
(Same as SOCU 403.) This course focuses on law enforcement and its interaction with society. Various perspectives will be explored including police subcultures, use of force and authority, selective enforcement and discretion, community reactions and media relations with police, dissent and conflict management. This course may also be offered online. 3 credits.

CJCU 410 Topics in Criminal Justice
Students examine selected topics in criminal justice. Topics may include a range and variety of courses such as gangs, pornography, violence, government, victimless crime, organized crime, and criminal careers. The topics may be narrowly focused and involve an intensive study of a single issue or application, or more broadly oriented toward the study of a subject. Courses that treat
different themes may be repeated for credit. This course may also be offered online. 3 credits. Some examples are:

**Psychological Aspects of Terrorism**  
(Same as PSYU 495) An examination of selected topics in the area of psychological application and the foundations of psychological understandings of human behavior. Syllabi for additional topic areas must be approved by Department Chair and Curriculum & Academic Committee. Course may be repeated for credit.

**Government Crime**  
Examines the legal, organizational, and political issues involved in the generation and control of governmental lawlessness. Considers social responses, constitutional questions, and the possibility for and sources of reform through discussion of police and political corruption, Watergate, ABSCAM, undercover operations, and “stings.”

**CJCU 411 Gangs and Gang Behavior**  
(Same as SOCU 411) This course addresses theories of gang behavior, modes of law enforcement, and correctional intervention dealing with street gang formation and activities (e.g., Latino, Samoan, Vietnamese, Armenian, Filipino), as well as characteristic differences among Gangbangers, Taggers, and others. 3 credits.

**CJCU 412 Victimless Crimes**  
(Same as SOCU 412) This course examines various criminal offenses that often lack a complaining “victim” in the usual sense that tend to generate intense social debate due to the consensual nature of these crimes (e.g., drug use, prostitution, certain sexual activities, gambling). The societal implications of social control policies will be discussed. This course may also be offered online. 3 credits.

**CJCU 413 Death and the Law**  
(Same as SOCU 413) This course provides an introductory view of the various components of a medico legal death investigation with emphasis on the resultant societal impact. The student will examine their personal perspectives as they study types of death which come to the attention of the Coroner’s Office. The course also introduces the student to assorted career opportunities available within forensic science and related careers. 3 credits.

**CJCU 414 Organized Crime**  
(Same as SOCU 414) This course investigates the nature of and causes underlying existing and emergent organized crime groups (e.g., the Mafia, La Cosa Nostra, Yakuza) and their comparison with “ordinary” criminals. Topics may include corporate connections, special investigation techniques, trial and sentencing issues, international terrorism, RICO and other Federal statutes. 3 credits.

**CJCU 426 Crime and Delinquency**  
(Same as SOCU 426) Crime and delinquency are integral parts of human society. This class scrutinizes the causes of crime, crime prevention and control, and the treatment of criminals. Emphasis on the sociological causes, extent, constraint
and deterrence of juvenile delinquency and juvenile crime. Topics include bio/psycho/sociogenic causation, youth criminalization, professional versus amateur criminals, violence and sexual crimes, victims and juvenile punishment alternatives. This course may also be offered online. 3 credits.

**CJCU 440 Drugs and Society**
(Same as HSCU/SOCU 440.) The study of drug use from a sociological perspective. Discussion will include the effects and toxicity of legal drugs such as alcohol, nicotine, caffeine and over-the-counter pharmaceuticals, as well as illegal drugs such as marijuana, cocaine, ecstasy, and heroin. Course topics include the integration of drugs with everyday life, the prescription drug industry as a social problem, addiction, recovery as the trope of popular culture, drug testing, HIV/AIDS and intravenous drug use, criminal behavior and drug use, drug legalization debates and other policy issues. 3 credits.

**CJCU 445 Moot Court**
(Same as POSU 445) Students get hands-on experience in the practice of law through a simulation of appellate advocacy. 3 credits.

**CJCU 460 White Collar Crime**
(Same as SOCU 460) This class examines the underlying theories, changing definitions and diverse nature of white-collar crime. These crimes may include offenses perpetrated by “the rich,” corporations and businesses, and/or individuals. Topics may include embezzlement, political corruption, employee theft, fraud, “con games,” and emergent areas such as computer crime and environmental crime. This course may also be offered online. 3 credits.

**CJCU 499 Independent Study**
Prerequisites: Instructor’s approval and approval of petition. Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.

**CJCU 500 Foundations of Criminal Justice**
This course provides an overview of the process and relationships between the components of the criminal justice system. Discussion areas include an evaluation of theoretical and applied criminal justice models, as well as pertinent contemporary issues. Discussions also may include interactions between the criminal justice system practitioners and defendants, victims, witnesses, the media, and the public. This course may also be offered online. 3 credits.

**CJCU 501 Trends in Criminal Justice**
This course examines present and future trends in crime patterns, control, and justice administration. Students will examine and evaluate the sources of crime data, crime statistics and trends. Discussions also may address such vital topics as media effects, policy-making, legal issues, health care, technological advances, emergent crimes, and novel approaches to social control and punishment. This course may also be offered online. 3 credits.

**CJCU 503 Research in Criminal Justice**
This course examines research techniques, design, and methods of data analysis appropriate for use in the field of criminal justice (e.g., survey, evaluation, content analysis, prevention assessment, and field research). Computerized
crime databases available from Federal, state and local criminal justice sources may also be examined. This course may also be offered online. 3 credits.

**CJCU 510 Victimless Crimes**  
(Same as SOCU/CJCU 412) This course examines various criminal offenses that often lack a complaining “victim” in the usual sense and that tend to generate intense social debate due to the consensual nature of these crimes (e.g., drug use, prostitution, certain sexual activities, gambling). The societal implications of social control policies will be discussed. (Same course as SOCU 412/CJCU 412, but with additional graduate-level work required.) This course may also be offered online. 3 credits.

**CJCU 512 Ethics and Criminal Justice**  
This course addresses various ethical dilemmas and controversies impacting law enforcement, courts, and corrections. Topics may include conflicts of interest, public and private corruption, internal control systems, ethical duties and responsibilities under professional codes of conduct, public perceptions and the media. Case studies are examined. This course may also be offered online. 3 credits.

**CJCU 514 Management Issues in Criminal Justice**  
This course examines management concerns pertinent to the internal and external operating environments of criminal justice system agencies. Discussions may involve such topics as administrative responsibility; affirmative action; liability; sexual harassment; stress; private sector management of criminal justice; and agencies, employee and community relations. This course may also be offered online. 3 credits.

**CJCU 515 Victimology**  
This course focuses upon the victims of crime. Victimization statistics and trends, as well as theories of victimization will be examined. Discussions also may include victim-offender relationships, court testimony, privacy and sentencing issues, the “Victim’s Bill of Rights,” protection measures, compensation programs, and individual and societal costs. 3 credits.

**CJCU 516 Substance Abuse and the Law**  
This course examines the abuse of and addiction to alcohol and other drugs (e.g., cocaine, heroin, prescription drugs, nicotine). Students will examine the history of drug policies, as well as various effects and consequences of substance abuse. Legal sanctions, treatment, and education also will be covered. 3 credits.

**CJCU 517 Youth Crimes**  
This course examines the premises, doctrine, and philosophy of the juvenile justice system. Particular attention is paid to the historical definition and development of delinquency, statistical patterns and trends, and constitutional concerns. Other topics may include violent crime, gangs, and various reform, prevention, and control initiatives. 3 credits.

**CJCU 518 The Jury System**  
This course examines the historical and contemporary operation of the jury in the criminal justice system. Major emphasis is placed on due process issues involving the 5th, 6th, and 7th Amendments. Other topics may include...
eyewitness and expert testimony, venue, jury selection, nullification, process modification, and the Grand Jury. 3 credits.

**CJCU 520 Sociology of Deviant Behavior**
(Same as SOCU 420, but with additional graduate-level work required.) This course examines why societies label behavior deviant and explores the distinction between behaviors considered “socially unacceptable” and those considered “criminal.” Theories of deviance, as well as the amount, distribution and patterns of deviance are considered. Discussions may also include political influence, social change, and selected types of deviant activity. *This course may also be offered online.* 3 credits.

**CJCU 521 Civil Rights and Liberties**
This course examines the Bill of Rights, due process, equal protection, and civil rights laws as these relate to criminal justice issues. Discussions may include “dangerous speech and fighting words,” demonstrations, pornography, privacy, search and seizure, confessions, speedy and public trial, right to counsel, juries, and cruel and unusual punishments. 3 credits.

**CJCU 522 Gangs and Gang Behavior**
(Same as SOCU/CJCU 411 with additional graduate-level work required.) This course addresses theories of gang behavior, modes of law enforcement, and correctional intervention dealing with street gang formation and activities (e.g., graffiti, violence, crime, drugs). Coverage will include both traditional and newer gangs (e.g., Latino, Samoan, Vietnamese, Armenian, Filipino), as well as characteristic differences among Gangbangers, Taggers, and others. 3 credits.

**CJCU 523 Organized Crime**
(Same as CJCU 414, but with additional graduate-level work required.) This course investigates the nature of and causes underlying existing and emergent organized crime groups (e.g., the Mafia, La Cosa Nostra, Yakuza) and their comparison with “ordinary” criminals. Topics may include corporate connections, special investigation techniques, trial and sentencing issues, international terrorism, RICO and other Federal statutes. 3 credits.

**CJCU 524 Mental Health and Criminal Justice**
This course will examine various mental health issues particularly pertinent to the criminal justice system. Topics include social, legal, and medical definitions of mental disorder; the insanity defense; expert testimony; counseling in officer-involved shootings; treatment and testimony issues involving child victims/witnesses; prison mental health and commitment issues, and social change. 3 credits.

**CJCU 525 Community-Based Policing and Corrections**
Students examine a broad range of diverse community policing and community corrections issues, policies, and programs. Issue areas may include vigilantism, civil disorder, jail overcrowding, reintegration, education and employment. Policies and programs may include neighborhood watch, “Scared Straight,” shock probation, probationer-PO relationship, intensive supervision, and electronic monitoring. 3 credits.
CJCU 528 Diversity, Conflict and Crime
This course examines aspects of social stratification, prejudice, and discrimination as related to and impacting criminal justice. Particular attention is paid to gender, race/ethnicity, age, sexual orientation, and social class issues. Discussions also will address improving these issue areas through a deeper understanding of human differences and similarities. *This course may also be offered online.* 3 credits.

CJCU 529 Survey of Forensic Psychology
(Also as PSYU 496.) This course introduces the student to the complex field of forensic psychology. The course focuses upon how the law has affected the practice of psychology, psychological research on legal issues and processes, and the functioning of psychology in a legal environment. The student will learn fundamental distinctions between psychology and law in areas such as epistemology, behavioral causation, methodology, criteria, principles, and expert approach to data. Numerous landmark cases will be reviewed that demonstrate the psychologist’s role as expert witness, consultant, and amicus curiae. Special sections will focus upon the law in mental health practice as well as assessment of simulation and deception. 3 credits.

CJCU 560 White Collar Crime
(Also as SOCU/CJCU 460, but with additional graduate-level work required.) This class examines the underlying theories, changing definitions and diverse nature of white collar crime. These crimes may include offenses perpetrated by “the rich,” corporations and businesses, and/or individuals. Topics may include embezzlement, political corruption, employee theft, fraud, “con games,” and emergent areas such as computer crime and environmental crime. *This course may also be offered online.* 3 credits.

CJCU 598 Graduate Project in Criminal Justice I
*Prerequisite:* CJCU 501 and CJCU 503 or equivalent, completion of 24 credits including any five core courses. Advanced reading in applied or academic research focused on problems and issues confronting problems of justice, the California or American criminal justice systems, or comparative criminal justice in a global perspective. *This course may also be offered online.* 1–3 credits.

CJCU 599 Graduate Project in Criminal Justice II
*Prerequisite:* CJCU 598. Conduct original research projects proposed in CJCU 598, using scientific methods and analyses appropriate to criminal justice, which addresses a major issue within any of the criminal justice components: law enforcement, courts, corrections.* This course may also be offered online.* 3 credits.

CJCU 622 Advanced Study in Criminal Law, Evidence and Procedure
*Prerequisite:* CJCU 500. This course provides focused analyses of specific issues in the application of modern criminal law. Topics may include statutory and common-law (e.g., mistake, self-defense, insanity, duress), sexual crimes, competency, expert and lay witnesses, burdens of proof, motions and writs, and judicial and appellate court functions. 3 credits.
CJCU 639 Comparative Criminal Justice Systems  
*Prerequisite: CJCU 500.* This course examines systems of law, law enforcement, courts, and corrections from a comparative American-international basis. Students also examine comparative distinctions between the various levels or modes of crime control from these cross-cultural perspectives. *This course may also be offered online.* 3 credits.

CJCU 669 Contemporary Law Enforcement  
*Prerequisite: CJCU 500.* This course focuses upon contemporary issues confronting criminal justice agents and organizations. Discussions may include such topics as police functions; discovery of crime; gender and/or race-ethnicity issues; police training and abuse of authority; local, state, and Federal interagency relations; and changing criminal justice agency functions. *This course may also be offered online.* 3 credits.

CJCU 672 Geriatric Health Care and Public Policy  
(Same as HAUU 672) Provides a comprehensive overview of current health care policies that affect the elderly within the general population and specialized populations such as correctional institutions. Discussed are health needs, Medicare, seamless continuum of care, legislative initiatives, competitive medical plans, and future implications. *This course may also be offered online.*

CJCU 679 Contemporary Issues in Corrections  
*Prerequisite: CJCU 500.* The course examines a broad range of issues in corrections. Selected topics may include correctional trends, prisoners rights, rehabilitation programs, conjugal visits, sex, drugs, violence, and AIDS. Special Federal prison policies, post-institutional treatment, recidivism, and representation of women and/or racial-ethnic minorities among prisoners and within corrections may also be considered. 3 credits.

EDUCATION

Educational Administration (EDAU)  
EDAU 710 Professional Clear Mentoring of Candidate II  
Pursuant to SB1655, Chapman University is authorized to offer a credential fieldwork/evidence of competency option to administrators who are seeking to earn their Professional Clear Administrative Services Credential (Tier II). Under this option, candidates will demonstrate their knowledge, skills and abilities through an assessment component. Candidates must be accepted into Chapman’s Professional Clear Administrative Services Credential Program as specified in the catalog, must work closely with a faculty mentor/supervisor from the university and mentor/supervisor from the educational site. Under supervision, candidates will design and implement a Professional Development Plan (PDP). In addition, candidates will develop an “Evidence of Competence Portfolio,” verifying mastery in all of the “CA Professional Standards for Educational Leaders” through written documentation, narrative reflection, artifacts and other appropriate evidence. 3 credits.
EDAU 720 Professional Clear Assessment of Candidate Competence II  
**Prerequisites:** Successful completion of EDAU 710. This course builds upon the foundations of the prior strengths of the candidates, the Professional Development Plan (PDP), and the materials in the “Evidence of Competence Portfolio”. Candidates synthesize their learning and apply conceptual knowledge to administrative practice in ways that engage them in important issues of educational leadership. (EDAU 720 is the second half of the required program. See EDAU 710 for information on the first half.)

In order to recommend a candidate for the Professional Clear Administrative Services Credential, the university program advisor must verify competence in candidate performance as outlined in the “California Professional Standards for Educational Leaders” using the Descriptions of Practice (DOP), the candidate’s “Evidence of Competence Portfolio” and feedback from all members of the triad (candidate, university, site). A culminating assessment brings closure to this process and establishes direction for continuing growth and professional development. 3 credits.

**Multiple Subject (EDMU)**

**EDMU 520: Literacy and Language in K-8 Classrooms I**  
**Prerequisites:** EDUU 510 and 512. Literacy and Language I focuses on first and second language acquisition, English language development, the reading-writing connection, and literacy development. The major study units also include early literacy, emerging literacy, beginning reading, beginning writing, and children’s literature. Candidates will design and conduct a supervised tutorial that reflects their initial proficiency in reading diagnosis, implementation of theory-based strategies and interventions that provide effective instruction for diverse learners, including English learners and students with special needs. Candidates will use the tutorial experience to write a case study. Candidates also begin a Classroom Reading Resource Portfolio organized by the RICA domains that will also serve as a RICA study guide. 3 credits.

**EDMU 521: Literacy and Language in K-8 Classrooms II**  
**Prerequisites:** EDUU 510, 512 and EDMU 520. Literacy and Language II focuses on first and second language acquisition, English language development, the reading-writing connection and literacy development. The major study units also include developing literacy, developing reading, developing writing, independent reading, independent writing, and children’s literature. Candidates will design and conduct a supervised tutorial that reflects their proficiency in reading diagnosis, implementation of theory-based strategies and interventions, which provide effective instruction for diverse learners, including English learners and students with special needs. Candidates will use the tutorial experience to write a case study. Candidates finish their Classroom Reading Resource Portfolio organized by the RICA domains that will also serve as a RICA study guide. 3 credits.

**EDMU 522: Mathematics and Science in K-8 Classrooms**  
**Prerequisites:** EDUU 510 and 512. This course provides students an opportunity to study teaching and learning in the areas of mathematics and
science. As students examine and explore these content areas, they will focus on methods to apply their learning in the elementary classroom. Candidates will study elements of curriculum integration for mathematics and science. They will present selected lessons and reflect on the teaching/learning experience. 3 credits.

EDMU 523: History, Social Science and Visual/Performing Arts in K-8 Classrooms
Prerequisites: EDUU 510 and 512. This course provides candidates an opportunity to study teaching and learning in the areas of history, social science, and visual and performing arts. As candidates examine and explore these content areas, they will focus on methods to apply their learning in the elementary classroom. Candidates will develop an integrated/thematic unit focusing on the social sciences and include elements of the visual and performing arts. They will present selected lesson(s) from their unit, and reflect on the teaching/learning experience. 3 credits.

EDMU 580 Supported Teaching: Elementary School
Prerequisites: passing score on CBEST, 2.75 GPA, admission to teacher education program or in an Internship Credential Program; employment on an emergency permit in a California school as a full-time teacher and concurrent enrollment in university coursework. Students are supported by the university as they begin teaching in an elementary classroom. Graded on a Pass/No Pass basis. 3 credits.

EDMU 582 Directed Teaching I: Elementary School
Prerequisites: passing score on CBEST, 2.75 GPA, admission to teacher education program; a minimum of nine credits of education coursework at Chapman University, completion of an approved waiver program or CSET; EDUU 395 or waiver, EDUU 510, EDUU 511, EDUU 512, EDUU 513, EDUU 551, EDMU 520, EDMU 521, EDMU 522, EDMU 523, and formal advancement to Directed Teaching required. Students do supervised Directed Teaching for a full semester or two full terms (full school days) in a master teacher’s classroom. Students are regularly evaluated by a university supervisor and enroll in EDUU 540. Placement must include classes at two different levels and with a student population at least 25 percent ethnically different from the student teacher. Graded on a Pass/No Pass basis. 3-6 credits.

NOTE: Multiple Subject candidates teaching on an emergency permit may not register for Directed Teaching until they are registered in their final (EDUU 540) class and can provide proof of passage of the CSET or completion of four-fifths of a subject matter waiver.

EDMU 583: Directed Teaching II: Elementary School
Prerequisites: Successful completion of EDMU 580 or EDMU 582. Students do supervised Directed Teaching for a full semester or two full terms (full school days) in a master teacher’s classroom. Students are regularly evaluated by a university supervisor. Placement must include classes at two different levels and with a student population at least 25 percent ethnically different from the student teacher. Course may be repeated for credit. Graded on a Pass/No Pass
basis. 3-6 credits.

NOTE: Multiple Subject candidates teaching on an emergency permit may not register for Directed Teaching until they are registered in their final (EDUU 540) class and can provide proof of passage of the CSET.

Single Subject (EDSU)

EDSU 530: Theories, Methods, and Materials for Teaching English Learners
Prerequisites: EDUU 510 and 512. This course focuses on theories, issues, and practices involved in first and second language acquisition and maintenance, including psychological, socio-cultural, pedagogical, legal, and political factors. It provides an overview of state-designated assessment instruments and policies to identify and place English learners, and the spectrum of school-based educational structures that address these students’ academic needs in California, as guided by the state’s Standards for English Language Development. Comparative/contrastive linguistics as well as English language and concept development strategies in content area instruction are addressed. During field experiences, candidates use effective methods for fostering academic excellence in English learners. Special attention is devoted to the interconnection between classroom organization and curricular planning, and the collaboration with specialists, paraprofessionals and parents/caregivers to support classrooms with diverse levels of English language proficiency. 3 credits.

EDSU 531: Secondary Instructional Strategies for Language/Culturally Diverse Classrooms
Prerequisites: EDUU 510 and 512. This secondary strategies course builds upon the best practices and principles introduced throughout the Single Subject 2042 Credential program and focuses on 1) the fundamental challenges and responsibilities of designing, organizing, and implementing effective strategies to maximize instructional time for all students in the 12-18 age group, including English learners and those with special needs; and 2) the implications for the creation of a positive, safe, caring classroom environment. Methods for identifying and assessing English learners’ language proficiency, placing them in appropriate programs, and evaluating their language academic progress are reviewed. Emphasis is placed on long-term instructional planning that differentiates using Specially Designed Academic Instruction in English, aligned with CA state frameworks and content standards. The development of multiple assessment measures supports all learners, including English learners, in reaching language and core curriculum benchmarks. Ongoing professional development of teacher candidates will promote collaboration among peers, with specialists, paraprofessionals, parents/caregivers, and with other community organizations. Case studies will be used to support specific pedagogy and fieldwork. 3 credits.

EDSU 532: Effective Literacy Instruction for Single Subject Candidates
Prerequisites: EDUU 510, 512, 530 and 531. This course provides substantive, research-based instruction that effectively prepares each candidate for a Single Subject Teaching Credential to provide instruction in content-based reading and writing skills for all students, including students with varied reading
levels and language backgrounds. Areas of focus include the integration of reading and writing in content areas, literacy assessment models, vocabulary strategies, comprehension strategies, the uses of fiction and non-fiction across the curriculum, literacy resources, including those online, and variations in literacy instruction for students from diverse linguistic and socio-economic backgrounds. As candidates study issues of literacy, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that illustrate a deepening understanding of literacy and how to develop content area literacy in their students. An integral component of this course is a student tutorial, which utilizes strategies studied in this course. The process and progress of the tutorial will be documented through the development of a case study. Further, a dialectical journal or learning log to support the tutorial and the development of the case study will be maintained by each candidate. 3 credits.

EDSU 533-01 Effective Agriculture Instruction for Single Subject Candidates

Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. The course provides candidates an opportunity to study teaching and learning in the Agriculture content area. As students examine and explore teaching agriculture, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with the California Agriculture Content Standards and reflect mastery of specific content pedagogy. Protocols for using multiple measures for assessing student progress and to inform instruction will be presented. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. 3 credits.

EDSU 533-02 Effective Art Instruction for Single Subject Candidates

Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken
concurrently. The course provides candidates an opportunity to study teaching and learning in the Art, Music, Theatre, or Dance content areas. Candidates will focus on best practices to apply in the multilingual, multi-ethnic, multicultural secondary classroom. They will design and present selected lessons that are aligned with the California K-12 Art, Music, Theatre, or Dance standards and Visual and Performing Arts Framework and reflect mastery of specific content area pedagogy. Online professional journals and organization information will be critiqued and utilized. Further, each candidate will maintain a dialectical journal or learning log. This course may also be offered online. 3 credits.

EDSU 533-03 Effective Business Education Instruction for Single Subject Candidates

Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. The course provides candidates an opportunity to study teaching and learning in the Business Education content area. Candidates will focus on best practices to apply in the multilingual, multi-ethnic, multicultural secondary classroom, which includes English learners and students with special needs. They will design and present selected lessons that are aligned with the California 9-12 Business Education standards and reflect mastery of specific content area pedagogy. Protocols for using multiple measures for assessing student progress and to inform instruction will be presented. Online professional journals and organization information will be critiqued and utilized. Further, each candidate will maintain a dialectical journal or learning log. 3 credits.

EDSU 533-04 Effective English/Language Arts Instruction for Single Subject Candidates

Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. This course provides candidates an opportunity to study teaching and learning in English/Language Arts. As students examine and explore teaching English/Language Arts, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with the California English/Language Arts Content Standards and English/Language Arts Framework. Additionally, these lessons will reflect mastery of English/Language Arts content pedagogy. Also, students will learn about the use of multiple measures to assess student progress toward reaching state-adopted English/Language Arts standards. Protocols for using assessment information to inform instruction will be utilized. Strategies for communicating this assessment information to caregivers in order to improve student performance will be addressed. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. 3 credits.

EDSU 533-05 Effective Health Science Instruction for Single Subject Candidates

Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. This course provides candidates an opportunity to study teaching and learning in Physical Education/Health Science. As students examine and explore teaching Physical Education/Health Science, they will focus on methods
to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with the California Physical Education/Health Science Content Standards and Physical Education/Health Science Frameworks. Additionally, these lessons will reflect mastery of Physical Education/Health Science content pedagogy. Also, students will learn about the use of multiple measures to assess student progress toward reaching state-adopted standards for Physical Education/Health Science. Protocols for using assessment information to inform instruction will be utilized. Strategies for communicating this assessment information to caregivers in order to improve student performance will be addressed. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. 3 credits.

EDSU 533-06 Effective Home Economics Instruction for Single Subject Candidates
Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. The course provides candidates an opportunity to study teaching and learning in the Home Economics content area. Candidates will focus on best practices to apply in the multilingual, multi-ethnic, multicultural secondary classroom, which includes English learners and students with special needs. Candidates will learn effective ways to prepare students for living in the twenty-first century as positive, productive members of the workforce, of families and of their communities. Online professional journals and organization information will be critiqued and utilized. Further, each candidate will maintain a dialectical journal or learning log. 3 credits.

EDSU 533-07 Effective Industrial Technology Instruction for Single Subject Candidates
Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. This course provides candidates an opportunity to study teaching and learning in Industrial Technology. As students examine and explore teaching Industrial Technology, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with the 2002-2004 California State Plan for Vocational Education, the California Industrial Technology Content Standards and Industrial Technology Frameworks. Additionally, these lessons will reflect mastery of Industrial Technology content pedagogy. In addition, students will learn about the use of multiple measures to assess student progress toward reaching state-adopted standards for Industrial Technology. Protocols for using assessment information to inform instruction will be utilized. Strategies for communicating this assessment information to caregivers in order to improve student performance will be addressed. Online professional journals and organization information will be critiqued and utilized. Further, each candidate will maintain a dialectical journal or learning log. 3 credits.

EDSU 533-08 Effective Instruction in Languages Other Than English for Single Subject Candidates
Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. The course provides candidates an opportunity to study teaching
and learning languages other than English. Candidates will focus on best practices to apply in the multilingual, multi-ethnic, multicultural secondary classroom, which includes English learners and students with special needs. They will design and present selected lessons that are aligned with the California Department of Education Foreign Language Curriculum Framework and reflect mastery of specific content area pedagogy. Protocols for using multiple measures for assessing student progress and to inform instruction will be presented. Online professional journals and organization information will be critiqued and utilized. Further, each candidate will maintain a dialectical journal or learning log. 3 credits.

EDSU 533-09 Effective Mathematics Instruction for Single Subject Candidates
Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDUU 531 can be taken concurrently. This course provides candidates an opportunity to study teaching and learning in mathematics. As students examine and explore teaching mathematics, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with the California Mathematics Content Standards and Mathematics Framework. Additionally, these lessons will reflect mastery of mathematics content pedagogy. Also, students will learn about the use of multiple measures to assess student progress toward reaching state-adopted mathematics standards. Protocols for using these assessments to inform instruction will be presented. Strategies for communicating this assessment information to caregivers in order to improve student performance will also be studied. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. 3 credits.

EDSU 533-10 Effective Music Instruction for Single Subject Candidates
Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. The course provides candidates an opportunity to study teaching and learning in the Art, Music, Theatre, or Dance content areas. Candidates will focus on best practices to apply in the multilingual, multi-ethnic, multicultural secondary classroom. They will design and present selected lessons that are aligned with the California K-12 Art, Music, Theatre, or Dance standards and Visual and Performing Arts Framework and reflect mastery of specific content area pedagogy. Online professional journals and organization information will be critiqued and utilized. Further, each candidate will maintain a dialectical journal or learning log. This course may also be offered online. 3 credits.

EDSU 533-11 Effective Physical Education Instruction for Single Subject Candidates
Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. This course provides candidates an opportunity to study teaching and learning in Physical Education/Health Science. As students examine and explore teaching Physical Education/Health Science, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with
the California Physical Education/Health Science Content Standards and Physical Education/Health Science Frameworks. Additionally, these lessons will reflect mastery of Physical Education/Health Science content pedagogy. Also, students will learn about the use of multiple measures to assess student progress toward reaching state-adopted standards for Physical Education/Health Science. Protocols for using assessment information to inform instruction will be utilized. Strategies for communicating this assessment information to caregivers in order to improve student performance will be addressed. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. 3 credits.

**EDSU 533-12 Effective Biology Instruction for Single Subject Candidates**  
**Prerequisites:** EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. This course provides candidates an opportunity to study teaching and learning in science. As students examine and explore teaching science, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with the California Science Content Standards and Science Framework. Additionally, these lessons will reflect mastery of science content pedagogy. Also, students will learn about the use of multiple measures to assess student progress toward reaching state-adopted science standards. Protocols for using assessment information to inform instruction will be utilized. Strategies for communicating this assessment information to caregivers in order to improve student performance will be addressed. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. 3 credits.

**EDSU 533-13 Effective Chemistry Instruction for Single Subject Candidates**  
**Prerequisites:** EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. This course provides candidates an opportunity to study teaching and learning in science. As students examine and explore teaching science, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with the California Science Content Standards and Science Framework. Additionally, these lessons will reflect mastery of science content pedagogy. Also, students will learn about the use of multiple measures to assess student progress toward reaching state-adopted science standards. Protocols for using assessment information to inform instruction will be utilized. Strategies for communicating this assessment information to caregivers in order to improve student performance will be addressed. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. 3 credits.

**EDSU 533-14 Effective Geoscience Instruction for Single Subject Candidates**  
**Prerequisites:** EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. This course provides candidates an opportunity to study teaching and learning in science. As students examine and explore teaching science, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that
are aligned with the California Science Content Standards and Science Framework. Additionally, these lessons will reflect mastery of science content pedagogy. Also, students will learn about the use of multiple measures to assess student progress toward reaching state-adopted science standards. Protocols for using assessment information to inform instruction will be utilized. Strategies for communicating this assessment information to caregivers in order to improve student performance will be addressed. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. 3 credits.

EDSU 533-15 Effective Physics Instruction for Single Subject Candidates
Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. This course provides candidates an opportunity to study teaching and learning in science. As students examine and explore teaching science, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with the California Science Content Standards and Science Framework. Additionally, these lessons will reflect mastery of science content pedagogy. Also, students will learn about the use of multiple measures to assess student progress toward reaching state-adopted science standards. Protocols for using assessment information to inform instruction will be utilized. Strategies for communicating this assessment information to caregivers in order to improve student performance will be addressed. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. 3 credits.

EDSU 533-16 Effective History/Social Science Instruction for Single Subject Candidates
Prerequisites: EDUU 510, EDUU 512, EDSU 530, EDSU 531 can be taken concurrently. This course provides an opportunity to study teaching and learning in History/Social Science. As candidates examine and explore teaching this content area, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will also explore the history and demographics of California and their influence on the education of California’s diverse society. Candidates will design and present selected lessons that are aligned with the California History/Social Science Content Standards and Framework. Additionally, these lessons will reflect mastery of appropriate content pedagogy. Also, candidates will learn about the use of multiple measures to assess student progress toward reading state-adopted standards. Protocols for using these assessments to inform instruction will be presented. Strategies for communicating this assessment information to caregivers in order to improve student performance will also be studied. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. This course may also be offered online. 3 credits.

EDSU 590 Supported Teaching: Secondary School
Prerequisites: passing score on CBEST, 2.75 GPA, admission to teacher education program or an Internship Credential Program; employment on an
emergency permit in a California school as a full-time teacher, and concurrent enrollment in university coursework. Students are supported by the university as they begin teaching in a secondary school classroom. Graded on a Pass/No Pass basis. 3 credits.

**EDSU 592 Directed Teaching I: Secondary School**
Prerequisites: passing score on CBEST, 2.75 GPA, admission to teacher education program; a minimum of nine credits of education coursework at Chapman University, completion of an approved waiver program or CSET or SSAT/Praxis; EDUU 395 or waiver, EDUU 510, EDUU 511, EDUU 512, EDUU 513, EDUU 551, EDSU 530, EDSU 531, EDSU 532, EDSU 533, and formal advancement to Directed Teaching required. Students do supervised Directed Teaching for a full semester or two full terms (full school days) in a master teacher’s classroom. Students are regularly evaluated by a university supervisor and enroll in EDUU 540. Placement must include classes at two different levels and with a student population at least 25 percent ethnically different from the student teacher. Course may be repeated for credit. Graded on a Pass/No Pass basis. 3-6 credits.

NOTE: Single Subject candidates teaching on an emergency permit may not register for Directed Teaching until they are registered in their final class (EDUU 540) and can provide proof of passage of the CSET or SSAT/Praxis or completion of a subject matter waiver.

**EDSU 593 Directed Teaching II: Secondary School**
Prerequisite: Successful completion of EDSU 590 or EDSU 592. Students do supervised Directed Teaching for a full semester or two full terms (full school days) in a master teacher’s classroom. Students are regularly evaluated by a university supervisor. Placement must include classes at two different levels and with a student population at least 25 percent ethnically different from the student teacher. Course may be repeated for credit. Graded on a Pass/No Pass basis. 3-6 credits.

NOTE: Single Subject candidates teaching on an emergency permit may not register for Directed Teaching until they are registered in their final class and can provide proof of passage of the CSET or SSAT/Praxis or completion of a subject matter waiver.

**Student Teaching (EDTU)**

**EDTU 590 Supported Teaching: Special Education**
Prerequisites: passing score on CBEST, admission to teacher education program; employment on an Intern Credential or an Emergency Permit in a California school as a full-time teacher, and concurrent enrollment in university coursework. Students are supported by the university as they begin teaching in a special education classroom. Graded on a Pass/No Pass basis. 3 credits.

**EDTU 592 Directed Teaching: Mild/Moderate**
Prerequisites for supported teaching, passing score on the CBEST, admission to teacher credential program, passage of appropriate CSET, successful
completion of all coursework and other program requirements. An exception may occur when the candidate’s advisor determines that the candidate needs support at an earlier point in the sequence of his/her program to maximize the effectiveness of this directed teaching experience. Consequently, three credits of supportive teaching would occur at this stage and the remaining three credits would be completed at the end of the candidate’s program. The focus of the Directed Teaching placement must be working with students who have mild/moderate disabilities. The university supervisor regularly evaluates candidates. Graded on a Pass/No Pass basis. 3-6 credits.

EDTU 593 Directed Teaching: Moderate/Severe
Prerequisites for supported teaching, passing score on the CBEST, admission to teacher credential program, passage of appropriate CSET, successful completion of all coursework and other program requirements. An exception may occur when the candidate’s advisor determines that the candidate needs support at an earlier point in the sequence of his/her program to maximize the effectiveness of this directed teaching experience. Consequently, three credits of supportive teaching would occur at this stage and the remaining three credits would be completed at the end of the candidate’s program. The focus of the Directed Teaching placement must be working with students who have moderate/severe disabilities. The university supervisor regularly evaluates candidates. Graded on a Pass/No Pass basis. 6 credits.

Education (EDUU)
EDUU 395 Education Field Experience
(Same as ENGU 466) An introductory exploration of public schools integrating field experience in the classroom with two seminar class sessions. Each unit of credit equals 30 hours of field experience. Must be completed in first term of credential coursework. Graded on a Pass/No Pass basis. 1–3 credits.

EDUU 510 Introduction to Teaching
Prerequisites: 2.75 GPA or equivalent, senior standing as a Chapman student, PSYU 323: Child Development (Multiple Subject Candidates) or PSYU 324: Adolescent Psychology (Single Subject Candidate). This course sets the stage for building an understanding of the teaching profession by providing basic background information about the philosophical, psychological, socio-cultural, legal and historical foundations of education in the United States. Additionally, students will be encouraged to examine their assumptions about teaching and learning in light of classical learning theory, language acquisition theory and current theories of brain compatible learning. A major emphasis of the class will be an examination of classroom management theories and techniques, management skills, parent involvement activities and other behaviors that help a teacher to successfully practice in the profession. Students will begin their professional portfolios in this course. 3/3 credits.

EDUU 413/513 Student Health and Safety
This course provides the content knowledge needed for a thorough understanding of how the promotion of a healthy and safe life-style impacts the developments of students. Teacher candidates study and apply effective
in instructional methods that encourage a) life-long physical fitness, b) healthy living, and c) behavior that reflects concern for safety factors. 2 credits.

**EDUU 414/514 Physical Educational for Elementary Teachers**
This course covers developmentally appropriate motor skills and physical education activities, knowledge of meaningful rules and strategies for games and sports, and strategies for building self-confidence and self-worth in relationship to physical education and recreation. 1 credit.

**EDUU 451/551 Educational Applications of Computers-Level One**
Prerequisites: passing scores on CBEST, 2.75 GPA. Students examine the range of educational applications of computer technology, including: computer literacy, computer-assisted instruction, telecommunications, electronic grade books, problem-solving, teacher utilities, networked learning environments, simulations, word processing, computer-managed instruction, test construction, computer maintenance, the electronic scholar, lesson authoring, and schools of the future. Required for Clear credential. *This course may also be offered online.* 3 credits.

**EDUU 511 Collaboration for Inclusive Schooling**
This course focuses on collaboration, inclusive schooling, the understanding of disabilities, working with diverse families of students with disabilities, legal aspects of special education, and becoming an effective change agent in the schools. Eight hours of authentic experiences in the field will be required. 3 credits.

**EDUU 512 The Art and Craft of Teaching**
The art of teaching is to truly know the when, the where, the why and for whom the craft of teaching applies. This course fosters an understanding of learning theory, instructional models, assessment strategies, and pedagogical knowledge that transcends subject matter. At the heart of the art and craft of teaching is the application of concepts, principles and values necessary to create and sustain a just democratic society and apply them to ensure each student has optimum opportunities to learn. Candidates work collaboratively to select and apply appropriate teaching strategies that promote learning for diverse learners. 3 credits.

**EDUU 519 Teaching Students with Mild/Moderate Disabilities**
Prerequisites: EDUU 410/510, EDUU 511, EDUU 570, passing scores on CBEST, 2.75 GPA. Education of children, youth, and young adults with mild/moderate disabilities provides a knowledge base and introduces skills necessary for the teacher in contemporary educational environments to assess, plan for, instruct and evaluate students with mild/moderate disabilities. A minimum of 25 hours of authentic field experience is required for this course. 3 credits.

**EDUU 526 Theories in Language Development**
Prerequisites: passing scores on CBEST, 2.75 GPA. Students explore current theories of language acquisition, focusing on issues involved in first and second language development and comparative/contrastive linguistics and its influence on second language acquisition. This course provides an overview of state-designated assessment instruments and educational program placement
EDUU 527 Language Development: A Teaching and Learning Process
Prerequisites: EDUU 526 or equivalent, passing scores on CBEST, 2.75 GPA. Students examine bilingual methodologies, focusing on the practical aspects of teaching, organizing and managing the English Language Development (ELD) classroom. Students observe demonstrations, practice and receive feedback, and become familiar with state-adopted textbooks and other instructional materials appropriate for language learning. Required course for CLAD certificate. This course may also be offered online. 3 credits.

EDUU 528 Content-based Instruction for Linguistic Minority Students: Sheltered English
Prerequisites: EDUU 526 or equivalent, passing scores on CBEST, 2.75 GPA. Students examine current approaches and strategies appropriate for content area instruction through specially-designed instruction delivered in English (sheltered English). Coursework includes learning/teaching processes, social interactions, teacher delivery approaches, and alternative assessment. Students are required to develop lessons and lesson presentations. Required course for CLAD certificate. This course may also be offered online. 3 credits.

EDUU 540 Wisdom Through Practice
Prerequisites: Completion of all program prerequisites and required courses in the Multiple Subject or Single Subject credential program. Course can be taken concurrently with either Supported or Directed Teaching and must be taken with the co-requisite course EDUU 541. This is the culminating course in the Multiple Subject and Single Subject credential program in which candidates use the knowledge about and insights into the art and craft of teaching they have gained throughout this program. Candidates carefully examine, reflect on and discuss numerous teaching cases representative of issues, content and diversity found in California to demonstrate their ability to reason soundly about teaching and learning. In addition, drawing upon the understandings they have developed from previous course work and experiences, candidates a) write or videotape a teaching case, b) develop discussion questions based on the case, c) write a commentary, and d) conduct a discussion based on the case. Such developed teaching cases will be archived upon completion in order to build a case library for future candidates. 2 credits.

EDUU 541 Evaluating Teaching Performance Expectations
Prerequisites: Completion of all pre-requisite courses, all core courses, all methods classes and enrollment in the capstone course, EDUU 540: Wisdom Through Practice. In this course candidates will review the Teaching Performance Expectations that are part of the California Commission on Teacher Credentialing (CCTC) 2042 Teacher Preparation Program Standards. They will examine their understanding of the expectations and their own growth in each of the domains:

A. Making Subject Matter Comprehensible to Students;
B. Assessing Student Learning, Engaging and Supporting Students in learning;
C. Planning Instruction and Designing Learning Experiences for Students;
D. Creating and Maintaining Effective Environments for Students; and
E. Developing as a Professional Educator.

As part of this self-examination candidates will be required to prepare themselves to complete Task 4 of the California Teacher Performance Assessment, which is designed to assess how well they have met the TPEs. The task requires candidates to work with students in public school classrooms and to video-tape themselves teaching a lesson they have prepared. In addition, candidates will describe the students with whom they are working, the lesson as planned and presented and then they will write reflections on their experiences. 1 credit.

EDUU 451/551 Educational Application of Computers - Level One
Prerequisites: Passing scores on CBEST, 2.75 GPA. This course provides an overview of current computer-based technologies used in a variety of educational settings within and across all curriculum content areas. Emphasis is on making significant changes in teaching and learning through technology by providing a match between instructional strategies and relevant technologies. Focus is on information and communication technologies as a means of gathering, processing, and communicating information. Critical issues include access, equity, privacy, safety, and ethical situations surrounding technology. Hardware and software applications will be evaluated as effective tools of instruction for a constructivist learning environment. This course may be offered online. 3 credits.

EDUU 552 Using Technological Tools in Teaching - Level Two
Prerequisites: EDUU 451/551 or Preliminary Educational Technology SSAT/CSET or equivalent course with approval. This course builds on the knowledge and skills of previous technology in education courses and experiences, taking candidates deeper into the world of technology and its applications in the teaching/learning process. The primary focus of the course is on increasing candidate proficiency levels in utilizing a variety of technologies, including the advanced use of computers and the use of digital peripherals. Assignments will be engaging and project-based. Candidates will develop curriculum plans, design instructional units, and create technology-rich communities/environments that effectively utilize constructivist teaching strategies and promote active learning. This course may be offered online. 3 credits.

EDUU 560 Teaching Students with Moderate/Severe Disabilities
Prerequisites: EDUU 510, 570 and 511. This course addresses the education of children, youth, and young adults with moderate/severe disabilities providing a knowledge base and introducing the skills necessary for teachers in contemporary educational environments to assess, plan for, instruct and evaluate students with moderate/severe disabilities. A minimum of 25 hours of authentic field experience is required for this course. 3 credits.

EDUU 563 Curriculum, Leadership, & Instruction Technology
Prerequisites: EDUU 451/551 OR Preliminary Educational Technology
SSAT/CSET or equivalent course with approval, and EDUU 552. The course will focus on (a) the development of curriculum plans utilizing a broad range of technological tools in the teaching/learning process with traditional, at-risk and special education students, and (b) acquisition of the skills and knowledge necessary to provide leadership in the area of instructional technology to the school site and/or school district. The course is designed to achieve two primary purposes. The first of these is to equip the MAE with Emphasis in Technology graduate with a solid knowledge base in the area of curriculum development as it is applied to teaching/learning environments that utilize various types of electronic media to supplement traditional materials and equipment. The second is to prepare the MAE in Technology graduate to assume a leadership role in his or her school and/or district, taking an active part in the creation and maintenance of Instructional Technology programs. This course may be offered online. 3 credits

EDUU 564 Social Implications of Educational Technology
Prerequisites: EDUU 552 & 600. The purpose of this course is to consider the implications of technology use in the teaching/learning context. Participants will examine the sociological issues of digital equity in terms of socioeconomic status, gender, language, race, geography, physical restrictions, and cultural background. The course provides instruction and support for teachers and administrators who are involved in technology leadership, professional development, and decision-making within the educational community. Participants will examine strategies for integrating digital technologies into teaching and learning practices to ensure equitable educational opportunities and experiences for all students. Candidates will define media literacy, particularly in terms of ethical and professional responsibilities in a global media-centered society. As technology professionals, candidates will evaluate policies and strategies that provide all teachers and students with the means and capacity to fully participate in the digital age, not only as users of current and future technologies, but as designers and producers as well. Students will conduct a literature review in preparation for their action research project. This course may be offered online. 3 credits

EDUU 565 Action Research for Technology
Prerequisites: EDUU 552, 563, 564 AND 600. The purpose of this course is to provide instruction and support for educators as they examine and analyze action research studies and conduct their own action research inquiry in the area of technology. They will have an opportunity to examine the history of the action research process and to critically analyze the effectiveness of existing action research studies and/or cases in order to determine their significance as they apply to everyday practice and educational policy. Participants will frame research questions, select appropriate research methods, gather, interpret, and analyze data, draw conclusions, and report their research findings by posting their results to an Internet website. Participants will identify, discuss, and apply concepts of action research with current and previous course participants as well as with other researchers in the field. Sharing these results is an effort to promote a global research and learning community/network. The ultimate goal is to encourage and empower participants to recognize their own expertise and
to assume greater responsibility and control as they analyze the impact of technology on student learning through ongoing reflective practice, professional development, curriculum design and development, and classroom and institutional change. *This course may be offered online.* 3 credits

**EDUU 570 Voice, Diversity, Equity and Social Justice**

This course fulfills requirements for the Ryan Multiple and Single Subject with a CLAD Emphasis credentials, the CLAD Certificate, and is a core course for Education Specialist Credentials. Students focus on the disenfranchised of California’s schools, including females, certain immigrant as well as native populations, people with disabilities, and people of lower socio-economic means, with particular emphasis on the unique challenges such diversity brings to the classroom. The history, culture, and expectations of these groups are emphasized as they apply to teaching and counseling and the fostering of cross-cultural respect among California’s diverse populations. A minimum of 15 hours of field experience is required. 3 credits.

**EDUU 599 Independent Study**

Supervised independent study or research on a special problem or in a selected area of education. 1-3 credits.

**EDUU 600 Research and Evaluation Methods**

( Must be taken first or second in MAE core series.) Students learn methods of program evaluation and research in education. Topics include models of program evaluation, experimental research designs, qualitative approaches, instrumentation and measurement, common statistical techniques, critiquing educational research, and evaluation of the special education and counseling programs. 3 credits.

**EDUU 601 Assessment and IEP Development**

*Prerequisites: EDUU 401 or 510, EDUU 570, and EDUU 571 or 511 and 519.* The course is designed both for special education teachers and school psychologists. Students will develop the knowledge and skills necessary to using and communicating assessment results. A variety of individualized assessment and evaluation approaches appropriate for students with mild/moderate/severe disabilities will be addressed. Emphasis is placed on the development of appropriate educational decisions on the basis of a variety of standardized and non-standardized techniques, instruments and processes that are appropriate to the diverse needs of individual students. Students will learn to (a) identify individual strengths and weaknesses, and (b) make appropriate instructional recommendations both for report writing and for IEP goals and objectives. 3 credits.

**EDUU 602 Positive Behavior Supports**

*Prerequisites: EDUU 401 or 510, EDUU 570, and EDUU 571 or 511.* A study of theories, practices and ethical issues in modifying and remediating behavior with an emphasis on creating positive, productive school climates and implementing effective, positive and respectful applied behavior analysis techniques. A minimum of 25 hours of authentic field experience is required for this course. 3 credits.
EDUU 603 Communication, Language, and Literacy  
**Prerequisites:** EDUU 401 or 510, EDUU 570, and EDUU 571 or 511. A study of language disabilities and their implications for general and special educators. Assessment and teaching strategies. Required for the Mild/Moderate and Moderate/Severe Credentials. 3 credits.

EDUU 604 Teacher as Scholarly Practitioner: Action Research  
**Prerequisites:** Acceptance into the Master of Arts in Teaching program, cumulative grade point average of “B,” satisfactory completion of EDUU 510, or EDUC 401, at least 12 credits of credential coursework, and EDUU 600. The purpose of this course is to acquaint candidates with the concepts of action research and to support them as they conduct an action research project in their schools and classrooms. The course is designed to enable participants to understand the fundamental principles of action research, to locate the significance of the approach in everyday practice and educational policy and to carry out an action inquiry project either on one’s own practice or in conjunction with practitioners in the field. The course will engage the participants in systematic inquiry into their own practice by helping them to frame appropriate questions, gather and interpret data, examine and analyze that data and find answers to the questions posed. Master of Arts in Teaching candidates must complete an action research project and paper as part of their Demonstration of Mastery for the degree. 3 credits

EDUU 605 Democracy, Education & Social Change  
Students examine the relationship between democratic theory, educational practice, and social change. Specific attention is paid to theories of democracy, the democratic nature of historical and current reform efforts, the contradictions and dilemmas of schooling, and the ways in which schooling might influence social change. 3 credits.

EDUU 606 Discover Learning in the Mind, Brain, and Body  
This course helps students to develop an understanding of how people process information and learn; study the history, content and application of learning theories, intelligence, thinking dispositions including the development of the mind, brain and its role in education. 3 credits.

EDUU 607 Seminar in Comparative Education  
An introduction to educational philosophies, methods, patterns of control, financing, organization and relationship with the larger society in selected countries of the world, including the United States. Comparison and a comprehensive social science methodology is emphasized. Students examine historical, political, economic, and social factors. Systems compared are drawn from all regions of the world. 3 credits.

EDUU 608 Seminar in the Social Foundations of Education  
A critical study of schooling, society and culture. Students explore the major ideological schools of thought regarding how the interactions between school and society can best be understood. Social science methodologies including quantitative, qualitative, and participation and application of both social science and humanities insights are important components of the course. 3 credits.
EDUU 609 Seminar in Curriculum Studies
Historical, philosophical, and sociopolitical influences on the curriculum of American public schooling are examined. Curriculum design and evaluation strategies will be considered. The role of teachers and educational support staff in curriculum decision-making, and their potential role as leaders of educational change, are included. 3 credits.

EDUU 617 Organizational Leadership and Development
The purpose of an educational organization, such as a school, is for people to join together to create good work that results in powerful learning for all children. This course covers group dynamics, the change process and facilitative leadership models that support positive interdependence and worthwhile change. Effective leaders practice ethical decision-making, capacity-building and critical reflection for themselves, others and the system. In authentically aligning words and work, they will learn how to inspire collaboration and the creation of dynamic and democratic communities of learners. 3 credits.

EDUU 619 Literacy Assessment and Evaluation
A study in the assessment of oral and written language and reading, and ways to make instructional decisions based upon assessment. Reviews multiple assessments relevant in a balanced, comprehensive literacy program and the research basis for the provisions of effective assessment of literacy teaching and learning with student from varied cognitive, linguistic, and cultural backgrounds. Examines ways to administer a battery of appropriate assessments to a primary-grade student and an adult or secondary school student, and communicate that information through professional reports. Participants are required to complete a minimum of 20 hours of supervised field experiences, which give the opportunity to combine theory with practice. 3 credits.

EDUU 620 Children’s Literature and Family Literacy
The study of the criteria and evaluation of quality literature, genres, reader response theories, and literary theory. Investigates family literacy issues as well as ways of bringing families and schools together to support literacy development of all students. Participants are required to complete a minimum of 20 supervised field experience hours, which provides the opportunity to connect theory and practice. 3 credits.

EDUU 621 The Reading Teacher as Scholarly Practitioner: Action Research
This is the culminating course for the Reading Certificate, combining coursework and field based research activities. It is designed to help teachers combine a critical analysis of major theories of reading/literacy with sound instructional practices for all learners, through diagnostic and remediation techniques in individual and small group tutoring assignments. Includes an emphasis on how to provide leadership in the organization and maintenance of the reading/literacy program at the building or school system level. 3 credits.

EDUU 622 Seminar in Program Design I
A study about issues related to understanding the needs and ways of learning about reading/language arts relevant to students from varied backgrounds. Examines research and theory that form the basis of effective programs and
interventions. Clinical field experience, a minimum of 20 hours, provides the opportunity to apply theory in practice. 3 credits.

**EDUU 623 Reader Leader: Planning and Delivery I**
A study of the teacher’s leadership role in the planning and delivery of reading instruction from goal setting, program planning, decision-making, problem solving, program supervision, and program evaluation for students from varied cultural and linguistic backgrounds. All participants are required to complete a minimum of 20 hours of supervised field experience related to program planning and delivery in an elementary, middle, or secondary public school. 3 credits.

**EDUU 630 Professional Induction Planning**
Prerequisite: completion of the Preliminary (Level I) Education Specialist Credential in Mild/Moderate or Moderate/Severe. This is the required first course for ALL Education Specialist Professional Credential (Level II) candidates. EDUC 630 will include specific general curriculum but it primarily serves as an individualized process where the formal induction plan is developed and refined. Also, central to this course, is the beginning of the execution of the personalized goals for each candidate. Finally, a complete candidate assessment plan will be developed. Each of these components (candidate goals, plan and timeline for execution, and the exit assessment plan) will be agreed upon by the candidate, the support provider, the employer, and the faculty advisor. The result by the end of the course is the formal Individualized Induction Plan (IIP), the selection of an Expertise Plan/area, and a Portfolio plan. A meeting with the candidate, advisor and their district support provider will result in a completed/signed induction plan and expertise plan, including timeline, measurement and assessment criteria. No other Level II credential program courses may be taken until this course has been satisfactorily completed. 1-3 credits.

**EDUU 638 Advanced Assessment and Instructional Strategies for Persons with Mild/Moderate Disabilities**
Application of contemporary theories and literature related to assessment and curriculum development and strategies for instruction of individuals with mild/moderate disabilities. Includes increased emphasis on specific areas of learning disabilities, language disorders, developmental disabilities, and attention deficit hyperactivity disorders. Information will be at an advanced level, focusing on collaborative strategies and research validated models of instruction. 3 credits.

**EDUU 640 Issues in Transition and Employment**
The purpose of this course is to provide candidates with an opportunity to analyze current issues in transition and employment for students with disabilities and their impact upon secondary programs in general, and transition and supported employment programs in particular, for persons with disabilities. The course will involve a review of current literature and an analysis of that literature through seminar discussions. 3 credits

**EDUU 641 Internship: Transition and Employment**
The purpose of this course is to provide candidates with an opportunity to develop and implement current and innovative practices in the field of transition and employment for youth and/or adults with disabilities. The candidate
completes an 180-hour internship in a setting where transition and employment services are being delivered to persons with disabilities. The candidate is supervised by university staff and must complete a project at the site demonstrating the implementation of state-of-the-art transition and employment principles. 3 credits

EDUU 646 Foundations in Standards and Propositions for National Board Certification and Portfolio Development

Prerequisites: Valid teaching credential and three or more years of successful teaching experience. This course is the first of a series designed to support students in the preparation process for National Board Certification. The National Board for Professional Teaching Standards (NBPTS) and propositions that define the knowledge, skills, dispositions, and commitments of accomplished teaching will be examined. National Board Certification Portfolio portfolio assessment requirements and evaluation criteria will be reviewed as well as specific documentation related to the professional leadership, parent and community partnership standards. Reflective Practice will be required using analytic, reflective and descriptive writing. 3 credits.

EDUU 647 Assessing and Analyzing the Teaching and Learning Process for National Board Certification

Prerequisites: Valid teaching credential and 3 years successful teaching experience. This course is the second in a series designed to support students in the preparation process for National Board Certification. Videotaping methods of classroom pedagogy and analysis for portfolio entry requirements will be reviewed. Instructional analysis of small group and whole class lessons will be examined to evaluate instruction based on National Board for Professional Teaching Standards (NBPTS). Learners’ academic progress, pedagogical practice, and classroom learning environment will be assessed and analyzed. 3 credits.

EDUU 648 Curriculum Implementation and Performance Assessments for National Board Certification

Prerequisites: Valid teaching credential and 3 years successful teaching experience. This course is the third in a series designed to support students in the preparation process for National Board Certification. Knowledge of academic content and appropriate usage of instructional resources in portfolio development based on the National Board for Professional Teaching Standards (NBPTS) will be examined. Portfolio entries, documentation and videotape segments will be appraised for final submission. Issues related to content and pedagogical assessment will be reviewed. 3 credits.

EDUU 650 Transitions Across the Life Span

This course focuses on the transition of persons with disabilities from home to school settings and from school to employment and adult life. Specific curriculum and teaching methodologies will be presented. Emphasis will be placed on understanding quality of life outcomes - home and school life, friendships and social networks, self-determination, choice, and family issues. Factors such as job development, adult service agencies related legislation, and assessment will also be covered. 3 credits.
EDUU 660 Seminar on Instructional Supports for Persons with Moderate/Severe Disabilities
Application of contemporary theories and literature related to curriculum development and strategies for instruction of individuals with moderate/severe disabilities. Includes increased emphasis upon specific areas of severe disabilities such as severe/profound mental retardation, multiple disabilities, deaf/blind, physical disabilities, severe emotional disturbance, and autism. 3 credits.

EDUU 680 School Management and Technology
Effective school leaders are able to plan, implement, and evaluate the operation of schools with others in ways that achieve organizational goals and result in the development of safe and productive learning communities. This course will also provide a rationale and strategies for the development of administrative applications of technology to enhance communication and organization of schools. The course will emphasize and demonstrate the knowledge and processes necessary for effective management regarding school, climate, staff development, crisis management, public and media relations, resources, discipline, facilities, personnel classified and certificated, parent/community involvement, health and safety, special programs, and daily and annual scheduling of students and events. 3 credits.

EDUU 683 Supervision of Instruction/Assessment
Students study various theoretical paradigms and the historical content of teaching as well as multiple styles of learning. Assessment models are reviewed as they relate to current policies and standards. Students construct alternative models to current practices in the supervision of instruction. 3 credits.

EDUU 684 Educational Governance and Politics
Effective and principled leadership requires a consciousness of power and influence and the capacity to deal with conflicts of interest in public education. Students study national, state and local policies and governance systems with a focus on implementation at the micro-political level. The relationships of constituencies such as unions, school boards, local communities and special interest groups are studied for their political impact upon K-12 education, working with diverse populations and the role of schooling in a democratic society. Critical theory and social justice are taught as part of this exploration. 3 credits.

EDUU 686 Legal and Financial Aspects of Education
Students examine the current legal framework of American schooling including common law, federal and state law, court decisions, and county counsel and attorney general rulings. The course also covers school finance, sources and types of funding, budgetary procedures at the site and district level, and political issues connected with school finance. 3 credits.

EDUU 689 Techniques of Personnel Administration
This course focuses on general principles, policies, and practices of personnel administration. Closely examined are the roles of unions and professional associations, administrations, school boards, and the state in the collective
EDUU 690: Professional Induction Assessment
Prerequisites: successful completion of all other coursework in the Chapman University Education Specialist Professional Credential (Level II) Program. This course is the capstone experience for the Professional Level II Education Specialist credential program. Candidates will critically assess their knowledge and skills as they relate to their Professional Induction Plan, their chosen expertise area of specialization and the professional standards set forth by the State of California. During the course candidates will complete their professional portfolios, demonstrate their expertise in an area of specialization, and develop a comprehensive professional development plan. This course will allow the candidate to integrate her/his knowledge into a unified understanding of the professional field of special education. 1-3 credits.

EDUU 691 Directed Field Work Administrative Services Credential: Tier I
Prerequisites: acceptance as a Tier I Intern Candidate or Completion of other requirements for the Preliminary Administrative Services Credential Program or consent of the Program Coordinator. Students will perform field practice in education administration for at least 100 hours. (This will include fieldwork hours accrued in other administrative credential courses.) They will acquire a working knowledge of duties and problems of education administrators or supervisors; students will observe and apply principles taught in leadership/administration courses as outlined in CTC standards. 3 credits.

ENGLISH AND COMPARATIVE LITERATURE

ENGU 099 Basic Writing Skills
A course that develops accuracy and clarity in writing. Conferences with the instructor and tutorials with peers provide maximum opportunities for individual development. 3 credits.

ENGU 103 Freshman Rhetoric
In this course on the theory and practice of writing effective essays, students master a variety of essay modes by completing a wide range of assignments. Student also learn to compose essays on a computer. This course may also be offered online. 3 credits.

ENGU 104 Writing About Literature
Prerequisite: ENGU 103. This course introduces students to three literary genres (fiction, drama and poetry), and teaches techniques for analyzing and writing critical papers about literature. This course may also be offered online. 3 credits.

ENGU 240 World Literature I
Prerequisite: ENGU 104. Students read selected world masterpieces from the beginning to the fall of Rome, 476 A.D. The course includes readings from myth, epic, tragedy, and comedy from Western and Eastern cultures. Writers may include Homer, Sophocles, Plato, Aristophanes, Sappho and Virgil. 3 credits.
ENGU 242 World Literature II
Prerequisite: ENGU 104. Great works of world literature from the fall of Rome in 476 A.D. to 1660, the English Restoration. Students will read works by such authors as Lady Murasaki Shikibu, Rumi, Dante, Chaucer, Cervantes, and Shakespeare. Materials from the visual arts, history, philosophy, religion, and politics will be used to enrich the students' reading. 3 credits.

ENGU 244 World Literature III
Prerequisite: ENGU 104. Students read chosen works of world literature from 1660 to the present day. Emphasis may vary from year to year to focus on the relationship of literature to the other arts and cultures. Authors may include Swift, Pope, Moliere, DeBeauvoir, Voltaire, Allende, Flaubert, Melville, Marquez, Dostoyevsky, Nabokov, Ellison, Fowles, and Woolf. 3 credits.

ENGU 250 Introduction to Fiction
Prerequisite: ENGU 104. A discovery of some of the most powerful examples of fiction written throughout the world. Students learn to analyze and understand selected major short stories and novels. Works chosen will represent writers such as Gogol, Kafka, Hemingway, Camus, Conrad, Chopin and Morrison. 3 credits.

ENGU 252 Introduction to Poetry
Prerequisite: ENGU 104. An exploration of the pleasures of poetry. Designed especially for the student with little background, this class cultivates an understanding of and appreciation for a wide range of poetry, from William Blake to Langston Hughes, from Emily Dickinson to Sylvia Plath and Gwendolyn Brooks. 3 credits.

ENGU 254 Introduction to Drama
Prerequisite: ENGU 104. A study of English, American and European drama, concentrating on plays from ancient to modern times, including comedy, tragedy, and the variant literary forms that lie between, ranging from melodrama to farce, from satire to the absurd. Class may attend live theatre and film presentations. Modern playwrights may include Puig, Mamet, Hwang, Wilson, and Wasserstein. 3 credits.

ENGU 300 Writing for Essay Proficiency
Prerequisites: ENGU 104 and placement from the JWP exam or permission of instructor. A mid-point expository writing course designed for students who want to attain higher level skills for writing across their college curriculum or for their professional careers. Benefiting from a practical approach in which the audience, purpose, and methodology will be defined, students will have the opportunity to read effectively written essays in a variety of disciplines and further develop their writing and revising skills. (A grade of “C” (2.0) or higher is required for a “pass” equivalence on the JWP exam for those students who have previously received a “fail” or “deficiency” on that exam.) This course may also be offered online. 3 credits.

ENGU 302 Writing About Diverse Cultures
Prerequisite: ENGU 104. A study of citizens of the world learning to blend their many cultures on the cusp of a new millennium. Students will read works from
writers representing many cultures throughout the world, then discuss and write about such topics as identity, family, gender roles, violence, work, and myth. A special emphasis will be placed on a comparison of these issues between the students’ native cultures and cultures represented in non-Western countries. This course is designed for students who have fulfilled their basic writing requirements but who need additional writing instruction and practice to be better prepared to meet the requirements in upper-division courses. 3 credits.

ENGU 303 Technical Writing
Prerequisite: ENGU 104. Intensive practice in writing for students who wish to work in technical or professional fields: reports, specifications, proposals, visuals, documentation. This course may also be offered online. 3 credits.

ENGU 304 Creative Writing
Prerequisite: ENGU 104. More specialized than introductory creative writing, this course focuses on single genres: fiction, poetry, or drama. Students receive extensive training and practice in their chosen genre. 3 credits.

ENGU 305 Business Writing
Prerequisite: ENGU 104. This course focuses on the various areas of writing for business, industry, and government: business reports, job descriptions, résumés, abstracts, letters, and memoranda. Emphasis may be placed on the formal report and attention will be given to international and intercultural business communication. This course may also be offered online. 3 credits.

ENGU 320 American Literature from the Puritans to Dickinson
Prerequisite: ENGU 104. A study of major American writers and the origins of important themes and ideas in American culture from the Colonial period through the Civil War. Authors include Edwards, Wheatley, Poe, Melville, Hawthorne, Emerson, Thoreau, Whitman, and Dickinson. An examination of Puritanism, Transcendentalism, the Frontier Myth, and their influence on American thought. 3 credits.

ENGU 322 American Literature from Clemens to 1950
Prerequisite: ENGU 104. A survey of the beginnings of modernism as found in major writers from the turn of the century to 1950. Literary ideas such as realism, naturalism, impressionism, and the roots of modern aesthetic theories will be studied in the works of Clemens, Dreiser, Ellison, James, Hemingway, Fitzgerald, Eliot, Pound, Frost, Faulkner, O’Neill, Wharton, and Wright. 3 credits.

ENGU 324 Contemporary American Literature
Prerequisite: ENGU 104. Students read some of the boldest, most interesting works of American post-modernism in order to understand contemporary American fiction, poetry, and drama. Students will study poets of various post World War II movements (the Beats, the New York poets; the confessional, concrete and objectivist poets); novelists such as Angelou, Didion, Barth, Barthelme, Morrison and Tan; and dramatists such as Albee, Hansberry, Kushner, Mamet, Wilson and Williams. 3 credits.

ENGU 326 American Themes
Prerequisite: ENGU 104. A penetrating study of various powerful themes in American literature. Courses that treat different themes may be repeated for
credit. 3 credits.

**ENGU 329 Experimental Topics in English**  
*Prerequisite: ENGU 104.* An examination of selected topics in English relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

**ENGU 334 The Romantic Period**  
*Prerequisite: ENGU 104.* The romantic explosion in English literature from the late 18th century to 1832, concentrating on the poetry of Blake, Wordsworth, Coleridge, Byron, Shelley, and Keats. Students relate this literature to the larger cultural context of European Romanticism and will include some study of prose writers such as Mary Wollstonecraft and William Hazlitt. 3 credits.

**ENGU 335 The Literature of Victorian England**  
*Prerequisite: ENGU 104.* A study of the tensions—artistic, moral, and social—inherent in Victorian England from 1832–1900. While reading the works of such writers as Tennyson, Arnold, Browning, Bronte, Dickens, Hardy, Hopkins, and Wilde, students will discover how these works relate to trends in art, architecture, fashion, politics, science, and philosophy. 3 credits.

**ENGU 340 The Bible as Literature**  
(Same as RELU 340) An exploration of the wonders of the Old and New Testaments. From the song of creation to the apocalypse of Revelation, the course will examine the stories and poetry of the Bible, which shaped our culture and nurtured our values, as literary expressions of ancient Israel and the early Christians. 3 credits.

**ENGU 341 Non-Western Mythology**  
*Prerequisite: ENGU 104.* An introduction to the visionary myths of non-European cultures and how these myths were transformed as culture moved from the magical spells of oral communication to early pictographic writing and finally to phonetic spelling. The myths and magical stories of pre-literate, tribal cultures; the myths contained in early pictographic writing; and the myths contained in early phonetic scripts are emphasized. 3 credits.

**ENGU 343 Introduction to Comparative Literature**  
*Prerequisite: ENGU 104.* An introduction to the theory and methods of comparative analysis, as well as to the interdisciplinary study of literature. The course will begin with an examination of the history of the discipline and an overview of representative comparativist categories. The class as a whole will examine literary texts in comparative historical, linguistic, cultural and interdisciplinary contexts. In addition, after consultation with a faculty mentor, each student will develop a final research project that utilizes a comparativist critical approach. 3 credits.

**ENGU 347 Society, Culture, and Literature**  
(Same as HUMU 347/SOCU 347) An exploration of the sociological and/or anthropopolitical contexts of literature. The course varies in content depending on the instructor, but the topics to be selected might include the following: urban...
literature and life; rural, pastoral, or utopian environment; literature and sex roles; the literature of work; the influence of anthropological works on 20th-century literature; poetry and narrative in preliterate society; and the Cambridge School of Classicists and their theories about various myths of the hero. *This course may also be offered online.* 3 credits.

**ENGU 360 Literature into Film**  
*Prerequisite: ENGU 104.* Studies of selected poems, stories, plays, and novels that have been turned into movies. Discussions will focus on the difference imposed by the printed word and cinema in shaping the same material into two different artistic expressions. Typical readings/films might include Chopin’s *Awakenings*, Conrad’s *Heart of Darkness*, Ishiguro’s *Remains of the Day*, and Vonnegut’s *Slaughterhouse Five*. *This course may also be offered online.* 3 credits.

**ENGU 364 Shakespeare into Film**  
*Prerequisite: ENGU 104.* Students will study the fascinating films made from some of Shakespeare’s greatest plays including the comparative versions of *Henry V*, *Richard III*, *Much Ado about Nothing*, *Romeo and Juliet*, *Othello*, and *Hamlet*. Students might compare various other versions with Shakespeare’s original plays and these sources. 3 credits.

**ENGU 367 Horror Fiction and Film**  
*Prerequisite: ENGU 104.* An opportunity to experience the genre of the macabre in both literature and film. Students start with the Gothic novel and such early classic writers as Mary Shelley, Poe, Lovecraft, and Stevenson and proceed to present day shockers such as William Blatty and Stephen King. Films may include such vehicles of terror as *Phantom of the Opera*, *Bride of Frankenstein*, *Freaks*, *Night of the Living Dead*, *Psycho*, *The Exorcist*, and *Poltergeist*. 3 credits.

**ENGU 368 Science Fiction and Film**  
*Prerequisite: ENGU 104.* An entrance to the imaginative world of the bizarre in science fiction and film that deals with such themes as utopias, outer space, aliens, robots, and monsters. Fiction may include such writers as Jules Verne, H.G. Wells, Edgar Rice Burroughs, Orwell, Huxley, Bradbury, Van Vogt, Clarke, Asimov, Sturgeon, Herbert, and Niven. Films may include such classics as *Metropolis*, *The Thing*, 2001, *Clockwork Orange*, *Close Encounters of the Third Kind*, *Time After Time*, *The Empire Strikes Back*, and *ET*. 3 credits.

**ENGU 400 Advanced Rhetoric**  
*Prerequisite: ENGU 104.* The study and practice of persuasive and expository prose. Students investigate methods of invention and models of form and style in readings from discourse theorists as well as from established masters of the essay. Workshops and tutorials focus on cultivating a personal style, editing, and redrafting for publication. 3 credits.

**ENGU 404 Techniques of Writing Fiction/Poetry/Drama**  
*Prerequisite: ENGU 104.* Students learn the basic techniques necessary to produce publishable fiction or poetry. Course may vary by genre from semester to semester. Techniques of fiction and drama may include plot development, viewpoint selection, three-dimensional characterization, dialogue, scene and
summary, settings, theme. Techniques of poetry may include study of sound, imagery, figurative language, symbolism, and mechanics. Lecture and workshop combined. 3 credits.

**ENGU 407 Writing and Publishing for the Internet**

Prerequisite: ENGU 104. The digital age is upon us. Now we have new ways of communicating, of retrieving and filing information, of publishing our work. How are the Internet and the World Wide Web changing the craft of writing and the business of publishing? How can a writer participate in new media? How can a reader determine the credibility of the information she/he finds in cyberspace? This course is designed to help students gain a greater understanding of the Internet opportunities to publish their own work. This course may also be offered online. 3 credits.

**ENGU 431 Shakespeare's Greatest Hits**

Prerequisite: ENGU 104. A selective study of Shakespeare's greatest tragic, comic, satiric and historical plays framed by the cultural and theatrical milieus of Elizabethan and Jacobean England. 3 credits.

**ENGU 445 Major Author(s)**

Prerequisite: ENGU 104. Students concentrate on the writings of either one significant author or a group of authors who can be studied profitably together. Examples of major figures include, but are not limited to, Chaucer, Spenser, Milton, Pope, Swift, Johnson, Keats, Dickens, Hawthorne, Melville, Pound, Eliot, Woolf, Joyce, Proust, Kazantzakis, and Faulkner. 3 credits.

**ENGU 448 Psychology in Literature and Film**

(Also as PSYU 448) A study of the intriguing cross-influences between literature and psychological theory. Particular attention will be given to the works of literature and film which have provided basic materials for psychologists and to the reflexive impact of psychological theory upon writers. Students will examine the use made by modern poetry, drama, fiction, and film of such psychological concepts as archetypes, unconscious processes, the Œdipal complex, role-playing, and symbol. 3 credits.

**ENGU 449/SSCU 449 Multicultural Perspectives**

(Also as SSCU 449) Students examine culture, identity and ethnic diversity. Students study the value systems which underlie customs, traditions, folklore, history, geography, art and literature. The goal of the course is to increase awareness and respect for similarities and differences among global and domestic cultures and subcultures. 3 credits.

**ENGU 450 Literature of Children and Young Adults**

Prerequisite: ENGU 104. Students will study the classic works and the lyrical, narrative and dramatic aspects of children’s literature. They will be introduced to the types, history, themes, and trends of children’s literature and its role in a child’s cultural socialization. Both teachers and writers of children’s literature will benefit from this study of style, technique, and methods for introducing the young to the pleasures of literacy and elements of literary quality, from diverse cultures and experiences, including authors, such as Faith Ringgold, Demi, E.B. White, Louisa May Alcott, Sandra Cisneros, Gary Soto, and Maya Angelou. 3 credits.
**ENGU 462 The Literature and Film of Diverse Cultures**  
*Prerequisite: ENGU 104.* Depending on the instructor, this course could focus on the emerging nations of Africa, the Middle East, or Central or South America. Writers and filmmakers that might be studied include Chinua Achebe, Carlos Fuentes, Gabriel García Márquez, Ousmane Sembene, Peter Weir, or Satyajit Ray. 3 credits.

**ENGU 471 Introduction to Linguistics**  
*Prerequisite: ENGU 104.* An introduction to the major characteristics and components of human language. Students become familiar with the power and complexity of language, the way it influences our interaction with other people, and its potential contribution to understanding ourselves and society. Studying the work of current language theorists such as Chomsky, Hymes, Halliday, and Vygotsky will be central to the course. 3 credits.

**ENGU 499 Independent Study**  
*Prerequisite: Instructor’s approval and approval of petition.* Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.

**ENVIRONMENTAL AND PHYSICAL SCIENCES**

**Chemistry**

**CHMU 105 Chemistry for Consumers**  
Designed for the non-science major—no mathematical or scientific background is necessary. Lectures range over a wide variety of topics, which may include but are not limited to, the environment, drugs, pollution, food preservatives, pesticides, and brewing. Guest lecturers, tours of local industries, and video aids may be incorporated into the lecture. 3 credits.

**CHMU 234 Fundamentals of Drug Action**  
Although we live in a drug-oriented society—like it or not, we are all drug users—there is a general ignorance of what drugs are, what they do, and how they do it. The main objective of this course is to supply this basic information in order to empower students to make better decisions regarding drug usage. Discussion will center on drugs with high sociological impact, but the emphasis will be scientific in nature. 3 credits.

**Environmental Sciences**

**ESCU 101 Introduction to Environmental Science**  
An introduction to the causes of environmental problems as well as strategies for potential solutions from both a natural science and a social science perspective. Scientific understanding of the environment is emphasized. The course gives an overview of major environmental problems and scientific principles, with a focus on managing environmental problems and important natural resources. *This course may also be offered online.* 3 credits.

**ESCU 103 Introduction to Geosciences**  
Introduction to Geosciences will explore basic principles and processes of geology (emphasizing surface processes), astronomy, meteorology, and
oceanography. Lecture and laboratory. Weekend field trips required. 4 credits.

ESCU 104 Introduction to Physical Science
An introduction to Physical Sciences with emphasis on Earth/Space Science and an introduction to Chemistry and Physics. Designed to meet the General Education requirements in the Natural Sciences, this course will use topics of current interest to introduce non-scientists to basic principles of Physical Science. Lecture, demonstration, discussion, laboratory. 4 credits.

ESCU 105 History of the Earth
An introduction to geology and the geological history of the earth. Students examine 4.6 billion years of the Earth’s evolution including the rise and fall of mountain ranges, the movement of the continental and oceanic plates over time, and the beginnings of life. Students focus on the important cycles in the Earth’s evolution, as evidenced in the rock record and fossils. Lecture. This course may also be offered online. 3 credits.

ESCU 111 Physical Geology
An introduction to geology. Earth, the third planet from the sun, is a dynamic system. The geologic principles and processes that make our planet unique are introduced from a broad perspective. Covers the structure of the Earth, Earth materials, geologic processes, the oceans, and introduction to environmental geology. Required lab and Saturday field trips provide “hands-on” experience. 4 credits.

ESCU 207 Oceanography
Students study the ocean environment and its importance to man, composition of the ocean, causes and effects of waves, currents, the tides, processes that change the coasts, geological origin and evolution of ocean basins, economic resources, marine organisms, history of oceanographic exploration. 3 credits.

ESCU 234 Earthquakes and California Tectonics
The geologic and tectonic history of California with emphasis on the development of the San Andreas Fault system. Fundamentals of geology and plate tectonics are reviewed/introduced in light of the geologic evolution of California. This course may also be offered online. 3 credits.

ESCU 329 Experimental Topics in the Physical Sciences
An examination of selected topics in the physical sciences relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

Food Science and Nutrition
FSNU 200 Human Nutrition
A study of food intake and utilization, nutrient sources, metabolism, and interactions. Human nutritional requirements and their relationship to various diseases are examined, as are facts and fiction about diets, “health foods,” etc. Students learn about nutrition, the elements of a balanced diet, and modern food technology. This course may also be offered online. 3 credits.
FSNU 201 International Nutrition: The World Food Crisis
Students review contemporary nutritional issues affecting the world. Social, cultural, political, economical, and scientific aspects of the world food problems are examined. Nutritional deficiencies affecting various regions of the world and the role of international agencies are covered. Students learn about food production and food supplementation programs, and examine possible solutions and the future. *This course may also be offered online.* 3 credits.

FSNU 329 Experimental Topics in Food Science and Nutrition
An examination of selected topics in food science and nutrition relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

FSNU 338 Nutrition and Human Performance
*Prerequisites: FSNU 200.* Designed to provide a more in-depth view of nutrition, metabolism, and human performance. Ergogenic aids, blood doping, nutritional needs of the athlete are emphasized. The methodologies and current topics related to nutrition and human performance are evaluated. Mechanisms of nutrition are presented to better understand the cause-and-effect relationships of human nutrition. *This course may also be offered online.* 3 credits.

FSNU 405 Quality Control and Assurance
*Prerequisite: FSNU 200 or instructor’s approval.* Students apply physical, chemical, microbiological, organoleptic, and statistical methods to the evaluation of critical properties (e.g., color, flavor, texture, nutrients, stability, and safety) of ingredients and commercial food products. *This course may also be offered online.* 3 credits.

Physics
PHYU 101 General Physics I
*Prerequisite: MATU 105. Corequisite or Prerequisite: MATU 110.* Students study mechanics, wave motion, and heat including lab. 4 credits.

PHYU 102 General Physics II
*Prerequisite: PHYU 101. Corequisite or Prerequisite: MATU 111.* Students study electricity, magnetism, light, introduction to atomic structure including lab. 4 credits.

PHYU 201 Electronics
*Prerequisite: PHYU 102.* Students study transistors and other solid state devices, linear and digital integrated circuits, as well as their applications in instrumentation, music including lab. 4 credits.

PHYU 329 Experimental Topics in Physics
An examination of selected topics in Physics relevant to evolving areas in the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided that the course content is different each time. 3 credits.
FILM AND TELEVISION

FTVU 132 Introduction to Visual Storytelling
This course will offer non-majors an opportunity to explore a variety of filmmaking techniques. Each student will write, shoot, and edit at least three short productions on video-tape. While the primary emphasis is on telling a story visually, the students also learn basic cinematography, lighting, editing and sound recording. 3 credits.

FTVU 140 Introduction to Film Æsthetics
An exploration of the principles of film appreciation and analysis through lecture, discussion, and viewing of films and film excerpts. Class discussions focus on the ways in which editing, photography, sound, and other aspects of film make it a unique form of art. 3 credits.

FTVU 227 Screenwriting Fundamentals
An introduction to the building blocks upon which all film and television writing are based: visualization, dialogue, scenes, sequences, and basic dramatic structure. Students begin with short writing exercises and proceed to longer scenes and sequences, culminating in a 20-page script. Workshop approach is augmented by lecture, readings and video excerpts. Fee: $75. 3 credits.

FTVU 250 Introduction to Multimedia Production
An exploration of the special features of interactive storytelling. Using Macromedia Director, Photoshop, Illustrator, Sound Edit 16, and nonlinear or editing students will combine digital video, audio, still images, and text to make an interactive presentation. Each student produces a multimedia CD-ROM during the course. Fee: $75. This course may also be offered online. 3 credits.

FTVU 316 Computer Graphics I
An introduction to two- and three-dimensional computer graphics for film and television. Using Adobe Illustrator and Photoshop, students will explore vector graphics and their applications in raster graphic images. Fee: $75. This course may also be offered online. 3 credits.

FTVU 329 Experimental Topics in Film and Television
An examination of selected topics in film and television relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

FTVU 351 Business Presentations
Provides insight into the corporate world and the communication skills and techniques, including creating computer-generated graphics, needed to be successful in today’s business environment. A practical look at organizing and creating visual communication for the board room, trade show, and business meeting. 3 credits.

FOREIGN LANGUAGE

French
FRNU 101, 102 Elementary French I, II
Prerequisite for FRNU 102, C- or higher in FRNU 101 or instructor’s approval.
Students gain mastery of a basic vocabulary and structural patterns, pronunciation, an overview of French geography and social customs. Two hours per week lab required. 3/3 credits.

**German**

**GERU 101, 102 Elementary German I, II**

Prerequisite for GERU 102, C- or higher in FRNU 101 or instructor’s approval. Students develop beginning communicative competence in speaking, listening, reading and writing. Appreciation for the Swiss, German and Austrian cultures is developed. Two hours of lab per week are required. 3/3 credits.

**Spanish**

**SPNU 101, 102 Elementary Spanish I, II**

Prerequisite for 102, C- or higher in 101 or instructor’s approval. Students develop basic communicative competence in the four skills of listening, speaking, reading, and writing needed in social situations. Appreciation of the uniqueness of Hispanic and Latino culture. 3/3 credits.

**SPNU 201, 202 Intermediate Spanish I, II**

Prerequisite: SPNU 102 or equivalent. Students work on expanding and improving communicative skills to encompass most social and some professional situations, intensified reading and writing to explore the diverse geography and culture of the Hispanic world, and appreciation of differences between Hispanic/Latino and Anglo-Saxon culture. 3/3 credits.

**HEALTH ADMINISTRATION**

**HAUU 600 Introduction to U.S. Health Policy**

The course comprehensively reviews the U. S. health care delivery system in terms of background and history, population characteristics, trends in health services access and utilization, the structure, financing, organization and delivery of health services, advancing medical technology, and the changing policy environment. Students will explore current issues such as increased competition, major organizational restructuring and consolidation, a rapidly changing scientific base, and increased government regulation. *This course may also be offered online.* 3 credits.

**HAUU 604 Marketing for Health Services**

An introduction to the marketing concepts and principles applicable to health facilities and health care providers. Emphasis is placed on understanding the marketing concept, classic marketing principles, the role of marketing in health care, market planning, segmentation, positioning, pricing, promotion decisions, and market strategies. *This course may also be offered online.* 3 credits.

**HAUU 610 Public Health Administration**

Explores community health in the United States today. Designed to provide a broad introduction to modern concepts of public health administration. 3 credits.

**HAUU 613 Seminar in Organizational Behavior**

(Same as OLCU/HRCU 613) Applies theories of individual, group and
organizational behavior to solve organizational problems. Students are taught a diagnostic model of problem solving and gain experience applying these theories to organizational situations. 3 credits.

HAUU 615 Organization Development
(Same as OLCU 615/HRCU 615) Prerequisite: HAUU/OLCU/HRCU 613. Examines change as a focused leadership activity designed to bring about specific conditions to redirect action, or to implement a particular process, product or system. Focuses on planned, purposeful, and consciously directed change. Through case studies and exercises, students will be introduced to tools and techniques for engaging people at all levels of the organization in successful and lasting transformation. 3 credits.

HAUU 625 Health Systems Administration
A survey and study of key concepts and principles used in the administration of health system organizations. The course analyzes and evaluates how health organizations develop and change, the dynamics of success or failure, the concepts of organization design/development, and the basis of emerging trends in healthcare organization management through the integration of relevant, topic oriented, case studies. This course may also be offered online. 3 credits.

HAUU 630 Financial Management and Accounting Survey
This is an introductory survey course for non-accounting, financial managers. The course will provide an understanding of the general theory and practice of account recordation and financial reporting. The course provides the student with the tools to interpret general-purpose health care financial statements and management uses for these documents. This course is intended for non-accounting, degree majors. This course may also be offered online. 3 credits.

HAUU 635 Financial Management: Budget, Planning and Analysis
A survey and study of key concepts and principles used in the integration of resource allocation techniques and their relationship to the budgeting process used in operational and strategic planning. The course provides an overview of capital budgeting as it relates to capital expenditures, financial analysis of organizational position and management reporting. Future trends in healthcare financial management are also discussed. This course may also be offered online. 3 credits.

HAUU 650 Managed Care and Risk Contracting
The focus of this course is on providing the student with a general overview of managed care and an in-depth understanding of the role and fundamentals of risk contracting in a managed health care deliver system. Students have an opportunity to understand and analyze provider contracts, which will include fee-for-service and risk agreements between payers, hospitals, physician groups, and ancillary providers. The course will provide increased knowledge and understanding of the rationale and methodology of managing risks in a managed care setting. This course may also be offered online. 3 credits.

HAUU 658 Strategic Planning for Health Services
Prerequisite: completion of any eight MHA core courses or instructor’s approval. In this capstone course of the MHA program, students study strategic
planning for healthcare organizations. The course incorporates practical exercises to stimulate the strategic planning/management process from organizing or planning through implementation and review. 3 credits.

**HAUU 660 Information Systems for Health Services**
An introduction to information management, its components and requirements in healthcare and its management applications. Students will learn to determine general institutional and end user needs, produce cost/benefit analysis, increase effective productivity and build a foundation for decision-making technique for computer systems and to evaluate alternative computer information systems. This course may also be offered online. 3 credits.

**HAUU 670 Health Care and Aging**
Provides an overview and foundation of both normal and abnormal changes in the aging process. Students focus on physiological and psychosocial changes, cognitive functioning, common pathological conditions and health and wellness strategies. This course may also be offered online. 3 credits.

**HAUU 671 Issues in Aging**
Examines non-physical aspects of aging and reviews demographics trends, psychological theories and sociological concerns. Specific issues covered include historical perspectives, myths and stereotypes, personality, coping with life’s transitions, social adjustment to retirement, impact on the family, and available community resources. This course may also be offered online. 3 credits.

**HAUU 672 Geriatric Health Care and Public Policy**
This graduate level course provides an in-depth analysis of current health care policies that affect the elderly population in general and specialized populations such as the elderly in correctional institutions. Topics like historical events to the aging policy, basic health needs, Social Security, Medicare/Medicaid, seamless continuum of care, legislative initiatives (federal and state), special interest advisory groups, research, competitive medical plans and future implications will be discussed. This course may also be offered online. 3 credits.

**HAUU 673 Gerontology Internship**
Prerequisite: completion of all certificate required courses and electives. Designed for graduates and advanced undergraduates, this field placement internship provides a hands-on opportunity to work with senior-level management in a health services organization. Students are required to submit a proposal stating objectives, operational procedures, and evaluation plan. 3 credits.

**HAUU 674 Understanding Death and Dying**
This course is designed to provide students with an opportunity to explore and examine issues our culture traditionally avoids; however, most must deal with in a very personal way. Issues involving coping with death and grief will be discussed as well as theoretical and philosophical considerations. Topics to be addressed are: death defined, stages of dying, the health care system and death, Hospice, euthanasia, organ donation, the grieving process, funerals burial, cremation and experiences and questions in the weekly discussions. 3 credits.
HAUU 675 Geriatric Mental Health
This course will focus on the systematic study of the clinical mental health issues of aging. An emphasis will be placed on the multidimensional and multicultural aspects of the elderly mental health client that will increase the student’s awareness of the complexity of social and cultural factors that influence psychological, spiritual, and the physical well being of the older adult. 3 credits.

HAUU 680 Organizational Research
(Same as HRCU/OLCU 680.) This course provides students with an understanding of the critical role of research, systematic assessment, and evaluation to identify and solve management problems and to improve organization performance. The course examines the fundamental theoretical concepts, scientific research methods, the strengths and weaknesses of pre-experimental, quasi-experimental and experimental research designs, threats to internal and external validity, techniques for data collection and analysis, measurement issues, and professional report preparation and presentation. The primary focus is on the practical application of research methods to improving organizational programs, policies, and performance. 3 credits.

HAUU 690 Field Project
May be taken as internship or research project. 3 credits.

HAUU 695 Legal Issues in Health Services
In-depth study of the philosophy and application of law as it relates to health care organizations. Discussion of the legal process and the relationship of the law and public policy to healthcare. May be repeated for credit as a graduate student if taken as undergraduate. This course may also be offered online. 3 credits.

HAUU 699 Special Topics
Prerequisite: admission to graduate studies. A course of study not currently encompassed in the curriculum and relevant to evolving topics of growing importance in the health care industry. 3 credits.

HEALTH SERVICES MANAGEMENT

HSCU 300 Introduction to Health Services
Provides a historical perspective on the organization, finance, and delivery of health services in the United States. Surveys current issues in the health care industry including providers of health services from multiple settings, the causes and determinants of health services utilization and health outcomes, quality assurance, legislation, and regulation. 3 credits.

HSCU 304 Marketing for Health Services
Prerequisite: HSCU 300 or equivalent. Introduces marketing concepts and principles applicable to health care organizations and health care providers. Understanding marketing concepts, buyer behavior, market segmentation, positioning, pricing, promotion decisions, and market strategies are emphasized. 3 credits.

HSCU 321 Health Services Management
Prerequisite: HSCU 300 or equivalent. Examines the nature of supervision in
health care organization and provides an overview of basic management functions in a health care setting. Defining skills in decision-making, problem-solving, and conflict resolution in the delivery of health care are emphasized. 3 credits.

**HSCU 395 Legal Aspects of Health Services**
Explores the philosophy and application of law as it relates to the organization and delivery of health care. Students engage in a discussion of legal process and the relationship of the law and public policy to health care. 3 credits.

**HSCU 408 Program Planning and Evaluation**
The course presents the necessary steps for effective development and evaluation of health promotion programs in community and health care settings. Emphasis is placed on diagnosing needs from multiple perspectives, including social, epidemiological, environmental behavior, education and administrative principles of process impact and outcome evaluation are discussed. 3 credits.

**HSCU 410 Public Health Administration**
Examines community health in the United States today. Designed to provide a broad introduction to modern concepts of public health administration. The graduate-level course is a more extensive examination of these concepts. 3 credits.

**HSCU 429 Topics in Health Care**
A course of study not currently encompassed in the curriculum and relevant to evolving topics of growing importance to the health care industry. 3 credits.

**HSCU 431 Complimentary Medicine**
This course is designed to stimulate changes in the way you think about health and healing. You will learn how to recognize early signs and symptoms of disease outside the realm of traditional medicine. By the end of this course, you will have learned the concepts of alternative therapies, understand the connection of how our thoughts and feelings influence our health and how we can collaborate with our bodies to encourage healing. 3 credits.

**HSCU 432 Disease Prevention**
The purpose of the course is to enable the student to understand that future health care delivery systems must incorporate three key approaches: 1) prevention of disease; 2) maintenance of optimal health; and 3) the natural treatment of disease. The student will learn the causes and symptoms of illness and the proper use of natural therapies, their physiological mechanisms and how to apply them correctly for maximum benefit. In addition, the student will be able to examine the health implications of stress and how psychological and spiritual factors influence our lives and well-being. 3 credits.

**HSCU 440 Drugs and Society**
(Same as SOCU 440, CJCU 440) Study of drug use from a sociological perspective. Discussion will include the effects and toxicity of legal drugs such as alcohol, nicotine, caffeine, and over-the-counter pharmaceuticals, as well as illegal drugs such as marijuana, cocaine, ecstasy, and heroine. Course topics include the integration of drugs with everyday life, the prescription drug industry as a social problem, addiction, recovery as the trope of popular culture, drug-
testing, HIV/AIDS and intravenous drug use, criminal behavior and drug use, drug legalization debates and other policy issues. 3 credits.

**HSCU 441 Special Topics in Chemical Dependency**

Course will examine and explore the history, causes and effects of alcohol and other mood changing drugs (psychological, sociological, and physical); investigation and interpretation of various prevention, treatment, and recovery modalities; myths, images and stereotypes; patterns and progressions, and the familiarization of terms of alcohol and other mood-changing drugs. 3 credits.

**HSCU 452 Epidemiology**

Surveys the methods used for determining cause, distribution, and prevalence of infectious and non-infectious diseases of man. Includes discussion of possible sources of bias in sample techniques and information collection. Current and historical examples of the use of these methods are emphasized. 3 credits.

**HSCU 470 Health Care and Aging**

Specifically designed for the study of gerontology, this course provides an overview and foundation of both normal and abnormal changes of the aging process. The course focuses on various theories of aging, physiological changes, and psycho-social implications. Common medical conditions such as dementia, depression, and signs and symptoms of elder abuse are also reviewed. The graduate-level course requires further intensive critical thinking and examination of concepts. 3 credits.

**HSCU 471 Issues in Aging**

This course provides a broad approach to the social and economic aspects of growing older. Current trends based on controversial issues will be analyzed in terms of strengths, weaknesses, and potential solutions. Topics include impact of demographic changes upon society, power and competition for scarce resources, the issue of entitlements and retirement, housing needs and aging, family responsibilities for caregiving, creativity and the meaning of growing old in society today. The graduate-level course requires further intensive critical thinking and examination of concepts. 3 credits.

**HSCU 472 Geriatric Health Care and Public Policy**

This course will provide an overview of health care policies that affect the elderly. The course identifies the continuum of long-term health care services and reviews the aging network. Programs such as Medicare/Medicaid, Medicare certified HMOs are identified. 3 credits.

**HSCU 491 Health Services Management Internship**

Supervised experience in an approved setting where health services are provided. Requires approval of academic advisor and department chair. 3 credits.

**HSCU 498 Senior Project**

*Prerequisites: completion or concurrent enrollment of all required coursework in the major.* Each student is required to complete a significant project resulting in a formal paper. Choice of health services management related topics will be made in consultation with the instructor. The course serves as a capstone experience as students complete their undergraduate studies. Students will
complete a project involving a comprehensive in-depth review of current literature involving core competency knowledge areas in health systems and health services management. At the end of the term, the student will demonstrate integration of what they have learned in health services management through the production of a seminal written product. 3 credits.

HISTORY

HISU 101 United States History Survey I
A look at all the major themes from 1607 through the Civil War, including the founding of a new nation. American literature is given special consideration. Slavery, states rights, religion, and the beginning of the Westward movement are emphasized. This course may also be offered online. 3 credits.

HISU 103 United States History Survey II
Students study the basic issues of American life, culture, society, and economics from 1865 to the present, while considering the following questions: Who is the American? How have we evolved? And how do we balance the fundamental diversity that is quintessentially American with the need for a common core of beliefs and institutions? This course may also be offered online. 3 credits.

HISU 105 The Rise of World Civilizations I
The course covers world pre-history through the Middle Ages, emphasizing significant discoveries in paleontology, paleoanthropology, and archaeology, the earliest centers of civilization, the beginnings of civic culture in Asia and the Mediterranean world, the origins and impact of the great world religions, and the intellectual and artistic achievements of medieval India, China, and Japan, Europe, and pre-Columbian America. World physical and historical geography forms a major component of this course. 3 credits.

HISU 106 The Rise of World Civilizations II
This course presents diverse perspectives and personalities in modern world history by examining critical global themes, physical geography, and the rise of modern nationalism since 1500. The course examines politics and the economy of the world, religious diversity, technological change, ethnic and racial questions, feminist issues, and national-geographic reconfigurations since early modern times in a comparative, international context. Specifically, this course addresses major centers of modern civilization in Africa, Europe, the Far East, Latin America, and the Indian Subcontinent. 3 credits.

HISU 110 Western Civilization: From Mesopotamia to the Renaissance
A survey of Western civilization from its beginnings in the river valleys of the Tigris, the Euphrates, and the Nile to the intellectual and artistic glories of the Italian Renaissance. Particular attention is paid to the sweeping transformation in thought affected by the Greeks. 3 credits.

HISU 112 Western Civilization: From the Reformation to Modern Times
A survey of Western civilization from the Reformation to the political, social, and intellectual upheavals of the 20th century. Attention is focused on the rise and
development of the ideas and attitudes which uniquely shaped the character of the West. 3 credits.

**HISU 160 World Historical Geography**
An introduction to physical, economic, and cultural geography in a historical context. Students explore the development of our knowledge of the world as a means of obtaining familiarity with the fundamentals of geography. 3 credits.

**HISU 180 Modern Latin American History**
Students examine the development of political institutions, social changes and interactions throughout the Americas, Latin American-United States relations, racial and cultural issues, and the question of economic development. 3 credits.

**HISU 190 Modern Asian History**
Students learn about the region with a third of the world’s population, through examining the emergence of modern nation states, their relationship to the West, and involvement in 19th and 20th century movements and conflicts. 3 credits.

**HISU 303 Constitutional Government**
(Same as POSU 343) By examining the Federalist Papers, the Constitution, and case law, this course examines the growth of the national government, the changing nature of federalism, and other themes: What does the Constitution say about the separation of powers? Does it provide for three coequal branches of government? 3 credits.

**HISU 304 The Ancient World**
(Same as RELU 304) Students survey the history of the ancient Mediterranean world by examining the Egyptian, Greek, Roman, and Byzantine civilizations. The historical and artistic accomplishments of these ancient peoples are highlighted, with particular attention given to the development of religious thought and philosophical inquiry, archeological research, and museum studies. 3 credits.

**HISU 306 The Middle Ages**
(Same as RELU 306) Lords and ladies, peasants and popes, soldiers and saints—this course examines the history of the Middle Ages, 500–1500, through the themes and events that shaped the period. Students discuss feudalism, the development of scholastic theology, the launching of the Crusades, and the creations of Romanesque and Gothic architecture. 3 credits.

**HISU 307 Germany and the Holocaust: From Antisemitism to Final Solution**
(Same as RELU 307) An examination of the Holocaust within its context in the history of Germany and World War II. The origins of the Holocaust, the implementation of the Final Solution, resistance to the Nazis, and the legacy of the Holocaust will be studied with the experiences of survivors, members of the Resistance, and “righteous Gentiles.” 3 credits.

**HISU 308 Early Modern Europe**
Humanism, religious fragmentation, state building, imperialism, secularization, and enlightenment—no period has been more important in the formation of the European character. In the age between the Italian Renaissance and the French Revolution, Europe emerged from the relative obscurity of the Middle Ages to become the world’s dominant civilization. 3 credits.
HISU 310 Modern Europe
Building on the twin pillars of industrial revolution and technological innovation, Europeans in the 19th century greatly expanded their territorial control and cultural hegemony. In the 20th century, national rivalries and two world wars threatened this hegemony and undermined the power of the traditional European nation-state. This course traces the tumultuous history of Europe from the Congress of Vienna to the collapse of the Soviet Empire. 3 credits.

HISU 311 Russia and the Commonwealth of Independent States
( Same as POSU 323) Students learn the history of Russia and the Soviet Union from the fall of the Romanov dynasty through the demise of the Soviet government and the creation of the Commonwealth of Independent States. Ideas and ideologies, politics, economics, foreign affairs and the Cold War, and cultural and intellectual developments are emphasized. 3 credits.

HISU 312 History of Spain and Portugal
Students examine the history of the Iberian Peninsula from pre-historic times through the modern era. Topics include Roman Iberia, Visigothic Spain, Islamic and Catholic Spain in the Middle Ages, the “golden era” of Spanish culture, the Iberian empires, Spain’s decline as a great power, the Spanish Civil War, Franco and Salazar, and contemporary Spanish and Portuguese society. Intellectual, social, and political developments in Spain and Portugal are emphasized. 3 credits.

HISU 313 The Renaissance and Reformation
(Same as HUMU 313) The modern Western sensibility has its main roots in the European Renaissance and Reformation . This course traces the origins of this "reactionary revolution" in the writings of the humanists and major reformers, the work of the early modern scientists and the artistic productions that reshaped human consciousness itself. 3 credits.

HISU 314 United States Business and Economic History
The changing roles of entrepreneurs, business, the financial structure, and government in the United States from Colonial times to the present, with an emphasis on the 20th century. Focus of the course is on individuals who substantially changed the way Americans lived by creating new products, new technology or new operating methods. 3 credits.

HISU 318 The Reformation
(Same as RELU 318) Students examine the events and ideas of the sixteenth-century Reformation. This course analyzes the transition from a medieval to a modern world view and the impact of the Reformation on education, politics, science, art, and the roles of men and women in society. 3 credits.

HISU 320 Witchcraft: Healers and Heretics
Students examine the history of the belief in magic and witchcraft in western culture from ancient times to the present day. Special attention will be given to the famous Salem witchcraft episode of 1692. Witchcraft in modern preliterate societies will be studied with an eye to the various theories that have been advanced to explain its existence. 3 credits.
HISU 323 The Western Legal Tradition
(Same as POSU 342) Law is a product of history, and an understanding of the law cannot be complete without an examination of its historical roots. This course surveys the history of Western law and legal institutions from the Code of Hammurabi to the American Revolution. Special attention will be focused on the rise and evolution of English common law. 3 credits.

HISU 324 Constitutional Rights
(Same as POSU 344) Students analyze the following questions and examine competing theories of civil rights and civil liberties. Did the founders really believe that the United States Congress should make no law abridging freedom of speech or of the press? What does the Constitution say about the rights of the criminal, and what does this mean for “victims’ rights” movements? What is the constitutional right to abortion? 3 credits.

HISU 326 The African-American Historical Experience
Students trace the history of the African-American experience from the earliest days of slavery through emancipation, the rise of Jim Crow, the Civil Rights movement, and the modern era. 3 credits.

HISU 328 The Colonial Period in American History: A Strange Frontier
Students study the experience of individual Americans—Africans (enslaved and free), Native Americans, settlers from all over Europe, and the Europeans who attempted to rule them—alongside their political and religious ideas. How did this complicated group eventually unite to form a nation? 3 credits.

HISU 329 Experimental Topics in History
An examination of selected topics in History relevant to evolving areas in the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided that the course content is different each time. 3 credits.

HISU 330 America and Its Revolution: The Bonfires of Change
Students examine one of the most tumultuous times in American history and analyze and interpret the events that form the foundation, not only of our system of democracy, but much of our identity as Americans. This course may also be offered online. 3 credits.

HISU 331 The Trying Years—Union and Disunion:
American History, 1789–1865
In this period a new nation was forged. America as a unique and sovereign nation grew and developed as the Constitution came into being, and American political parties formed. Subjects covered include Jefferson and Jackson democracy, westward expansion, economic growth, sectionalism, religious movements, the antislavery crusade, and the Civil War. 3 credits.

HISU 334 The Emergence of Modern America, 1865–1920:
Robber Barons, Railroads, and Skyscrapers
Students study social, economic, and political developments, Reconstruction, the rise of big business, Populism, Progressivism, and the First World War. The roles of presidents during this time are emphasized and the themes of industrialization, immigration, and urbanization are examined. 3 credits.
HISU 336 Conflict and Change in America: 1920-1945
Covering the prosperity and cynicism of the Roaring Twenties, the poverty of the Great Depression and the New Deal response to it, the violence of the Second World War, this course examines and interprets the culture and politics that shaped this era. 3 credits.

HISU 337 World War II
A comprehensive review of the great mid-twentieth century catastrophe which consumed the world and forever altered history. The global nature of the war, its fundamentally racial nature, and the conflict of ideologies will be examined. Major topics will include the diplomatic and economic background, the roles of propaganda, of non-combatants, and the home fronts, as well as a wide ranging review of the military aspects. 3 credits.

HISU 338 America After the War, 1945-1960
Students examine this critical decade in American history that featured the rise of the Cold War and rock and roll and interpret its economy, politics, culture, and social structure. 3 credits.

HISU 339 The Twentieth Century
The great topic and themes of the century just past will be examined: the decline of European world power; the collapse of empires; the rise of super powers, world wars; the growth of democracy, communism, and fascism; the global economy; mass communication and the creation of celebrity; flight; unparalleled industrial and technological change; the advance of science; the Cold War. 3 credits.

HISU 340 American Diplomatic History and Foreign Policy
(Same as POSU 321) Students focus on the origin and development of United States foreign policy. Important areas of study include the role of ideology in foreign policy, economics and foreign affairs, isolationism, American dominance of the Western hemisphere, and the consequences of increasing international interdependence. Also considered are the influences of public opinion, the media, corporations, the Congress, the bureaucracy, and the presidency in shaping American policy. This course may also be offered online. 3 credits.

HISU 342 The History of Everyday Life in America: Cooking, Cleaning, Life and Death
History is not just something presidents and Supreme Court Justices make; rather, it is something that our ancestors lived in the past. This course takes an interpretive look at how many of our most basic rituals and activities have changed over the years and why, including such topics as childbirth and children’s games. 3 credits.

HISU 345 History of Western Political Thought
Students trace the rise and transformation of Western political thought from the Greeks to the end of the 19th century and explore the nature of political reality as seen through the eyes of such seminal figures as Plato, Aristotle, Aquinas, Machiavelli, Locke, Jefferson, Rousseau, Mill, and Marx. 3 credits.

HISU 350 Topics in African and Asian History
Subject matter and time periods will vary, but the focus will be on one or more
non Western countries. Topics such as Contemporary Africa, Peace and Conflict in the Middle East, and Race and Change in South Africa and the United States might be selected. Courses that treat different themes may be repeated for credit. 3 credits.

HISU 352 Chinese Civilization
A study of China from earliest times to the mid-1990s from five broad perspectives: the composition of the Chinese people; elite thought and behavior; family life; popular culture; and the economy. 3 credits.

HISU 355 History of the Vietnam Conflict
Plato wrote: “Only the dead have seen the end of war.” This course is created to provide a well told story about the causes, main events and the impact of the Vietnam Conflict. Students will trace the events, decisions and results of America’s involvement in Southeast Asia. Military, social, economic and political historical analysis of the era will be a key element in the research and assignments the students will produce. 3 credits.

HISU 356 Modern Germany: From Sarajevo to Stalingrad
Tracing Germany’s entrance into the Great War to the Treaty of Versailles to the fragmented Weimar Republic to the Blitzkrieg and its consequences, this course examines the political, social, and intellectual history of Germany from World War I to the end of World War II. Special attention is given to the Holocaust and to roles of individuals in taking Germany down the path to two world wars. 3 credits.

HISU 364 The Old South: Frontier Fort to Cotton Mill
The most unique region in the United States, the South’s role in American history from colonial times to the Civil War, is the subject of this course. Social, economic, cultural, and political factors will be examined in depth. Southern folklore and religion will be examined. 3 credits.

HISU 365 Topics in the Holocaust
( Same as RELU 365.) Students examine selected topics within the study of the history of the Holocaust, such as the role of doctors; persecution of non-Jewish groups, including homosexuals and gypsies; theologians and religion under Hitler; and the experiences and choices of perpetrators, victims, and bystanders. 3 credits.

HISU 368 Immigration in American History: The Newcomers
For more than two hundred years the crucial question of American society has been how we welcome newcomers. Students explore the history of immigrants to our shores from the earliest settlers to Irish immigrants, and the Southern and Eastern European waves at the turn of the century, with emphasis on modern immigration from Latin America and Asia. 3 credits.

HISU 372 California History
In this in-depth study of California from its discovery in 1542 to the present, students attempt to answer the question: How has the Golden State changed? The roles of mining, Indians, agriculture, high technology, Japanese/American relations, and the missions system are considered. 3 credits.
HISU 380 The American West: Miners, Cowhands, Homesteaders, and Gunslingers
This is the American legend. The five frontiers (fur, mining, cattle, farming, and technology) are examined in depth. The American frontier and the westward movement in the United States are the areas of emphasis. 3 credits.

HISU 388 Technology and Progress in Western Societies
This course challenges students to critically analyze technological change and Western ideas of progress from the Industrial Revolution to the Computer Age. The course emphasizes technology’s role in economic development, political change, religious, social, and aesthetic values, technological utopianism, and the West’s relationship with the non-Western world. 3 credits.

HISU 392 Pre-Columbian and Colonial Latin America
Students study the dramatic clash between two vastly different worlds beginning with the first aboriginal-European contacts with the Americas and continuing through the decimation of Latin American populations and the fusion of Iberian and American cultures. The course considers the overwhelming influence of this encounter in the shaping of New World ideas, customs, attitudes, and values. 3 credits.

HISU 394 The Americas: Politics and Diplomacy
This course examines the history of United States-Latin American relations including important areas of both cooperation and conflict. Beginning with the era of Latin American Independence, the course explores key incidents in hemispheric diplomacy with special emphasis on manifest destiny and imperialism, the Panama Canal, the Mexican and Cuban Revolutions, World War II and the Cold War, and the Latin American military dictatorships of the twentieth century. 3 credits.

HISU 396 Mexican History
Students cover the history of greater Mexico (including the northern borderlands) from the ancient Aztec and Mayan empires through the most recent economic and political upheavals. Mexican history is the product of cultural and social clashes between many groups: native people and Spanish colonists, revolutionaries and reactionaries, peasants and politicians. 3 credits.

HISU 397 Social Movements in the Sixties
(Also as SSCU 397/SOCU 397) Through film, literature, and oral history, we will take a fresh look at this controversial time in American history. Beyond protests, civil rights, Vietnam, sex, drugs, and rock’n’roll, there is the sociological question of how and when social movements arise, and how individuals within them rise to leadership roles. Social movements are a response to economic and demographic changes and they, in turn, make societal and cultural changes (or perhaps solidify them). Many of the characteristics of modern society that we take for granted -- for example, voting rights for women or organized labor -- have their origins in the struggles of organized social movements. Sociological theory and methods such as oral history provide a means to examine these issues. 3 credits.
HISU 499 Independent Study
Prerequisites: Instructor’s approval and approval of petition. Directed readings and/or research designed to meet specific needs of superior upper division students. 1-3 credits.

HUMAN RESOURCES

HRCU 406 Legal Issues in Human Resources
Students study legal issues associated with the administration of human resources in public and private sector organizations. The course focuses on human resource matters such as affirmative action, grievance handling, hiring and firing, labor relations, and health and safety. 3 credits.

HRCU 425 Social and Technological Change
Students study social and technological trends, issues, and changes impacting organizations and society. Changing demographics, personal value systems and work ethics, with a practical model for managing or working in a changing environment and these factors’ impact on human resources are emphasized. 3 credits.

HRCU 430 Conflict Resolution
Students analyze the nature, types and stages of conflict and conflict resolution. Focus is on conflict within and between persons, organizations, communities, and societies, with emphasis upon resolution techniques. 3 credits.

HRCU 445 Human Resource Studies
Students are introduced to the study of human resources in organizations. Topics include workforce planning, job analysis, recruitment, selection, staffing, performance evaluation, training, and compensation. 3 credits.

HRCU 613 Seminar in Organizational Behavior
(Same as HAUU/OLCU 613). Students use theories of individual, group, and organizational behavior to solve organizational problems. Students are taught a diagnostic model of problem-solving and gain experience applying theories to business situations. 3 credits.

HRCU 615 Organization Development
(See also HAUU/OLCU 615.) This course examines the history and overview of the field of organization development. It examines change as a focused activity to bring about specific conditions, to re-direct action, or to implement a particular process, product, or system. Students examine the human side of change, including “resistance” to change. Introduces basic organization development concepts, principles, values, theories, and models. There is particular emphasis on application of theoretical concepts to actual organizational situations. 3 credits.

HRCU 616 Consulting
A course of advanced and critical teaching, research, and actual experience in organizational development. Students are actively involved at the professional level with organizational development, consulting, report writing, publishing, exploration of consultant roles, and behavior, ethical dilemmas and the use of organizational development in complex organizational systems. 3 credits.
HRCU 618 Career Management
Students learn how to design, implement, and sustain effective career development plans from the perspective of both the individual and the organization. Topics include creating and implementing a career development plan, linking career development with other systems within the human resources field, and the appropriate use of career assessment instruments as part of the self-assessment process. 3 credits.

HRCU 622 Labor Relations and Collective Bargaining
Students analyze the nature of industrial society and its changing dimensions as in the post-industrial era. Union organizing, collective bargaining and contract administration are emphasized. Problems related to technology, automation, environmental work/safety requirements, labor-management conflict, and affirmative action are discussed. 3 credits.

HRCU 625 The Changing Environment of Human Resources
Students will explore the changing environment’s effects on human resources. Dimensions of the environment explored will include characteristics of the changing labor market, technological changes, and competing in a global marketplace. 3 credits.

HRCU 630 Conflict and Negotiation
Students analyze the nature, types and stages of conflict and conflict resolution, focusing on conflict within and between persons, groups, organizations and societies. Negotiation and resolution techniques are examined and applied. 3 credits.

HRCU 641 Performance Appraisal and Development
This course focuses on the appraisal and development of individual, group and team performance in organizations. Theories of performance measurement are examined with the goal of minimizing errors in the performance appraisal process. Performance development skills are taught, including coaching, mentoring, providing feedback and conducting the performance review session. 3 credits.

HRCU 644 Recruitment and Selection
Students study the recruitment and selection of employees in organizations. The course examines the entire staffing process from HRCU planning to offer acceptance. Issues and problems involved in designing recruitment and selection systems are discussed. Topics covered include recruitment planning, strategies, and evaluation, as well as selection instruments and the evaluation of staffing systems. 3 credits.

HRCU 645 Human Resources Systems
Students learn a systems approach to managing human resources in organizations. Topics include environmental scanning, managing diversity, legal issues, strategic HR, job analysis, performance appraisal, recruitment and selection, workforce reductions, career development, training, compensation, benefits, and labor and employee relations. 3 credits.

HRCU 646 Training and Development
This course provides a working understanding of the elements, required skills
and major practices in the training and development field. Topics include managing the training function, roles and competencies of trainers, assessing training needs, program development, methods of intervention, evaluation of training, and the relationship between training and the fields of career development and organizational development. 3 credits.

**HRCU 647 Compensation**  
Students focus on the concepts and practices of wage and salary administration, with emphasis on current theories of compensation and motivation. Topics include job evaluation systems, determining competitive compensation levels, non-cash compensation programs, performance appraisals and incentives, wage and salary policy, variable pay systems and compensation trends. 3 credits.

**HRCU 648 Legal Issues in Human Resources**  
A broad overview of federal, state and local laws and regulations that affect the management of human resources. Topics include employment, anti-discrimination laws, compensation, employee rights, health and safety, sexual harassment and administrative requirements. Research of legal issues is an integral part of the course. 3 credits.

**HRCU 650 Strategic Management of Human Resources**  
This advanced course prepares students to create competitive advantage through human resource practice. The integration of human resources with strategy is stressed. 3 credits.

**HRCU 652 Human Resources Information Systems**  
Students learn how to assess, design and implement human resources information systems (HRIS). The course covers issues central to HRIS effectiveness in organizations of all sizes and in a range of technical environments. Students are presented with a theoretical framework to understand systems design issues, analyze needs, choose software and install an HRIS. 3 credits.

**HRCU 653 Benefits**  
**Prerequisite:** HRCU 647, or instructor’s approval. This course intensively examines the growing area of employment benefits. The role of benefits in attracting and retaining employees is discussed, as well as the design and administration of employment benefit packages. This course may also be offered online. 3 credits.

**HRCU 680 Organizational Research Methods**  
(Same as HAUU/OLCU 680) This course provides students with an understanding of the critical role of research, systematic assessment, and evaluation to identify and solve management problems and to improve organization performance. The course examines the fundamental theoretical concepts; scientific research methods; the strengths and weaknesses of pre-experimental, quasi-experimental and experimental research designs; threats to internal and external validity, techniques for data collection and analysis; measurement issues, and professional report preparation and presentation. The primary focus is on the practical application of research methods to improving organizational programs, policies, and performance. 3 credits.
HRCU 690 Internship Program
Provides students with an opportunity to apply the skills and concepts they have learned during their courses of study to existing issues within organizations. A written contract is developed by the student, approved by the client organization, and supervised by a faculty member before work on the internship begins. Students may not receive credit for working at their current jobs. 1-3 credits.

HRCU 696 Special Topics
A course of study not currently encompassed in the curriculum and relevant to evolving topics of growing importance to the field of human resources. 3 credits.

HRCU 699 Independent Research
Prerequisite: approval of department chair. Supervised independent study or research on a special issue or program development affecting human resources management. 1-6 credits.

HUMANITIES

HUMU 200 Women's Realities
An introduction to women's studies as an academic discipline and a critical analysis of the traditional views of women as individuals, members of families, and societies. The perspective is historical as well as cross-cultural. This course may also be offered online. 3 credits.

HUMU 313 The Renaissance and Reformation
(Same as HISU 313.) The modern Western sensibility has its main roots in the European Renaissance and Reformation. This course traces the origins of this "reactionary revolution" in the writings of the humanists and major reformers, the work of the early modern scientists and the artistic productions that reshaped human consciousness itself. 3 credits.

HUMU 316 From Latin America to Los Angeles: Culture and Ways of Life
Students are introduced to the culture of Latin America in the areas of literature, philosophy, art, music, dance, cinema, and architecture; Latin American culture as the expression of a multiethnic and multicultural way of life; and Latino culture in the United States. 3 credits.

HUMU 320 Roll Over Beethoven: A Survey of Rock and Roll
A survey of the many musical styles and cultural movements collectively called "rock and roll" that have developed since the mid-1950s. The course will examine the artistry of rock music, as well as its historical contexts and social implications. This course may also be offered online. 3 credits.

HUMU 329 Experimental Topics in the Humanities
An examination of selected topics in the humanities relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

HUMU 347 Society, Culture, and Literature
(Same as ENGU 347/SOCU 347) An exploration of the sociological and/or
anthropolitical contexts of literature. The course varies in content depending on
the instructor, but the topics to be selected might include the following: urban
literature and life; rural, pastoral, or utopian environment; literature and sex
roles; the literature of work; the influence of anthropological works on 20th-
century literature; poetry and narrative in preliterate society; and the Cambridge
School of Classicists and their theories about various myths of the hero. This
course may also be offered online. 3 credits.

HUMU 350 Cities and Civilization
From today’s Los Angeles to classical Athens, cities have shaped and
transformed Western civilization. Utilizing technology, this multi-disciplinary
course investigates contemporary Los Angeles and its urban predecessors, such
as Athens, Madrid, Paris, London, and Vienna, as crossroads of cultural change.
3 credits.

HUMU 351 Humanities Through the Arts
( Same as THDU 351) Designed to promote appreciation of the forms, styles, and
media of music, art, dance, drama, cinema, and architecture. 3 credits.

HUMU 365 Culture, Theater, and the Visual Arts
An interdisciplinary course in which theater, painting, sculpture, and architecture
are used to explore some of the major questions that continue to preoccupy
Western civilization at the end of the 20th century. Discussions will center
around five themes: the search for God; man/woman and nature; the cult of the
machine; mortality and immortality; male and female. Lecture and discussions,
theater, and museum field trips. 3 credits.

HUMU 499 Independent Study
Prerequisites: Instructor’s approval and approval of petition. Directed reading
and/or research designed to meet specific needs of superior upper division
students. 1-3 credits.

LIBERAL STUDIES
LBSU 300 University College Foundations
Prerequisites: Minimum of 30 credits or permission of advisor. This course is
required of all undergraduate degree seeking students at University College. It is
a broadly defined mid-point integration of life, degree and career planning. It also
provides an assessment of Chapman’s general education (liberal arts) core
outcomes – including understanding of the various disciplines’ approaches to
knowledge and the use of critical thinking/expressing, electronic research and
student services resources and multi-media presentations. Its goal is to
personalize a student’s education so that he or she may become a more
independent and life-long learner. This course may also be offered online. 3
credits.

LBSU 301 Models of Interdisciplinary Thinking
Prerequisites: ENGU 104. This course focuses on students acquiring, organizing,
and presenting material from various distinguishable academic disciplines in order
to integrate knowledge about a chosen theme or topic. Issues of post-modern
inquiry will also be introduced. Students will formulate their own models of inquiry
and practice and present their findings and conclusions for class assessment. Students may also choose to use this course for an in-depth preparation for their taking either the multiple or single subject CSET — California Subject Examination for Teachers. This course may also be offered online. 3 credits.

**LBSU 307 Physical Education for Elementary School**

*Prerequisite: proof of CPR certification.* Designed to provide students with a basic understanding of the purpose of physical education and methods for implementing a physical education curriculum in the elementary school. Analyses are made of fundamental movements, which when modified make up the skills of all sport and dance activities. 3 credits.

**LBSU 310 Music, Movement and Drama: The Human Expression**

*Prerequisite: ENGU 104.* This course examines the connected relationships of movement, music and drama and their importance as a reflection of world culture and social expression. Students will learn to recognize, appreciate, and build upon music theory, acting principles and dance foundations with some specific example applications to curriculum in the K-8 classroom. Choreographic studies will be infused with drama to create theater and/or individual expression using everyday curriculum. Video viewing, audio listening, and applied arts activities weekly. 3 credits.

**LBSU 329 Experimental Topics in Liberal Studies**

*Prerequisite: ENGU 104.* An examination of selected topics in the liberal arts relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

**LBSU 401 The Tapestry of a Liberal Studies Education**

*Prerequisites: ENGU 104 and senior status.* This senior capstone course in Liberal Studies is designed to assess students’ cumulative knowledge and integrative skills in analysis, synthesis, and evaluation of the subject areas as related to K-8th grade curriculum. Each participant selects and prepares a portfolio of his/her Liberal Studies experience, demonstrating evidence of learning that addresses the Subject Matter Standards for Elementary School Teachers as prescribed by the State of California Commission of Teacher Credentialing (2002). The portfolio project will culminate in a written and oral presentation that will be assessed by a panel of faculty and staff members. 3 credits.

**LBSU 402 Ways and Rhetoric of Knowing**

*Prerequisites: ENGU 104 and senior status.* This course is designed to provide a capstone to an undergraduate degree program in the humanities. Students are challenged to consider fundamental questions of the construction of knowledge and its modes of dissemination. What are various ways of knowing? Is knowledge relative to particular cultures, genders or classes. How do various media affect the messages they were created to convey? How do others persuade you to accept their views of knowledge? What is the balance between faith and skepticism? Should pursuit of knowledge per se be restricted by ethical
considerations? How can you more effectively persuade others to accept presentations of your point of view?  3 credits.

**LBSU 499 Independent Study**

*Prerequisite: Instructor’s approval and approval of petition.* Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.

**MATHEMATICS**

**MATU 099 Intermediate Algebra**

Presents topics such as real numbers, linear equations, inequalities, systems of equations, polynomials, fractional expressions, exponents, and quadratic equations.  3 credits.

**MATU 104 Pre-Calculus Mathematics I**

Presents topics such as functions and transformations, linear and quadratic functions and inequalities, matrices and determinants, exponential and logarithmic functions.  3 credits.

**MATU 105 Pre-Calculus Mathematics II**

*Prerequisite: MATU 104.* Students learn trigonometric functions and inverses, coordinate systems, complex numbers, conic sections, sequences and series, mathematical induction.  3 credits.

**MATU 108 Fundamentals of Calculus**

*Prerequisite: MATU 104 or equivalent.* This is a calculus course for majors in organizational leadership and social sciences. It covers the essentials of analytic geometry, differential calculus, and integral calculus with applications from organizational management, industrial technology, and social sciences. The course includes two hours per week of laboratory work in addition to the three hours per week of lecture. Lab fee: $25.  3 credits.

**MATU 110, 111 Single Variable Calculus I, II**

*Prerequisite: MATU 105 or equivalent.* Functions, limits, derivatives, integration, the definite integral, transcendental functions, plane analytic geometry. The course includes two hours per week of laboratory work in addition to the three hours per week of lecture. Lab fee: $25.  3/3 credits.

**MATU 203 Introduction to Statistics**

*Prerequisite: MATU 099 or equivalent.* Not recommended for the student who has taken a statistics course in another department or for mathematics majors. Students study probability, analysis of data, parametric and non-parametric statistics, examples from the social sciences and the natural sciences.  3 credits.

**MATU 206 Mathematics for Elementary School Teachers**

*Prerequisite: MATU 104 or MATU 203.* This course focuses on preparing future elementary school teachers for effective mathematics instruction. Topics include problem-solving strategies, number theory, fractions, decimals, proportions and their applications to geometry, basic geometry, and probability. Conceptual understanding is emphasized. In presenting the material, several instructional
techniques will be modeled. These techniques may be incorporated when preparing your own lesson plans. 3 credits.

**MATU 210 Multivariable Calculus**  
*Prerequisite: MATU 111.* Students learn the calculus of functions of two or more variables and of vector-valued functions. Multiple integrals and integration in vector fields. 3 credits.

**MATU 211 Linear Algebra**  
*Prerequisite: MATU 210.* Students study vector spaces, linear transformations, matrices, determinants, eigenvalues and eigenvectors. 3 credits.

**MATU 250, 251 Discrete Mathematics I, II**  
*Prerequisite: mathematics placement examination equivalent to placement in pre-calculus.* This course provides the student with an introduction to the fundamental Mathematics of discrete phenomena and computation. This is a key course in the curriculum as it provides the theoretical background needed for many upper-division courses including Data Structures (combinatorics, formal languages), Logic Design (Boolean algebras, number representation) and Integrated Circuit Design (automata theory, finite state minimization, graph layout). 3/3 credits.

**MATU 329 Experimental Topics in Mathematics**  
An examination of selected topics in Mathematics relevant to evolving areas in the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided that the course content is different each time. 3 credits.

**MATU 346 Quantitative Methods for Computer Information Systems**  
*Prerequisites: MATU 108 or MATU 110, MATU 203.* Students learn to use models developed through quantitative methods of problem-solving. Key topics include linear programming, network analysis, queuing theory, and decision theory. 3 credits.

**MATU 350 Differential Equations**  
*Prerequisite: MATU 211.* Students gain a solid foundation in ordinary differential equations and introduce applications of differential equations to the sciences. 3 credits.

**MATU 351 Applied Mathematics**  
*Prerequisite: MATU 350.* Students gain a solid foundation in applied mathematics and mathematical modeling. 3 credits.

**MATU 360, 361 Mathematical Statistics I, II**  
*Prerequisites for MATU 360: MATU 211; for MATU 361: MATU 360.* Mathematical statistics, beginning with the elementary parts of the theory of probability, including probability spaces, random variables, probability distributions, expectation, the law of large numbers and the central limit theorem, which are fundamental to the study of statistics, and proceeding from there to the statistical concepts of sampling, point estimation, interval estimation, tests of hypotheses, regression and correlation, and analysis of variance. Appropriate applications of concepts are provided. 3/3 credits.
MATU 403 Statistics for Applied Sciences  
*Prerequisite: MATU 203 or equivalent.* A second course in applied statistics for research and development in the applied sciences and clinical practice. Beginning with the basic notions of linear regression and the analysis of variance, the course progresses to the principles of experimental design, survey methods and the elements of observational studies. The course emphasizes modeling and interpretation of data analyses that arise from research in the applied sciences, including computer information systems, food science and nutrition, physical therapy and the social sciences. 3 credits.

MATU 451 Complex Variables  
*Prerequisite: Math 210 (Multivariable Calculus) or equivalent.* This course is an introduction to complex variables with an emphasis on engineering applications. Assignments for this class are designed to develop and re-enforce understanding of the mathematical concepts involved. Major topics to be covered include: complex numbers, analytic functions, elementary functions in the complex plane, and complex integration, series representation of complex functions, residue theory, conformal mapping and transforms useful in engineering and applied mathematics. 3 credits.

MATU 454 Numerical Analysis I  
*Prerequisite: MATU 211.* Students study and come to understand the basic algorithms of numerical computation as used in approximation, numerical integration and differentiation, solution of equations, and solution of differential equations. 3 credits.

MATU 455 Numerical Analysis II  
*Prerequisite: MATU 454.* The objective of this course is to provide for the understanding of linear systems of equations and the methods for the solutions of the same. 3 credits.

MATU 499 Independent Study  
*Prerequisites: Instructor’s approval and approval of petition.* Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.

MUSIC  
MUSU 100 Rudiments of Music  
A study of the rudiments of music; pitch and rhythmic notation, scales, key signatures, intervals, triads, basic music reading skills and aural skills. For non-music majors and pre-music majors. 1 credit.

MUSU 101 Introduction to Music  
For non-music majors only. A course designed to give the student a grasp of the major styles and trends of Western music, from Gregorian chant to the present. *This course may also be offered online.* 3 credits.

MUSU 222 Musical Cultures of the World  
A survey of nonwestern musical traditions with focus on Africa, Asia and Latin America. *This course may also be offered online.* 3 credits.
MUSU 329 Experimental Topics in Music
An examination of selected topics in music relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

ORGANIZATIONAL ADMINISTRATION

ORGU 202 Accounting
Designed for non-accounting administrative or management personnel. Covers basic accounting concepts and principles, financial statements, budgeting, and how accounting information can be used as a management tool. Emphasis is placed on profit-type entities, although not-for-profit and public institutions are also covered. 3 credits.

ORGU 308 Economics and Organizations
Formerly OA 208. Students learn decision-making with scarce resources, opportunity costs, supply and demand, market equilibrium, pricing in competitive markets, the public sector, national income accounting, introduction to foreign exchange market and balance of payments, unemployment and inflation, macroeconomic equilibrium, money and banking. This course may also be offered online. 3 credits.

ORGU 403 Finance
Provides students with a vocabulary of financial terms, an understanding of a corporate balance sheet and income statement. An introduction to financial planning, budgeting and cash management, and cash budgeting for personal and organizational use. 3 credits.

ORGU 404 Marketing
A study of the marketing of goods and services and the role of marketing in the economy. Topics include the marketing environment, buyer behavior, market segmentation, marketing mix policies, marketing of services, and marketing in the international economy. This course may also be offered online. 3 credits.

ORGU 405 Policy Formulation and Implementation in Organizations
An introduction to policy and strategy development in both public and private organizations. Students deal with strategic problem solving and decision making at all levels of an organization. Emphasis is upon the analysis of choices, roles, and moral dimensions involved in the cycle of policy, and strategy. Case method approach. This course may also be offered online. 3 credits.

ORGANIZATIONAL LEADERSHIP

OLCU 150 Introduction to Organizational Communication
A thorough and practical introduction to the skills of effective communication in organizational and professional settings. Based on current theory and research, the course emphasizes acquiring skills and applying theory to organizational communication challenges. 3 credits.
OLCU 200 Methods of Critical Inquiry  
(Acceptable equivalent: SOCU 201, PSYU 201.) Students examine knowledge and research as they pertain to leadership and organizational studies. Analysis of empirical/scientific method, logic and interpretation and their influence on the study and practice of leadership. Development of research, writing, and presentation skills. 3 credits.

OLCU 201 Supervision and Leadership  
(Formerly OL 201, Effective Supervision.) An overview of basic supervisory skills required for front-line administrators, covering principles, techniques, and steps in the administrative process. Topics may include delegating, planning, hiring, staffing, running meetings, conducting reviews, coaching, negotiating, monitoring, and motivating. This course may also be offered online. 3 credits.

OLCU 300 Organizational Behavior  
(Formerly OL 300, Introduction to Organizational Behavior.) Deepens understanding of human behavior in organizations, and how structural conditions shape and constrain individual choices. Topics may include bureaucracy power and politics, culture, ethics, motivation, diversity, leadership. Course may use Space Shuttle Challenger as case study. 3 credits.

OLCU 305 Survey of Leadership  
An overview of essential leadership principles and practices through classical readings drawn from the humanities and supplemented by contemporary case studies, film, discussion, self-assessments, and exercises. Modeled after Phi Theta Kappa’s comprehensive Leadership Development Program, topics include: philosophy of leadership, vision, goal-setting, decision-making, team-building, ethics, empowerment, change, conflict, and servant-leadership. 3 credits.

OLCU 312 Economics of Social Issues  
(Same as SOCU 312.) An introduction to the basic tools and logic of economics are applied to social issues. A study of how people as individuals or in groups make decisions and choices, the impact of opportunity cost and constrained maximization on those choices and decisions, and how we as a society and an economy respond to the perpetual condition of scarcity. 3 credits.

OLCU 315 Organizational Information Systems  
Students explore the role of information systems in the operation of an organization. Course introduces the use of information technologies for the access and retrieval of information from internal information systems and from systems on the Information Superhighway. This course may also be offered online. 3 credits.

OLCU 320 Selected Topics in Organizational Leadership  
(Formerly OL 420.) Covers special topics related to leadership and/or organization studies. Experimental courses are developed subject to emerging student and/or employer demands. Topics vary. Courses that examine different topics may be repeated for up to nine credits. This course may also be offered online. 1-3 credits.
OLCU 325 Leadership Skills Development Lab
Through experiential activities, self-assessments, and learner-directed sessions (student co-facilitations). This course aims to broaden understanding about leadership, preparation for leadership, and the ability to develop leadership in others. Specific topics may include management versus leadership; innovation and risk; collaboration; communication; followership; team dynamics; dealing with conflict; and images of leadership in culture (e.g., in film, music, or literature). 3 credits.

OLCU 350 Leadership and Professional Ethics
(Acceptable equivalent: PHLU 316.) Examines frameworks for ethical judgment as well as contemporary dilemmas and moral issues in organizations, with a special focus on the role of professional ethics and the responsibilities inherent in the commitment to serve others. Topics include servant leadership, responsibilities of professionals, the obligations of corporations concerning the environment product safety, the rights of employees, honesty in advertising. 3 credits.

OLCU 355 Servant Leadership
In all types of organizations (profit, non-profit, private and public), a significant shift in the way in which we approach work and the philosophy with which we lead is underway. These organizations and the people in them are experiencing a paradigm shift which embraces the understanding that the organization’s work must be integrated with the personal and spiritual growth of all of the organization’s members. The new paradigm recognizes that effective leadership begins with service to others. The great leader is seen as a servant first and true leadership is bestowed on those who are by nature a servant. OLCU 355 is a course in the study, application, and practice of Servant Leadership. 3 credits.

OLCU 400 Theory and Practice of Leadership
Prerequisite: OLCU 300. Examines leadership from theoretical and practical perspectives. Explores strategies and skills which contribute to creating organizations, systems and structures in which people can develop and apply their full potential as leaders. Students examine their current skills and leadership style through a variety of self-assessment activities. 3 credits.

OLCU 414 Team Building
Team-based organizations have been created to supplement the traditional, often rigid hierarchical structure within organizations to enhance leader effectiveness. Teams offer a more cooperative, collective philosophy. They outperform individuals; create more diverse, stimulating challenges; boost morale; and yield new skills for employees. This class will help students learn how to develop and participate in teams. Topics may include team development, conflict resolution, communication, decision-making, and reward systems. The course may include an adventure-based retreat activity (lab fee). 3 credits.

OLCU 425 Leadership in Diverse and Multicultural Organizations
(Acceptable equivalent: COMU 211.) Understanding and valuing cultural differences assumes greater significance as our world becomes increasingly interdependent. This course explores multicultural issues in organizations highlighting how misunderstandings arise and how they can be rectified or
COURSE DESCRIPTIONS

prevented. It focuses on diversity issues (gender, race, and class) in domestic and international contexts, particularly as they apply to leadership, communication, teamwork, decision-making, and problem-solving. Reading, writing, research, and discussion are supplemented with experiential exercises, role-plays and simulations. 3 credits.

**OLCU 450 Organization Structure and Design**
Reviews classical and contemporary organizational theories and explores concepts of organizational structure/design, life cycle of organizations, systems approach to organizations, organizational culture and ethical aspects of organizational theory. Examines how various approaches to organizational theory improve our ultimate understanding of organizations and their effectiveness and they can become effective tools for analysis and action in different organizational situations. *This course may also be offered online.* 3 credits.

**OLCU 490 Leadership Internship**
*Prerequisite: junior or senior standing. Required of organizational leadership majors lacking full-time employment or leadership experience. Should be taken prior to or concurrent with OLCU 497/OLCU 498* Supervised experience in an approved organizational setting where student assesses a range of leadership constructs (e.g., vision, communication, motivation, empowerment.) Students develop an independent learning contract in conjunction with an on-site supervisor and a Chapman University College organizational leadership faculty advisor. Each unit of credit equals 40 hours of total effort (including work, preparation, study, meetings, journals, and papers.) May be repeated if different internship opportunity. Graded on a Pass/No Pass basis. 1-3 credits.

**OLCU 494 Action Research Project**
(Formerly OL 498. For students in 2001 and prior catalogs only.) Should be completed toward the end of the student’s program, or at earliest within 9 credits of completion of major requirements. Open to organizational leadership majors or minors only. Students conduct research on a particular leadership or organizational problem, culminating in a senior integrative paper; including literature review, history/impact, data collection, analysis, action alternatives, and recommendations. 3 credits.

**OLCU 497 Senior Research Project I**
*Should be completed toward the end of student’s program, or at earliest within 12 credits of completion of major requirements.* The first semester of the senior project. This course is open to organizational leadership majors only. An introduction to the principles and procedures involved in conducting organizational research. Student selects a research topic (approved by instructor), conducts a thorough review of the literature, and develops research questions and procedures for primary data gathering. 3 credits.

**OLCU 498 Senior Research Project II**
*Prerequisite: OLCU 497. This course is the second semester of the senior project.* Student conducts primary research on topic selected in OLCU 497. Culminates in a written report that serves as the crowning achievement of the student’s education in organizational leadership. 3 credits.
OLCU 499 Independent Study in Organizational Leadership  
Prerequisites: junior or senior level, minimum 3.0 GPA, and approval of instructor and Program Chair. Supervised independent study or research on a special problem or topic related to leadership and organization studies resulting in a major paper. May be repeated for up to 6 credits. 1-3 credits.

OLCU 515 Technology and Leadership  
Provides experiential opportunities to develop an understanding of technology as it applies to leadership. Students will acquire knowledge in the following areas: history and future of information systems, database development and usage, technology transfer, technology innovations, and how information technologies are used for leadership decision-making. Students will develop competencies in the following areas: the Internet and World Wide Web, presentation software, e-mail, FTP, Groupware, and management software. 3 credits.

OLCU 520/620 Contemporary Issues in Organizational Leadership  
An examination of contemporary issues and recent theoretical and practical advances related to organizational leadership. Topics vary. Courses that examine different themes may be repeated for up to six credits. 1-3 credits.

OLCU 525/625 Developing Leadership Competencies  
This course provides “hands-on” opportunities to explore and develop competencies essential to effective organizational leadership. Topics vary. Courses that examine different competencies may be repeated for up to six credits. 1-3 credits.

OLCU 600 Foundations of Organizational Leadership  
Review of contemporary issues and perspectives on organizational leadership including multi-disciplinary perspectives and classic theory (trait, behavioral, and contingency models). Topics include servant leadership, ethics, diversity, followership, the distinction between leadership and management, vision, leadership practice and strategies. Emphasis on application of theoretical concepts to actual and diverse organizational situations, culminating in the articulation of a personal philosophy of leadership. 3 credits.

OLCU 601 Democracy, Ethics and Leadership  
Exploration of how democratic values shape the concept and practice of leadership and policy-making in organizations, including the role of values in ethical decision-making and determining the moral obligations of leaders and followers. Examines the concepts of power and influence, including their uses and abuses. Emphasis on critical analysis and application of ethical principles to contemporary leadership dilemmas in organizations. 3 credits.

OLCU 602 Self, Systems and Leadership  
Examines individuals and organizations as learning systems. Emphasizes structural influences on individual leadership and deep understanding of self as core resource for learning and leadership development. Focuses on role of systems thinking, mental models, shared vision, team learning, and personal mastery, stressing awareness of social and political tensions as a catalyst for individual and organizational learning and change. 3 credits.
OLCU 603 Servant-Leadership: Theory and Practice
This course will provide students with a thorough exploration of the principles of Servant-Leadership as a leadership philosophy way of being as a leader. It will allow students to become familiar with the writings of Robert Greenleaf, as well as those who have been influenced by Greenleaf, many of whom are leading thinkers in the field of organizational leadership. Particular attention is paid to application within a variety of organizational settings. May include attendance at a retreat and participation in community service. 3 credits.

OLCU 613 Seminar in Organizational Behavior
(Same as HAUU/HRCU 613) Students use theories of individual, group and organizational behavior to solve organizational problems. Students are taught the diagnostic method of problem-solving and gain experience applying these theories to organizational situations. 3 credits.

OLCU 614 Leadership and Team Development
Reviews theoretical and applied aspects of teamwork and shared leadership practices. Focus is on development of teams which share leadership responsibility in an interdependent effort to achieve a mutually defined goal. Self-assessment and group skill-building are emphasized. Where available and as able, students will participate in an experiential activity (e.g., Adventure-based Leadership, Project Adventure, Outward Bound, etc.). Lab fee. 3 credits.

OLCU 615 Organization Development
(Same as HAUU 615/HRCU 615) Prerequisite OLCU 613. This course examines the history and overview of the field of organization development. It examines change as a focused activity to bring about specific conditions, to re-direct action, or to implement a particular process, product, or system. Students examine the human side of change, including “resistance” to change. Introduces basic organization development concepts, principles, values, theories, and models. There is particular emphasis on application of theoretical concepts to actual organizational situations. 3 credits.

OLCU 617 The Practice of Organization Development
Prerequisite: OLCU 615, 620. This course provides an overview of key consulting models emerging best practices in consulting. It focuses on the fundamental steps in the consulting process, including client and consultant roles and responsibilities. Students examine how consulting models can be applied to achieve high impact outcomes. Differences between internal and external consulting roles and analysis of the role of ethics and professionalism are included. A project proposal is created in preparations for the practicum (OLCU 688). 3 credits.

OLCU 620 Contemporary Issues in Organizational Leadership
An examination of contemporary issues and recent theoretical and practical advances related to organizational leadership. Topics vary. Courses that examine different themes may be repeated for up to six credits 1-3 credits.

OLCU 621 Frontiers of Public and Nonprofit Leadership
This course provides exposure to contemporary issues and dilemmas in leadership as applied to nonprofit, voluntary, and non-governmental organizations
(NGOs). Topics include civil society and professional ethics, collaboration, entrepreneurship, philanthropy, and technology and information. 3 credits.

**OLCU 625 Developing Leadership Competencies**
This course provides “hands-on” opportunities to explore and develop competencies essential to effective organizational leadership. Topics vary. Courses that examine different competencies may be repeated for up to six credits. 1-3 credits.

**OLCU 626 Dynamics of Public and Nonprofit Leadership**
*Prerequisite: OLCU 621.* This course exposes students to the fundamentals of leadership necessary for exceptional performance in nonprofit, voluntary, and non-governmental organizations (NGOs). Communications skills are developed in assessing constituency needs, interfacing with governmental and private organizations and other nonprofits, and negotiating the varying aims of stakeholders. Principled strategies for mobilizing volunteers are addressed. 3 credits.

**OLCU 680 Organizational Research**
This course provides students with an understanding of the critical role of research, systematic assessment, and evaluation to identify and solve management problems and to improve organization performance. The course examines the fundamental theoretical concepts; scientific research methods; the strengths and weaknesses of pre-experimental, quasi-experimental and experimental research designs; threats to internal and external validity; techniques for data collection and analysis; measurement issues, and professional report preparation and presentation. The primary focus is on the practical application of research methods to improving organizational programs, policies, and performance. 3 credits.

**OLCU 681 Leadership Capstone Seminar**
*Prerequisite: completion of all core courses, OLCU 600, 601, 602, 613, 614, 615, 680.* This course provides the student with an opportunity to apply and integrate previous learning by the completion and presentation of a major, integrative paper, which will reflect an assessment of student’s learning as well as their ability to integrate and apply leadership concepts and theories learned in the MAOL program. Graded on a Pass/No Pass basis. 3 credits.

**OLCU 688 Practicum in Organization Development**
*Prerequisites: completion of OLCU 602, 613, 615, and 617.* Students carry out a supervised organization development project. The seminar-style course provides classroom analysis of the fieldwork practicum focusing on reflective, double-loop learning. This course serves as the capstone experience for students completing the Graduate Certificate in Organization Development. Graded on a Pass/No Pass basis. 3 credits.

**OLCU 690 Leadership Internship Program**
*Prerequisites: one of the following courses: OLCU 600, 601, 602; and one of the following courses: OLCU 613, 614, 615, and compliance with university internship procedures.* Provides students with an opportunity to apply the skills and concepts they have learned during their course of study to existing issues
within organizations. A written contract is developed by the students, approved by the client organization, and supervised by a faculty member before work on the internship begins. Students may not receive credit for working at their current jobs. Each unit of credit equals 40 hours of total effort (including work, preparation, study, meetings, journals, and papers.) Graded on a Pass/No Pass basis. 1-3 credits.

OLCU 699 Independent Research in Organizational Leadership
Prerequisite: approval of instructor and Division Chair. Supervised independent study or research on a special topic related to organizational leadership. May be repeated for a maximum of 6 credits. 1-3 credits.

PHILOSOPHY

PHLU 104 Introduction to Ethics
Students examine some of the most urgent contemporary moral problems based on the insights of major thinkers in the history of philosophical thinking about morality. Practical topics may include abortion, the death penalty, world hunger, and the environment. 3 credits.

PHLU 120 Global Ethics and Religion
(Same as RELU 120) An introduction to ethical issues from the perspective of world religions: What is the relationship between religion and ethics? Why do people suffer? How do the religions differ on ethics? Are there universal religious ethical values? 3 credits.

PHLU 125 Philosophy of Religion
(Same as RELU 125) An introduction to philosophical issues in the world religions. Comparisons and contrasts between Western and Asian philosophy of religion are emphasized: What is the meaning of life? How do resurrection and reincarnation differ? Does God exist? How could a good God allow evil? Could only one religion be right? 3 credits.

PHLU 203 Logic
An introduction which teaches the skills necessary for distinguishing between correct and incorrect reasoning. Methods will be taught which can help one to reason more persuasively and to write more clearly. A focus on interpreting arguments in everyday English plus a study of conclusive methods for testing the correctness of reasoning. 3 credits.

PHLU 301 History of Political Philosophy I
(Same as POSU 301) An introduction to the early political thoughts that shaped and dominated Western European development. This course traces the concepts of power, social order and proper governance from Plato to the Enlightenment. It places special emphasis on examining and understanding the growing debate of separation of church and state and the rising voice of individual, social and civil liberties through this period. 3 credits.

PHLU 302 History of Political Philosophy II
(Same as POSU 302) An introduction to the later political thoughts that shaped and dominated Western European development. This course traces the concepts of power, social order and proper governance from the Enlightenment until today.
This course places special emphasis on examining and understanding Fascism, Communism, Democracy, Anarchism and the rising voices of previously under-represented populations. 3 credits.

**PHLU 304 Multicultural Ethics**
An inquiry into the promises and perils of a multicultural society. Main topics include ethical theory from international perspectives, the nature of prejudice, and the culture wars. 3 credits.

**PHLU 308 God, the Good Life, and Sex**
(Same as RELU 308) An interdisciplinary course focusing on the relation between Ultimate Reality and the Good. Questions in cross-cultural metaphysics, aesthetics, and ethics (especially sexual ethics) are addressed. 3 credits.

**PHLU 310 From Socrates to Aquinas**
(Same as RELU 310) An interdisciplinary study of philosophical and religious thinkers from the earliest Greek philosophers through the Middle Ages. The ideas of Socrates, Plato, Aristotle, Augustine, and Aquinas are examined to see how they change over time, and how they are relevant to our contemporary search for moral and religious values. 3 credits.

**PHLU 311 Descartes to Kierkegaard**
(Same as RELU 311) An interdisciplinary study of the great philosophical and religious thinkers from the Reformation to the 20th century whose ideas form the basis for modern thought. Prominent works of Martin Luther, John Calvin, René Descartes, David Hume, Immanuel Kant, Friedrich Schleiermacher, and Søren Kierkegaard are critically examined. 3 credits.

**PHLU 314 Medical Ethics**
A systematic examination of ethical principles as applied to moral dilemmas in health care. Topics include euthanasia, abortion, truth-telling, informed consent, the professional/patient relationship, experimentation on human and animal subjects, allocating scarce medical resources. Of special interest to those seeking careers in medicine, nursing, physical therapy, social work, and related fields. 3 credits.

**PHLU 315 Voluntary Service**
An exploration of volunteering and philanthropy (voluntary giving for public purposes). This interdisciplinary course serves as an introduction to ethics at the upper-division level. Topics include the moral aspects of caring and helping, and of responsibilities concerning world hunger, and case studies of people like Albert Schweitzer. 3 credits.

**PHLU 316 Business and Professional Ethics**
A study of the pressing moral problems generated today in business and all professions. Topics include the special responsibilities of professionals, the obligations of corporations concerning the environment and product safety, the rights of employees, honesty in advertising, Open to and relevant to all students with career interests. Also see OLCU 350. 3 credits.

**PHLU 319 Philosophy of Women/Women of Color**
A study of philosophical issues concerning sex roles and gender, focusing on
women of color – especially on African American, Mexican American, and Asian American women. Topics may include stereotypes; beauty; women as ‘Other’; the colonized self; affirmative action; and moral values such as autonomy, empowerment, equality, and justice. 3 credits.

PHLU 320 Belief, Truth, and Knowledge
An examination of fundamental issues about the origin, nature, and validity of knowledge. Topics include the nature of truth, the problems which arise concerning the reliability and objects of perception, how our beliefs can be justified, whether skepticism can be avoided, and whether there can be certain knowledge. 3 credits.

PHLU 323 Philosophy in Literature
A study of intriguing philosophical ideas and themes as dealt with by novelists, poets, and dramatists. The unifying theme of the course varies. The most recent ones were love, self-deception and achieving an authentic self, individual freedom and the authority of the state, and the concept of the self. 3 credits.

PHLU 329 Experimental Topics in Philosophy
An examination of selected topics in philosophy relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

PHLU 499 Independent Study
Prerequisites: Instructor’s approval and approval of petition. Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.

POLITICAL SCIENCE

POSU 110 Introduction to American Politics
Students master the basic concepts and analytical methods used by political scientists in their attempts to address these questions: What are the fundamental components of the national government of the United States? How do they transform citizen opinion, interest group pressures, and economic imperatives into social policy? This course satisfies the State of California Credential requirement in American History and Government. This course may also be offered online. 3 credits.

POSU 120 Introduction to International Relations
Students explore major global issues such as conflict, development ideologies, technological growth, current events, ecosystem balance, war and violence, and the distribution of power and resources. 3 credits.

POSU 240 Introduction to Law
Law is a force for maintaining social order. This course critically examines various aspects of law and the legal system, seeking an understanding of its strengths and weaknesses, its promise and its peril. 3 credits.

POSU 300 American Political Thought
The modern United States is shaped by contending ideas regarding democracy,
capitalism, social welfare, elite rule, theocracy, and liberty. Students will explore how these issues have evolved over the history of our nation. 3 credits.

**POSU 301 History of Political Philosophy I**
(Same as PHLU 301) An introduction to the early political thoughts that shaped and dominated Western European development. This course traces the concepts of power, social order and proper governance from Plato to the Enlightenment. It places special emphasis on examining and understanding the growing debate of separation of church and state and the rising voice of individual, social and civil liberties through this period. 3 credits.

**POSU 302 History of Political Philosophy II**
(Same as PHLU 302) An introduction to the later political thoughts that shaped and dominated Western European development. This course traces the concepts of power, social order and proper governance from the Enlightenment until today. This course places special emphasis on examining and understanding Fascism, Communism, Democracy, Anarchism and the rising voices of previously under-represented populations. 3 credits.

**POSU 305 Democratic Theory**
Students examine different models and kinds of democracy, analyze ways that the United States achieves democratic ideals and the ways it falls short, explore tensions between democracy and competing economic systems, and seek ways to deepen or extend democratic ideals. 3 credits.

**POSU 310 The United States Presidency**
In this course, students address the following issues: What is the “state” of the presidency today? What responsibilities come with the office? Does it make a difference who the president is? What are the weaknesses of the presidency as an institution, and what reforms might improve it? 3 credits.

**POSU 311 Legislative Process**
The United States has one of the few non-parliamentary systems in the world. How does its legislative process differ from the processes found in parliamentary systems? This course will examine the legislative process with an emphasis on institutional differences between parliamentary and non-parliamentary systems such as the United States. A special focus on interest groups and political parties will highlight the importance of institutional factors on the efficacy of legislative actors in the policymaking process. 3 credits.

**POSU 312 The Road to the White House**
Does the road that we travel to the White House every four years produce the best presidents? Are modern campaigns so long, expensive, and punishing that many of the “best” people choose not to run? Students examine the effectiveness of the way in which we recruit and select presidents. 3 credits.

**POSU 314 Governing the Golden State**
California, with a population and economy greater than many countries, confronts social and political problems national in scope and complexity. How does the state government reconcile the conflicting needs of its diverse citizenry, its industries, and natural resources? Students will learn how Sacramento shapes our lives. 3 credits.
POSU 317 The Politics of the 1960s
Few periods hold the political significance of the 1960s. Human dignity, the role of tradition, America's role in the world, and domestic problems all were examined and refashioned. Three decades later, that redefinition maintains great authority in American society. 3 credits.

POSU 320 International Law, International Organization, and World Order
An introduction to changing perceptions of international law and its applications to human rights, environmental, and other issues. Philosophical and political approaches to international law are distinguished and analyzed. 3 credits.

POSU 321 American Diplomatic History and Foreign Policy
( Same as HISU 340) Students focus on the origin and development of United States foreign policy. Important areas of study include the role of ideology in foreign policy, economics and foreign affairs, isolationism, American dominance of the Western hemisphere, and the consequences of increasing international interdependence. Also considered are the influences of public opinion, the media, corporations, the Congress, the bureaucracy, and the presidency in shaping American policy. This course may also be offered online. 3 credits.

POSU 323 Russia and the Commonwealth of Independent States
( Same as HISU 311) Students learn the history of Russia and the Soviet Union from the fall of the Romanov dynasty through the demise of the Soviet government and the creation of the Commonwealth of Independent States. Ideas and ideologies, politics, economics, foreign affairs and the Cold War, and cultural and intellectual developments are emphasized. 3 credits.

POSU 325 Latin American Politics
Much of Latin America is emerging from years of authoritarian rule and the abuse of human rights; yet the new democracies remain threatened by highly politicized military establishments and unstable economies. As these governments pursue economic development and democratic reform they are also influenced by the foreign policies of the United States. 3 credits.

POSU 329 Experimental Topics in Political Science
An examination of selected topics in Political Science relevant to evolving areas in the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided that the course content is different each time. 3 credits.

POSU 330 Contemporary Issues in Public Policy
Students analyze current issues in public policy, using contemporary methods of public policy analysis. Issues addressed may include health care policy, environmental policy, foreign policy, energy policy, policy on crime, and others. 3 credits.

POSU 333 Citizenship in Theory and Practice
Citizenship is the political answer to the question of who is in, who is out? This course approaches citizenship from three angles: a historical survey of the theory and practice of citizenship; citizenship in the American experience; and contemporary citizenship issues such as global citizenship, the status of the
environment, and the inclusion or exclusion of a variety of cultural, economic, and social differences from the political community. 3 credits.

**POSU 340 The Legal Process**
The third branch of government, the judiciary, is certainly the least understood branch. In this course, students will develop political literacy about the principles and practices of law and the judiciary. 3 credits.

**POSU 342 The Western Legal Tradition**
(Same as HISU 323) Law is a product of history, and an understanding of the law cannot be complete without an examination of its historical roots. This course surveys the history of Western law and legal institutions from the Code of Hammurabi to the American Revolution. Special attention will be focused on the rise and evolution of English common law. 3 credits.

**POSU 343 Constitutional Government**
(Same as HISU 303) By examining the Federalist Papers, the Constitution, and case law this course examines the growth of the national government, the changing nature of federalism, and other themes: What does the Constitution say about the separation of powers? Does it provide for three coequal branches of government? 3 credits.

**POSU 344 Constitutional Rights**
(Same as HISU 324) Students analyze the following questions and examine competing theories of civil rights and civil liberties. Did the founders really believe that the United States Congress should make no law abridging freedom of speech or of the press? What does the Constitution say about the rights of the criminal, and what does this mean for “victims’ rights” movements? What is the constitutional right to abortion? 3 credits.

**POSU 346 Environmental Law**
This course provides students with an overview of environmental law. It emphasizes state and federal statutory and case law dealing with air pollution, water pollution, noise pollution, solid waste/resource recovery, pesticides and toxic substances. Additionally, the course explores the impact of various governmental policies upon industry, business, and real estate development. 3 credits.

**POSU 347 Gender and the Law**
Why have governments and societies felt the need for gender-specific determinations of rights and responsibilities? Students look at the determinations that have been made and consider their present effect. We will examine the trends in United States politics and law, the impact of law and policies on women and society, and the response of women to such treatment. 3 credits

**POSU 349 Native American Law**
Students examine the historical background and contemporary nature of the legal and political relationship between the United States government and Native American tribes. Through an examination of legislation, court cases, and the policies of federal, state and local governments, the social, political, economic and legal circumstances and prospects of Native Americans are considered. 3 credits.
POSU 350 Human Rights Law
This course introduces students to existing and developing international legal principles and procedures relating to the protection of human rights. It considers how and whether these principles serve to improve the lives of individuals throughout the world including the United States. 3 credits.

POSU 352 Race and Change in South Africa and the United States
Nelson Mandela is free and apartheid has ended in South Africa, yet ethnic violence and economic challenges cloud the future of South Africa. Despite the civil rights movement, racial injustice persists in America, often exploding in urban violence. How might an understanding of the struggle against white supremacy in South Africa help us to solve injustice in the United States? 3 credits.

POSU 353 Peace and Conflict in the Middle East
(Same as CJCU 353) Beginning with a historical examination of the region focusing on the key social forces and the sources of conflict, students explore the Israeli-Palestinian conflict in depth and conduct a peace conference in an attempt to develop a plausible resolution. 3 credits.

POSU 355 Politics of Genocide
Students examine cases of genocide in an effort to determine its political and social causes. They will explore how international law, public tribunals and campaigns of citizen groups may be utilized to prevent future atrocities and seek justice for the victims of genocide. 3 credits.

POSU 367 Public Interest Research
(Same as SOCU 367) Students in this class learn quantitative and qualitative research methods by applying them in contemporary practical and academic research projects. Students conduct research that will help policy-makers, community activist, leaders, and citizens find solutions to current social and political problems and improve the lives of area residents. The course is designed to increase students’ practical skills in areas like survey research and the use of computers in social, political, and historical analysis, making them more attractive as job applicants. The course is appropriate for students interested in careers in community-based, public, nonprofit, business and educational organizations. 3 credits.

POSU 370 Media and Politics
This course investigates the impact the modern media has on American politics. Does the media help or hurt democracy? 3 credits.

POSU 445 Moot Court
(Same as CJCU 445) Students get hands-on experience in the practice of law through a simulation of appellate advocacy. 3 credits.

POSU 499 Independent Study
Prerequisites: Instructor’s approval and approval of petition. Directed reading and/or research designed to meet specific needs of superior upper-division students. 1-3 credits.
PSYCHOLOGY

PSYU 101 Introduction to Psychology
Introduction to the processes, principles, and problems and applications of psychology. Topics include the brain and nervous system, sensation and perception, consciousness, learning and memory, personality, social psychology and psychopathology. This course may also be offered online. 3 credits.

PSYU 201 Critical Thinking in Psychology
Study methods of empirical and theoretical evaluation of psychological facts, assertions, research studies and theories. Development of a discrimination model setting the appropriate standards to be applied to differing forms of psychological assertions. Study of common fallacies misleading students of psychological processes and development of a critical thinking paradigm reducing the probability of common errors in thinking. This course may also be offered online. 3 credits.

PSYU 202 History and Systems of Psychology
Discussion and evaluation of psychology’s historical roots and the influences and the people that have contributed to its present form. 3 credits.

PSYU 203 Statistics for the Behavioral Sciences
(MATU 203 meets this requirement). An introduction to statistics for the behavioral, social and health sciences. Both the calculation and interpretation of statistical indices and the application of these measures are emphasized. Course includes an introduction to descriptive and inferential statistics, the rationale of hypothesis testing and a survey of the common parametric and nonparametric statistical tests. 3 credits.

PSYU 302 General Psychology Seminar
An initial seminar course providing in-depth immersion into the discipline of psychology. A comprehensive survey of the field of psychology, covering major topics in psychological theory and its application in the fields of mental health, education, and related disciplines. This course may also be offered online. 3 credits.

PSYU 304 Research Methods for the Behavioral Sciences
Prerequisites: PSYU 101, PSYU 203. May be taken concurrently with PSYU 203. An introduction to the principles and procedures involved in behavioral sciences research. The scientific method and its application to psychological inquiry are emphasized. A student successfully completing this course will possess: (1) a broad understanding of the process and outcomes of psychology; (2) an appreciation of the strengths and limitations of psychological science; (3) an understanding of the ethical considerations inherent in psychological science; and (4) the ability to consume and communicate the process and outcomes of psychological science using the publication format of the American Psychological Association. 3 credits.

PSYU 305 Research Methods Laboratory
Prerequisites: PSYU 101, PSYU 203. Students will participate in classroom research exercises. Through use of existing data bases, students will formulate a research question, conduct a statistical analysis, and determine results.
Students will use a statistical package (SPSS) to analyze data. 1 credit.

**PSYU 310 Psychology of Learning**
An examination of the theoretical and methodological foundations of human learning. Particular emphasis is placed on an evaluation of the major paradigms involved in contemporary concepts of the learning process. Some emphasis is given to the application of behavioral principles to daily life. 3 credits.

**PSYU 315 Sensation and Perception**
An introduction to the sensory system and the perceptual basis of our experience. General topics include psychophysics, the visual system and the nonvisual sensory systems. Emphasis will be placed on understanding the interaction between the anatomy of the sensory system and the transduction of sensory stimuli into meaningful perceptual experiences. 3 credits.

**PSYU 317 Cognitive Psychology**
A survey of the discipline of cognitive psychology, the study of mental processes and their underlying biology. Students examine attentional processing, encoding, memory, mental imagery and decision-making processes. Other topics addressed include consciousness, creativity, and methods for measuring information processing. 3 credits.

**PSYU 319 Motivation and Emotion**
This survey course in human motivation covers the biological sources of motivation and emotion as well as the learned components of our behaviors. This wide ranging subject comprises a wealth of scientific information explaining the "why" of human behavior. Topics covered include physiological and cognitive foundations of eating, sleep, sex, achievement, affiliation, drug use, stress, aggression, love, emotional expression and emotion management. Study of the theoretical, physiological, and behavioral constructs underlying the processes of motivation and emotion. Particular emphasis is placed on methods for studying emotion and application of the principles of motivation and emotion. 3 credits.

**PSYU 322 Theories of Personality**
This course provides an evaluative review of the major theories of personality, emphasizing the structure, dynamics, behavior and development of the normal and abnormal personality. Theories include Freudian, neo-Freudian, cognitive, somatic, social learning, and humanistic explanations for individual differences. 3 credits.

**PSYU 323 Child Development**
This course covers physical, cognitive and psychosocial development from conception to adolescence. Both theoretical and applied aspects of development, parenting and teaching children are emphasized. 3 credits.

**PSYU 324 Adolescence**
This course presents the major theoretical models of adolescent development and biological maturation, while addressing the issues of identity, peers, family, school, sexuality, morality, substance abuse and psychological problems. The historical nature of adolescent experience is contrasted with the experience of today’s teenager. 3 credits.
PSYU 328 Abnormal Psychology
A systematic study of emotional disturbance and the major classifications of mental illness from the perspective of symptoms/behaviors, etiology, diagnosis and treatment. This course may also be offered online. 3 credits.

PSYU 333 Physiological Psychology
Prerequisite: PSYU 101. An investigation of the relationship between brain and behavior. Students will study the structure and function of the nervous system, including the biological bases of psychopathology and normal function. This course may also be offered online. 3 credits.

PSYU 336 Social Psychology
(Same as SOCU 345). Discussion and analysis of the relationship between culture, grouplife, social structure, and human behavior; emphasis upon the dialogue between the individual and the social collective. Topics include group behavior, attitudes, stereotypes, nonverbal communication, health psychology, aggression, social perceptions, relationships and helping behavior. This course may also be offered online. 3 credits.

PSYU 348 Psychological Approaches to Literature
A study of psychological theories of the 20th century and their influences on the criticism of literature and/or film. Psychologists such as Freud, Jung, and Lacan will be studied in connection with their approaches to textual analysis. The course may also focus on such psychological movements as Gestalt, Behaviorism, and archetypal analysis as they have affected understanding of literature and/or film. 3 credits.

PSYU 391 Youth At-Risk
(Same as SOCU 391 and CJCU 391) This course will introduce students to various models, theories, and intervention of children and adolescents considered "at-risk". Topics covered include, but may not be limited to the following: a) sociocultural factors in defining and influencing behavior; b) psychological models both biological and ecological that interact to shape behavior; c) types of at-risk categories including school dropouts, substance use and addiction, teenage pregnancy, antisocial behavior, delinquency, gangs, school shooters, and youth suicide; and d) specific types of clinical abnormal behavior including anxiety, mood, and impulse control disorders; e) theoretical and practical considerations related to community and school interventions.

PSYU 395 Topic Courses in Psychological Process
An examination of selected topics in the area of psychological processes and the foundations of psychological understandings of human behavior. Syllabi for additional topic areas must be approved by Department Chair and Curriculum & Academic Committee. Course may be repeated for credit. 3 credits.

Interpersonal Attraction and Romantic Love
A descriptive and empirical approach to understanding interpersonal attraction and romantic love. Current theories and empirical research on the nature of love, love styles and partner selection, developmental perspectives on the nature of love relationships over time, as well as the etiology and treatment of relationship problems will be emphasized.
Psychology, Ethics and the Law
Issues in ethical clinical practice, resolving ethical dilemmas, protecting vulnerable parties and forensic evaluations will be considered. Research in eyewitness testimony and jury decisions will be evaluated.

Pediatric Neuropsychology
An introduction and overview of pediatric neuropsychology emphasizing brain-behavior relationships in children. Biological, environmental, psychological, and developmental variables that affect neurobehavioral outcomes will be addressed. The following childhood disorders will be covered: Hydrocephalus, epilepsy, Tourette’s syndrome, brain tumors, closed-head injury, meningitis, diabetes, leukemia, sickle cell disease, autism, and human immunodeficiency.

PSYU 402 Quantitative Data Analysis
This class is about doing social and psychological research. Each student will experience an in-depth introduction to the actual practice of behavioral sciences research. Students will build their own databases and acquire skills using the most common software available to analyze data. Students analyze data from a national survey of Americans and make original discoveries about the nature of social life. In addition to acquiring the skills with software and conceptual tools to analyze real data, students will be guided in the proper formats for a written quantitative research report. 3 credits.

PSYU 415 Sports Psychology
An examination of the principles of psychology as they apply to an understanding of sports-related issues. Topics of interest to the sports world will be discussed according to theoretical constructs of psychology. The class is not designed to include any physical activity. It is designed for students interested in coaching at any level, athletes, and those interested in a more comprehensive analysis of issues underlying sports. 3 credits.

PSYU 416 Human Communications Workshop
A workshop course designed to assist the group members to identify and understand those factors in addition to “the facts” which influence the perceptions on which communication/interaction is based. The workshop will address issues related to interpersonal awareness, group interaction, the conceptualization of interpersonal relationships, and communication skills. 3 credits.

PSYU 418 Community Mental Health
A survey of major problems of mental health in the community, includes field trips to selected facilities where individuals and families may go for help. 3 credits.

PSYU 421 Cross-Cultural Psychology
An introduction to major issues and terminology used in cross-cultural psychology, an interdisciplinary approach that uses models and research methods from psychology, anthropology, and sociology. The course emphasizes a comparative approach. 3 credits.
PSYU 428 Introduction to Clinical Psychology
Overview of the profession and practice of clinical psychology. The course will survey the field’s history, clinical training, assessment procedures, therapeutic interventions, research approaches, ethical and legal issues, areas of specialization (i.e. forensic, behavioral medicine and child), and current issues and trends. 3 credits.

PSYU 432 Introduction to Psychological Measurement
Prerequisites: PSYU 203. Concepts of test construction, standardization, validity, reliability as applied to a wide range of psychological instruments of intelligence, interests, values and personality. 3 credits.

PSYU 436 Health Psychology
An in-depth study of theories of health psychology, illness behavior, and behavioral medicine. The mind-body relationship and health treatment models (e.g., managed care) will be explored. 3 credits.

PSYU 440 Human Sexuality
A descriptive and empirical approach to understanding human sexuality. Physiological, psychological, and sociocultural factors influencing healthy human sexual expression will be emphasized. Gender identity, sex roles, variations in sexual behavior, love and attraction, and basic treatments for sexual dysfunction will be included. 3 credits.

PSYU 444 Psychology of the Lesbian and Gay Experience
A systematic study of the psychological issues affecting lesbians and gay men. The course integrates the most recent research-based information with life experiences of lesbian/gay people in such areas as development, psychosocial identity, relationships and clinical services. The course emphasizes an affirmative approach and is appropriate for gay, lesbian and heterosexual students. 3 credits.

PSYU 448 Psychology in Literature and Film
A study of the intriguing cross-influences between literature and psychological theory. Particular attention will be given to the works of literature and film that have provided basic materials for psychologists and to the reflective impact of psychological theory upon writers. Students will examine the use made by modern poetry, drama, fiction, and film of such psychological concepts as archetypes, unconscious processes, the Oedipal complex, role-playing, and symbol. 3 credits.

PSYU 450 Introduction to Counseling
An introduction and overview of professional counseling. Selected theories will be evaluated briefly and methods of their application to specialties such as group, family, marriage, child chemical dependence and crisis intervention will be emphasized. Attention will be given to specific communicative skills in counseling, to ethical and legal issues and to strategies for counselor self-care. 3 credits.

PSYU 455 Family Systems and Dynamics
An exploration of a variety of theoretical orientations in the study of family systems. The theoretical foundations of such approaches to family counseling as
structural, strategic, transgenerational, experiential and behavioral are studied. 3 credits.

**PSYU 478 Senior Project/Thesis I**
*Prerequisites: PSYU 101, PSYU 203, and PSYU 304. Senior standing in psychology major or approval of the instructor.* This course is the first semester of the senior project/thesis course. This course includes an in-depth didactic component together with extensive supervised experience in the development of a precise and complete research hypothesis and planning the proof of the hypothesis. Students will conduct a thorough review of the literature which leads to the hypothesis of the study or research question. At the course end, the student will have assembled a research proposal written in APA format including review of the literature, research hypothesis, and procedure section. This is the essential structure including references for her or his senior thesis/project. An Institutional Review Board (IRB) procedure must be followed and forms submitted to CUIRB for studies involving human/animal subjects. Approval of IRB must be obtained prior to research being conducted with humans/animals. 3 credits.

**PSYU 479 Senior Project/Thesis II**
*Prerequisites: PSYU 101, PSYU 478, and senior standing in psychology major.* The course content of Senior Project I is continued in this second semester of the senior project/thesis course. At the end of this semester, the student will demonstrate integration of what she or he has learned in psychology through the production of a seminal written product. Whether research manuscript or thesis, this product serves both as the crowning achievement of the student’s education and as an example of her or his capability for graduate studies or professional achievement. An Institutional Review Board (IRB) procedure must be followed and forms submitted to CUIRB for studies involving human/animal subjects. Approval of IRB must be obtained prior to research being conducted with humans/animals. 3 credits.

**PSYU 481 Organizational Psychology**
The application of psychological methods and techniques to understand, evaluate, and maximize human behavior in industrial and other organizations. 3 credits.

**PSYU 492 Intern Program: Fieldwork Practicum in Psychology**
*Prerequisites: Approval of academic advisor and internship supervisor.* Supervised experience in an approved setting where psychological services are provided. Additional meetings, assigned readings and written evaluations of related readings and the field experience are required. Approval of academic advisor and Program Chair required. Graded pass/no pass. A student may take a maximum of 6 credits. 1-3 credits.

**PSYU 495 Topic Courses in Psychological Application**
An examination of selected topics in the area of psychological application and the foundations of psychological understandings of human behavior. Syllabi for additional topic areas must be approved by Department Chair and Curriculum & Academic Committee. Course may be repeated for credit. 3 credits.
Spirituality and Mental Health
A systematic study of the participation of religion and spiritual practices in the cultural construction of mental health, illness, diagnosis, and treatment. The course will present various models of consciousness and examine the reductionist, humanistic, dualistic, and monistic paradigms for mental health. Psychosomatic effects of spiritual systems and practices such as Shignon, Buddhism, Taoism, Vedanta, Yoga, Zen etc., will be analyzed in the context of the emerging reform in counseling and community mental health.

Psychological Aspects of Terrorism: Perpetrators, Victims, and the Public
Psychological Aspects of Terrorism is an upper division undergraduate level one-semester course that introduces the student to the psychological complexities of terror, terrorists, and terrorism. Through didactic presentation and student research, the course will focus upon understanding terrorism, its motivations, and the psychodynamics of its social, political, and economic substrata. The course will also examine the “corporate structure” of terrorist groups, both foreign and domestic, as well as the various behavior and character structures associated with individual terrorists. Finally, considerable attention will be directed towards discussion of the effects of terrorist acts upon the mental health of direct and indirect victims in addition to primary, secondary, and tertiary prevention.

Behavior Modification
Examination of theories, principles, and techniques integral to applied behavior analysis and how it is used to help in a myriad of psychological problems. The course will examine how behavioral methods are utilized in psychology, humanities, and social science fields. There will also be an exploration of the effects of practical behavior management in everyday life.

PSYU 496 Survey of Forensic Psychology
(Same as CJCU 529) This course introduces the student to the complex field of forensic psychology. The course focuses upon how the law has affected the practice of psychology, psychological research on legal issues and processes, and the functioning of psychology in a legal environment. The student will learn fundamental distinctions between psychology and law in areas such as epistemology, behavioral causation, methodology, criteria, principles, and expert approach to data. Numerous landmark cases will be reviewed that demonstrate the psychologist’s role as expert witness, consultant, and amicus curiae. Special sections will focus upon the law in mental health practice as well as assessment of simulation and deception. 3 credits.

PSYU 499 Independent Study
Prerequisites: Approval of instructor, academic advisor, and Division Chair. Supervised independent study or research on a special problem or in a selected area of psychology. Open to junior and senior psychology majors who have a 3.0 GPA. A student may take a maximum of 6 credits. 1-3 credits.

PSYU 501 The Counseling Process
A professionally supervised experience in counseling and related activities. Experience also includes correlated reading, workshops, lecture, and group
activities. 3 credits.

**PSYU 508 Life Span Development/Aging and Long Term Care**
Theories related to the entire life span from conception through childhood, adolescence, young adulthood, middle age, and late adulthood are reviewed. Students focus on issues of healthy development at different ages in domains such as play, school, relationships, parenting, work and retirement. Students also focus on issues that are salient to the aging population, including long-term care. In depth interviewing of one developmental stage is required. Meets legal requirements for Aging and Long Term Care (10 hours). 3 credits.

**PSYU 511 Psychological Assessment**
A study of the theory and practice of psychological assessment procedures including the clinical interview, administration and interpretation of objective measures of intelligence and personality and the writing of clinical reports. Specific emphasis is on the administration, scoring and interpretation of the latest versions of the Wechsler Adult Intelligence Scale, the Wechsler Intelligence Scale for Children, the Minnesota Multiphasic Personality Inventory-2/A and the Taylor-Johnson Temperament Analysis. Fee: $25. 3 credits.

**PSYU 532 Research and Bibliographic Methods**
Students learn and practice the appropriate scientific methods of research leading to a bibliographic research in individual counseling and marriage and family therapy, culminating in a formal research proposal. 3 credits.

**PSYU 533 Psychopharmacology**
An in-depth examination of the behavioral and central nervous system effects of pharmacologic substance use and abuse and the application of such substances to the prevention and treatment of psychopharmacological and psychopathological dysfunction. 3 credits.

**PSYU 541 Clinical Theories and Techniques of Marriage and Family Therapy**
This graduate marriage and family therapy course is designed to study the major theoretical approaches to individual, marriage and family therapy. A major focus on family systems theory and therapy will be emphasized. In addition, students will study therapy from cognitive, behavioral and psychodynamic approaches, with a focus toward integration of these approaches in the conduct of therapy as a marriage and family therapist. 3 credits.

**PSYU 556 Family Systems and Studies**
This graduate marriage and family studies course provides fundamental introduction to the study of marriage and family systems theory. Theories and techniques of family therapy will be reviewed and practical application discussed. Major family therapy models will be studied in depth. Theoretical perspectives are presented through readings, lectures, videotapes, classroom presentations and student demonstrations. 3 credits.

**PSYU 561 Marital Systems and Studies and Domestic Violence**
This marital systems and studies course is designed to focus upon the systems approach to marriage therapy. Major marriage therapy theories will be studied and discussed. The structure of the marital therapy process, the role of the therapist, and techniques of marital therapy will be studied. The relation between
marital dysfunction and other forms of psychopathology will be studied with particular emphasis placed on the unique assessment strategies necessary for conjoint evaluation and treatment. Clinical strategies, assessment, and intervention techniques for working with domestic violence will be studied. Students will master systems theory, assessment and treatment of marital dysfunction, diagnostic and treatment planning techniques. Meets legal requirements for Domestic Violence Training (15 hours). 3 credits.

**PSYU 565 Child/Adolescent Psychopathology and Child Abuse Reporting**
An examination of psychopathology in childhood and adolescence, with consideration of the major types of disturbances, assessment techniques and treatment approaches with children and adolescents. Behavioral observations, clinical-development interviews, non-directive and cognitive therapies, and techniques for family systems therapy are reviewed for each major category of psychopathology. Meets legal requirements for Child Abuse Assessment and Reporting (7 hours). 3 credits.

**PSYU 570 Advanced Psychopathology and Diagnosis**
Students take an empirical approach to the etiology and diagnosis of psychopathological disorders. 3 credits.

**PSYU 575 Advanced Individual Counseling**
*Prerequisite: PSYU 570 or instructor’s approval.* A comprehensive overview of assessment strategies, counseling techniques, and behavioral strategies typically used in the individual counseling setting. Lecture topics include intake evaluations, treatment plan, proficient listening and counseling skills and effective behavioral and cognitive interventions. Video demonstrations will also be presented to enhance student understanding of applications and relevance to the counseling process. 3 credits.

**PSYU 578 Ethical and Professional Issues**
This course examines ethical, legal and professional issues relevant to the practice of marriage and family therapy. Ethical responsibilities, legal responsibilities and liabilities are discussed within the context of relevant state regulations, professional ethical codes and the importance of interdisciplinary cooperation. Ethical decision-making, commitment to the profession, and other socialization issues are emphasized. 3 credits.

**PSYU 581 Assessment and Treatment of Sexual Disorders**
Students examine normal sexual functioning and common types of sexual dysfunction and deviation which would be disclosed within a psychotherapy framework. Students learn counseling techniques effective in the development of satisfactory sexual functioning within a committed relationship. The criteria for appropriate choice of technique and appropriate professional consultations are particularly emphasized. 3 credits.

**PSYU 586 Assessment and Treatment of Substance Abuse**
An overview of current theoretical and clinical approaches to the etiology, diagnosis and treatment of alcoholism and other chemical dependencies. Students review current research and program design from a clinical perspective with the goal of increasing professional awareness and skills in treating the
chemically dependent individual and/or family. 3 credits.

**PSYU 606/EDUU 606 Discover Learning in the Mind, Brain and Body**
This course helps students to develop an understanding of how people process information and learn; study the history, content and application of learning theories, intelligence, thinking dispositions including the development of the mind, brain and its role in education. 3 credits.

**PSYU 613 Clinical Issues in Human Diversity**
An advanced study of multicultural counseling emphasizing understanding and respect for the diversity of human beings, particularly with regard to matters of race, ethnicity, gender, socioeconomic status, and sexual orientation. The course will analyze the cultural context of family, behavior, psychopathology, cultural strengths, assessment and psychotherapy. Utilization of mental health services by culture-specific groups will be addressed. Critical analysis will be given to ethnocentrism, racism, sexism, and heterosexism in society, psychology and traditional culture-bound assessment and psychotherapy approaches. The course features knowledge, skills and experiential components. 3 credits.

**PSYU 617 Transition to Work and Career**
This course focuses upon the process of career choice, mid-life career changes, employment projections and the problems unique to the underemployed. Links will be made to "marginalized workers" and employees with mental health problems. 3 credits.

**PSYU 652 Theory and Practice of Group Counseling**
Individually supervised master’s thesis research students study the theory and procedures used in group therapy. Several major contemporary models will be examined, and both heterogeneous and homogenous therapy groups will be addressed. Both experiential and didactic methods will be used as instructional procedures. 3 credits.

**PSYU 678/679 Master's Thesis Research I, II**
Students must have a cumulative GPA of 3.00 “B” to meet the minimum eligibility requirements to enroll in the thesis/project option. (See the Academic Policies and Procedures section for additional guidelines.) Individually supervised master’s thesis research. Master’s Thesis is not a substitution for comprehensive examinations. 3/3 credits.

**PSYU 688/689/690 Practicum I, II, III**
Prerequisites: Candidacy standing in the MFT or Counseling degree program and instructor’s approval. The clinical experience of the master’s degree candidate with an MFT or counseling emphasis. It is intended as the final preparation for entry into a career in the mental health field at the master’s level. A total of 80 supervised direct counseling hours are required for each practicum. Graded on a pass/no pass basis. 3/3/3 credits.

**PSYU 691 Practicum IV**
Prerequisite: Candidacy standing in the MFT or Counseling degree program and faculty or program manager Approval. The clinical experience of the master’s degree candidate with an MFT or counseling emphasis. It is intended as
the final preparation for entry into a career in the mental health field at the
master’s level. This course is utilized for elective units or continuation of hours in
the degree program. Graded on a pass/no pass basis. 1-3 credits.

PSYU 695 Advanced Topic Courses in Marriage and Family
Therapy/Counseling Emphasis
Prerequisite: Graduate standing and approval of faculty advisor and instructor.
Advanced supervised independent study on a special problem or in a selected
area of marriage and family therapy/counseling emphasis. Syllabi must be
submitted to Program Chair prior to enrollment in course. Chair will submit
syllabi to Curriculum and Academic Committee. 3 credits.

PSYU 699 Independent Study
Advanced supervised independent study or research on a special problem or in
a selected area. 1-3 credits.

REligious Studies
RELU 110 Religion and Values
A thematic study of religious values as they come to expression particularly
within the Judeo-Christian-Islamic heritage: basic beliefs and practices, and their
relevance to human problems today. 3 credits.

RELU 115 Living Religions of the World
A survey of religious traditions of the world including Hinduism, Buddhism,
Jainism, Sikhism, Confucianism, Taoism, Judaism, Christianity, and Islam: basic
beliefs and practices, and their relevance to problems today. 3 credits.

RELU 120 Global Ethics and Religion
(Same as PHLU 120) An introduction to ethical issues from the perspective of
world religions: What is the relationship between religion and ethics? Why do
people suffer? How do the religions differ on ethics? Are there universal religious
ethical values? 3 credits.

RELU 125 Philosophy of Religion
(Same as PHLU 125) An introduction to philosophical issues in the world
religions. Comparisons and contrasts between Western and Asian philosophy of
religion are emphasized: What is the meaning of life? How do resurrection and
reincarnation differ? Does God exist? How could a good God allow evil? Could
only one religion be right? 3 credits.

RELU 200 Introduction to the Hebrew Scriptures (Old Testament)
Tradition, history, and literature in Israel: the development of the Hebrew
scriptures in their various genres within the context of evolving ideas, values, and
social concerns from Hebrew beginnings through the prophets to post-exilic
times. 3 credits.

RELU 201 Introduction to the New Testament
Students examine the Jesus of the gospels, gospel tradition, rise of the Christian
community, life and letters of Paul, later books of the New Testament. 3 credits.

RELU 304 The Ancient World
(Same as HISU 304) Students survey the history of the ancient Mediterranean
world by examining the Egyptian, Greek, Roman, and Byzantine civilizations. The
historical and artistic accomplishments of these ancient peoples are highlighted, with particular attention given to the development of religious thought and philosophical inquiry, archeological research, and museum studies. 3 credits.

**RELU 306 The Middle Ages**
(Same as HISU 306) Lords and ladies, peasants and popes, soldiers and saints—this course examines the history of the Middle Ages, 500–1500, through the themes and events that shaped the period. Students discuss feudalism, the development of scholastic theology, the launching of the Crusades, and the creations of Romanesque and Gothic architecture. 3 credits.

**RELU 307 Germany and the Holocaust: From Anti-Semitism to Final Solution**
(Same as HISU 307) An examination of the Holocaust within its context in the history of Germany and World War II. The origins of the Holocaust, the implementation of the Final Solution, resistance to the Nazis, and the legacy of the Holocaust will be studied with the experiences of survivors, members of the Resistance, and “righteous Gentiles.” 3 credits.

**RELU 308 God, the Good Life, and Sex**
(Same as PHLU 308) An interdisciplinary course focusing on the relation between Ultimate Reality and the Good. Questions in cross-cultural metaphysics, aesthetics, and ethics (especially sexual ethics) are addressed. 3 credits.

**RELU 310 From Socrates to Aquinas**
(Same as PHLU 310) An interdisciplinary study of philosophical and religious thinkers from the earliest Greek philosophers through the Middle Ages. The ideas of Socrates, Plato, Aristotle, Augustine, and Aquinas are examined to see how they change over time, and how they are relevant to our contemporary search for moral and religious values. 3 credits.

**RELU 311 Descartes to Kierkegaard**
(Same as PHLU 311) An interdisciplinary study of the great philosophical and religious thinkers from the Reformation to the 20th century whose ideas form the basis for modern thought. Prominent works of Martin Luther, John Calvin, René Descartes, David Hume, Immanuel Kant, Friedrich Schleiermacher, and Søren Kierkegaard are critically examined. 3 credits.

**RELU 318 The Reformation**
(Same as HISU 318) Students examine the events and ideas of the sixteenth-century Reformation. This course analyzes the transition from a medieval to a modern world view and the impact of the Reformation on education, politics, science, art, and the roles of men and women in society. 3 credits.

**RELU 329 Experimental Topics in Religious Studies**
An examination of selected topics in religious studies relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

**RELU 330 Women and Religion**
Students examine women’s place in religious traditions, ways of being religious, and religious leadership, as well as the recovery of women’s voices from the past and the transformation of these traditions today. 3 credits.
RELU 335 Hinduism and the Religions of India
A study of the historical development of Hinduism; the texts, practices, and world
views that characterize its various paths to liberation; and the religious traditions
that emerge as reactions to it and/or with which it interacts (Buddhism, Jainism,
Sikhism, and Islam). 3 credits.

RELU 336 Buddhism
A study of the Buddha and the historical and philosophical development of
Theravada, Mahayana, and Vajrayana Buddhism, exploring their understanding
of the human predicament and the solutions they offer as well as ritual and
meditative practices, and the interaction between Buddhism and existing
traditions in the cultures in which it thrives. 3 credits.

RELU 340 The Bible as Literature
(Same as ENGU 340) An exploration of the wonders of the Old and New
Testaments. From the song of creation to the apocalypse of Revelation, the
course will examine the stories and poetry of the Bible, which shaped our culture
and nurtured our values, as literary expressions of ancient Israel and the early
Christians. 3 credits.

RELU 365 Topics in the Holocaust
(Same as HISU 365) Students examine selected topics within the study of the
history of the Holocaust, such as the role of doctors; persecution of non-Jewish
groups, including homosexuals and gypsies; theologians and religion under
Hitler; and the experiences and choices of perpetrators, victims, and bystanders.
3 credits.

RELU 375 Violence and Nonviolence in Society and Religion
An examination of the religious, philosophic, economic, and biological roots of
aggression, violence, and nonviolence among individuals and social groups.
The approach will be inter-disciplinary, and the methods employed will range
from the study of religious texts through the exploration of cultural tradition. 3
credits.

RELU 499 Independent Study
Prerequisites: Instructor’s approval and approval of petition. Directed reading
and/or research designed to meet specific needs of superior upper division
students. 1-3 credits.

SOCIAL SCIENCE
SSCU 329 Experimental Topics in Social Science
An examination of selected topics in Social Science relevant to evolving areas in
the field. Syllabi must be approved by the Division Chair and announced to the
Curriculum and Academic Committee prior to being offered. May be repeated for
credit provided that the course content is different each time. 3 credits.

SSCU 449/ENGU 449 Multicultural Perspectives
(Same as SSCU 449). Students examine culture, identity and ethnic diversity.
Students study the value systems which underlie customs, traditions, folklore,
history, geography, art and literature. The goal of the course is to increase
awareness and respect for similarities and differences among global and domestic cultures and subcultures. 3 credits.

SSCU 350 Human Diversity
This course examines the causes and consequences of the American racial and ethnic structure and the role of economic and political factors in the formation, reproduction, and change of this structure. Examines the interrelationship between social class, race and ethnicity, the ways in which gender roles are defined and practiced within different groups in America, as well as the experiences of gays and lesbians, who are also minorities. 3 credits

SSCU 366 Urbanization
The dense, congested vibrant entities we call cities have grown in uniquely American ways, Student interpret and analyze this impact on the larger society. Field observation of urban settings may be required. 3 credits.

SSCU 368 Globalization
One of the most apparent developments of the 20th Century was the opening up of national boundaries to travel, cultural diffusion, commerce and communications with other nation states. This course will look through the lenses of several disciplines at processes that have resulted in the "global village" of the 21st Century. We will also examine some of the positive and negative results of increasing globalization. 3 credits.

SSCU 397 Social Movements in the Sixties
(Same as HISU 397/SOCU 397.) Through film, literature, and oral history, we will take a fresh look at this controversial time in American history. Beyond protests, civil rights, Vietnam, sex, drugs, and rock'n'roll, there is the sociological question of how and when social movements arise, and how individuals within them rise to leadership roles. Social movements are a response to economic and demographic changes and they, in turn, make societal and cultural changes (or perhaps solidify them). Many of the characteristics of modern society that we take for granted – for example, voting rights for women or organized labor – have their origins in the struggles of organized social movements. Sociological theory and methods such as oral history provide a means to examine these issues. 3 credits

SSCU 497: Integrative Seminar for the Social Sciences I
Prerequisites: SOCU 201 or PSYU 304 and senior standing. Each social science major is required to complete a significant research project, usually resulting in a research paper. Choice of topics will be made in conjunction with instructor and cross-disciplinary studies are encouraged. Social Science 497 is the first semester of the two semester integrative seminar. This course includes a review of the field of social science. Students will complete a biographical career statement, an extensive annotated bibliography and a research proposal. 3 credits.

SSCU 498: Integrative Seminar for the Social Sciences II
Prerequisites: SSCU 497. The continuation of coursework begun in Social Science 497. At the end of this course, the students will demonstrate the integration of what he or she has learned in social science by completion of a
seminal written paper or project. A collection of student work will be compiled in a career portfolio for use in future education or career. 3 credits.

**SSCU 499: Independent Study**

*Prerequisites: Instructor’s approval and approval of petition.* Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.

**SOCIETY**

**SOCU 101 Introduction to Sociology**
An examination of the basic concepts, principles, and findings of sociology: addressing the nature of human social relations from simple, face-to-face relationships, through formal organizations, to whole societies. Discovery of how social patterns are created, how they become organized and established, and how they change. *This course may also be offered online.* 3 credits.

**SOCU 102 Cultural Anthropology**
The study of how human civilizations adapt to living situations by forming group identity, family, language and symbols. The examination of how civilizations create world views and concepts of progress, culture, community and social interaction. Students will explore these questions using models from cultures foreign and familiar. 3 credits.

**SOCU 201 Social Research Design**
Learn how sociologists carry out investigations of social life. Students will learn how to design and conduct surveys, experiments, and do participant observation. Equal attention will be given to the needs of students as consumers of social research, trying to make sense out of daily reports on sociological findings in newspapers, television, and magazines. *This course may also be offered online.* 3 credits.

**SOCU 204 Marriage and the Family**
This course studies the family as a social institution; socio-cultural as well as historical factors as related to sexuality, love, and marital choice; adjustment and conflict in marriage, microsociological analysis of family structure and dynamics. 3 credits.

**SOCU 211 Social Problems**
Society is beset by numerous social problems such as crime, war, hunger, homelessness, divorce, ethnic/gender conflict, violence, and economic power struggles, political corruption, and overpopulation. The class will focus on how we define, treat, and solve social problems. 3 credits.

**SOCU 293 Introduction to Social Work**
This course will provide an introduction to the ecological perspective of the social work profession. The focus of the course will be on the various levels of social work practice: individual and group casework, community organization, cultural diversity and policy-making practice arenas with an emphasis on the interaction between human behavior and the social environment. 3 credits.
SOCU 310 Society and Advertising
An interdisciplinary investigation into the foundations of advertising. Topics include historical origins of advertising; the economics of advertising; legal, social, and ethical issues; advertising as a global philosophy; the politics of consumerism; decoding the hermeneutics and semiology of advertising; advertising as behavior modification and manipulation; subliminal advertising; advertising’s influence on the experience of self in modern society; advertising as the modern art form. 3 credits.

SOCU 311 Society and Mass Communications
An analysis of mass communications media as a social institution. The course employs an interdisciplinary approach asking what are the origins, history, evolution, and social functions of the mass media; the impact of the media on the social self; the transitions from oral to print to electronic media; the view that the medium is the message. Strong emphasis on electronic media and the impact of media on the social construction of reality. 3 credits.

SOCU 312 Economics of Social Issues
(Same as OLCU 312.) An introduction to the basic tools and logic of economics are applied to social issues. A study of how people as individuals or in groups make decisions and choices, the impact of opportunity cost and constrained maximization on those choices and decisions, and how we as a society and an economy respond to the perpetual condition of scarcity. 3 credits.

SOCU 320 Sociology of Death
An interdisciplinary investigation of death, dying, and the grieving process. Topics include the American way of death as a social institution; dying as a psychological process; how society conditions us to deny death and repress grief and loss; how I relate to my own death and the death of significant others. How the experience, fear, and quality of death has changed historically over the centuries. 3 credits.

SOCU 321 Getting Love Right: Romantic Relationships in Contemporary Society
This course is intended to be a workshop, highly participatory and highly exploratory, rather than a lecture series. We will address our current media-permeated models of romantic love — we’re in love with “falling in love.” We will explore the distinction between “falling in love” and “loving,” the role of commitment versus feelings within a relationship, and the model of friendship and its bearing on romantic, sexual relationships. (Graded on a pass/no pass basis.) This course may also be offered online. 1 credit.

SOCU 324 Society and Religion
How does social structure quietly yet powerfully shape religious beliefs? How do religious beliefs in turn affect social, cultural, political and economic values? 3 credits.

SOCU 325 The Quest for a New Age: Contemporary Spiritual Movements in the West
An examination on both a critical scientific and a personal level of what William James has called the “varieties of religious experience” that human beings have
undergone, cultivated, and institutionalized with particular emphasis on modern Western society. We will look at the proliferating variety of both exotic and familiar spiritual experiences and traditions currently growing all around us.

**SOCU 326 Topics in Sociology of Religion**
An examination of selected topics in the sociology of religion. The topics may be relatively narrowly focused and involve an intensive study of a single religion or more broadly focused involving the study of issues across religions. Courses that treat different themes may be repeated for credit. 3 credits.

**SOCU 328 Social Inequality/Stratification**
Inequality among members of the American and international community. Theoretical emphasis on class, racial/ethnic, occupational, age, and sexual inequality. Students examine the social/structural bases of inequality and theories to explain the creation of systems and ideologies of subordination. 3 credits.

**SOCU 329 Experimental Topics in Sociology**
An examination of selected topics in sociology relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

**SOCU 335 Society and the Environment**
The air is thick with smog, famine breaks out with frightening regularity, and resources continue to accumulate in selected regions. Yet, in the long run, we are all citizens of this planet and must manage to survive on it and with each other. What are the key issues in this crucial debate that will determine all our futures? What ideas underlie environmentalism, what policies have to be debated, and what are the costs and benefits of different solutions to these problems? 3 credits.

**SOCU 345 Social Psychology**
(Same as PSYU 336) Discussion and analysis of the relationship between culture, group life, social structure, and human behavior; emphasis upon the dialogue between the individual and the social collective. Focus is on microsocial theory. *This course may also be offered online.* 3 credits.

**SOCU 347 Society, Culture, and Literature**
(Same as ENGU 347/HUMU 347) An exploration of the sociological and/or anthropological contexts of literature. The course varies in content depending on the instructor, but the topics to be selected might include the following: urban literature and life; rural, pastoral, or utopian environment; literature and sex roles; the literature of work; the influence of anthropological works on 20th-century literature; poetry and narrative in preliterate society; and the Cambridge School of Classicists and their theories about various myths of the hero. *This course may also be offered online.* 3 credits.

**SOCU 366 Area Studies**
These courses are designed to give a more in-depth examination of the cultures of a given area of the world. Courses which cover different areas may be repeated for credit. 3 credits. Some examples are:
North and Middle American Indians
Origins, archaeology, ethnology, and linguistic relationships of the Indians of North and Middle America; Mexican peasant culture; contemporary Indian problems.

Latin American Societies
Students examine the cultures of South and Central America both modern and ancient. Mayan, Quiché, Aztec, Inca, Miskito, and Yanomamo are a few of the societies covered.

Pacific Island Cultures
Study of the geography, anthropology, and socioeconomic history of the Pacific Islands, a largely oceanic region characterized by diversity in the environment and culture. Colonial relationships and more recent political transformations are examined. Polynesian, Micronesian, Melanesian, and indigenous Australian peoples are discussed.

SOCU 367 Public Interest Research
( Same as POSU 367) Students in this class learn quantitative and qualitative research methods by applying them in contemporary practical and academic research projects. Students conduct research that will help policy-makers, community activist, leaders, and citizens find solutions to current social and political problems and improve the lives of area residents. The course is designed to increase students' practical skills in areas like survey research and the use of computers in social, political, and historical analysis, making them more attractive as job applicants. The course is appropriate for students interested in careers in community-based, public, nonprofit, business and educational organizations. 3 credits.

SOCU 372 Images of American Indians
Students explore the artistic, political, folk, and scientific images of American Indians as demonstrated in literature, art, anthropology, film, and folklore. The accuracy or inaccuracy of these images will be examined along with reasons for their formation. The impact of these images on popular culture and on American Indian societies will be examined. 3 credits.

SOCU 380 Correctional Systems
( Same as CJCU 380) Criminals and institutional personnel involved in corrections at all levels will be reviewed in depth. History, politics, and contemporary corrections issues such as punishment theories, sentencing alternatives, prison experience and prisoner rights, female and juvenile incarceration problems, overcrowding, and 21st century corrections will be examined. 3 credits.

SOCU 381 Sociology of Sex and Gender
Students examine the ways in which macro institutions, (e.g., educational or work systems) and micro institutions, (e.g., ways of conversing) structure gender relations in society, and how gender in turn structures and stratifies the social order. From the perspective of personal identity, we will ask how it is that we experience ourselves as male and female. The social consequences of gender stratification are considered, including such substantive topic areas as the sexual division of labor, sexual politics, and sexual violence. 3 credits.
SOCU 382 Women and Criminal Justice  
(Same as CJCU 382) Examines how women’s involvement with criminal justice, whether as offenders or victims, reflects prevailing ideology about women’s place and function in the wider society. Particular attention is paid to the differential “justice” made on the basis of sex, as well as class and race. 3 credits.

SOCU 390 Socialization Through the Life Span  
A comprehensive birth through old age study of human growth and behavior tracing the psychosocial development stages. Students survey the social and environment factors including the influences of society, culture, small groups, and the family on development of the person. 3 credits.

SOCU 391 Youth-at Risk  
(Same as PSYU 391/CJCU 391) his course will introduce students to various models, theories, and intervention of children and adolescents considered "at-risk". Topics covered include, but may not be limited to the following: a) sociocultural factors in defining and influencing behavior; b) psychological models both biological and ecological that interact to shape behavior; c) types of at-risk categories including school dropouts, substance use and addiction, teenage pregnancy, antisocial behavior, delinquency, gangs, school shooters, and youth suicide; and d) specific types of clinical abnormal behavior including anxiety, mood, and impulse control disorders; e) theoretical and practical considerations related to community and school interventions. 3 credits.

SOCU 393 Child Abuse  
An introduction to and overview of the phenomena of child abuse as it relates to the helping professional. This class will examine the definition and cause of child abuse from sociological, cultural, and psychological perspectives. The legal and child welfare systems will be studied in addition to treatment and prevention aspects of the child abuse issue. 3 credits.

SOCU 394 The Sociology of Self  
A sociological investigation of the persistent question, “Who am I?” Students explore the extent to which answers are drawn from the social construction of status and role thus driving the experience of a real self undercover. 3 credits.

SOCU 396 Population and Demography  
At current rates, the 5.7 billion population of the planet will double in 40 years making current problems of overpopulation even worse. This course examines the size and composition of human populations as determined by births, deaths, and migration. Age-sex profiles and the theory of demographic transition are examined, as are policy issues such as birth control, family planning, and national and global population policies. 3 credits.

SOCU 397 Social Movements in the Sixties  
(Same as HISU 397/SSCU 397) Through film, literature, and oral history, we will take a fresh look at this controversial time in American history. Beyond protests, civil rights, Vietnam, sex, drugs, and rock’n'roll, there is the sociological question of how and when social movements arise, and how individuals within them rise to leadership roles. Social movements are a response to economic and demographic changes and they, in turn, make societal and cultural changes (or perhaps solidify them). Many of the characteristics of modern society that we take for granted – for
example, voting rights for women or organized labor -- have their origins in the struggles of organized social movements. Sociological theory and methods such as oral history provide a means to examine these issues. 3 credits

**SOCU 398 Women at Work**
A redefinition of “work” on the part of those who do it and those who study it might facilitate a better understanding of the work lives of women. Students examine the concept of “work force” as a male category which has consigned women to a residual place. Specific topics will include paid and unpaid labor in public and private settings, the division of labor in the home, the gendered wage-gap, global social change and women’s work, and the meaning of work in women’s lives. 3 credits.

**SOCU 399 Sociology of the Family**
This course engages a critical, in-depth analysis of the ways in which families are seen by society and the ways in which they see themselves. Topics to be covered include family politics, division of labor, child care, economics, health, leisure, and the politics of the family. 3 credits.

**SOCU 401 Field Research Methods**
An introduction to field research in naturally-occurring settings. Data collection through participant observation and interviewing with emphasis on the construction of field notes. Ethics of field research, entree to the field site, maintenance of the research relationship, and closure are emphasized through classroom discussion and activity in selected field sites. Analysis of data using the comparative method of grounded theory is introduced. 3 credits.

**SOCU 402 Quantitative Data Analysis**
(Same as PSYU 402) Students will analyze data from a national survey of Americans and make original discoveries about the nature of social life. Students will learn to use SPSS, the computer program used widely by professional sociologists. Each student will prepare an original research report modeled after published journal articles, and especially good papers from this course may be suitable for publication. 3 credits.

**SOCU 403 Police and Society**
(Same as CJCU 403) This course focuses on law enforcement and its interaction with society. Various perspectives will be explored including police subcultures, user of force and authority, selective enforcement and discretion, community reactions and media relations with police, dissent and conflict management. This course may be offered on line. 3 credits.

**SOCU 404 Global Family Systems**
Students examine the concept of family from the perspective of culture. Every society has families which vary widely in their structure. How is the family related to the structure and function of the larger society? What forms does the family take and why? 3 credits.

**SOCU 410 Topics in Criminology and Deviance**
Students examine selected topics in criminal justice. Topics may include a range and variety of courses such as gangs, women in criminal justice, pornography, violence, government, victimless crime, organized crime, and criminal careers.
The topics may be narrowly focused and involve an intensive study of a single issue or application, or more broadly oriented toward the study of a subject. Courses that treat different themes may be repeated for credit. This course may also be offered online. 3 credits.

**SOCU 411 Gangs and Gang Behavior**  
(Same as CJCU 411) This course addresses theories of gang behavior, modes of law enforcement, and correctional intervention dealing with street gang formation and activities (e.g., Latino, Samoan, Vietnamese, Armenian, Filipino), as well as characteristic differences among Gangbangers, Taggers, and others. 3 credits.

**SOCU 412 Victimless Crimes**  
(Same as CJCU 412) This course examines various criminal offenses that often lack a complaining “victim” in the usual sense that tend to generate intense social debate due to the consensual nature of these crimes (e.g., drug use, prostitution, certain sexual activities, gambling). The societal implications of social control policies will be discussed. This course may also be offered online. 3 credits.

**SOCU 413 Death and the Law**  
(Same as CJCU 413.) This course provides an introductory view of the various components of a medicolegal death investigation with emphasis on the resultant societal impact. The student will examine their personal perspectives as they study types of death which come to the attention of the Coroner’s Office. The course also introduces the student to assorted career opportunities available within forensic science and related careers. 3 credits.

**SOCU 415 Sociology of Organizations and Institutions**  
How and why are organizations created? What are their purposes? How does the need for organizational survival come to supersede whatever human purposes lay at its origins? Course will look at organizations through numerous metaphors: as machines, as organisms, as antipoetic systems, etc. This course may also be offered online. 3 credits.

**SOCU 420 Sociology of Deviant Behavior**  
(Same as CJCU 520) This course examines why societies label behavior deviant and explores the distinction between behaviors considered “socially unacceptable” and those considered “criminal.” Theories of deviance, as well as the amount, distribution and patterns of deviance are considered. Discussions may also include political influence, social change, and selected types of deviant activity. This course may also be offered online. 3 credits.

**SOCU 425 Social Change**  
Human social structures are constantly in a state of flux. This course looks at how and why these changes occur, and the role we all play as actors in this ever-changing drama. Analysis of social and technological change and its consequences for major systems of society. Discussion of the future of social and technological change in post-industrial societies. 3 credits.

**SOCU 426 Crime and Delinquency**  
(Same as CJCU 426) Crime and delinquency are integral parts of human society.
This class scrutinizes the causes of crime, crime prevention and control, and the treatment of criminals. Emphasis on the sociological causes, extent, constraint and deterrence of juvenile delinquency and juvenile crime. Topics include bio/psycho/sociogenic causation, youth criminalization, professional versus amateur criminals, violence and sexual crimes, victims and juvenile punishment alternatives. 3 credits.

**SOHU 440 Drugs and Society**
(Same as HSCU 440, CJCU 440.) Study of drug use from a sociological perspective. Discussion will include the effects and toxicity of legal drugs such as alcohol, nicotine, caffeine, and over-the-counter pharmaceuticals, as well as illegal drugs such as marijuana, cocaine, ecstasy, and heroine. Course topics include the integration of drugs with everyday life, the prescription drug industry as a social problem, addiction, recovery as the trope of popular culture, drug-testing, HIV/AIDS and intravenous drug use, criminal behavior and drug use, drug legalization debates and other policy issues. 3 credits.

**SOHU 450 Social and Political Theory**
(Course formerly listed as SOCU 305.) How is society possible? How does society change? How are political, social and economic power distributed? Critical study of contributions of social and political philosophers and contemporary theorists to these questions. Emergence and evolution of sociology and political science as systematic disciplines. Emphasis on macrostructural theory. Reading of more recent critical theorists, black theorists, feminist theorists and post-moderns. This course may also be offered on line. 3 credits.

**SOHU 453 Sociology of Social Conflict, Analysis, and Resolution**
Social conflict is evident in the news each day. For many of us it is a part of our personal experiences and daily lives. This course focuses on the analysis of conflict from an interdisciplinary perspective. What is conflict? How do we develop and change our identities, attitudes, emotions, and behavior regarding conflict? How do these processes vary across social groups? To answer these questions, this class will present a variety of ways that third parties and organizations intervene in an attempt to de-escalate conflict. Theories of conflict, methods of conflict management, and an examination of case studies and historical interventions will provide the student with tools for analysis of conflicts in his or her personal life and on the international front. Through simulations, role-playing and skills-training, each student will experience the basic concepts, principles, and methods of conflict resolution. Towards the end of this upper division course, the student should be able to map out and analyze conflict situations, using theoretical concepts and frameworks. 3 credits.

**SOHU 460 White Collar Crime**
(Same as CJCU 460) This class examines the underlying theories, changing definitions and diverse nature of white-collar crime. These crimes may include offenses perpetrated by “the rich,” corporations and businesses, and/or individuals. Topics may include embezzlement, political corruption, employee theft, fraud, “con games,” and emergent areas such as computer crime and environmental crime. This course may also be offered online. 3 credits.
SOCU 480 Topics in the Sociology of Health
Health care is presently in crisis, and the solution of that crisis requires that health care and medical systems be re-examined from a critical perspective. These courses examine problems of health and illness in society and the world in relation to structural correlates (economics, social organization, culture) and in respect to how health and illness is experienced by individuals and groups. Courses that treat different topics may be repeated for credit. 3 credits. Some examples are:

**Holistic Health**
Analysis of the socio-cultural correlates of health and illness with emphasis upon cross-cultural belief systems of etiology, diagnosis, and intervention strategies. Focus of study is upon widely diverse belief systems, including, but not limited to allopathic, homeopathic, Oriental, Aboriginal, and Native American. "Hands-on" in-class activities and field trips, as well as traditional pedagogical approaches.

**Women, Health, and Healing**
An exploration of the way in which lay, medical, and research assumptions about women have influenced clinical care and scientific inquiry. The course focuses on the health status and health needs of women, including chronic illness, reproductive health and childbirth, occupational health hazards, mental health, AIDS, physical and sexual abuse, and addictive disorders relating to food, alcohol and drugs.

**Medical Sociology**
An introduction to health and medicine as a social institution. A number of sociological concepts are examined: social epidemiology, comparative definitions of health and healing, the social organization of medical care, ideology of the health professions, the doctor-patient relationship, and the social psychology of the sick role.

**Political Economy of Health and Medicine**
An examination of health, illness and medical care in the context of the social and political structure of society. The health care delivery system is analyzed at the macrosocial and microsocial levels in visits to key health care sites in Orange County. Topics include the crisis in health care funding, allocation of resources, the ways in which power is distributed in the health care arena and the outcome for the health and well-being of adults and children.

SOCU 482 Gerontology
We live in a rapidly aging society. The elderly are confronted by pressing issues of economic support, social support, chronic illness, and medical care. The course provides an introduction to major issues affecting the aged, to gerontological theories, and to public opinion and public policy regarding aging. In addition, specific topics such as aging and race and gender, Alzheimer's disease, elder abuse, and death and dying will be considered. 3 credits.

SOCU 490/491 Independent Internship/Cooperative Education
Prerequisites: Requires completion of petition to register. Supervised
experience in an approved setting where sociological services are provided. 1-3 credits.

**SOCU 492 Social Work Field/Practicum**
*Prerequisite: Requires completion of petition to register.* Students begin supervised fieldwork in a human service agency concentrating on the practical application of skills and techniques in case planning and organizational analysis. This course also provides classroom analysis of the fieldwork practicum focusing upon establishing basic casework and organizational skills and techniques of the social work profession. 3 credits.

**SOCU 499 Independent Study**
*Prerequisites: Instructor’s approval and approval of petition.* Directed reading and/or research designed to meet specific needs of superior upper-division students. 1-3 credits.

**THEATRE AND DANCE**

**THDU 110 Introduction to Acting**
A beginning acting course for students not majoring in theatre performance. The course includes relaxation work, ensemble exercises, beginning scene work, and an introduction to character building. 3 credits.

**THDU 150 Introduction to the Theatre**
A study of theatre as popular entertainment and as a reflection of world social and cultural expression from its beginning to the present. The relationship between theatre practice in several countries is explored, and the development of philosophy and style as product of religious influence and historic events is emphasized. 3 credits.

**THDU 329 Experimental Topics in Theatre and Dance**
An examination of selected topics in theatre and dance relevant to evolving areas of importance to the field. Syllabi must be approved by the Division Chair and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

**THDU 351 Humanities Through the Arts**
(Same as HUMU 351) Designed to promote appreciation of the forms, styles, and media of music, art, dance, drama, cinema, and architecture. 3 credits.
Extended Education

The mission of Extended Education is to provide high-quality personalized education for those seeking education and training beyond a degree program. The department provides opportunities for upgrading professional skills which help meet the changing needs of the professional, educational, and technical world. This is done by offering a constantly changing mixture of specially designed courses for credit, developing unique non-credit classes, and facilitating special symposiums, workshops, lectures and online interaction. These opportunities are available through many University College Campus locations. Course styles vary and can include traditional classes, independent study, and online and videotape courses.

Course offerings focus on four major areas:
- Professional Development for Teachers
- Business/Corporate Development/Leadership
- Information Technology
- Arts and Sciences

Program & Course Descriptions

Professional Development for Teachers

Through the Department of Extended Education, University College offers a comprehensive group of professional development courses for current K-12 teachers. These graduate-level courses are designed to fulfill requirements for certification renewal and salary advancement. They are not intended for use in degree programs. Topics include:

- Behavior and Learning Styles
- Classroom Strategies
- Developing Professionally
- Health, Physical Education and Safety
- Language Arts/Social Studies
- Music
- Paraprofessional Program
- Reading/Writing
- Science/Math
- Special Needs
- Technology: Internet Teaching Tools
- Technology: Integrating Software into the Classroom
The courses listed below are available in the following formats: Online, CD-ROM, on-site, independent study, seminar practicum. The courses are listed by topics, and the formats are noted.

Courses are regularly added and updated in order to meet our student's needs, so please visit the website at www.chapman.edu/k12 to view the most current information.

**BEHAVIOR AND LEARNING STYLES**

**ED/A 9474 Behavior Is Language I: Strategies for Managing Disruptive Behavior**
Learn behavioral techniques and intervention strategies that reduce disruptive behavior and power struggles while increasing classroom control. Gain a new perspective on students' behavior and learn effective tools to facilitate positive student changes. Then, practice your new skills with the simulated classroom scenarios presented in the program. 2 credits. Tuition: $250. Course Length: 15 weeks. CD-ROM.

**ED/A 9475 Behavior Is Language II: More Strategies for Managing Disruptive Behavior**
This sequential course presents new behavioral techniques and intervention strategies to help you gain more control in the classroom with less time and effort. It expands on the concepts learned in "Behavior Is Language I" and then presents ten new intervention strategies to help deal with disruptive students both in and out of the classroom. You will have the chance to practice your new skills in the same simulated classroom setting with the same students as in BIL I. Prerequisite: ED/A 9474 2 credits. Tuition: $250. Course Length: 15 weeks. CD-ROM.

**ED/A 9851 Functional Analysis: Intro to Completing Behavior Assessments**
The *Functional Analysis* course will include an overview of the hierarchy of assessment procedures used to conduct Functional Behavioral Assessments. The course will also cover a detailed overview of functional analysis procedures and treatment packages that can be implemented based on the results of functional analyses. Particular emphasis will be placed on reinforcement-based interventions and dimensions of reinforcement. This course will be particularly useful for educators who work with children with disabilities. 2 credits. Tuition: $250. Course Length: 15 weeks. CD-ROM.

**ED/B 9188 Managing Student Behavior**
This mini-course is designed to help teachers (1) identify management challenges they face in a particular class, (2) analyze the dynamics of student behavior in that class, and (3) use these analyses to develop a plan for enhancing the learning of students in the class by more effectively managing student behavior. Early in the minicourse, teachers draft a goal for their class, and later they develop a behavior management plan to help students achieve that goal. 1 credit. Tuition: $184 plus $39 required workbook. $59 videotape is optional. Course Length: 2 weeks. Online. *Special registration at http://www.ets.org/pathwise/courses.html*
ED/A 9207 Mastering Self-Directed Growth
This course provides K-12 teachers with powerful learning skills based on new discoveries about how the brain works. Participants will also find learning resources from all over the world and step-by-step guidance that allows teachers to apply these learning techniques to personal learning styles. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/A 9659 Reaching Difficult Students
For decades, teachers have been frustrated with “high-maintenance” students. This course explores how to reach these difficult students and to turn the school year into a positive, rewarding experience for the teacher and the students. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/A 9948 Understanding Aggression: Coping with Aggressive Behavior
The course will consider the many forms of aggression as well as: its costs and motivation, its perpetrators and targets, its likely and unlikely locations, its impact on schools and children, and its several causes and promising solutions. 2 credits. Tuition: $250. Course Length: 15 weeks. CD-ROM.

ED/A 9656 Understanding Emotional Intelligence
This course gives teachers specific strategies for using emotional intelligence theory in the classroom. The traits of confidence, curiosity, intentionality, self-control, relatedness capacity to communicate and cooperation are covered extensively, and teachers will learn how to foster and model these qualities in their own classrooms. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/A 9477 Violence in Schools: Identification, Prevention, and Intervention Strategies
This course provides a foundation for understanding violence and the motivation behind aggression. The course teaches identification and intervention approaches to working with out-of-control behaviors. Each student receives information on national resources available for both parents and teachers. 3 credits. Tuition: $350. Course Length: 15 weeks. CD-ROM.

CLASSROOM STRATEGIES
ED/B 9108 Classroom Management Survival Course
This online course focuses on helping teachers with classroom management strategies. Teachers will learn many useful and practical techniques for working with students such as how to establish a discipline plan, implement rewards and consequences, and teach routines. A particular focus is effective strategies for working with difficult students. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/B 9187 Demonstrating Knowledge of Students
This mini-course is designed to help teachers develop deeper, more substantive knowledge of their students, and to use that knowledge to plan instruction that supports their students’ varied learning approaches and invites their students’ engagement. The guiding focus of the mini-course is the need to take a systematic approach to developing, interpreting, and applying knowledge of
students. During the mini-course, teachers identify two students, draft goals for the students’ learning, and set out to learn more about these students as individuals and learners. 1 credit. Tuition: $184 plus $39 required workbook. $59 videotape is optional. Course Length: 2 weeks. Online. Special registration at http://www.ets.org/pathwise/courses.html

ED/B 9186 Designing Coherent Instruction
This mini-course focuses on the thoughtful design of lessons and units that relate learning activities, instructional materials and resources, and student groupings to learning goals and the needs of students. The primary focus of the mini-course is coherence. Online activities are integrated with content about instructional design to help teachers plan learning activities, materials, methods, and instructional groupings appropriate to their particular learning goals. 1 credit. Tuition: $184 plus $39 required workbook. $59 videotape is optional. Course Length: 2 weeks. Online. Special registration at http://www.ets.org/pathwise/courses.html

ED/B 9023 Effective Communication with Families
This mini-course will introduce the basic concepts and techniques of communicating with families as well as barriers to doing so. Participants will prepare and implement an action plan and reflect on what was learned. The goal of this mini-course is to help refine and further develop communication with families as a way of enhancing student learning, student attitudes, and student achievement. 1 credit. Tuition: $184 plus $39 required workbook. $59 videotape is optional. Course Length: 2 weeks. Online. Special registration at http://www.ets.org/pathwise/courses.html

ED/A 9347 Effective Strategies for New Teachers
Created to help new teachers become highly effective teachers. Topics addressed in this course include engaging curriculum ideas, writing quality lesson plans (with clear objectives that address key standards), assessment techniques (including rubrics and portfolios), themes and literature ideas, management techniques, discipline strategies (rewards and consequences), and, of course, technology integration. Teachers participating in this training have an online mentor for the entire four weeks to guide them and support them through their first teaching experiences. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/B 9024 Engaging Students in Learning
This mini-course introduces participants to active learning strategies and tools that can help them to increase student engagement in learning. The mini-course will guide the participants in using new tools and strategies that support active learning, and then reflect on what they and their students learn from the activity. In addition, the participants will discuss ideas for active learning experiences with other class members, to concentrate on strengthening the challenge and focus of these activities. 1 credit. Tuition: $184 plus $39 required workbook. $59 videotape is optional. Course Length: 2 weeks. Online. Special registration at http://www.ets.org/pathwise/courses.html
**ED/A 9501 Improving Your Students’ Test-Taking Skills (for Grades 2-12)**
Are you feeling pressured to improve your students’ test scores? Are you going to be held accountable for their scores? This online course will help you to better prepare students to take standardized tests. Learn the tricks that help students perform better by effectively analyzing test questions. A wide variety of test-taking strategies will be presented all of which are sure to help improve your students’ scores. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/B 9021 Questioning to Enhance Student Learning**
This mini-course will introduce basic concepts and techniques associated with using questioning and discussion in the classroom. Participants will prepare and implement a question-based lesson and reflect on what was learned. The goal of this mini-course is to help refine the use of questioning as an instructional strategy to enhance student engagement, student thinking, and student learning. 1 credit. Tuition: $184 plus $39 required workbook. $59 videotape is optional. Course Length: 2 weeks. Online. Special registration at [http://www.ets.org/pathwise/courses.html](http://www.ets.org/pathwise/courses.html)

**ED/A 9892 Reaching Students through Character Education**
Learn the six building blocks of character and how to explore them with your students through discussions, activities, and projects. Teach your students how to make the right choices in problem situations and help build their awareness of accountability for their actions. You will be amazed at how much easier classroom management is when you help students develop character and values. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9963 Teaching Themes through the Year**
Take this online course and get new theme ideas with excellent activities and projects for your students. Learn how to tie themes into your grade level standards. You will also get new ideas to breathe life into the themes you have taught for years. Suggestions for integrating technology into your themes will also be offered. Join us and get a jump start on your planning for the new school year! 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

The following three courses address the fundamental issues of classroom assessment. Participants will learn to use a variety of assessments as tools for planning and adjusting instruction, and as evidence of student achievement. This course is designed for teachers, prospective teachers, and other education professionals who want to know more about how to evaluate and document student achievement in the classroom. Participants will have access to many types of questions, actual student responses, and, when appropriate, scoring rubrics. An electronic journal provides teachers with a tool for recording their assessment goals.

**ED/B 9014 Fundamentals of Classroom Assessment for Educators of Elementary Students (101)**
This course is designed for a teacher, administrator, or school leader who serves middle school students, grades 5-8, and wants to become a better consumer of classroom assessments. 3 credits. Tuition: $525. Course Length: 10 weeks. Online. Special registration at [http://www.ets.org/pathwise/courses.html](http://www.ets.org/pathwise/courses.html)
ED/B 9015 Fundamentals of Classroom Assessment for Educators of Upper Elementary/Middle School Students (102)
This course is designed for a teacher, administrator, or school leader who serves elementary students in grades K-4 and wants to become a better consumer of classroom assessments. 3 credits. Tuition: $525. Course Length: 10 weeks. Online. Special registration at http://www.ets.org/pathwise/courses.html

ED/B 9016 Fundamentals of Classroom Assessment for Educators of Secondary Students (103)
This course is designed for a teacher, administrator, or school leader who serves high school students, grades 9-12, and wants to become a better consumer of classroom assessments. 3 credits. Tuition: $525. Course Length: 10 weeks. Online. Special registration at http://www.ets.org/pathwise/courses.html

DEVELOPING PROFESSIONALLY
ED/B 9022 Growing and Developing Professionally
This mini-course introduces basic concepts and activities associated with growing and developing as a teacher. Participants will have opportunities to explore some of the activities in-depth and determine the ones most appropriate for their professional growth plan. The goal of this mini-course is to help increase expertise in content knowledge, teaching strategies, teaching dispositions, and leadership. 1 credit. Tuition: $184 plus $39 required workbook. $59 videotape is optional. Course Length: 2 weeks. Online. Special registration at http://www.ets.org/pathwise/courses.html

ED/B 9168 Writing Successful Grants
Having recognized a need within the work environment, students will devise a solution that requires outside funding. Students will look at and conduct their own search for online funding sources, develop and write goals, identify complementary objectives and procedures, outline a budget (in both a narrative and spreadsheet format), and prepare an evaluation plan. 3 credits. Tuition: $400. Course Length: 6 months. Online. Special registration at http://training.teachercreated.com/universities/chapman.asp.

The courses listed below provide educators with proven ways to develop and hone the coaching skills needed to assist other educators. Utilizing research-based readings, discussions, videos, and audio clips, participants will learn and apply new skills and approaches to coaching others. Courses rely on the discovery approach to learning, one in which participants engage in a collaborative exploration of the skills and strategies presented, including opportunities to practice skills and to reflect on the outcomes of these experiences.

ED/B 9017 Introduction to Coaching for Mentors of Beginning Teachers (101)
Designed for mentors of beginning teachers or other school-based educators working with pre-service teachers. 3 credits. Tuition: $525. Course Length: 10 weeks. Online. Special registration at http://www.ets.org/pathwise/courses.html
ED/B 9018 Introduction to Coaching for School Leaders (102)
Designed for an administrator that coaches teachers, a department supervisor or university supervisor that coaches student teachers. 3 credits. Tuition: $525. Course Length: 10 weeks. Online. Special registration at http://www.ets.org/pathwise/courses.html

ED/B 9019 Introduction to Coaching for Peer Assistance (103)
Designed for educators responsible for coaching teachers who have identified areas of improvement. 3 credits. Tuition: $525. Course Length: 10 weeks. Online. Special registration at http://www.ets.org/pathwise/courses.html

ED/B 9020 Introduction to Coaching for Collaborative Coaches (104)
Designed for educators responsible for coaching colleagues as they discuss their practice as part of a formal or informal professional development plan. 3 credits. Tuition: $525. Course Length: 10 weeks. Online. Special registration at http://www.ets.org/pathwise/courses.html

ED/B 9185 Introduction to Coaching for Reading Coaches (105)
A reading coach, reading specialist, mentor, or language arts supervisor that coaches beginning and experienced teachers in the processes and practices of reading. 3 credits. Tuition: $525. Course Length: 10 weeks. Online. Special registration at http://www.ets.org/pathwise/courses.html

HEALTH, PHYSICAL EDUCATION AND SAFETY

ED/A 9609 Drugs and Alcohol in Schools: Understanding Substance Use/Abuse
This course is designed to give teachers a more comprehensive understanding of alcohol, drugs and their influence in the classroom. It provides a framework for understanding what students may be experiencing through their own substance use or the impact of substance use around them. 2 credits. Tuition: $250. Course Length: 15 weeks. CD-ROM.

ED/A 9611 Harassment in Schools: Guidelines & Policies for Prevention
This course is designed to help participants achieve a better understanding of the issues surrounding harassment in the schools and to offer effective intervention strategies that can assist teachers in protecting themselves from harassment. 1 credit. Tuition: $125. Course Length: 15 weeks. CD-ROM.

ED/B 9145 Health Education for Teachers
This course identifies and explores modern concepts of health and health education in schools. Participants will examine current health issues, common health problems in children and adolescents, good nutritional health habits, and the effects of chemical use. This credit is NOT applicable to a degree program. It is designed specifically to meet the requirements for the CA Professional Clear Credential under the Ryan Act. 3 credits. Tuition: $649. Course Length: 10 weeks. Online.

ED/B 9076 HIV/AIDS: Prevention & Education for the 21st Century
This is an interactive course designed to help participants achieve a greater understanding of HIV/AIDS Prevention Education. This course will address
sensitive issues around HIV/AIDS, including risky behaviors, intravenous drug use, etc. The course also provides a basic overview, history and statistics related to the disease. 1 credit. Tuition: $125. Course Length: 15 weeks. CD-ROM.

**ED/A 9852 Sexually Transmitted Infections: Information for Education Faculty & Personnel**

This course is designed so that teachers, aides, counselors, administrators and other education professionals can understand and learn about the sexually transmitted infection epidemic that affects so many students each year. 1 credit. Tuition: $125. Course Length: 15 weeks. CD-ROM.

**LANGUAGE ARTS/SOCIAL STUDIES**

**ED/A 9595 Designing and Creating Language Arts WebQuests**

(for Grades 3-12)

One way to effectively use the vast resources on the Internet is through a WebQuest. A WebQuest is an inquiry-oriented activity in which some or all of the information students interact with comes from resources on the Internet. Participants are led through the process of setting goals, gathering resources, and planning a language arts WebQuest. A template is provided for creating the online WebQuest. Additionally, rubrics for assessing what students learned from the WebQuest are also introduced. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9596 Designing and Creating Social Studies WebQuests**

(for Grades 3-12)

One way to effectively use the vast resources on the Internet is through a WebQuest. A WebQuest is an inquiry-oriented activity in which some or all of the information students interact with comes from resources on the Internet. Participants are led through the process of setting goals, gathering resources, and planning a social studies WebQuest. A template is provided for creating the online WebQuest. Additionally, rubrics for assessing what students learned from the WebQuest are also introduced. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9419 Using the Internet to Enhance your Language Arts Curriculum**

This course will explore the resources available on the Internet to enhance and support the language arts curriculum. Comprehensive lists of sites will be provided but time will also be spent helping students develop effective search strategies so that they may find quality resources on their own. Teachers will also learn how to evaluate the content of sites they find. Teachers will be expected to revise existing lesson plans, thematic units, and activities to incorporate online resources and references. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9418 Using the Internet to Enhance your Social Studies Curriculum**

This course will explore the resources available on the Internet to enhance and support the social studies curriculum. Comprehensive lists of sites will be provided but time will also be spent helping teachers develop effective search strategies so that they may find quality resources on their own. Teachers will also
learn how to evaluate the content of sites they find. Teachers will be expected to revise existing lesson plans, thematic units, and activities to incorporate online resources and references. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

MUSIC

ED/A 9653 The Musical Intelligence: Music in the Classroom

This course aimed at the non-musician who would like to find ways of effectively integrating music into the curriculum, explores the implications of brain-based research concerning the development of the musical intelligence. Students gain an understanding of the elements of music: rhythm, melody, harmony, and form; they also examine national standards for music in the classroom and explore the relationship between music and the visual arts, drama, and dance. Students will need a fast modem connection to adequately view multimedia websites. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

PARAPROFESSIONAL PROGRAM

This program was specifically designed to meet the paraprofessional requirements of the “No Child Left Behind Act.” Paraprofessionals have the option of taking any of the four courses offered, or taking all the courses and receiving a Certificate of Completion. Each course is worth one semester unit of undergraduate elective credit (this credit is designed for professional development and may not transfer into a bachelor degree program).

For paraprofessionals who are required to take 48-60 units, there is another option. For more details and registration, visit www.webteaching.com/paraunits.htm

EDUC 8012 Classroom Management for Paraprofessionals

This four-week online course focuses on helping paraprofessionals with classroom management strategies. Paraprofessionals will learn many useful and practical techniques for working with students. The course addresses creating a positive classroom environment, working with teachers and parents on discipline, dealing with difficult students and much more. 1 credit. Tuition: $160 or $499 for all four courses. Course Length: 4 weeks. Online. Special registration at http://www.webteaching.com/paracert.htm

EDUC 8011 Teaching Math for Paraprofessionals

This four-week online course focuses on helping paraprofessionals work with students on basic math skills. Paraprofessionals will learn many useful and practical strategies they can use to help students. Paraprofessionals will become familiar with: math standards for their state, math manipulatives, teaching strategies and more. 1 credit. Tuition: $160 or $499 for all four courses. Course Length: 4 weeks. Online. Special registration at http://www.webteaching.com/paracert.htm

EDUC 8009 Teaching Reading for Paraprofessionals

This four-week online course focuses on helping paraprofessionals work with students on key reading skills. The emphasis is on teaching students an explicit,
systematic approach to phonics. The course will also address the other key reading elements including phonemic awareness, fluency, comprehension, and vocabulary. 1 credit. Tuition: $160 or $499 for all four courses. Course Length: 4 weeks. Online. Special registration at http://www.webteaching.com/paracert.htm

EDUC 8010 Teaching Writing for Paraprofessionals
This four-week online course focuses on helping paraprofessionals work with students on basic writing skills. Paraprofessionals will learn many practical strategies they can use to help young writers. They will become familiar with: writing standards for their state, the developmental stages of writing, and the four writing domains. Paraprofessionals also gain many other resources for teaching writing. 1 credit. Online. Tuition: $160 or $499 for all four courses. Course Length: 4 weeks. Special registration at http://www.webteaching.com/paracert.htm

READING/Writing

ED/B 9204 Comprehension: The Key to Becoming a Successful Reader (for Grades K – 3)
This course focuses on improving students’ comprehension skills. The course begins offering three different options for assessing comprehension. Then, teachers are introduced to a wealth of strategies that can improve and support a reader’s comprehension. Strategies presented include: anticipation guides, DRTA, questioning techniques, text structure, guided reading and reciprocal teaching. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/B 9202 Developing Phonemic Awareness in Emergent Readers (for Grades Pre-K - 3)
This course focuses on developing a child’s phonemic awareness to prepare him or her to be a successful reader. The course begins with phonemic awareness assessment options. Based on the assessment results, the teacher can determine which strategies are most appropriate for each student. Instructional strategies presented in the course include: rhyming, alliteration, onset and rime, syllable segmentation, and many more. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/A 9793 Effective Strategies for Emergent and Early Writers (for Grades K – 3)
Discover effective ways to encourage emergent writers and offer them strategies to become successful writers. You will be armed with the ideas you need to strengthen your writing program. The developmental stages of writing will be one focus of this course along with specific examples of writing domains. Strategies for using writer’s workshop with emergent writers will also be shared. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/A 9661 Effective Strategies to Improve Student Writing (for Grades 4 - 12)
This course offers a significant amount of information to help teachers improve their students’ writing skills. All four writing domains are covered in detail
including organizational patterns for writing, graphic organizers, writing ideas and tasks, rubrics for assessment, prompts, and strategies. Also, each stage of the writing process is highlighted with specific strategies and suggestions for each. Other course topics include specific writing standards, writer’s workshop, forms of assessment, mini-lessons, and using technology to improve student writing. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/B 9203 Focus on Phonics and Decoding (for Grades K - 3)**

This course focuses on effective ways to teach children to decode unknown words. Phonics basics will be emphasized along with specific ways to help students who are struggling in this area. Using context clues and structural analysis as a means of decoding will also be introduced. Teachers will also learn how to use the Making Words strategy and how to use Reader’s Workshop. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9364 Reading in the Primary Grades: A Balanced Approach (for Grades K - 3)**

This online course is designed to help teachers of primary grades to teach reading more effectively. The emphasis is on a balanced approach to reading and includes the following components: systematic phonics, reading for meaning, using children’s literature, and teaching district and state standards. A must for any teacher seeking to improve the reading skills and comprehension of students. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9494 Reading to Learn: Developing Strategic Reading Skills (for Grades 4 - 12)**

Designed to help teachers raise student’s performance scores in all curricular areas by improving content reading skills. The focus will be on strategies that help increase students’ reading comprehension of content material. State and school district standards for reading and language arts will be emphasized and referenced throughout the course. Technology and Internet resources will also be explored. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/B 9201 Teaching Reading in the Primary Grades: Putting Research into Practice (for Grades K - 3)**

This course focuses on helping teachers work with students on key reading skills. The emphasis is on teaching students an explicit, systematic approach to phonics. It also addresses the connections between word attack skills and comprehension as well as using quality literature to inspire young readers. This course is aligned with the Reading-Language Arts Standards and Reading-Language Arts Framework. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/B 9036 Teaching Reading to Struggling Readers (for Grades K - 3)**

This course focuses on teaching reading to special populations of students such as struggling and low performing readers, English Language Learners, as well as gifted/advanced readers. Specific intervention and motivational strategies will be shared. Assessment options such as running records and miscue analysis will also be presented. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9712 Using Children’s Literature in the Classroom**

This online course will focus on the best children’s books available to use in all
four content areas. Fun and educational ideas for using children’s literature will be shared. It’s ideal for teachers who love using children’s books in the classroom. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/B 9205 Word Play: Vocabulary Instruction in the Primary Grades (for Grades K - 3)**

This course focuses on how to improve student’s vocabulary. The course begins with options for vocabulary assessment. The results of the assessment will be used to guide instruction and select appropriate and effective instructional strategies. Strategies presented include word roots, semantic feature analysis, categorization, analogies, concept maps, traditional resources, and cloze procedure to name just a few. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**SCIENCE/MATH**

**ED/A 9593 Designing and Creating Math WebQuests (for Grades K - 3)**

One way to effectively use the vast resources on the Internet is through a WebQuest. A WebQuest is an inquiry-oriented activity in which some or all of the information students interact with comes from resources on the Internet. Participants are led through the process of setting goals, gathering resources, and planning a math WebQuest. A template is provided for creating the online WebQuest. Additionally, rubrics for assessing what students learned from the WebQuest are also introduced. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9594 Designing and Creating Science WebQuests (for Grades 3 - 12)**

One way to effectively use the vast resources on the Internet is through a WebQuest. A WebQuest is an inquiry-oriented activity in which some or all of the information students interact with comes from resources on the Internet. Participants are led through the process of setting goals, gathering resources, and planning a science WebQuest. A template is provided for creating the online WebQuest. Additionally, rubrics for assessing what students learned from the WebQuest are also introduced. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9794 Hands-On Learning with Math Manipulatives (for Grades K - 3)**

This exciting course helps teachers use math manipulatives to increase students’ understanding of basic math concepts. Critical reasons for using math manipulatives will be explored in-depth as well as how manipulatives help students learn important math standards. Many ideas for using math manipulatives will be offered. All the ideas can be used immediately to help students grasp important math skills. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9597 Teaching Real World Math: Tools and Techniques for the Primary Grades (for Grades K - 3)**

This online math course focuses on appropriate instructional tools and techniques to help teachers connect math standards to instructional practice. The course content will help teachers move beyond teaching math basics to
helping students develop a greater conceptual understanding of math as well as how to use math in everyday life. Excellent ideas for connecting math to literature and technology will also be shared. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9421 Using the Internet to Enhance your Math Curriculum**
This course will explore the resources available on the Internet to enhance and support the mathematics curriculum. Comprehensive lists of sites will be provided but time will also be spent helping teachers develop effective search strategies so that they may find quality resources on their own. Teachers will also learn how to evaluate the content of sites they find. Teachers will be expected to revise existing lesson plans, thematic units, and activities to incorporate online resources and references. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9420 Using the Internet to Enhance your Science Curriculum**
This course will explore the resources available on the Internet to enhance and support the science curriculum. Comprehensive lists of sites will be provided but time will also be spent helping teachers develop effective search strategies so that they may find quality resources on their own. Teachers will also learn how to evaluate the content of sites they find. Teachers will be expected to revise existing lesson plans, thematic units, and activities to incorporate online resources and references. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**SPECIAL NEEDS**
**ED/A 9476 Attention Deficit Disorder: Information & Interventions for Effective Teaching**
This course gives students a complete history of ADD along with accepted and experimental treatment methods, reviews current treatments of the disorder and practical intervention strategies designed to decrease disruptive and inappropriate behaviors in the classroom. 2 credits. Tuition: $250. Course Length: 15 weeks. CD-ROM.

**ED/A 9850 Autism & Asperger’s Disorders: Information & Effective Intervention Strategies**
This course provides information on the characteristics of the disorder, learning styles associated with the disorder, communication weaknesses, and various intervention strategies that have proven to be successful when working with students with autism spectrum disorders. The course helps explain why individuals with autism spectrum disorders act the way they do and what you can do to enhance more appropriate behavior. 2 credits. Tuition: $250. Course Length: 15 weeks. CD-ROM.

**ED/B 9077 Child Abuse: Working with Abused & Neglected Children**
This is an interactive course designed to help participants identify and effectively teach students affected by child abuse and/or neglect. This course teaches how to recognize the signs of physical abuse, emotional abuse, sexual abuse, physical neglect, and emotional neglect in students. It also discusses the specific factors that exist in families who abuse or neglect their children. A major emphasis in this course is on helping the participant understand the special learning needs
of the abused or neglected child and how to meet those needs in the regular classroom. 2 credits. Tuition: $250. Course Length: 15 weeks. CD-ROM.

**ED/B 9167 Differentiating the Curriculum for Gifted and High Ability Learners**

Over the years the needs of our most capable students have often been overlooked. Most teachers acknowledge that gifted students need special attention. This course is designed to help educators recognize the characteristics of giftedness and understand why these characteristics demand a differentiated curriculum. It then looks at eight different strategies that teachers can use in their heterogeneous classrooms to offer challenge, motivation, and the opportunity to learn. 3 credits. Tuition: $400. Course Length: 6 months. Online. Special registration at [http://training.teachercreated.com/universities/chapman.asp](http://training.teachercreated.com/universities/chapman.asp)

**ED/A 9849 Inclusion: Working with Special Needs Students**

This course is designed to help special and general educators gain a better understanding of inclusion, which advocates for educating students with disabilities in the general education classroom. 1 credit. Tuition: $125. Course Length: 15 weeks. CD-ROM.

**ED/A 9978 Instructional Strategies for ELD and SDAIE**

Teachers are truly struggling with the best ways to help their English Language Learners. This course focuses on offering teachers strategies to use for ELD lessons as well as SDAIE lessons. The Into/Through/Beyond approach is emphasized along with a variety of assessment options appropriate for ELL students. Just a few strategies presented include scaffolding, think/pair/share, K-W-L, reciprocal teaching, cooperative learning, anticipation guides, quick writes, graphic organizers, and learning logs. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**ED/A 9610 Learning Disabilities: Practical Information for Classroom Teachers**

This course lays the foundation for appropriate assessment and evaluation of students, provides direction for program planning and implementation, discusses the importance of a close partnership with parents (or alternative-care givers), and considers ways to ensure that the home-school axis is effective. The course also addresses major trends and unresolved issues in the field of learning disabilities. 3 credits. Tuition: $350. Course Length: 15 weeks. CD-ROM.

**ED/A 9826 Managing and Integrating Technology into the Special Education Classroom**

See description in Technology: Internet Teaching Tools.

**ED/A 9947 Talented & Gifted: Working with High Achievers**

This course is designed to help you achieve a better understanding of the talented and gifted student, methods used in identification, and strategies for instruction of these students in an inclusive classroom. The course provides information on the history of the exceptional in relation to education, current law, and accepted methods for referral, assessment, and identification of these students. 2 credits. Tuition: $250. Course Length: 15 weeks. CD-ROM.
TECHNOLOGY: INTERNET TEACHING TOOLS

ED/A 9422 Effective Internet Search Strategies
In this course, teachers will use and explore the search engines available and determine which is the best for their needs. Teachers will also practice narrowing topics and using Boolean search terms to get the best possible results from a search. Participants will need an Internet browser in order to access online resources. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/A 9547 Integrating the Internet and Multimedia (for Grades 3 – 12)
This course will focus on how to conduct effective searches on the Internet in order to find resources to create a multimedia project to use in their classrooms to introduce a concept or theme. Then, they will create multimedia project ideas for their students to do in the classrooms, along with lists of Internet sites for student research and assessment instruments to evaluate the projects. Participants will need HyperStudio or PowerPoint in order to complete the projects. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/A 9247 Managing and Integrating Technology into the Curriculum
This course will focus on management issues such as: scheduling the students for computer time, how to train the students to use the software, writing lessons and thematic units that integrate technology, using the computer as a center, tips and tricks, and getting the most out of whatever technology you have. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/A 9608 Managing and Integrating Technology into the Curriculum for English Language Learners
This course will focus on the using technology in the bilingual classroom. Teachers will learn about the many resources available to them and how to use them specifically with English language learners. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/A 9826 Managing and Integrating Technology into the Special Education Classroom
This course focuses on using technology in classrooms with students with special needs. Participants are introduced to special software and hardware for this population of students. Additionally, assistive technology is an area of emphasis for this course. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

ED/B 9045 Teaching with Technology, Level II
This credit is NOT applicable to a degree program. It is designed specifically to meet the requirements for the CA Professional Clear Credential under the Ryan Act.

This course builds on the knowledge and skills acquired in a Technology Level I course. The instructor will take students deeper into the world of technology and its applications to teaching and learning. The purpose of the course is not only to expose students to the wide variety of technological tools that can be used in teaching, but also to bring each student to the point at which he or she is able to use these tools with proficiency. Assignments will be project-based. Students will develop curriculum plans, design instructional units, and create technology-rich environments that effectively utilize constructivist teaching strategies and
promote active learning. Prerequisites: EDUC 551 (Educational Applications of Computers) or equivalent or passing score on the Preliminary Educational Technology SSAT Exam. 3 credits. Tuition: $649. Course Length: 10 weeks. Online.

**ED/A 9423 Technology-Based Projects**
Participants design and create a sample multimedia project to use in their classrooms to introduce a concept or theme. Then, they create word-processing and multimedia project ideas for their students, along with assessment tools to evaluate those projects. Multimedia portfolios will also be introduced. Participants need HyperStudio or PowerPoint in order to complete the projects. 3 credits. Tuition: $375. Course Length: 15 weeks. Online.

**TECHNOLOGY: INTEGRATING SOFTWARE INTO THE CLASSROOM**

**ED/B 9173 A Beginner's Guide to Creating School & Classroom Web Pages**
The majority of schools in our country now have Internet access. For those pioneers who use the Internet in their classrooms, it is an invaluable resource for both content material and information exchange. Just a few short years ago, actually publishing K-12 material on the Internet was limited to the few pioneers who had the time and inclination to learn the complicated language necessary to write WWW pages. However, with the advent of HTML editors (many available for free, and even integrated into your browser,) publishing on the WWW is within the reach of any educator who has some basic prerequisites in place. 3 credits. Tuition: $400. Course Length: 6 months. Online. Special registration at [http://training.teachercreated.com/universities/chapman.asp](http://training.teachercreated.com/universities/chapman.asp)

**ED/B 9172 Digital Photography in the Classroom**
Computers are now available in the majority of our schools and technology and its uses have become an important component of the classroom experience. Now in addition to computers many teachers are using the Internet in their classrooms and considering the purchase of digital camera equipment. They want to know how to use digital media - media that has been digitized, or turned into media that can be viewed and manipulated on a computer. 3 credits. Tuition: $400. Course Length: 6 months. Online. Special registration at [http://training.teachercreated.com/universities/chapman.asp](http://training.teachercreated.com/universities/chapman.asp)

**ED/B 9171 Using Kid Pix in the Classroom**
*Kid Pix Studio Deluxe* is one of the most versatile and imaginative software programs available. This course uses the “learn by doing” approach, and will have you creating innovative projects you never thought possible. Must have access to *Kid Pix Studio* or *Kid Pix Studio Deluxe*. 3 credits. Tuition: $400. Course Length: 6 months. Online. Special registration at [http://training.teachercreated.com/universities/chapman.asp](http://training.teachercreated.com/universities/chapman.asp)

**ED/B 9170 Using Multimedia in the Classroom: Kid Pix Deluxe 3**
*Kid Pix Deluxe 3* is the latest version to be released of one of the most widely used programs in elementary classrooms; however, most teachers just scratch the surface of the many uses of this creativity program. *Using Multimedia in the Classroom: Kid Pix Deluxe 3* is designed for teachers to learn the complete *Kid
Pix Deluxe 3 program, and then to take them to the next level of successfully integrating Kid Pix Deluxe 3 into their curriculum. Must have access to Kid Pix Deluxe 3. 3 credits. Tuition: $400. Course Length: 6 months. Online. Special registration at http://training.teachercreated.com/universities/chapman.asp

**ED/B 9166 Using Presentation Skills in the Classroom: Microsoft PowerPoint**
Microsoft PowerPoint is known as the software for creating dynamic multimedia presentations. But did you know that it is also a useful tool for integrating project-based learning into your classroom? Discover strategies designed to reinforce the critical thinking as well as the presentation skills of your students. This course teaches PowerPoint in the context of actual classroom projects that participants can implement tomorrow. Must have access to PowerPoint version 4.0 or later. 3 credits. Tuition: $400. Course Length: 6 months. Online. Special registration at http://training.teachercreated.com/universities/chapman.asp

**ED/B 9164 Using Word Processing in the Classroom: Microsoft Word**
Microsoft Word is the most widely used word processing software application today. It is part of the Microsoft Office Suite, which most school districts have adopted as their district-wide software package. This course will provide teachers with a broad-based introduction to word processing in general and Microsoft Word in particular. Must have access to Microsoft Word 97/98 or later. 3 credits. Tuition: $400. Course Length: 6 months. Online. Special registration at http://training.teachercreated.com/universities/chapman.asp

**ED/B 9165 Using Spreadsheets in the Classroom: Microsoft Excel**
Microsoft Excel is the most widely used spreadsheet software application today. It is part of the Microsoft Office Suite, which most school districts have adopted as their district-wide software package. This course will provide teachers with a broad-based introduction to the use of spreadsheets in general and Microsoft Excel in particular. Must have access to Microsoft Excel 97/98 or later. 3 credits. Tuition: $400. Course Length: 6 months. Online. Special registration at http://training.teachercreated.com/universities/chapman.asp

**ED/B 9169 Visual Thinking and Learning: Using Inspiration Software**
This course will provide teachers with a broad-based introduction to visual thinking and learning software in general and Inspiration in particular. The class will help teachers gain proficiency in working with concept maps, webs, diagrams, idea maps, storyboards, and outlines. It will provide teachers with insight in how to use Inspiration to help students clarify their thinking, understand concepts, and develop organizational skills. Teachers will learn how to enhance Inspiration documents using software applications and resources from the Internet. 3 credits. Tuition: $400. Course Length: 6 months. Online. Special registration at http://training.teachercreated.com/universities/chapman.asp
Business/Corporate Development/Leadership

Chapman University College offers a variety of programs for business professionals. There are several programs that prepare experienced workers to challenge nationally-recognized certification examinations and there are some that provide basic instruction on skills and knowledge needed by those entering new fields. In most cases, Continuing Education Units (CEUs) are awarded upon successful completion. Topics and curriculum providers include:

- Business & Organizational Coaching
- Payroll (APA and Lambert)
- Human Resources (SHRM)
- Training and Development (ASTD)
- Treasury/Cash Management (AFP)
- Management Accounting (IMA)
- Employee Benefits (IFEBP)
- Management/Leadership/Personal Development

Courses are generally instructor-led classroom-style, but a few are also offered on-line. Courses are listed by topics and exceptions to basic classroom-style noted. Visit the website at www.chapman.edu/enhance for more detailed information.

BUSINESS & ORGANIZATIONAL COACHING

Business & Organizational Coaching Certificate Program

This program consists of six courses designed to meet the requirements of the International Coaching Federation Certification and meet the needs of business and organizational leaders. Each course combines readings, classroom exercises, group activities, and the opportunity to interact with coaching masters. Although still in development and the program outline not final, each course will include the following key elements: (a) ethics, professional standards and integrity; (b) setting measurable goals and objectives; (c) building relationships; (d) effective conversations (beyond the basic ability to communicate); (e) building a Coaching Tool-kit; and (f) practice coaching. Offered at the Irvine and Manhattan Beach Campuses.

The Fundamental Coaching Certificate

The first two courses (ORGU 0025 and 0026) comprise the Fundamental Coaching Certificate and are designed to provide the interested student with the 60 hours of coach specific training required by the International Coach Federation (ICF) as part of the process necessary to become an Associate Certified Coach (ACC). These courses are an appropriate and cohesive training for those who wish to improve their skills for use within an organization, also known as Internal Coaching, and are prerequisites for the Advanced Certificate Program.

ORGU 0025: Fundamentals of Coaching

Students will gain (a) a basic understanding of coaching skills vs. consultative and mentoring; (b) extensive practice of coaching skills; and (c) a working
knowledge of the kinds of tools and resources available to business coaches. Building on the fundamental concepts of assessing client needs and understanding adult learning theory, various instruments may be demonstrated and used by the students. 3.0 CEUs.

**ORGU 0026: Leadership: Performance, Conflict, Change & Effective Communication**

Introduction to leadership's skills in identifying key gaps in effectiveness, communication in complex organizations, managing conflict and building performance in organizations, the proper use of feedback, leading change in organizations and the concept of Effective Conversations. 3.0 CEUs.

**The Advanced Coaching Certificate**

The following four courses comprise the Advanced Certificate and are designed to provide the interested student with the 125 hours of coach specific training required by the International Coach Federation (ICF) as part of the process necessary to become an Professional Certified Coach (PCC). Admission into the Advanced Certificate Program requires successful completion of the Basic Certificate, the recommendations of the instructors from those courses, a written statement defining your interest and intentions regarding the field and an interview with the Program Director.

**ORGU 0027: Coaching Leaders in Organizations**

This course will be based on a simple concept developed by Warren Bennis, "A leader does not get the message across, a leader is the message." Students will gain an understanding of the various facets of the leadership role, of who the leaders are in an organization, of the competencies of a leader that people would be "willing to follow," and will learn to use tools for assisting these "developing leaders." Conflict and change management will be reviewed, along with various types of executive coaching. 3.0 CEUs.

**ORGU 0028: Team Coaching and Facilitation**

The focus of this course is on dealing with the unique skills required when leading and coaching concurrently with the variety of personalities and learning styles inherent in various management and employee groups. The phases of team development, diversity issues, and the uses of self- and team-assessment tools are included. Models of team coaching will be examined. 3.0 CEUs.

**ORGU 0029: Opportunities & challenges of Coaching in the Corporate Workplace**

Students will lean to use a Systems Thinking Approach to understand the client's situation and to predict the unique needs of executives, leaders and managers in their specific environment. Emphasis will be placed on how to maintain professional objectivity. 3.0 CEUs.

**ORGU 0030: Specialized Elective/Practicum**

Students will be given the opportunity to explore a specialized area of coaching of interest to them under the supervision of an experienced business coach. Emphasis will be placed on performance improvement through developing a strategy and marketing plan, designing and developing a path for continued growth and learning, and integrating theory from the previous modules. 3.0 CEUs.
PAYROLL

**American Payroll Association Exam Preparation Series**
Designed for the busy professional who wishes to enhance their payroll expertise through continuing education or to prepare for the American Payroll Association’s Fundamental Payroll Certification (FPC) or Certified Payroll Professional (CPP) Certification Examinations. The Payroll Professional Learning Series (PPLS) provides comprehensive payroll training through a three-course instructor-led Learning Series. Successful completion of the program entitles participants to receive a Certificate of Completion.

**ORGU 0009: Primary Payroll Skills**
Participants who successfully complete the course can expect to function competently as entry-level payroll practitioners and should be able to: 1) perform basic calculations to correctly generate employee paychecks; 2) understand data-input variables and accurately complete W-2 forms; and 3) utilize critical customer service and communication skills to manage internal/external customer satisfaction. In addition, participants will have been tested on many of the FPC and CPP body-of-knowledge concepts and skills covered in the certification examinations. 2.4 CEUs.

**ORGU 0010: Essential Payroll Skills**
Participants who successfully complete the course can be expected to confidently assume greater responsibility in their payroll organizations and should be able to: 1) correctly identify the appropriate payment categories of employees, whether exempt or non-exempt, and demonstrate accuracy in processing paychecks, taxes and reports for various employee requirements; 2) accurately input various payroll journal entries and accurately balance and reconcile accounts; and 3) understand basic employee benefits and perform correct and accurate processing of benefits and taxes based on benefits provided to employees. In addition, participants will have been tested on many of the FPC and CPP body-of-knowledge concepts and applications covered on the certification examinations. 2.4 CEUs.

**ORGU 0011: Advanced Payroll Skills**
Participants who successfully complete the course can be considered for advancement to supervisory and managerial positions in payroll and should be able to: 1) successfully administer complex benefits and tax applications by accurately processing paychecks, taxes, and financial and federal reports for various employee requirements; 2) accurately complete all federal compliance documentation, conduct audits, identify errors, and manage inquiries and penalties with appropriate skills for IRS problem resolution; 3) demonstrate knowledge and leadership in evaluating and implementing a new information system solution; and 4) demonstrate competency in planning and managing a department or staff by creating policies and procedures appropriate for the organization and applying managerial skills learned to various department and staff situations. In addition, participants will have been tested on many of the CPP body-of-knowledge concepts and applications covered on the certification examination. 3.0 CEUs.
Payroll Practice & Management On-line Program
Payroll is a quickly changing career field, with constant fluctuation in government rules and regulations that make it difficult to keep up. The objective of this five-course program is to instruct the practitioner in all facets of payroll from the basics of “what are wages” to the intricate complexity of fringe benefits taxation and garnishments. It teaches solid skills and knowledge of payroll rules and regulations to the beginner and will increase or refresh the skills of the more experienced professional. This program is offered online only. 4.0 CEUs total.

ORGU 0018: Federal Wage and Hour Law
Gain knowledge of and skills in federal wage and hour law as it pertains to payroll preparation. Learn what areas of payroll are covered by federal wage and hour laws and which are not. Learn how to properly calculate overtime and gross pay according to federal requirements. Understand what constitutes an employee and the difference between exempt and salaried employees and how it reflects in calculating their pay. Understand what can be deducted from an employee’s paycheck and what postings must be displayed to prevent penalty assessments. 0.8 CEUs. On-line only.

ORGU 0019: State Wage and Hour Law
Gain knowledge of and skills in state wage and hour law as it pertains to payroll preparation. This course is a continuation of the topics learned in the Federal Wage and Hour Law course. Learn what areas of wage and hour law are covered by state requirements and which are not. Understand when state law applies and when federal wage and hour laws must be followed. 0.8 CEUs. On-line only.

ORGU 0020: Taxation and Compensation
Gain knowledge of and skills in federal and state payroll taxation. Learn what taxes are required to be withheld from the employee and which the employer pays directly. Learn when taxes must be deposited and reported and the methods available. Understand how to research and determine multi-state taxation requirements. Learn how to handle Form W-4 and what constitutes taxable and nontaxable wages. Learn when wages are considered supplemental and how pay periods effect taxation requirements. 0.8 CEUs. On-line only.

ORGU 0021: Fringe Benefits, Compensation and Taxation
Gain knowledge of and skills in understanding the basics of fringe benefits, including law requirements, taxation and reporting. Learn what methods are available for calculating the personal use of a company vehicle and when relocation is taxable. Understand how third party sick pay is reported and what taxes expatriates and nonresident aliens are subject to. 0.8 CEUs. On-line only.

ORGU 0022: Payroll Management and Year-end Reporting
Gain knowledge of and skills in managing a payroll department. Whether or not it is a large or small payroll department management is the key to success. Learn how to write department procedure manuals, handle IRS notices and research payroll regulations using the Internet. Understand the regulations concerning garnishments and what records to retain. Learn how to properly prepare for and complete year-end including required year-end memos and notices, Form W-2 submission and corrections, and Form 940 reporting. 0.8 CEUs. On-line only.
HUMAN RESOURCES

HRCU 0001: PHR/SPHR Exam Preparation Course
The program is offered in cooperation with the Society for Human Resource Management (SHRM) as a preparation for the Professional in Human Resources (PHR) and Senior Professional in Human Resources (SPHR) national certification examinations administered by the Human Resource Certification Institute (HRCI). It utilizes the SHRM Learning System materials to provide Human Resource professionals with a review of key areas in human resource management. 4.0 CEUs. Also offered On-line.

HRCU 0034: Essentials of Human Resource Management
This course provides an overview of the body of knowledge defined by the Society for Human Resource Management (SHRM) for those who desire a clear understanding of the responsibilities and legalities of HR functions. The SHRM federal point-of-view is supplemented by highlights of pertinent California law. 1.8 to 2.4 CEUs, depending on location.

TRAINING & DEVELOPMENT

Human Performance Improvement Certificate Program
This program offers the curriculum of the American Society for Training and Development (ASTD) in a five-course series designed to identify and analyze gaps in human performance in business settings and to design and implement beneficial improvements and to measure results.

HRCU 0020: Human Performance Improvement in the Workplace
The student will learn the HPI process to guide your clients to articulate their business goals, link these goals to human performance, diagnose the current state of performance in the organization, find the root causes for performance deficiencies, implement solutions, and evaluate the results of the interventions. The student will also experience the task of performance consulting and what it takes to manage the change that accompanies interventions, and will identify the core skills necessary to be a performance consultant. This course is the prerequisite for all other HPI Certificate Program courses. 3.0 CEUs.

HRCU 0037: Analyzing Human Performance
Prerequisite: HRM/HRCU 0020. The student will learn to use the Performance DNA Toolkit, a complete, state-of-the-art, flexible set of tools, guides, checklists, and templates, to be able to conduct a comprehensive analysis of human performance for any position. With flexibility and completeness of the analysis process in mind, the tools were designed to meet the needs of both a newly indoctrinated performance analyst and a seasoned professional. They were designed to be effective in complex high technology environments, sales or manufacturing, and every situation in between. 3.0 CEUs.

HRCU 0038: Evaluating Performance Improvement Interventions
Prerequisite: HRM/HRCU 0020. Assess the evaluation theories you already know and see how they apply to the HPI process. Learn the strengths and limitations of familiar evaluation models and how the Performance Improvement Intervention Model blends the best of other evaluation models and ties directly
to Human Performance Improvement work. Learn how to plan and implement the evaluation process, and learn how to select the correct measurement indices for different situations. 3.0 CEUs.

**HRCU 0039: Selecting & Designing Performance Improvement Interventions**

*Prerequisite: HRM/HRCU 0020.* Learn how to link root causes to interventions that fall into one of six categories – knowledge, information, physical resources, structure/process, motives, and wellness, and then how to locate and contract with specialists in these areas. You will learn how to monitor and manage the implementation process from start to finish, to ensure that the interventions are following the prescribed plan. This skill-building class will give you practical tools to build a seamless delivery system for your interventions. 3.0 CEUs.

**HRCU 0040: Transitioning to Human Performance Improvement**

*Prerequisites: You must complete all of the other four HPI Certificate Program courses prior to participating in this course.* This hands-on program will give you skills to gauge your organization’s readiness for the change and techniques for keeping the improvement momentum alive. You will create a transition plan for your own organization that, when put into action, will foster an environment that supports the ideals of the HPI movement. Feedback on your transition plan will be provided before you present it to your stakeholders. 3.0 CEUs.

**TREASURY/CASH MANAGEMENT (AFP)**

**ORGU 0031: Certified Treasury Professional (CTP) Exam Prep Course**

A general professional development and examination preparation program based on the sixteen content areas of the CTP body of knowledge, written by experts on corporate cash management by the Association for Financial Professionals. 3.0 CEUs. Offered at the San Diego, Irvine and Manhattan Beach Campuses.

**MANAGEMENT ACCOUNTING**

**Certified Management Accountant**

This program delivers a comprehensive, customized learning experience in four convenient courses mirroring the four parts of the Institute of Management Accountants CMA Exam. This instructor-led program has been designed both for professional development and for CMA Exam preparation. Each course has been developed around the recently revised body of knowledge that reflects the unique knowledge and skill set required for success in today's dynamic managerial finance and accounting profession.

**ORGU 0036: CMA Part 1: Business Analysis**

Business Economics, Global Business, Internal Controls, Quantitative Methods, Financial Statement Analysis

**ORGU 0037: CMA Part 2: Management Accounting and Reporting**

Budget Preparation, Cost Management, Information Management, Performance Measurement, External Financial Reporting
ORGU 0038: CMA Part 3: Strategic Management
Strategic Planning, Strategic Marketing, Corporate Finance, Decision Analysis, Investment Decisions

OGU 0039: CMA Part 4: Business Applications
Organization Management, Organization Communication, Behavioral Issues, Ethical Considerations

EMPLOYEE BENEFITS

Certified Employee Benefit Specialist Program (CEBS)
The Certified Employee Benefit Specialist program is an eight-course curriculum covering the entire spectrum of employee benefits. It is designed to help individuals develop a comprehensive understanding of employee benefit principles and concepts and to prepare to challenge the national examinations established for each of the courses. Those who pass all eight exams earn the professional designation Certified Employee Benefit Specialist (CEBS), the most widely recognized and highly respected designation in the employee benefits field. The six required courses are CEBS #s 1, 2, 3, 4, 8 and COMP 1. Two electives must be chosen from among any of the remaining courses. There are three sub-certifications available:

Group Benefits Associate: Students can earn the GBA designation after passing the tests for CEBS course #s 1, 2, 9 and either 8 or Personal Financial Planning 1.
Retirement Plans Associate: Students can earn the RPA designation after passing the tests for CEBS course #s 3, 4, 7 and either 8 or Personal Financial Planning 1.
Compensation Management Specialist: Students can earn the CMS designation after passing the tests for courses COMP 1, COMP 2 and CEBS 8.

HRCU 0021: CEBS 1: Employee Benefits: Concepts and Health Care Benefits
The coverage of health care benefits begins with a discussion of the environment of health care and health care plans, followed by health plan designs and cost-control techniques. 3.0 CEUs.

HRCU 0022: CEBS 2: Employee Benefits: Design, Administration and Other Welfare Benefits
Following coverage of the various forms of life insurance benefits provided through the employment relationship, Course 2 examines a wide variety of other welfare benefits including dependent care and family leave benefits; work/life benefits—such as financial planning, legal services, property/liability insurance and education assistance; and vacation and other time-off benefits. 3.0 CEUs.

HRCU 0030: CEBS 3: Retirement Plans: Basic Features and Defined Contribution Approaches
This course reviews the historical development of retirement plans, analyzes various sponsor objectives served by the creation of qualified retirement plans and then provides a detailed analysis of both the tax and non-tax qualification requirements. It is also designed to give candidates an understanding of the types of individual account retirement plans available. 3.0 CEUs.
HRCU 0023: CEBS 4: Retirement Plans: Defined Benefit Approaches and Plan Administration
Course 4 is designed to teach the contemporary fundamentals of pension plans with particular emphasis on the defined benefit approach to providing retirement income. It examines such complex retirement issues as the creation of hybrid plans, offering early retirement incentives and structuring retirement plans to meet the special needs of executives. 3.0 CEUs.

HRCU 0026: CEBS 7: Asset Management
The course introduces asset management in the context of setting investment objectives for pension plan assets. The course then provides the necessary background on financial markets, how they are organized and how they operate. 3.0 CEUs.

HRCU 0027: CEBS 8: Human Resources and Compensation Management
The legal and managerial requirements that human resource and compensation decisions be made in a nondiscriminatory manner are examined, the processes for carrying out effective recruitment and retention are presented, and issues related to creating effective training and development programs and dependable performance assessment systems are emphasized. 3.0 CEUs.

HRCU 0028: CEBS 9: Health Economics
The course presents an overview of the health care systems in the United States and other countries and discusses the role of third-party payers and their reimbursement methods. The course examines the determinants of good health in the United States and considers the variables including insurance that affect the demand curve for medical services. 3.0 CEUs.

HRCU 0035: Personal Financial Planning 1
This course introduces the concepts and principles of personal financial planning, including the steps in the planning process and the importance of formulating quantifiable client objectives. It also describes sources of information and tools used by the planner. This course also describes relevant ethical issues and principles of professionalism required of the financial planning practitioner. 3.0 CEUs.

HRCU 0042: COMP 1: Compensation: Concepts and Principles
This course provides a framework for understanding various types of compensation approaches. Methods for decision-making regarding pay level, pay mix and pay structures are explored. The course also examines the compensation of special groups, external market forces that impact compensation, the collective bargaining process, and the role of government and legal compliance issues in determining compensation practices. 3.0 CEUs.

HRCU 0043: COMP 2: Executive Compensation and Compensation Issues
This course presents an overview of executive compensation issues and practices. The course describes the various components of executive compensation including direct pay, employee benefits, perquisites, short-term incentives, and long-term incentives. Design considerations in using these
alternate forms of pay and the business objectives they seek to achieve are discussed. 3.0 CEUs.

MANAGEMENT/LEADERSHIP/PERSONAL DEVELOPMENT

ORGU 0002: Nonprofit Management
Designed to prepare participants for staff leadership positions within nonprofit organizations. It examines the fundamental operating principles of nonprofit businesses and analyzes practical and proven management techniques, along with less traditional, more innovative strategies designed to address management issues in the 21st Century. 4.7 CEUs. Offered at the San Diego Campus.

HRCU 0006: Casino Management
Designed in cooperation with the Director of Operations of Fantasy Springs Casino, Inc., this 64 hour intensive program prepares managers in the following areas: strategic management, employee law, employee motivation, internal control of operations, food and beverage cost control, security and surveillance, casino/hotel housekeeping and maintenance strategies, and customer service relations. 6.4 CEUs. Offered at the Coachella Valley Campus.

OLCU 0023: Servant Leadership Certification
A 6-month long curriculum designed to introduce you to the concepts of servant leadership and immerse you in an environment that helps you apply servant leadership in your personal and professional life. The curriculum consists of six modules that help you explore all aspects of yourself in relation to servant leadership: 1) Servant Leadership basics, 2) self awareness, 3) relation to others, 4) application to work, 5) application beyond work, and 6) spiritual development, synthesis & stewardship. Offered in San Diego. 3.0 CEUs.

ORGU 0024: Advanced Career Strategies
A comprehensive career development and job search course for those dedicated to maximizing their short and long term career potential. Students work as a team lead by a career and transition coaching professional and focus on step-by-step facilitation using a 180-page career development manual. It is a semester-length course, allowing enough time to select an appropriate goal and implement a strategy to reach that goal. Students are coached through the entire career development process, from assessment instruments and targeting to implementing a career advancement campaign. Offered at the Irvine Campus. 4.0 CEUs.

OLCU 9625: Leadership Education and Development Seminar (LEADS)
An extensive and fully integrated leadership development program offered for intact workgroups and/or management teams seeking to enhance organizational effectiveness and unity. Customized applications of cutting-edge theory to actual practice allow participants to explore many of the core concepts and competencies of the award-winning OL curriculum, including Servant-Leadership, Team-Building, Ethics, Communication, Creating Shared Vision, and Organizational Change. 3 Extended Education Credits.
Information Technology

Chapman University College offers a comprehensive collection of programs for information technology professionals. Several programs prepare experienced workers to challenge nationally-recognized certification examinations. Programs also include theoretical courses that supplement these certification courses to yield a Chapman Certificate. Professional Development Degree Credit or Continuing Education Units (CEUs) may be awarded upon successful completion. Topics include:

- A+
- Network+
- Linux
- CISCO (CCNA, CCNP, CCDP)
- Microsoft Certified Systems Engineer on Windows 2003 Server
- Database Technology and Administration (Oracle DBA and Microsoft MCDBA)
- Information Technology Project Management
- Certified Internet Webmaster
- Security Certified Program
- Telecommunications/Telephony

Courses are instructor-led lab-style and are listed by topics. Call (800) 392-8704, or visit the website at www.chapman.edu/it for more detailed information.

CSCU 0026: A+ Certification

Our A+ course is intended to be the first course in any networking, Microsoft Certified Professional (MCP), Microsoft Certified Systems Engineer (MCSE), or CISCO certification track. A+ Certification training will help the student troubleshoot PC hardware and software problems, install operating systems and applications, use DOS, Windows 98, NT 4.0, and Windows 2000 operating systems, and master skills in formal problem-solving. Students will also learn about computer hardware components such as CPU’s memory, storage media, modems, network interface cards (NICS) and peripherals.

CSCU 0086: Network+ Network and Operating Systems Fundamentals

Prerequisites: A+ Certification or equivalent of experience. This course provides individuals who are new to Microsoft Windows 2000 with the knowledge necessary to understand and identify the tasks involved in supporting Windows 2000 networks. This is an introductory course designed to provide an overview of networking concepts and how they are implemented in Windows 2000 and 2003 and NT 4.0.

SCU 0028: Introduction to Linux, Unix and Computer Networking

This course is designed for students looking for an introduction to Linux, UNIX and computer networking. The course covers the essentials of installing, configuring, maintaining, administering, and troubleshooting the Linux Operating System in a networked environment. Attention is also given to the history and evolution of the UNIX kernel and the relationship of Linux to UNIX. 4.5 CEUs.
CISCO Certification
CISCO certification ensures high standards of technical expertise. Achieving CISCO certification—at any level—means joining the ranks of skilled network professionals who have earned recognition and respect in the industry. CISCO provides three levels of certification for IT professionals with several different tracks to meet individual needs. Chapman University offers training courses to prepare the student for both the Associate (CCNA) and Professional (CCNP, CCDP) levels of the CISCO certification hierarchy.

CSCU 0061: CCNA Networking Fundamentals
Prerequisites: CompTIA Network+ Certification or equivalent experience. This course is a prerequisite for the CSCU 0062 Cisco Certified Network Associate Exam Preparation. CCNA Fundamentals provide students with in-depth knowledge of the TCP/IP protocol suite, advanced subnet masking, and the OSI Reference Model. Pre-CCNA lays the foundation for all advanced studies of CISCO routers and switches. The student will learn Ethernet networking concepts and standards; will explore the basics of the Open Systems Interconnection model using the CISCO three-layer hierarchical model; and will select CISCO equipment based on this model. The student will also learn advanced TCP/IP concepts starting with the TCP/IP protocol stack’s network access layer through IP addressing and subnetting.

CSCU 0062: CCNA Interconnecting Cisco Network Devices
The CCNA certification (CISCO Certified Network Associate) indicates a foundation in and apprentice knowledge of networking. CCNA certified professionals can install, configure, and operate LAN, WAN, and dial access services for small networks (100 nodes or fewer), including but not limited to use of these protocols: IP, IGRP, Serial, Frame Relay, IP RIP, VLANs, RIP, Ethernet, Access Lists.

CSCU 0067: Building Scalable CISCO Internetworks
This course provides the student with the knowledge and skills to manage large, multiprotocol internetworks using access lists, queuing, tunneling, route distribution, router maps, BCP, OSPF, and route summarization.

CSCU 0087: Building CISCO Multilayer Switched Networks
Prerequisites: Network+ Certification or CCNA Status. This course provides the student with the knowledge to implement switches in a network and the skills to configure and troubleshoot the CISCO 1900 and 5000 series of Catalyst switches.

CSCU 0068: Building CISCO Remote Access Networks
Prerequisites: Network+ Certification or CCNA Status. This course provides the student with the knowledge and skills to install, configure, monitor, and troubleshoot Frame Relay and CISCO ISDN and dial-up access products.

CSCU 0069: CISCO Internetwork Troubleshoot Support
Prerequisites: Network+ Certification or CCNA Status. This course provides the student with the knowledge and skills to troubleshoot Ethernet and Token Ring LANS, IP, IPX, and AppleTalk Networks, as well as ISDN, PPP, and Frame Relay networks.
Microsoft Certified Systems Engineer (MCSE) on Windows 2003 Server

Microsoft’s MCSE 2003 certification is the best way to show employers, clients and colleagues that you’re an expert who has what it takes to meet the IT industry’s demands. Microsoft’s certification program is one of the industry’s most comprehensive programs for assessing and maintaining software-related skills and is recognized by technical managers worldwide as a mark of quality and knowledge.

MCSE 2003 CORE: NETWORKING SYSTEMS

CSCU 8827: Managing and Maintaining a Microsoft Windows Server 2003 Environment

This course provides students with the knowledge and skills that are required to manage accounts and resources, maintain server resources, monitor server performance, and safeguard data in a Microsoft Windows Server™ 2003 environment. This is the first course in the Systems Administrator and Systems Engineer tracks for Windows Server 2003 and serves as the entry point for other courses in the Windows Server 2003 curriculum. 3 units.

CSCU 8828: Implementing, Managing, and Maintaining a Microsoft Windows Server 2003 Network Infrastructure

This course provides students with the knowledge and skills to implement, manage, and maintain a Microsoft Windows Server™ 2003 network infrastructure. Course topics include implementing routing; implementing, managing, and maintaining Dynamic Host Configuration Protocol (DHCP), Domain Name System (DNS), and Windows Internet Name Service (WINS); securing Internet Protocol (IP) traffic with Internet Protocol security (IPSec) and certificates; implementing a network access infrastructure by configuring the connections for remote access clients; and managing and monitoring network access. 3 units.

CSCU 8829: Planning and Maintaining a Microsoft Windows Server 2003 Network Infrastructure

This course provides students with the knowledge and skills necessary to plan and maintain a Windows® Server 2003 network infrastructure. This is the fifth course in the Windows Server 2003 Systems Engineer curriculum. 3 units.

CSCU 8830: Planning, Implementing, and Maintaining a Microsoft Windows Server 2003 Active Directory Infrastructure

Provides students with the knowledge and skills to successfully plan, implement, and troubleshoot a Microsoft Windows Server™ 2003 Active Directory® directory service infrastructure. The course focuses on a Windows Server 2003 directory service environment, including forest and domain structure, Domain Name System (DNS), site topology and replication, organizational unit structure and delegation of administration, Group Policy, and user, group, and computer account strategies. 3 units.
MCSE 2003 CORE: DESKTOP OPERATING SYSTEMS

CSCU 8826: Implementing and Supporting MS Windows XP Professional
This course provides in-depth, hands-on training for Information Technology (IT) professionals responsible for the planning, implementation, management, and support of Windows XP Professional.

MCSE 2003 CORE: DESIGN

CSCU 8831: Designing a Microsoft Windows Server 2003 Active Directory and Network Infrastructure
This course provides students with the knowledge and skills to design a Microsoft Active Directory® directory service and network infrastructure for a Microsoft Windows Server™ 2003 environment. The course is intended for systems engineers who are responsible for designing directory service and/or network infrastructures. 3 units.

MICROSOFT ELECTIVES

MCSE 8832: Implementing and Managing Microsoft Exchange Server 2003
This MCSE 2003 elective course provides students with the knowledge and skills that are needed to update and support a reliable, secure messaging infrastructure. This infrastructure is used for creating, storing, and sharing information by using Microsoft Exchange Server 2003 in a medium-sized to large-sized (250 to 5,000 seats) messaging environment. This course offers a significant amount of hands-on practices, discussions, and assessments that assist students in becoming proficient in the skills that are needed to update and support Exchange Server 2003. 3 units.

CSCU 8561: Designing a MS Windows 2000 Directory Services (Exam 70-219)
Prerequisites: equivalent knowledge or skills. This course provides students with the knowledge and skills necessary to design a Microsoft Windows® 2000 directory services infrastructure in an enterprise network. Strategies are presented to assist the student in identifying the information technology needs of an organization, and then designing an Active Directory™ structure that meets those needs.

CSCU 8562: Designing a MS Windows 2000 Network Infrastructure (Exam 70-221)
Prerequisites: CSCU 8154 or equivalent knowledge. This course provides students with the information and skills needed to create a networking services infrastructure design that supports the required network applications. Each module provides a solution based on the needs of the organization.

CSCU 8150: Designing a Secure Microsoft Windows 2000 Network (Exam 70-220)
Prerequisites: CSCU 8561, 8154, or equivalent experience. This course provides students with the knowledge and skills necessary to design a security framework for small, medium, and enterprise networks by using Microsoft Windows 2000 technologies.
**CSCU 8227: Installing, Configuring, and Administering Microsoft Internet Security and Acceleration (ISA) Server 2000 (Exam 70-227)**
Prerequisites: CSCU 8152, 8153, or equivalent experience. The goal of this course is to provide Information Technology (IT) professionals with the knowledge and skills to deploy and manage Microsoft Internet Security and Acceleration (ISA) Server 2000 in an enterprise environment.

**CSCU 8224: Installing, Configuring, and Administering Microsoft Exchange 2000 Server (Exam 70-224)**
Prerequisites: CSCU 8154 or equivalent experience. The goal of this course is to teach the students the knowledge and skills necessary to install, configure, and administer Microsoft Exchange 2000.

**CSCU 8072: Administering a Microsoft SQL Server 2000 Database (Exam 70-228)**
Prerequisites: Network+ Certification or equivalent experience. This course provides students with the knowledge and skills required to install, configure, administer, and troubleshoot the client-server database management system of Microsoft SQL Server™ 2000.

**CSCU 8007: Secure Web Access Using Proxy Server (Exam 70-088)**
Prerequisites: CSCU 0086 or equivalent experience. This course provides students with the knowledge and skills required for installation, configuration, and troubleshooting. In addition, this course has been updated to reflect new features including web publishing enhancement of reverse hosting and proxy, hierarchical and distributed arrays, and packet filtering.

**MCSE 2000 TO MCSE ON WINDOWS 2003 SERVER UPGRADE CLASS**

**MCSE 8825: Planning, Implementing, Managing and Maintaining a Microsoft Windows Server 2003 Environment for an MCSE Certified on Windows 2000**
This course focuses on the changes from Microsoft Windows® 2000 to Windows Server 2003, and is intended for Microsoft Certified Systems Engineers (MCSEs) certified on Windows 2000 who have experience planning, implementing, and supporting a Windows 2000-based Microsoft Active Directory® directory service network, and who need to learn how to leverage those skills in a Windows Server 2003 environment. 3 units.

**Database Technology and Administration**
The Certificate Program in Database Technology and Administration is a course of study that seeks to ground the student in the fundamentals of Database Management Systems (DBMS) prior to certification as either an MCDBA or Oracle 9i/DBA. All students must first complete both CSCU 0017 and CSCU 0018 before electing to specialize in either the Oracle 9i/DBA or Microsoft MCDBA track.

**CSCU 0017: Introduction to Database Management Systems**
This course introduces students to techniques of data analysis involved in designing relational databases and how to apply them effectively. Students will learn how to design an efficient relational database by creating relational
constructs, normalizing tables, creating joins and views, optimizing the database’s physical design, and avoiding common database design mistakes.

**CSCU 0018: Advanced Database Management Systems**
Prerequisites: CSCU 0117. This course provides new users of relational databases with a solid introduction to SQL. Students are required to build a database and access stored information by performing queries. By the end of the course, students will have the requisite skills to retrieve, add, and delete data from an SQL-compliant database.

**Oracle 9i**
This is a hands-on program that helps the student prepare for both a new career in database administration and Oracle’s certification as an Oracle 9i Certified Database Administrator. In the Oracle 9i training you will learn the skills needed to become a DBA and learn how to manage, administer, backup and tune an Oracle 9i database.

**CSCU 0019: Introduction to Oracle 9i: SQL (Exam 1Z0-007)**
This course introduces the student to basic SQL select statements, displaying data from multiple tables, single row functions, controlling user access, conducting sub-queries and producing readable output with iSQL Plus.

**CSCU 0020: Oracle 9i: DBA Fundamentals I (Exam 1Z0-031)**
Topics include Oracle architectural components, Oracle Server, managing an Oracle instance; data dictionary content and usage, maintaining redo log files and the control file.

**CSCU 0021: Oracle 9i: DBA Fundamentals II (Exam 1Z0-031)**
Topics include an overview of Oracle Net Architecture, Net Server-Side configuration, usage and configuration of the Oracle Shared Server and Oracle Net Services Client-Side configuration, RMAN backup and recovery, transporting and loading data, recovery and catalog creation.

**CSCU 0022: Oracle 9i: Performance Tuning (Exam 1Z0-033)**
This course provides an overview of diagnostic and tuning tools including sizing the buffer cache, tuning rollback segments, monitoring and detecting lock contention, tuning Oracle Shared Server and application tuning.

**Microsoft Certified Database Administrator (MCDBA)**
The Microsoft Certified Database Administrator (MCDBA) on Microsoft SQL Server 2000 credential is the premier certification for professionals who implement and administer Microsoft SQL Server™ databases. This certification is appropriate for individuals who derive physical database designs, develop logical data models, create physical databases, create data services by using Transact-SQL, manage and maintain databases, configure and manage security, monitor and optimize databases, and install and configure SQL Server.

**CSCU 8827: Managing and Maintaining a Microsoft Windows Server 2003 Environment**
This course provides students with the knowledge and skills that are required to manage accounts and resources, maintain server resources, monitor server performance, and safeguard data in a Microsoft Windows Server™ 2003 environment.
environment. This is the first course in the Systems Administrator and Systems Engineer tracks for Windows Server 2003 and serves as the entry point for other courses in the Windows Server 2003 curriculum.

CSCU 8828: Implementing, Managing, and Maintaining a Microsoft Windows Server 2003 Network Infrastructure
This course provides students with the knowledge and skills to implement, manage, and maintain a Microsoft Windows Server™ 2003 network infrastructure. Course topics include implementing routing; implementing, managing, and maintaining Dynamic Host Configuration Protocol (DHCP), Domain Name System (DNS), and Windows Internet Name Service (WINS); securing Internet Protocol (IP) traffic with Internet Protocol security (IPSec) and certificates; implementing a network access infrastructure by configuring the connections for remote access clients; and managing and monitoring network access.

CSCU 8072: Administering a Microsoft SQL Server 2000 Database (Exam 70-228)
Prerequisites: Network+ Certification or equivalent experience. This course provides students with the knowledge and skills required to install, configure, administer, and troubleshoot the client-server database management system of Microsoft SQL Server™ 2000.

CSCU 8073: Programming a Microsoft SQL Server 2000 Database (Exam 70-229)
Prerequisites: CPSC8151, 8152, or equivalent of experience. This course provides students with the technical skills required to program a database solution by using Microsoft SQL Server™ 2000.

Information Technology Project Management

CSCU 0016: Introduction to Information Technology Project Management
An introductory course to the concepts of project management with an emphasis on applying the project management processes to information technology projects. Topics overviewed include the project management knowledge areas of integration, scope, time, cost, quality, procurement, human resource, risk and communications management.

Certified Internet Webmaster (CIW)

CSCU 0084: I-Network+ (Foundation Course)
Prerequisites: understanding of Windows is required. This course introduces technical terms and concepts related to the Internet and are geared toward marketing, sales, training and human resources careers. The course prepares students for configuring the necessary networking components of intranets, extranets, VPSs, and Internet connections and how to understand the differences between them. It also prepares students for the development of Web pages that can be published to a Web site.

CSCU 0080: CIW Professional Site Design
Prerequisites: I-Network+. This course teaches students how to create and manage Web sites using FrontPage 2000, Macromedia Dreamweaver 3.0, Flash
4.0, Dynamic HTML, and various multimedia and CSS standards. Students will also implement the latest strategies to develop third-generation Web sites, evaluate design tools, discuss future technology standards, and explore the incompatibility issues surrounding current browsers. The course focuses on theory, design and Web construction, along with information architecture concepts, Web project management, scenario development and performance evaluations.

**CSCU 0081: CIW Professional eCommerce Designer**
Prerequisites: I-Network+. This course focuses on standards, technologies and practices in electronic commerce. This course examines the relationships among cardholders, issuers, merchants, acquirers, payment gateways, and third parties through the use of Secure Electronic Transactions (SET), cryptography standards, Certificate Authorities, and services such as VeriSign and CyberCash. During this class, students will build a functional site through a series of labs that cover the various aspects of a commercial site.

**CSCU 0082: CIW Professional Server Administration**
Prerequisites: I-Network+. This course focuses on managing and tuning the corporate infrastructure to support e-business solutions including Web server systems, FTP, and news and mail servers for midsize to large businesses. Server Administration will provide students with the skills to configure, manage, and deploy business solution servers.

**Security Certified Program**
The Security Certified Network Professional (SCNP) program is a series of courses designed to validate the security skills of IT professionals. During the two-course track, students will focus on defense of a network. To become a SCNP, there is one test that must be passed.

**CSCU 0012: Network Security Fundamentals**
Prerequisite: CompTIA Network+ or equivalent experience. This course is designed to provide both Windows NT and Unix network administrators an awareness of security related issues and the essential skills they need to implement security in such networks. Topics covered include Fundamental and Advanced TCP/IP, Router Security, Internet Security, General & Specific Attack Methods and Implementing Security.

**CSCU 0013: Network Defense and Countermeasures**
Prerequisite: CSCU 0112 or equivalent experience and technological skills. This is the second course in the SCNP track. This course focuses on firewalls, intrusion detection, IP Signature and Analysis, Risk Analysis, Virtual Private Networks, Distributed Denial of Service and Security Policies.

**TELECOMMUNICATIONS/TELEPHONY**

**CSCU 0001: Basic Fiber Optic Training**
Fiber Optic Training class covering a beginner level for voice, video & data. Included in the class is hands-on training for connectorization, patch panel preparation, cable preparation and optical loss testing. 2.5 CEUs.
**CSCU 0002: Advanced Fiber Optic Training**
Fiber Optic Training class covering advanced level for voice, video & data. Included in the class is hands-on training for splicing, optical time domain reflectometer testing, Fiber-To-The-Home and Practical Application.  2.5 CEUs.

**CSCU 0003: Passive Optical Network (PON)**
PON Fundamentals class provides a practical understanding of Passive Optic Networks. This course provides the knowledge to help the students to develop the skills needed to design, install, test and maintain a PON.  2.5 CEUs.

**CSCU 0006: Understanding and Using HDSL**
Using and understanding HDSL class is an overview of the history of digital carrier from T1 to HDSL. The class will be based on equipment from ADTRAN. Included in the class is hands-on training for installing the equipment, test/turn-up for both ADSL and HDSL equipment, and demonstrating safety practices.  2.5 CEUs.

**Arts & Sciences**

**Orff Schulwerk Music & Movement Education for Children - Training for Teachers**
Music and movement teachers find in the Orff Schulwerk a total approach to fostering creativity and conveying musical knowledge and skills. Using their voices to speak and sing, and their bodies to move and dance, children joyously progress from musical imitation to improvisation and literacy. Offered in Orange and San Diego Counties. Each course awards 4 units of graduate elective credit.

**EDUC 9606: Level I Orff Schulwerk**
Basic pedagogical principles and skill development in classroom applications of Orff Schulwerk techniques in rhythmic and melodic training through speech, singing, body percussion, playing Orff instruments, improvisation and elemental movement. Develop simple arrangements using pentatonic scales and ostinato, bordun accompaniments and elemental forms using common meters. Recommended for anyone with a working knowledge of music.

**ED/A 9344: Level II Orff Schulwerk**
Continued skill development as described above; addition of alto recorder, arranging and composition using major and minor scales and more advanced ostinato structures, exploration of diatonic modes, mixed meters, bordun and chord accompaniments, with classroom applications. Group compositions with harmony structured accompaniments. Prerequisite: Level I course.

**ED/A 9792: Level III Orff Schulwerk**
Continued skill development with advanced study in modes, jazz improvisation, orchestration, explorations in mixed meters, borduns. Group compositions with harmony structured accompaniments, particularly focusing on modes. Prerequisite: Level II course.
EDUU 9408a/PSYU 9029: Scotopic Sensitivity Screening
A two-day training seminar to certify participants as screeners qualified to assess students for this visual-perceptual problem. Participants will learn how to administer the Irlen Reading Perceptual Scale (IRPS) to identify perceptual symptoms related to SSS, and the use of color overlays to remediate these problems. For professionals, this is an additional tool to help address another "piece of the puzzle" in reading intervention. One unit of Professional Development Credit. Offered at the Concord Campus.

FOOD SCIENCE
FSNU 0001: Better Process Control School
An Instructional Training Course on Thermal Processing of Canned Foods recognized by the U. S. Food and Drug Administration - Food Safety and Inspection Service (USDA-FSIS). Instruction will be given by members of the Chapman University Food Science and Nutrition department and by experts from local food companies, all of whom have had wide experience in thermal processing, container handling, federal regulations for manufacturing and processing foods, food plant sanitation and food microbiology. Successful participants are awarded a certificate of completion, and are registered with the FDA as qualified food canning supervisors. 2.8 CEUs. Offered on the Orange Campus.
Directories

Chapman University Presidents

The university, dating back to 1861, has been served faithfully by the following twelve presidents:

- James B. Martin 1863–1875
- Benjamin H. Smith 1875–1878
- Allen M. Elston 1878–1892
- Henry D. McAneny 1892–1912
- Arthur C. Braden 1922–1929
- Cecil F. Cheverton 1929–1941
- George N. Reeves 1942–1956
- J.E. Wilkinson (Acting) 1956–1957
- John L. Davis 1957–1971
- Donald C. Kleckner 1971–1975
- Davis Chamberlin (Acting) 1976–1977
- James L. Doti 1991–

Board of Trustees

The Board of Trustees is composed of forty-two regular members, one third of whom are elected annually for a three-year term. In addition, the president of the university and the presidents of the Board of Governors, Alumni Association, and Town and Gown, and the regional ministers of the three regions of the Christian Church (Disciples of Christ) to which the university is related serve as trustees ex officio.

Officers

- Donald E. Sodaro Chairman
- Doy B. Henley Executive Vice Chairman
- Paul Folino Vice Chairman
- Donald P. Kennedy Vice Chairman
- Marion Knott Secretary
- Lynn Booth Assistant Secretary
Chapman University Officers

James L. Doti, Ph.D.
President, 1991

Hamid Shirvani, Ph.D., L.H.D. (hon.)
Executive Vice President and Provost, 2000

Gary Brahman, M.B.A., CPA
Executive Vice President of Finance and Administration/Chief Financial Officer, 1994

Saskia M. Knight, M.P.A.
Vice President and Dean of Enrollment Services, 1988

Joseph Kertes, Ph.D.
Vice President and Dean of Students, 1992

Sheryl A. Bourgeois, B.A.
Vice President for University Advancement, 1998

Provost

Hamid Shirvani, Ph.D., L.H.D. (hon.)
Executive Vice President and Provost, 2000

Marisol Arredondo, Ph.D.
Director, Institutional Research, 2001

Charlene Baldwin, M.A.
Dean of the Library, 2000

Ellen Curtis-Pierce, Ph.D.
Assistant Provost for Teachers Education, 2002

Ronald L. Farmer, Ph.D.
Dean, Wallace All Faiths Chapel, 1997

David Fite, Ph.D.
Associate Provost for Institutional Planning and Assessment, 2000

Amy Friedli, J.D.
Special Assistant To the Provost, 2000

Jeanne Gunner, Ph.D.
Associate Provost for Academic Programs, 2003

Lynne Mayer, Ed.D.
Director, Center for Academic Success, 1996

Raymond Sfeir, Ph.D.
Associate Provost for Academic Administration, 1985

Kevin Wellsfry, B.S.
Academic Budget Analyst, 2001
Finance and Administration
Gary Brahm, M.B.A., C.P.A.
Executive Vice President of Finance and Administration/Chief Financial Officer, 1994

Pamela Ames, B.A.
Director of Purchasing, 1994

Jackie L. Blagrave, B.A.
Director of University Services, 1973

Behzad Binesh, M.B.A.
Controller, 1979

Rosemary Booth, M.B.A.
Executive Assistant to the Executive Vice President, 2003

Janine P. DuMontelle, M.P.A., J.D.
Associate Vice President for Finance and Administration and Director of Legal Affairs and Human Resources, 1998

Michael Fahy, Ph.D.
Chief Technology Officer, 1989

Judy Harker, M.A.
Director of Conferences and Scheduling, 1976

Sylvia LeTourneau, M.A.
Chief Information Officer, 1995

Doris Lynch
Director of Student Business Services, 1988

Eduardo A. Monge, B.A.
Equal Opportunity Officer, 2000

Kris Olsen
Director of Construction Management, 2001

Michael C. Price, M.B.A.
Director of Budget Planning, 1982

Enrollment Services
Saskia M. Knight, M.P.A.
Vice President and Dean of Enrollment Services, 1988

Gregory Ball, M.S.
Director of Financial Aid, 1997

Revelation Buchanan, B.S.
Associate Registrar, 1998

Thucydides Delfin, Jr., M.B.A.
Director of International Admission and Associate Director of Graduate Admission, 1989
320  Directories

Annie Delfin-Schnirch, M.A.
Associate Registrar, 2002

Michael Drummy, B.A.
Assistant Vice President for Enrollment Services and
Chief Admission Officer, 1976

Saundra Hoover, B.S.
Director, Graduate Admission, 1986

Marcela Mejia Martinez, B.S.
Associate Director of Admission, 1998

Mike Pelly, M.S.
Director of Undergraduate Admission, 1986

Johnelle Pua Low, M.S.
Associate Director of Admission, 1994

D. Veston Rowe, M.A.
Director of Publications, 1989

David Ruderman, M.B.A.
Director of Marketing, 1999

John Snodgrass, B.S.
Registrar, 2000

Shanna Vaughn, B.S.
Associate Director of Financial Aid, 2001

Student Life
Joseph Kertes, Ph.D.
Vice President and Dean of Students, 1992

University Advancement
Sheryl A. Bourgeois, B.A.
Vice President for University Advancement, 1998

Linda W. Dixon
Assistant Vice President for University Advancement, 2004

Diane James, M.A.
Associate Vice President for University Advancement, 2003

Ruth S. Wardwell, B.S.
Director of Public Relations, News Services and Community Relations,
1991

University College Administration
Karen Graham, Ph.D.
Dean, 2002
Becky Ballestero, M.S.
Assistant Dean
Academic Administration, 1998

Ruth Black, J.D.
Assistant Dean and Director of Distance Learning, 2002

Hernan Bucheli-Lecareo, M.A.
Assistant Dean of Enrollment Management, 2005

Vi Champa
Executive Assistant to the Dean, 1982

Laurie G. Dodge, Ph.D.
Assistant Dean of Assessment and Academic Publications, 1994

Vince Glaeser, M.B.A.
Director, Corporate and IT Extended Education Programs, 2000

Teresa B. Hull, Ed.D
Associate Dean of Chapman University College Operations, 2002

Sharon Keith, M.A.
Director of Training and Development, 2000

Shirley Potterton, M.A.
Director of K-12 Professional Development, 2002

Marilyn Potts
Assistant to the Associate Dean of Operations, 2005

Bonnie L. Ross, Ph.D.
Associate Dean of Faculty Affairs, 1989

Jay Warner, M.B.A.
Director of Administrative Operations, 1992

Campus Directors
Brenda Carter, M.A.
Moreno Valley, 1978

Maria Cesario, Ph.D.
San Diego, 1978

Al DiStefano, M.Ed.
Ontario, 1989

Donna Fearnside, Ed.D.
Monterey, 1997

Ladd Graham, M.A.
Los Angeles, 2002

Patricia Graham, M.B.A.
Santa Maria, 1994

David Haigh, M.A.
Coachella Valley, 2004
Susanne Hamilton, M.S.
Bay Area, 1987

Don Mikkelson, Ed.D.
Modesto, 1989

Glen Parsons, Ed.D.
South San Joaquin, 1982

Ray Sanders, Ed.D.
Washington State, 2005

Patricia Sobczak, M.B.A.
Irvine, 1995

Patricia Steinhaus-Hammer, M.A.
Sacramento, 1982

Jerry Witte, M.A.
Antelope Valley, 1996

Faculty

Nicholas C. Aliotti, Assistant Professor of Psychology, Monterey, 2004. B.A., Lake Forest College; M.A., University of Minnesota; Ph.D., University of Georgia.

Ashour Badal, Assistant Professor of Human Resources and Organizational Leadership, Modesto; 1997. B.A., California State University, Stanislaus; M.A., Alliant International University; M.A., Ph.D., The Fielding Graduate Institute.

Virgil D. Barnes, Jr., Assistant Professor of Education, Victor Valley; 1994. B.A., California State University, Northridge; M.S., California State University, San Bernardino; Ed.D., University of Southern California.

Sandra Bonura, Assistant Professor of Education, San Diego; 2003. B.A., Point Loma College; M.S., San Diego State University; Ed.D., Northern Arizona University.

William J. Brand, Assistant Professor of Education, Santa Maria; 2004. B.A., M.A., CSU, Long Beach; Ed.D., Western Colorado University.

Ronald Browne, Assistant Professor of Psychology, Santa Maria, 1999. B.A., University of California, Los Angeles; M.A., M.S., Ph.D., California School of Professional Psychology, Los Angeles.

James D. Brownlow, Assistant Professor of Computer Science, Antelope Valley; 1974. B.A., Occidental College; M.S., Kansas University; Ph.D., University of California, Riverside.

Walter L. Bunch, Assistant Professor of Computer Science, Antelope Valley; 1998. B.S., Harvey Mudd College; M.S., Heriot-Watt University.

Roberto F. Casas, Assistant Professor of Education, Ontario; 2003. B.S., M.A., CSU Los Angeles; Ed.D., Nova Southeastern University, Florida.
Christine Cecil, Assistant Professor of Organizational Leadership, San Diego; 2000. B.A., University of California, Los Angeles; M.A., California Polytechnic University, San Luis Obispo; Ed.D., University of San Diego.

Edward T. Chen, Assistant Professor of Computer Science and Computer Information Systems, Los Angeles; 2002. B.S., Tunghai University, Taiwan; Ph.D., Brown University.

Lester L. Clements, Assistant Professor of Liberal Studies, Modesto; 1999. B.A., Adelphi University; M.A., Ph.D., St. John's University.

James W. Cole, Assistant Professor of Education, Concord; 1998. B.A., M.A., University of San Francisco; Ed.D., Nova Southeastern University.

Bruce S. Dake, Assistant Professor of Education; San Diego; 2004. B.A., CSU, Long Beach; M.A., Ed.D., United States International University, San Diego.

Nedra J. Davis, Assistant Professor of Education, Moreno Valley; 2003 B.A., Southern Illinois University; M.S., Western University of Health Sciences; Ph.D., University of Iowa.

Laurie G. Dodge, Assistant Dean of Assessment and Academic Publications, Associate Professor of Psychology, Santa Maria; 1994. B.S., M.A., Ed.S., Ph.D., Ball State University.

Marnie K. Elam, Assistant Professor of Psychology, San Diego; 1994. B.A., Point Loma College; M.A., Ph.D., California School of Professional Psychology.

Manuel L. English, Associate Professor of Health Education, McChord, 2005 B.A., University of Nebraska, Omaha; M.A., University of Oklahoma, Ph.D., University of Manchester, England.

Jennifer A. Faukner, Assistant Professor of Education, Sacramento; 1997: Sacramento, B.A., Stanislaus State University, Turlock; M.A., Ed.D., University of the Pacific.

John E. Freed, Division Chair and Associate Professor of Arts & Sciences, Concord; 2002. B.A., Gannon University; M.A., Ph.D., The Pennsylvania State University.

Karen R. Graham, Dean of Chapman University College and Associate Professor of Education; 2002. B.A., Walla Walla College; M.A., Ph.D., The Ohio State University.

William B. Hale, Assistant Professor of Education, Antelope Valley; 1988. B.A., University of New Mexico; M.A., Southwestern Baptist Theological Seminary; Ph.D., University of New Mexico.
Robert Hill, Assistant Professor of Social Science and Criminal Justice, Sacramento; 2003. B.A., Cal State University, Sacramento; M.P.A., Golden Gate University, D.P.A., University of La Verne.

Annie L. Hough, Associate Professor of Education, Victor Valley; 2004. B.S. University of the State of New York; Albany; M.A., Chapman University; Ed.D., Nova Southeastern University, Ft. Lauderdale.

Teresa B. Hull, Associate Dean of Chapman University College Operations and Associate Professor of Liberal Studies, 2002. B.S., Psychology, University of Santa Clara; M.Ed., Indiana State University; Ed.D., University of La Verne.

Janet C. Jackson, Associate Professor of Organizational Leadership, Irvine; 1995. B.A., Antioch University; M.S., Chapman University; Ph.D., The Fielding Graduate Institute.

Donald Johnston, Division Chair and Associate Professor of Leadership and Management, McChord/WA; 2003. B.S., M.S., Whitworth College; Ph.D., Gonzaga University.

Carol Kerr, Assistant Professor of Education, Coachella Valley, 2005. B.A., Queens College, Flushing New York; M.A., Kean University, Union, New Jersey; Ed.D., Temple University, Philadelphia, PA.

Wendy A. Korthuis-Smith, Assistant Professor Human Resources, McChord/WA; 2003. B.S., M.S., University of Wisconsin, LaCrosse; Ed.D., Seattle University.

Danny Lamb, Assistant Professor Computer Science, San Diego, 1989. B.S., Chapman College; M.S., West Coast University.

Mark S. Langevin, Assistant Professor of Social Sciences, Santa Maria; 1995. B.A., The Evergreen State College; M.A., Ph.D., University of Arizona.

Lynne Larsen, Assistant Professor of Education, Moreno Valley, 2004. B.S., Calvin College, Grand Rapids; M.S., Purdue University, West Lafayette; Ph.D. University of Maryland, College Park.

Meredith A. Larson, Assistant Professor of Education, Santa Maria; 1999. B.A., University of Arizona; M.A., Ph.D., Washington State University.

G. Evelyn LeSure-Lester, Associate Professor of Psychology, Ontario; 2002. B.A., University of Michigan; M.A., Ph.D., University of Illinois at Champaign.

Janis L. Lewis, Assistant Professor of Psychology, McChord/Washington; 1994. Ph.B., Wayne State University; M.A., Ph.D., University of Michigan.

James V. Liberty, Associate Professor of Organizational Leadership, Bangor/Washington; 1984. B.A., Suffolk University; M.A., University of Arizona; M.P.A., D.P.A., University of Southern California.
James E. Liese, Assistant Professor of Special Education, Modesto, 1993. B.A., California State University, Chico; M.A., Teachers College, Columbia University, New York; Ph.D., The Ohio State University.

Neil D. Lingle, Assistant Professor of Criminal Justice, Coachella Valley; 1994. B.S., California State University, Long Beach; M.S., California State Polytechnic University, Pomona.

Mary E. Mallory, Assistant Professor of Psychology, Sacramento; 1996. B.A., University of California, Santa Barbara; M.A., Ph.D., University of California, Davis.

Stephanie Amedeo Marquez, Associate Professor of Sociology, Concord; 2002. B.A., Ph.D., University of New Mexico.

Judy K. Matthews, Division Chair and Assistant Professor of Psychology, Coachella Valley; 1984. B.A., M.A., Northeastern Illinois University; M.A., Roosevelt University; M.A., Point Loma College; Ph.D., United States International University.

Michael J. McGuire, Associate Professor of Psychology, McChord/Washington; 1987. B.A., St. Martin’s College; M.A., Chapman College; Ph.D., Saybrook Graduate School and Research Center.

Jordan L. Mulder, Assistant Professor of Education, Moreno Valley; 1998. B.S., Brigham Young University; M.A., CSU, San Bernardino; Ph.D., Indiana State University.

Aspasia Neophytos-Richardson, Assistant Professor of Education, Concord; 1997. B.F.A., California College of Arts and Crafts; M.A., San Francisco State University; Ed.D., University of San Francisco.

Royal F. Norton, Assistant Professor of Computer Science, Bangor/Washington; 1989. B.S., University of California, Berkeley; M.S., University of California, Santa Barbara; M.A., University of California, Northridge.

Sinon K. O’Halloran, Assistant Professor of Education, Concord; 2004. B.A., Manhattan College, New York, M.A., University of San Francisco, Ed.D., University of California, Berkeley

Alexis Olds, Assistant Professor of Leadership and Management; Santa Maria; 1993. B.A., M.A., San Jose State University; Ph.D., The University of Utah.

Camille Y. Page, Assistant Professor of Education, Ontario; 1999. B.A., California State University, Fullerton; M.A.E., California State University, Dominguez Hills.

Carla C. Piper, Assistant Professor of Education, Modesto; 1998. B.A., University of Nebraska; M.A., Stanford University; Ed.D., University of the Pacific.
Kathleen L. Ringenbach, Assistant Professor of Psychology, Antelope Valley; 1993. B.S., East Stroudsburg State College; M.A. Trinity University; M.A. St. Mary’s University; Ph.D., Pennsylvania State University.

Charles W. Robinson, Assistant Professor of Education, Moreno Valley; 1995. B.A., University of Redlands; M.A., California State University, Long Beach.

Barbara J. Rodriguez, Division Chair and Associate Professor of Education, Los Angeles; 1997. B.S., Montana State University; M.A., Colorado State University; Ed.D., University of Central Florida.

Bonnie L. Ross, Associate Dean of Chapman University College Faculty Affairs and Associate Professor of Social Sciences, 1989. B.A., M.A., California State University, Fullerton; M.A., Ph.D., University of California, Irvine.

Mary Ann Sanders, Assistant Professor of Education, Modesto; 1984. B.A., California State University, Fresno; M.A., Saint Mary’s College of California.

Marilyn Sargent, Assistant Professor of Human Resources, Concord; 2002. B.A., University of Chicago; M.A. University of California, Berkeley; M.S., California State University, Sonoma; Ph.D. Washington University.

Richard Sinacola, Assistant Professor of Psychology, Coachella Valley, 2003, B.A., University of Detroit; M.S.W., Ph.D., Wayne State University.

David L. Sloan, Assistant Professor of Education, Sacramento; 2002. B.A., University of California, Santa Barbara; M.A., California State University, Long Beach; Ed.D., University of Southern California.

Mindy Sloan, Associate Professor of Education, San Diego; 2004. B.F.A., Northern Illinois University, Dekalb; B.S., University of Illinois, Urbana; M.S., Ph.D., University of Kentucky.

James Spence, Assistant Professor of Education, Visalia; 1996. B.S., Southwest Missouri State; M.A., University of Missouri at Kansas City; Ed.D., University of Kansas.

Marguerite Stark, Assistant Professor of Education, Monterey; 2000. B.A., California State University, Fullerton; M.A., California State University, San Bernardino.

Keith F. Storey, Associate Professor of Education, Concord; 1994. M.S., Illinois State University; M.S., Southern Illinois University; Ph.D., University of Oregon.

Kurt Takamine, Assistant Professor of Organizational Leadership, Los Angeles; 2003. B.A., University of Southern California; B.A., M.S., California State University, Northridge; M.A., Azusa Pacific University; Ed.D, Pepperdine University.
Kay Talbot, Assistant Professor of Organizational Leadership, Concord; 2003. B.A., University of California, Davis; M.B.A., John F. Kennedy University; M.A., Ph.D., The Fielding Graduate Institute

Carolynne M. Terkelson, Associate Professor of Education, Monterey; 1985. B.S., University of Oregon; M.S., Syracuse University; Ed. D. University of San Francisco.

Kathryn A. Theuer, Assistant Professor of Education, Modesto; 2000. B.A., Miami University; M.A., Michigan State University; Ed.D., University of the Pacific.

Anita F. Thompson, Assistant Professor of Education, Ontario; 1998. B.A., Pomona College; M.A., Claremont Graduate School; Ed.D., University of La Verne.

John P. Trotta, Assistant Professor of Education, Sacramento; 1997. B.A., Jersey City State College; M.Ed., University of Hawaii; Ph.D., University of Oregon.

Timothy A. Ulrich, Instructor of Social Science, Whidbey Island; 2003. B.A., Concordia University; M.A., University of Nebraska.

Lynne E. Valek, Assistant Professor of Organizational Leadership, Visalia; 2002. B.A., University of California, Santa Cruz; M.S. California School of Professional Psychology; M.A., Ph.D., The Fielding Institute.

Jia-Ping Wang, Associate Professor of Computer Science and Computer Information Systems, Irvine; 2003. B.S., Beijing University; M.S., Ph.D., University of Illinois at Chicago.

Leslie Wasson, Assistant Professor of Social Sciences, Hanford; 2003. B.A., Eckerd College; M.A., University of North Carolina; Ph.D., State University of New York, Stony Brook.

Linda F. Wendler, Associate Professor of Education, San Diego; 2002. B.A., Wheaton College; M.A., University of Wisconsin; Ph.D., University of Minnesota.

Glenn R. Worthington, Assistant Professor of Organizational Leadership, McChord/Washington; 1995. B.A., M.Ed., Western Washington University; Ed.D., Seattle University.

Academic Advisors

Mike Albonetti, Modesto; 1998. B.A., California State University, Hayward; M.A., California State University, Hayward.

Sherri Babcock, Travis; 2000. B.A., National University; M.A., Webster University.

Barbara Bockman, Director of Operations & Training, Whidbey Island; 1994. B.S., Chapman College; M.S., Chapman University.

David Branham, Fairfield; 2004. B.G.S., University of Nebraska, Omaha, Nebraska; M.P.A., Kentucky State University.

Becky Burch, San Diego; 1994. B.S., California State University, Fullerton; M.A., Chapman University.

Charles (Doug) Cook, Concord; 1996. B.A., San Francisco State University; M.A., San Francisco State University; Ed.D., Oregon State University.

Laurie Cook, Site Coordinator, Bangor; 1996. B.S., Southern Illinois University.

Mike A. Delgado, Ontario; 1998. B.A., University of Southern California; M.A., University of Southern California.

Alan Dumke, Ontario; 1992. B.A., Chapman University; M.A., Ball State University.

Donald Duncan, Moreno Valley; 1996. B.A., University of California Santa Barbara; M.A., California State University, Los Angeles.

Margaret Garrett, Antelope Valley; 1996. B.A., Northwestern University; M.A., California State University, Northridge.

Vernon Garretson, Lemoore; 1994. B.A., Pepperdine University; M.A., California State University, Fresno.

Henry Grennan, Santa Maria; 1997. B.A., California Polytechnic University; M.A., California Polytechnic University.

Andie Harvey, San Diego; 2003. B.A., University of California, Santa Barbara; M.S., Pepperdine University.

Robert Hertel, San Diego; 1995. B.A., University of Phoenix; M.S., Chapman University.

Luanne Hickman, Bangor; 2002. B.A., Columbia College; M.S., Chapman University.

Rae Lanpheir, Concord; 2003. B.A., Southwestern Oklahoma State University; M.Ed., Southwestern Oklahoma State University.
Suzanne Levy, Santa Maria; 2003. B.S., University of Illinois, Urbana-Champaign; M.S., University of California, Santa Barbara; Ed.D., The Fielding Graduate Institute.

Vicki Ludwig, Diamond Springs; 2002. B.S., Colorado State University, M.S., California State University, Fresno.

James Lutz, Yuba City; 2002. B.A., University of California, Davis; M.A., California State University, Chico, Ed.D., University of San Francisco.

Laverne Manns, Victor Valley; 1998. B.S., California Baptist University.

Sara Motaref, Los Angeles; 2000. B.S., Farah University; M.S., Florida State University; Ph.D., Florida State University.

Mimi Murray, San Diego; 1987. B.A., Dominican University, River Forest; M.S., Chapman University.

Jill Parma, Irvine; 2002. B.A., Southern Methodist University; M.S., Texas Woman’s University.

Patricia Popovich, Santa Maria; 1998. B.A., Chapman University; M.A., Chapman University.

Maria Rymer, Assistant Director, Fairfield, Travis; 2002. B.A., University of California Berkeley; M.S., California State University, Hayward; M.A., Mills College.

Laurie Santangelo, Modesto; 2001. A.A. Minot State University; B.S.S.W., University of North Dakota; M.H.R. University of Oklahoma.

Timothy Stewart, Santa Maria; 2004. B.S., Northwest Christian College; M.A., Fuller Theological Seminary.
**Carolyn Swalina**, Concord; 1998. B.A., Wilkes University; M.A., University of Maine.

**James Warren**, Monterey; 2001. B.A., University of California Berkeley; M.A., California State University, San Francisco; M.A., Santa Clara University; Ed.D., University of San Francisco.
